Objections to the Amended Directors Report

Subcase Nos. 24-4064 & 24-4068B

Civil Case No. 3956

March 11, 2008

These are Peter & Judy Riede's Objections to the Amended directors Report.

DISCUSSION

Pursuant to the Amended Order Setting Deadlines and Status Conference issued by Special Master Dolan on February 7, 2008, Peter and Judy Riede submit for filing with the court, Objections to the Amended Directors Report for the above subcases.

We object to the entire Amended Directors Report. The report shows no signs of having considered our position. Since it now looks as though we will have to pursue this in court we will need the following information and documentation from Idaho Department of Water resources.

1. Copies of all documents that IDWR relied on in reaching their decision to not change the Directors Report.
2. A full explanation of how and why the IDWR made that decision.
3. All documents relating to the decisions made on the Alleman Water right, NUMBER 24-10026.
4. A full explanation of how and why the IDWR made the determination of water right NUMBER 24-10026.
5. The total number of water rights in basin 24 and the total amount of water called for in those rights.

6. The total number of water rights in the Snake River Basin and the total amount of water called for in those rights

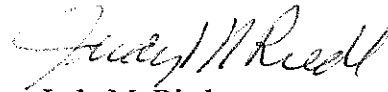

7. Admit that the water from Crow Creek flows into Wyoming.

8. Admit that Crow Creek goes dry in Wyoming so that the water which leaves Idaho is never returned to Idaho.

We are not aware of the time frame for the remainder of these proceedings. Therefore I request the above information in 20 days. If proceedings are delayed a longer time is acceptable as long as it is within 60 days.
