

- 1-16-07 Called Ray Rugby about what lands were irrigated from Richey lake in 1950.

- He said from his recollection Marshall started out irrigating 20 acres and then after sprinklers were installed they began irrigating 80 acres.

- He said he would check into it.

- Michael said if additional lands are irrigated they can be covered under this claim.

- If not it needs to be disallowed & recommended as 21-10906

- 1-22-07 no other acres found 2004 photo reveals ≤ 20 acres the rest of the 2 QAs don't seem to be irrigated now or in 1987.
