RE: Subcase 74-1576

Dear Special Master Dolan:

Enclosed please find an updated recommendation for water right 74-1576, claimed by William and Karl Snyder, as requested during the February 7, 2008 show cause hearing. BLM, the only objector in this subcase, has reviewed the recommendation and found it acceptable for resolving their objection.

In updating water right 74-1576, Water Resource Agent Nate Arave prepared the recommendation in accordance with the recommendation of the right in the Lemhi Adjudication. A copy of the Lemhi recommendation (from the Green Book) is also included for the Court's convenience. Mr. Arave did remove the acre of T17N, R24E Sec. 25 NWSE from the place of use description, as it is owned by the BLM. The "Place of use does not include federal public lands" language was also added to the recommendation.

IDWR suggests water right 74-1576 be decreed as recommended here. Should the court require further assistance in this matter, please don't hesitate to contact me.

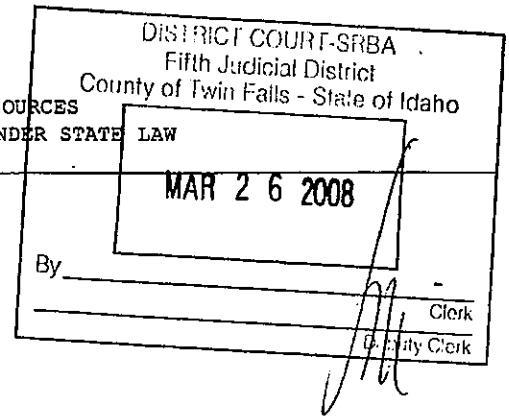

Sincerely yours,

Vicki Kelly, Paralegal
