RE: Digital boundary description for storage water under rights 78-2085, 78-4006A, 78-4006B, 78-4275 and 78-4288

Dear Basin 78 Storage Water User:

A hearing was held at the Snake River Basin Adjudication (SRBA) Court on March 18, 2008 in reference to the water rights shown above, and the reporting of these storage water rights to the SRBA Court by the Idaho Department of Water Resources (IDWR) without what is known as a "digital boundary" for the place of use. In other words, these rights were reported to the SRBA Court without a map depicting the area in which the storage water may be used. The outcome of the hearing was a request by the presiding judge that IDWR provide the SRBA Court with amended Director's Reports that include a reference to the digital boundary, a copy of the map depicting the digital boundary, and an electronic file of the digital boundary on a CD-ROM disk.

Prior to the filing of the amended Director's Report for the rights shown above, I would like to give you the opportunity to review the proposed digital boundary for your water usage. I have enclosed an 8.5 by 11 inch map with the digital boundary outlined in yellow. A larger format map can be produced and sent to a representative of your organization if you request it.

Sincerely,

Carter Fritschle
Section Manager
Adjudication Bureau
