E. **REASONS SUPPORTING OBJECTION(S):**

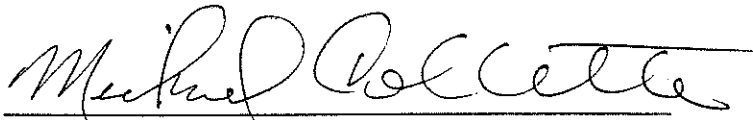

This water right recommendation is based on two old water rights and necessitates accomplished changes in the source, purpose of use, point of diversion and place of use pursuant to Section 42-1425, Idaho Code. These accomplished changes move the point of diversion onto National Forest System land. The claimants are not authorized to occupy and use the National Forest for this purpose. In addition, the recommended quantity appears to be excessive and 42-1425 does not provide for changes in source.

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY
Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent

Dear Sir:-

In answer to your letter concerning
the Claim A31-000196.

I own the property in Section 1 which
is point of Diversion in Idaho Hollow.

This water was to be used on this
property. It water filed on before I
bought this Property in 1957.

There must be a mistake in the
typing of this decree. It should have
read Section I instead of Section 4.

There is no way it could be used
in Section 4.

Sincerely

Mrs. Mickelson -

~~that~~ tried calling but no answer.
I found these Deeded Water Rights.

What threw me is that they were under
the same heading as Modoc Creek.

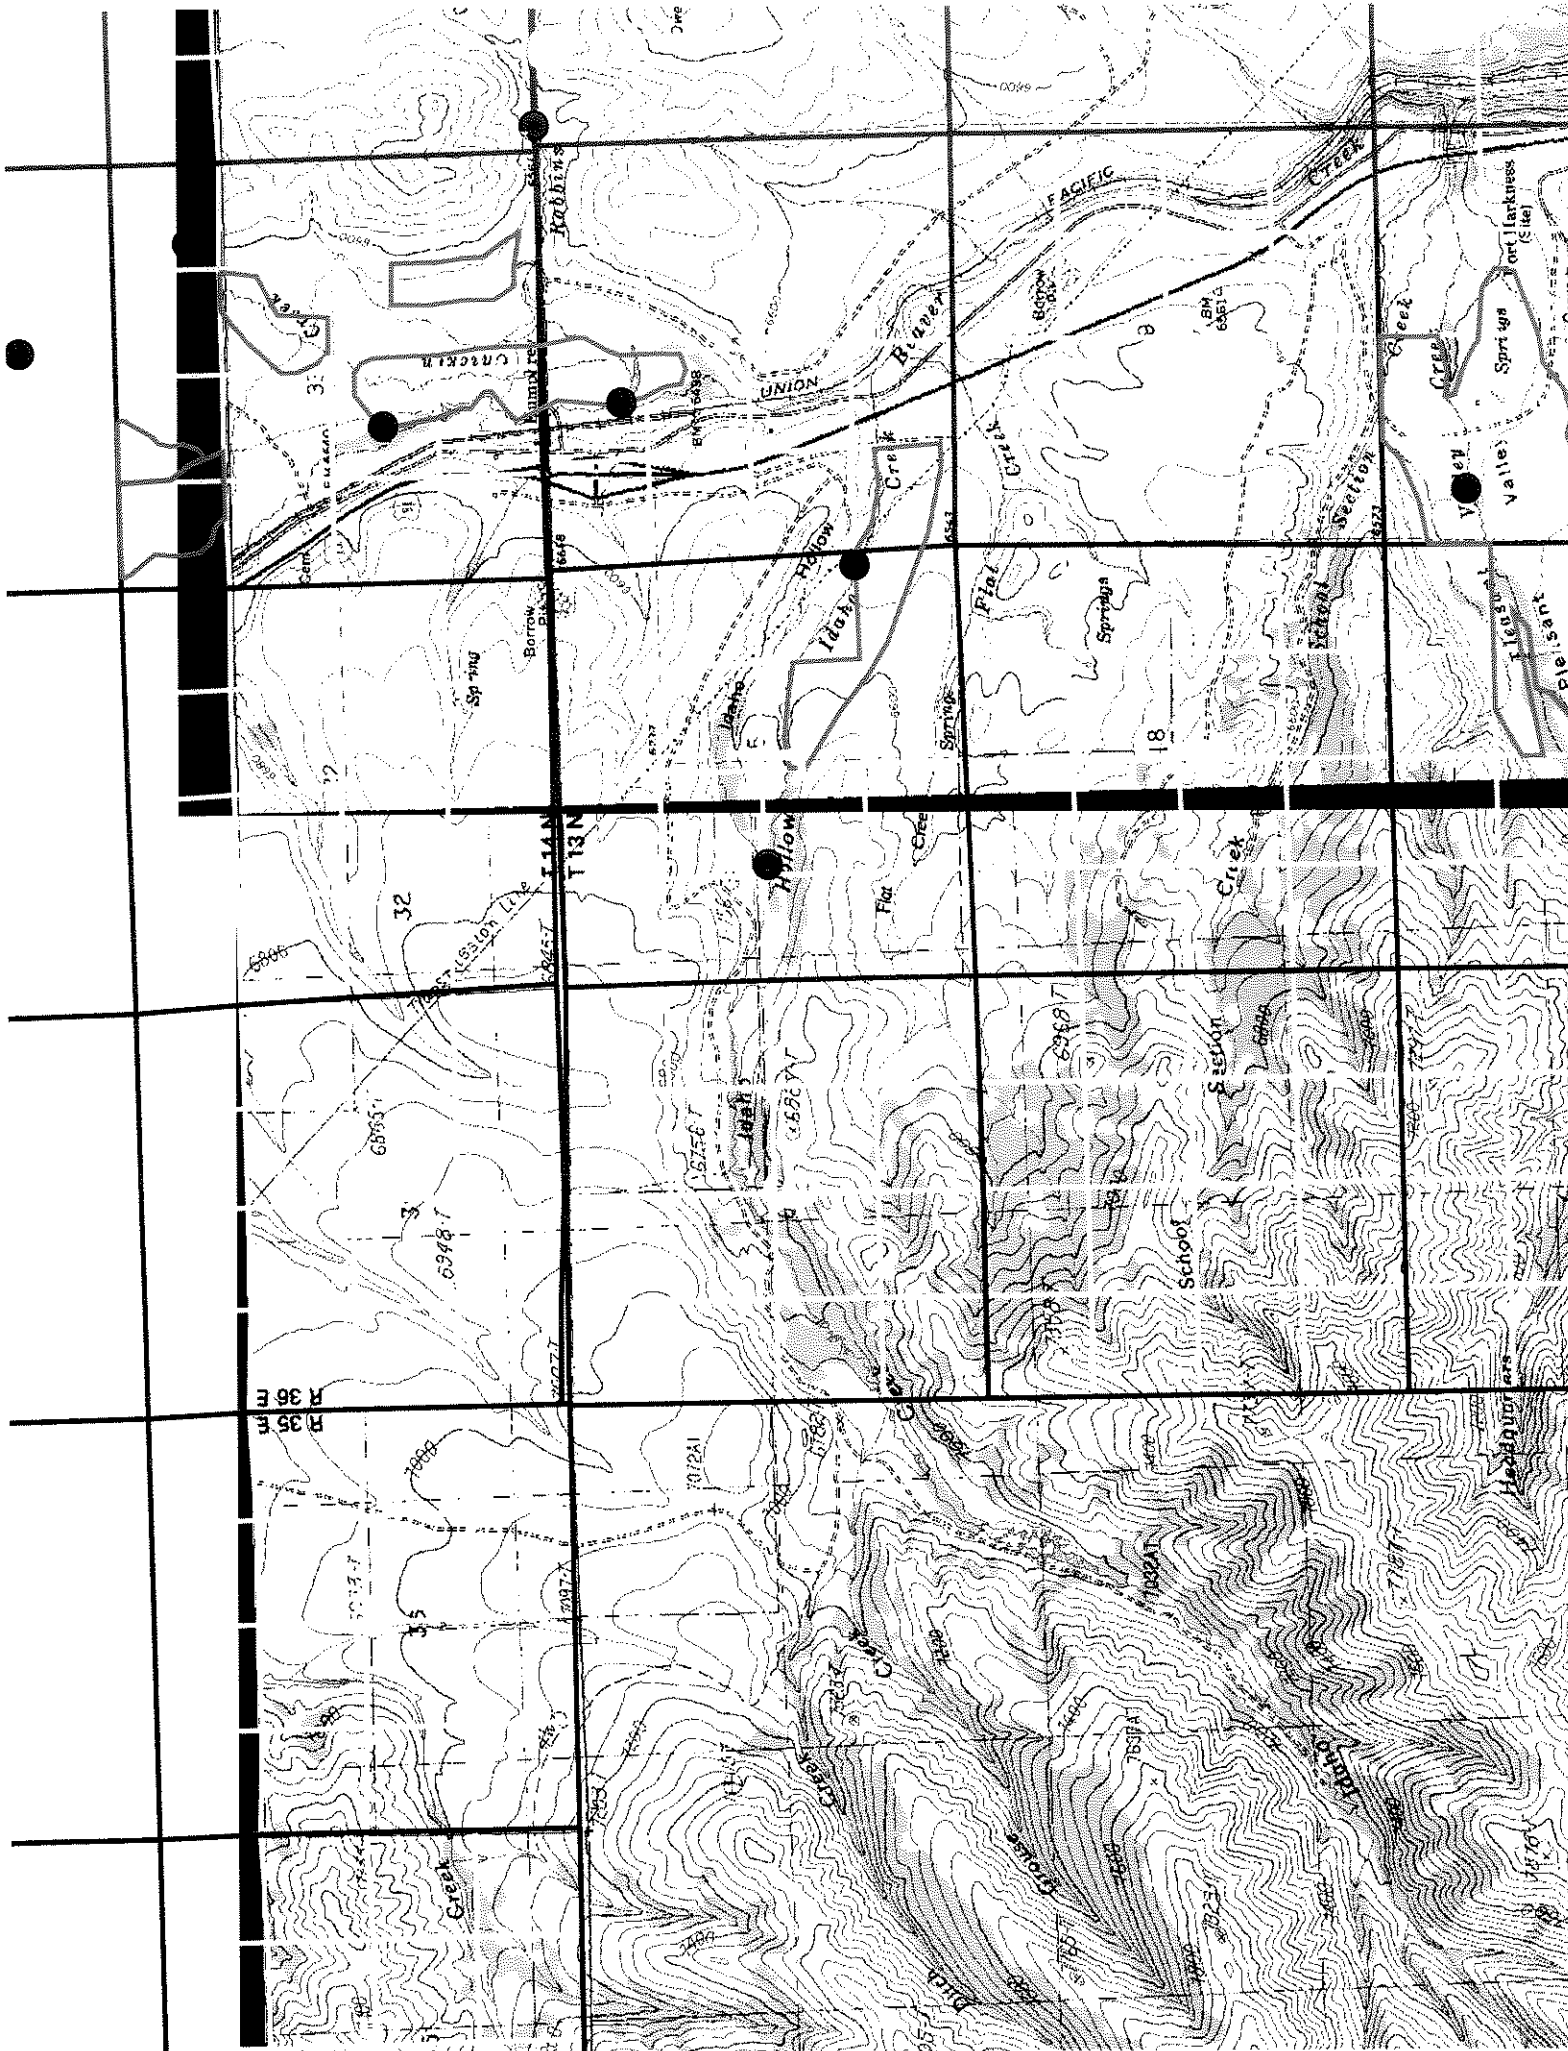

Under William Pitt.

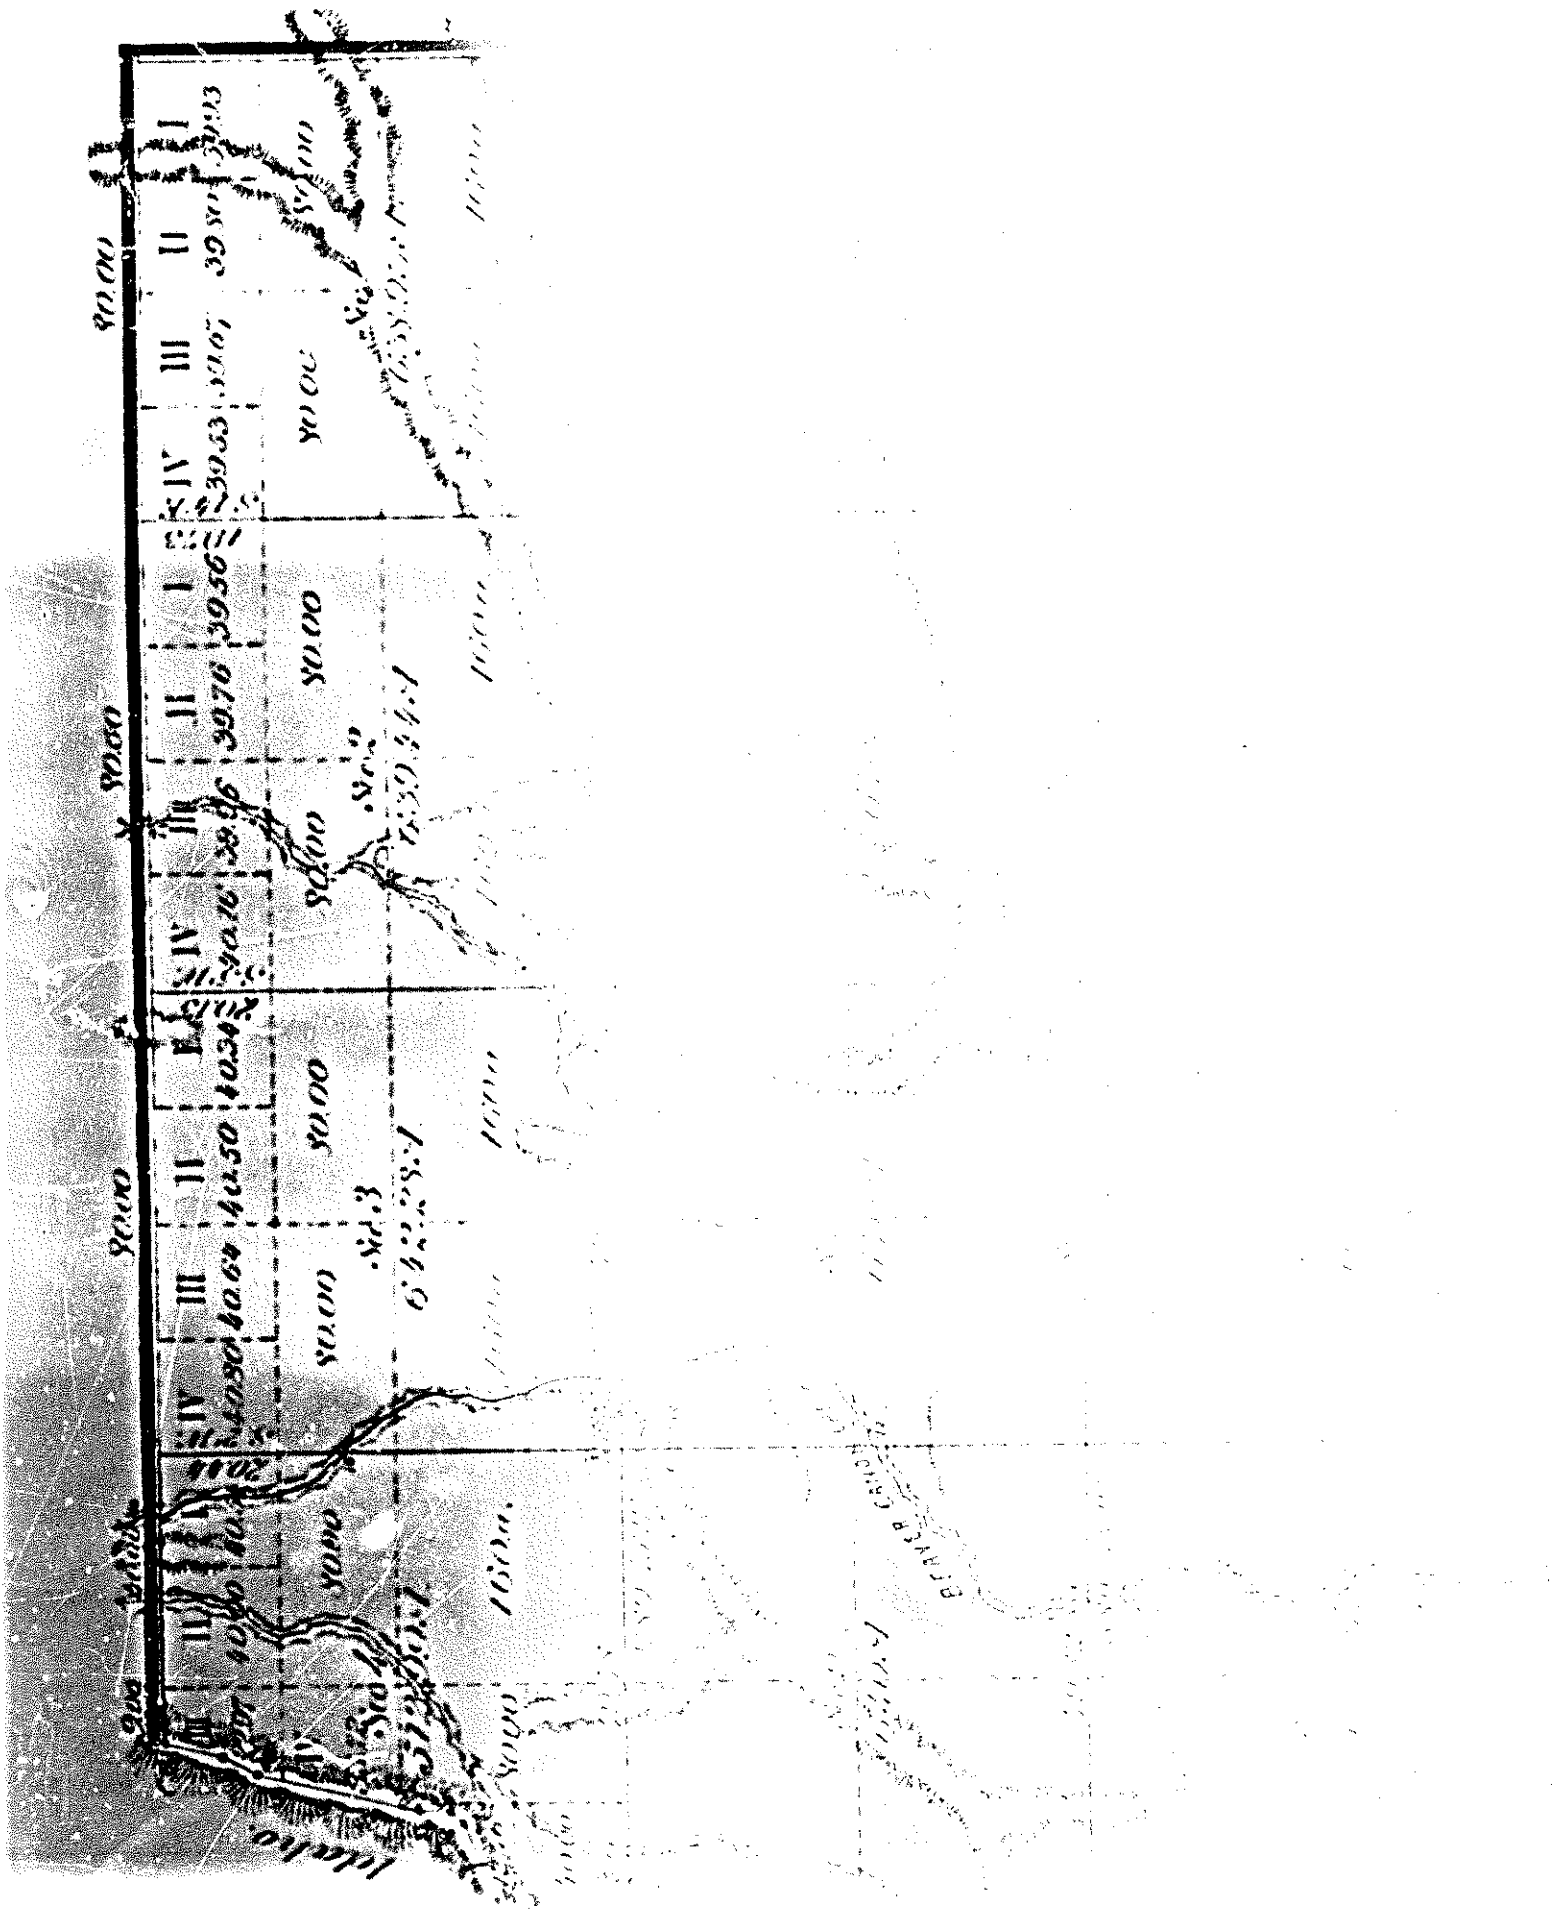

The source is as you thought, The Point
of Diversion is in section one But
the lands to be used on are Section 4
which you probably don't own.
Will call with a follow-up.
