RE: Objection to recommendation for SRBA claim 67-7598

Dear Mr. Krogh:

Per our conversation this morning, I am sending information regarding the State of Idaho's objection to the recommendation for the above-mentioned claim.

Originally, the place of use for the claim was recommended on Township 19 North, Range 01 East, Section 30 SESW. The State of Idaho objected to this recommendation, stating it owned the SESW. Upon review of the Adams County taxlots, it appears Tamarack Mills owns the eastern portion of the SESW and the State of Idaho owns the rest. To clear up this matter, I would appreciate it if you could send a warranty deed confirming Tamarack Mills/Tamarack Energy's ownership of the eastern part of the SESW. If we establish ownership of the eastern portion, we can recommend the place of use to that area and not on State of Idaho land.

You mentioned you are unsure of the well's location and activity. Please check your records to ensure you are continuing to use the well for the industrial purpose, as claimed. Additionally, we do not have good information regarding the location of the well for the water right. You can mark it on the map and return it to me or, even better, send the coordinates for a GPS point.

I have enclosed a copy of the original claim filed and a map of the area in question. I have also included a copy of the objection. Please contact me at (208) 287-4907 if you have any questions or need any assistance.

Respectfully submitted,

Monica

Monica P. Van Bussum
Sr. Water Resource Agent
