RE: SUBCASES NO. 36-10283A, YA-TA-HAY INVESTMENTS, INC.

Dear Mr. Tuthill:

According to testimony you gave at the August 11, 1999 trial in subcase No. 36-00039D it is, and has been since 1998, IDWR's statewide policy to recommend quantities based on gravity irrigation, not on sprinkler irrigation, if the right was established by gravity irrigation.

My understanding is the recommendation in this subcase was based on a sprinkler analysis. I ask that you amend the Director's Report to reflect the quantity of water IDWR believes reasonable and necessary for flood irrigation, as of the time the right was established.

Please let me know immediately if you will amend the Director's Report accordingly or if you need any information from my client in order to do so.

Also, if for some reason you cannot or will not amend the Director's Report, please let me know, including any reasons. I look forward to hearing from you.

Sincerely,

Patrick D. Brown

Finally, the Claimants filed six *Objections and Motions to Strike Affidavits* of Ralph L. May (36-00021B and 36-10283A), Mike Faulkner (36-00048A and 36-00049) and Tom Ambrose (36-00051A and 36-15168). Attached was the Claimants' *Memorandum in Support of Objection and Motion to Strike Affidavits and Preclude Intervention*.

On November 21, 1995, Cranney Bros. lodged its *Pre-Hearing Memorandum*.

A hearing was held on November 22, 1995, at the SRBA Courthouse in Twin Falls, Idaho. Jeffrey C. Fereday appeared for Cranney Bros.; Dana L. Hofstetter and Josephine P. Beeman for May Farms, Sand Springs and Faulkner; Patrick D. Brown for the Claimants; and Brent R. King for IDWR. The Cranney *Motion* was set for hearing the same day as the May Farms, Sand Springs and Faulkner *Motions*. However, because of similarities of the *Motions* and the Claimants' consolidated opposition, the hearings were combined. All counsel were present and participated throughout the hearing.

After the hearing, on December 1, 1995, Cranney Bros. filed its *Response to Motion to Strike*. The same day, the Claimants wrote to the Special Master asking that the pleading be disregarded and Cranney Bros.' counsel be admonished for submitting post-hearing briefs and

evidence.

Motions to Strike

The Claimants moved to strike certain affidavits because the affidavits were not served with the *Motions* or they contain hearsay testimony, lack foundation and the affiants are not qualified as experts. While these criticisms are well taken for purposes of summary judgment or trial, they are less compelling in the context of these motions to file late pleadings -- particularly in these subcases. The Claimants and Movants have followed a particularly contentious motion practice and the court has been required to fashion its responses accordingly. On top of that, these are "test" subcases where fundamental and unique issues are being explored. Sweeping legislative changes in the midst of ongoing litigation only added to the challenges. The result has been a certain "flexible" application of *SRBA Administrative Order 1* and the Idaho Rules of Civil Procedure to accomplish the ends of justice.

Judge Daniel C. Hurlbutt's July 28, 1995 *Order*⁵ concerning late filings clearly intended to provide "special consideration" to some parties to the adjudication. The *Order* was made because of legislative changes in the party status of IDWR and its Director. Even now, over a year after the amendments to the SRBA statutes went into effect, the court and the partes continue to discover new implications.

Even though the affidavits complained of by the Claimants are flawed in certain respects, the timing of their filing and their contents are sufficient for purposes of these motions to file late pleadings. It must be remembered that the motions were filed by SRBA parties seeking to participate in subcases. The Movants have not had the opportunity to conduct discovery. It may reasonably be expected that their responses will be substantially refined and amended as they gather more information. The suggestion that the Movants will step into the shoes of the Director and defend the whole Director's Report is not reasonable. At this point, their burden is not to *prove* a case but to *plead* sufficient facts to support their motions. The affidavits meet that minimal burden and will not be stricken.

⁵ The full title of the Order is Order Granting in Part, and Denying in Part, Joint Motions for Amendment of Administrative Order 1.

Motions to File Late Responses

The Movants argue that they meet the criteria of Judge Hurlbutt's July 28, 1995 Order: (1) they filed their pending motions in a timely manner and attached completed responses; (2) they have shown good cause for not filing responses in a timely manner; (3) they have demonstrated the existence of a meritorious position; and (4) they do not seek to enlarge or add to existing issues. In support of their allegation of "good cause," all three Movants suggest that they chose not to file responses in a timely manner because they relied upon IDWR to "defend" the Director's Report. Now that the Director's Report is no longer a pleading and IDWR and the Director are no longer parties, they seek to file late responses in all nine subcases.

There is no question that the pending motions were filed in a timely manner and completed responses were attached. It is also clear that the Movants do not seek to enlarge nor add to existing issues. Almost any element they might have chosen to respond to was objected to by the Claimants. So, the issues are whether good cause and a meritorious position have been shown.

The court is satisfied that the Movants have shown both good cause for untimeliness and the existence of a meritorious position. It was reasonable for them to rely upon the Director to investigate all SRBA water claims and defend his findings in strict accord with Idaho water laws. When IDWR and its Director were removed as parties by the Legislature, it was also reasonable for the Movants to suspect that some claims might result in excessive rights. After all, at the time the *Motions* were filed, no subcase had proceeded to a full hearing before the Special Master.

The fact that the Movants chose these particular subcases to intervene is no accident. These subcases concern water claims in the Hagerman Valley where the *Musser*⁶ case arose. Right or wrong, the Movants were concerned that future "calls," as happened in that case, *might* impact their farm operations. Given the information generally available to water users, their concern was understandable. It made no difference that none of the Movants knew details in the Director's Report or specific facts about the Claimants' water uses.

Having said that, the court feels compelled to remind the Movants and Claimants of Rule 11(a)(1), Idaho Rules of Civil Procedure:

The signature of an attorney or party constitutes a certificate that the attorney or party has read the pleading, motion or other paper; that to the best of the signer's knowledge, information, and belief after reasonable inquiry it is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law, **and that it is not interposed for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation** [emphasis added].

Therefore, IT IS ORDERED that the Claimants' *Motions to Strike Affidavits* are denied.

It is further ordered that the Cranney *Motion to File Late Responses* and the May Farms, Sand Springs and Faulkner *Motions and Amended Motions to File Late Responses* are granted.

However, participation of Cranney Bros., May Farms, Sand Springs and Faulkner shall be limited to litigation of those elements in the Director's Report to which the Claimants have objected and to which IDWR has responded. They may not enlarge or add to existing issues. Responses previously lodged with the court by Cranney Bros., May Farms, Sand Springs and Faulkner are deemed filed as of December 12, 1995.

DESCRIPTIVE SUMMARY

May Farms, Ltd. seeks to file a late response to the Ya-Ta-Hay objection to water right 36-10283A as recommended in the Director's Report Part I for reporting area 3 (basin 36).

MOTION TO FILE LATE RESPONSE

May Farms, Ltd. seeks to participate as a full party in subcase 36-10283A and files this motion and the attached Response to Ya-Ta-Hay Objection pursuant to the July 28, 1995 order of Judge Hurlbutt. The July 28 order states, "it is necessary to provide a mechanism for parties to participate in subcases where participation is required due to the removal of the Director and IDWR as a party and the change in the status of the Director's Report as a pleading."

The Motion is supported by a Memorandum in Support of Late Response (Ya-Ta-Yay) and affidavits which accompany the Memorandum and Response.

REASONS SUPPORTING EACH BOX CHECKED

A. Statement of Objections 3 and 3a. In response to Statement of Objections 3 and 3.a., and all allegations of the objection regarding those items, Ya-Ta-Hay Investments, Inc. responds as

follows: (1) it recommended the amount of water it determined was being beneficially used; (2) the claimant is not entitled to any amount greater than that which is beneficially used (Idaho Code Secs. 42-104 and 42-1402); (3) the recommendation of the Director to the SRBA Court as to how the right should be decreed does not constitute a taking because it is simply a recommendation and not a final determination of the right; and (4) the eventual decree by the SRBA Court of the amount of water beneficially used, even if less than the amount previously decreed, will not constitute a taking because the right is limited to that amount beneficially used.

B. Statement of Objection 3c. In response to Statement of the Objection item 3c., and all allegations of the objection regarding that item, May Farms, Ltd. Responds as follows: Since this water right is not a federal reserved water right, this objection item is inapplicable and the claimant's assertion of it is in error. May Farms, Ltd. Further responds that under Idaho law water cannot be reserved for future use, but must be appropriated and put to beneficial use before the user can acquire a water right.

C. Statement of Objection 7. In response to Statement of the Objection item 7. and all allegations of the objection regarding that item, May Farms, Ltd. Responds that it recommended the same purpose or purposes of use that were identified on the notice of claim and that were found when the claim was investigated. By identifying in the objection as additional use or uses that the claimant did not list on the notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim after a Director's report is filed, just as a party must obtain leave of the court to file a late claim after the Director's report is filed. Once leave of the court is granted, May Farms, Ltd. Can investigate the amended claim and make an appropriate recommendation to the court.

D. Statement of Objection 8. In response to Statement of the Objection item 8. and all allegations of the objection regarding this item, Ya-Ta-Hay Investments, Inc. responds as follows: Idaho Code 42-1411(2)(g) requires the Director to determine the period of use of each water right acquired under state law that is recommended in the Director's report. Ya-Ta-Hay Investments, Inc. has developed irrigation season of use standards for various climatic areas throughout the state based on a 75% chance of a 24 degree Fahrenheit frost. The irrigation season of use cannot exceed the period in which water may be beneficially used. The period of the year during which this water right may be used is consistent with the standard irrigation season of use for the area in which the place

of use of this water right. Water may be used for irrigation outside the standard season of use, subject to the conditions set forth in general provision 12b of the Director's report. In further response to this objection item, May Farms, Ltd. Responds that it recommended stockwater use year-round, and that is recommended the period of use for irrigation as claimed. By now asserting a year-round season of use for irrigation, the claimant improperly seeks to use the objection process to amend the notice of claim. A claimant must obtain leave of court to amend a notice of claim just as a party must obtain leave of court to file a late claim after the Director's report is filed. Once leave of court is granted, May Farms, Ltd. can investigate the amended claim and make appropriate recommendation to the court.

E. Statement of Objections 9 and 9.a. In response to Statement of the Objection 9 and 9.a., and all allegations of the objection regarding those items, Ya-Ta-Hay Investments, Inc. responds that the recommended water right accurately describes the place of use of the right.

F. Statement of Objection 10. In response to Statement of the Objection item 10 and all allegations of the objection regarding this item, Ya-Ta-Hay Investments, Inc. responds as follows: (1) The decree asserted by the claimant did not set an annual volume of consumptive use for this water right. (2) Idaho Code Sec. 42-1411(2)(i) requires the Director to determine the annual volume of consumptive use for each water right acquired under state law and recommended in the Director's report. (3) Idaho Code Sec. 42-1401A(2) provides that the quantification of consumptive use "is included as a rebuttable presumption in a decree only for the purpose of transfers pursuant to section 42-222, Idaho Code"; therefore, the consumptive use recommended for this water right is included solely for use in future transfer proceedings. (4) The annual volume of consumptive use recommended for this right is 3 acre feet per acre. This is the maximum volume of water consumed by the most water consumptive crop (pasture) that can be grown in the area during the period of year when water is used for irrigation, as provided for by Idaho Code Sec. 42-1401A(2). (5) The recommendation of the Director to the SRBA Court as to how the right should be decreed does not constitute a taking because it is simply a recommendation and not a final determination of the right. (6) The eventual decree by the SRBA Court of the amount of water beneficially used, even if less than the amount previously decreed, will not constitute a taking because the right is limited to that amount beneficially used.

G. Statement of Objection 11. In response to Statement of the Objection item 11, and all allegations of the objection regarding that item, Ya-Ta-Hay Investments, Inc. responds as follows: There is an error in the remarks in description of this right in the Director's report. The recommendation should be corrected as shown in the attachment entitled "Recommended Water Rights Acquired under State Law". In further response to this objection item, Ya-Ta-Hay Investments, Inc. responds as follows: As to the remaining remarks, it has authority pursuant to Idaho Code Sec. 42-1411(2)(j) to include in its recommendations of water rights acquired under state law and recommended in the Director's report "such other matters as are necessary to define the right." The remark or remarks objected to are necessary to adequately describe and define this water right.

H. Statement of Objection 14. In response to Statement of the Objection item 14, and all allegations of the objection regarding that item, see attached "Ya-Ta-Hay Investments, Inc.'s Response to Answer Affirmative Defenses and Prayer for Relief of Claimant".

I. General Objection. In response to the sentence listed in Changes to the Director's Report, whereby the claimant attempts to "reserve the right to claim all purposes of use and quantities of use as shown by the evidence at trial," Ya-Ta-Hay Investments, Inc. responds as follows: Insofar as this purported reservation of rights may constitute an attempt to reserve the right to amend at trial the claimant's notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim. A claimant must obtain leave of the court to amend a claim just as a party must obtain leave of the court to file a late claim after the Director's report is filed.

CHANGES TO THE DIRECTOR'S REPORT

Ya-Ta-Hay Investments, Inc. proposes no changes to the description of this claim in the Director's report.

MOVANT'S RESPONSE TO ANSWER, AFFIRMATIVE DEFENSES AND PRAYER FOR RELIEF OF CLAIMANT - 2

MICROFILMED

DEC 5 1996

In response to each of the items enumerated above Movant responds that pursuant to Section 4 a.(2)(c) of SRBA Administrative Order 1, Rules of Procedure, Movant generally denies each and every allegation, if any, contained in each enumerated portion of the attachment. Movant affirmatively responds that neither SRBA Administrative Order 1, Rules of Procedure, nor Title 42, Chapter 14, Idaho Code, make provision for Movant to affirm, amplify, or otherwise respond to the claimant's admissions, or to deny the claimant's denials, and that Movant therefore does not believe that it is required to do so. Title 42, Chapter 14, Idaho Code solely defines the content and scope of the director's report. It is to contain a description of the water system and is to provide a recommendation as to each water right claimed and as to those matters necessary for administration of those water rights. Therefore, the content and scope of the objection is limited to those same matters. The attachment to the present objection asserts or otherwise raises matters not directly addressing the elements of the water right as recommended, the description of the water system, or the general provisions. Rather, the attachment raises broad issues as to the constitutional, statutory and administrative efficacy of the entire adjudication process. All such issues should be raised by means of motions to designate basinwide issues and similar procedural vehicles specifically designed to provide for basinwide notice and participation. They should not be permitted to divert the focus of any individual subcase away from the issues directly connected to the elements of the water right and the administration thereof. Therefore, because the attachment to the present objection is not within the scope of the statutory purpose of an objection it should be stricken.

However, in the event that the court should determine that all or part of the attachment is properly within the scope of the objection, Movant further responds as follows:

Movant affirmatively responds that all statements within the director's report are properly included therein pursuant to Title 42, Chapter 14, Idaho Code, and in particular pursuant to Idaho Code §§ 42-1411 and 42-1412(8); and that the provisions of the Idaho Rules of Civil Procedure regarding pleadings are inapplicable to the extent that they are in conflict with the statutory requirements. Therefore Movant denies all allegations directed at the contents of the director's report.

As to the enumerated portions of the attachment addressing the listings of recommended water rights, abstracts of federal reserved water right claims, or negotiated agreements, other than the individual recommendation that is the subject of this objection, Movant responds that such claims or agreements are not brought before this court by this objection.

Responding to the 27 affirmative defenses asserted in the attachment, Movant generally denies each and every affirmative defense asserted. Movant further responds that affirmative

defense numbers 1, 2, 4, 5, 10, 11, 12, 18, and 22, asserting various violations of civil or constitutional rights, fail to comply with the requirements I.R.C.P. 9(b) providing that in all averments of violation of civil or constitutional rights the factual circumstances constituting such violation must be stated with particularity. Accordingly, Movant asserts that those affirmative defenses should be stricken.

In response to that portion of the multi-page attachment to the objection wherein the claimant asserts a prayer for relief, Movant responds as follows:

1. Movant denies that the director's report asserts any claims against the claimant; rather, the director's report contains only the recommendation of the director as to how the claimant's water right should be decreed and administered.
2. Movant denies that the claimant is entitled to have the water right decreed as claimed unless in the director's report the water right has been recommended as claimed.
3. Movant denies that any acts upon its part constitute the taking of private property for which just compensation should be allowed and awarded.
4. Movant denies that the claimant is entitled to recover court costs and reasonable attorney fees.
5. Movant denies that the claimant by this objection has raised any claims entitling such claimant to any relief other than the eventual judicial determination and decree of the various elements of the claimant's water right, if any, and of those related matters necessary to describe and administer that water right.

INTRODUCTION

May Farms Limited, an Idaho corporation, (May Farms) submits this memorandum in support of its Motion to File Late Response. The Motion seeks the Court's permission to enter a late response on the objection of Ya-Ta-Hay Investments, Inc., a foreign corporation ("Ya-Ta-Hay") to the Director's Report regarding WR # 36-10283A. The Court's Order of July 28, 1995, ("July 28th Order") regarding the Joint Motions for Amending Administrative Order 1 and for Expedited Hearing indicates that such motions may be made within 21 days of the July 28th Order. May Farms' motion is made within the 21 days and is accordingly timely.

The Court's July 28th Order also indicates that such motions will be granted or not according to criteria similar to those prevailing under I.R.C.P. 55(c) for setting aside a default (i.e. showing both good cause for untimeliness and the existence of a meritorious position.).

FACTUAL SITUATION

The Court's July 28th Order states the factual situation with respect to the basis for entry of the late response to objection by May Farms:

The removal of IDWR and the Director as a party to the SRBA and all subcases necessitates special considerations for some parties to the adjudication. . . Based on the pleadings and party status of IDWR prior to the 1994 amendments to the SRBA statutes, some parties decided not to participate in certain subcases, choosing instead to rely on the Director's report and IDWR's defense of its pleading. . . Those parties who opted to rely on IDWR to litigate and advocate in favor of the Director's Report are unable to do so. Therefore it is necessary to provide a mechanism for parties to participate in subcases where participation is required due to the removal of the Director and IDWR as a party and the change in the status of the Director's Report as a pleading.

Movant is a party who relied on the IDWR to defend the Director's Report. See Affidavit of Ralph May, Secretary Treasurer of May Farms Limited.

There has been no effort by any party to bring the Ya-Ta-Hay objection to trial. There is no discovery in the file and no indication that any progress has been made on the case by either Ya-Ta-Hay or the Department (prior to the 1994 statutory amendments removing the Department as a party.)

Ya-Ta-Hay has objected to the Director's Report with respect to its water right number 36-10283A in Basin 36. The source of the water is Billingsley Creek. The water right has a claimed priority date of June 26, 1881. The IDWR file for SRBA claim 36-10283A shows that Ya-Ta-Hay

claimed 7.5 cfs (375 inches) for the irrigation of 147 acres from Billingsley Creek, tributary to the Snake River. This is equivalent to 2.55 inches to the acre. Following a field examination of the Ya-Ta-Hay property and diversion and delivery system, the Director recommended 1.3 cfs for the irrigation of 54 acres. Since .22 cfs were recommended for conveyance losses from the Padgett ditch and the John Bell Ditch, the Director actually recommended 1.08 cfs for irrigation at the field headgate. This is equivalent to one inch to the acre. The Ya-Ta-Hay objection seeks the full decree right as stated in the claim -- 7.5 cfs -- for 63 acres. This is equivalent to 5.95 inches to the acre. The objection also seeks to add aesthetic, wildlife habitat and subdivision development as uses, with year round season of use. These additional uses were part of the Ya-Ta-Hay SRBA claim but may have significantly later priority dates and constitute, in some instances, change of use. The differences between the Director's Report and Ya-Ta-Hay's objection are significant and Ya-Ta-Hay claims water greatly in excess of all conceivable beneficial use. Cf. IDAHO CODE § 42-220. Reputable studies, including the Department's, indicate that the statutory standard of one inch per acre is sufficient, on average, to irrigate property such as Ya-Ta-Hay's. These facts, if established, would constitute a meritorious defense to the Ya-Ta-Hay objection.

LEGAL BASIS FOR PERMITTING MAY FARMS' LATE RESPONSE

I. CRITERIA FOR PERMITTING LATE RESPONSE.

The Court's July 28th Order indicates that the criteria for determining whether to permit the late response will be similar to those under which motions under I.R.C.P. 55(c) to set aside a default will be determined. Such motions are within the sound discretion of the trial court and will not be

reversed on appeal unless an abuse of discretion clearly appears. *Clear Springs Trout Company v. Anthony*, 123 Idaho 141, 845 P.2d 559 (1992). Judgments by default are not favored and there is a preference for setting them aside so that cases can be decided on the merits. *Baldwin v. Baldwin*, 114 Idaho 525, 757 P.2d 1244 (Ct. App. 1988) ("*Baldwin*"); *Gro-Mor, Inc. v. Butts*, 109 Idaho 1020, 712 P.2d 721 (Ct. App. 1985). Even in doubtful cases, relief from a default is favored. *Baldwin*. Since this response comes early in the history of this case, indeed, before any default has been entered, the motion should be granted.

II. NECESSARY ELEMENTS OF MOTION.

In order to set aside a default under rule 55(c), there must be a showing of reasonable cause for the late pleading and a factual showing that if granted, a meritorious basis supporting the pleading exists. See, e.g., *McFarland v. Curtis*, 123 Idaho 931, 854 P.2d 274 (Ct. App. 1988). Cf., Court's Order of July 28th, p. 2. However, this is not to say that the existence of the meritorious basis for the pleadings should be subject to trial at this point. It is only necessary to plead facts which, if established at trial, would support the motion. *Baldwin*. A final determination of the validity of the facts is not appropriate at this stage and the general rule, even in doubtful cases, is to grant relief in order to reach a judgment on the merits. *Johnson v. Pioneer Title Co.*, 104 Idaho 727, 626 P.2d 1171.

A. Reasonable Cause Exists to Support the Late Filing of the Response.

The affidavit submitted in favor of the motion shows that May Farms reasonably relied on the IDWR to defend the Director's report. The facts of this subcase indicate that the Department's

defense of the Report would be successful or would significantly reduce the rate of diversion from that claimed in the objection, without outside intervention.

B. The Facts in the Supporting Affidavit, the Department's File and in the Proposed Response Provide a Meritorious Basis for Opposing the Objection. The Affidavit of Ralph May establishes the factual basis for the proposed response to the Ya-Ta-Hay objection. This affidavit incorporates the Department's file on the objection. The facts outlined above, if established at trial, demonstrate good cause for the granting a water right according to the diversion rate recommended in the Director's Report and for rejecting the diversion rate claimed in the objection. There is a significant discrepancy between the Director's Report and Ya-Ta-Hay's objection in the acreage subject to irrigation and the amount of water necessary to irrigate the claimed acreage. Ya-Ta-Hay's objection claim exceeds three inches of water per acre of ground. Reputable studies indicate that the statutory standard of one inch per acre is sufficient, on average, to irrigate property such as Ya-Ta-Hay's. Cf. IDAHO CODE § 42-220.

III. GRANTING THE MOTION WILL NOT PREJUDICE YA-TA-HAY.

The issue of whether to grant leave to file a late response involves a consideration of the prejudice to Ya-Ta-Hay if the motion is granted. *Traguth v. Zuck*, 710 F.2d 90 (2d Cir. 1983); *Meehan v. Snow*, 652 F.2d 1074 (2d Cir. 1981); *Cribb v. Matlock Communications, Inc.*, 236 Montana 27, 768 P.2d 337 (1989). However, the prejudice to be considered must be based on some other ground than the mere allowance of the late response and the direct consequences flowing therefrom. See, *In re: General Determination of Rights to the Use of Surface and Ground Waters*

of the Payette River Drainage Basin, 107 Idaho 221, 687 P.2d 1348 (1984); *Johnson v. Noland*, 78 Idaho 642, 308 P.2d 588 (1957); Otherwise no later response would ever be allowed.

Since no progress has been made in this subcase, there is no prejudice uniquely attributable to permitting the late response vis' a vis' a timely response of identical dimensions. Accordingly, the May Farms motion for leave to enter a late response should be granted.

CONCLUSION

May Farms motion should be granted and the May Farms Response to Ya-Ta-Hay's objection should be entered as a pleading in this matter.

**AFFIDAVIT OF RALPH

OF MEMORANDUM**

Ralph May, duly sworn on oath, states as follows:

1. I am an officer of May Farms Limited, the Movant in this matter.
2. May Farms Limited is the owner of water rights located in Basin 36 of the Snake River Basin Adjudication ("SRBA").
3. Ya-Ta-Hay Investments, Inc., a foreign corporation ("Ya-Ta-Hay") has objected to the Director's Report with respect to its water right number 36- 10283A in Basin 36. The source of the water is Billingsley Creek. The water right has a claimed priority date of June 26, 1881. irrigation of 147 acres from Billingsley Creek, tributary to the Snake River. This is equivalent to 2.55 inches to the acre. Since .22 cfs were recommended for conveyance losses from the Padgett ditch and the John Bell Ditch, the Director actually recommended 1.08 cfs for irrigation at the field headgate. These facts, if established, would constitute a meritorious defense to the Ya-Ta-Hay objection.

4. Based on the pleadings and party status of IDWR prior to the 1994 amendments to the SRBA statutes, May Farms Limited decided not to participate in this subcase, choosing instead to rely on the Director's report and IDWR's defense of its pleading. The facts of this situation show that the IDWR, had it remained a party to this subcase, would have been, without substantial outside assistance, able to defend its report and significantly reduce the claimed diversion rate by Gisler.

5. With the removal of IDWR and the Director as a party to the SRBA and all subcases, parties such as May Farms Limited who opted to rely on IDWR to litigate and advocate in favor of the Director's Report are unable to do so.

ALL MATTERS RAISED IN THE CLAIMANT'S ANSWER,
AFFIRMATIVE DEFENSES, AND PRAYER FOR RELIEF.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 3 and 3.a, and all allegations of the objection regarding those items, IDWR responds as follows: (1) it recommended the amount of water it determined was being beneficially used; (2) the claimant is not entitled to any amount greater than that which is beneficially used (Idaho Code Secs. 42-104 and 42-1402); (3) the recommendation of the director to the SRBA Court as to how the right should be decreed does not constitute a taking because it is simply a recommendation and not a final determination of the right; and (4) the eventual decree by the SRBA Court of the amount of water beneficially used, even if less than the amount previously decreed, will not constitute a taking because the right is limited to that amount beneficially used.

In response to Statement of the Objection item 3c., and all allegations of the objection regarding that item, IDWR responds as follows: Since this water right is not a federal reserved water right, this objection item is inapplicable and the claimant's assertion of it is in error. IDWR further responds that under Idaho law water cannot be reserved for future use, but must be appropriated and put to beneficial use before the user can acquire a water right.

In response to Statement of the Objection item 7, and all allegations of the objection regarding that item, IDWR responds that it recommended the same purpose or purposes of use that were identified on the notice of claim and that were found when the claim was investigated. By identifying in the objection an additional use or uses that the claimant did not list on the notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim after a director's report is filed, just as a party must obtain leave of the court to file a late claim after the director's report is filed. Once leave of the court is granted, IDWR can investigate the amended claim and make an appropriate recommendation to the court.

(Over)

RECEIVED
MAY 19 1994

In response to Statement of the Objection item 8, and all allegations of the objection regarding this item, IDWR responds as follows: Idaho Code Sec. 42-1411(2)(g) requires the director to determine the period of use of each water right acquired under state law that is recommended in the director's report. IDWR has developed irrigation season of use standards for various climatic areas throughout the state based on a 75% chance of a 24 degree fahrenheit frost. The period of the year during which this water right may be used is consistent with the standard irrigation season of use for the area in which the place of use of this water right is located. Water may be used for irrigation outside the standard season of use, subject to the conditions set forth in general provision 12b of the director's report. In further response to this objection item, IDWR responds that it recommended stockwater use year-round, and that is recommended the period of use for irrigation as claimed. By now asserting a year-round season of use for irrigation, the claimant improperly seeks to use the objection process to amend the notice of claim. A claimant must obtain leave of court to amend a notice of claim just as a party must obtain leave of court to file a late claim after the director's report is filed. Once leave of court is granted, IDWR can investigate the amended claim and make an appropriate recommendation to the court.

In response to Statement of the Objection 9 and 9.a, and all allegations of the objection regarding those items, IDWR responds that the recommended water right accurately describes the place of use of the right.

In response to Statement of the Objection item 10 and all allegations of the objection regarding that item, IDWR responds as follows: (1) The decree asserted by the claimant did not set an annual volume of consumptive use for this water right. (2) Idaho Code Sec. 42-1411(2)(i) requires the director to determine the annual volume of consumptive use for each water right acquired under state law and recommended in the director's report. (3) Idaho Code Sec. 42-1401A(2) provides that the quantification of consumptive use "is included as a rebuttable presumption in a decree only for the purpose of transfers pursuant to section 42-222, Idaho Code"; therefore, the consumptive use recommended for this water right is included solely for use in future transfer proceedings. (4) The annual volume of consumptive use recommended for this right is 3 acre feet per acre. This is the maximum volume of water consumed by the most water consumptive crop (pasture) that can be grown in the area during the period of year when water is used for irrigation, as provided for by Idaho Code Sec. 42-1401A(2). (5) The recommendation of the director to the SRBA Court as to how

the right should be decreed does not constitute a taking because it is simply a recommendation and not a final determination of the right. (6) The eventual decree by the SRBA Court of the amount of water beneficially used, even if less than the amount previously decreed, will not constitute a taking because the right is limited to that amount beneficially used.

In response to Statement of the Objection item 11, and all allegations of the objection regarding that item, IDWR responds that it has authority pursuant to Idaho Code Sec. 42-1411(2)(j) to include in its recommendations of water rights acquired under state law and recommended in the director's report "such other matters as are necessary to define the right." The remark or remarks objected to are necessary to adequately describe and define this water right.

In response to Statement of the Objection item 14, and all allegations of the objection regarding that item, see attached "IDWR's Response to Answer Affirmative Defenses and Prayer for Relief of Claimant".

In response to the sentence listed in Changes to the Director's Report, whereby the claimant attempts to "reserve the right to claim all purposes of use and quantities of use as shown by the evidence at trial," IDWR responds as follows: Insofar as this purported reservation of rights may constitute an attempt to reserve the right to amend at trial the claimant's notice of claim, the claimant improperly seeks to use the objection process to amend the claim. A claimant must obtain leave of the court to amend a claim just as a party must obtain leave of the court to file a late claim after the director's report is filed.

ATTORNEY AT LAW
GOODING, IDAHO

POOR ORIGINAL

March 25, 1932.

Mr. John Sanborn,
Hagerman, Idaho.

Dear Mr. Sanborn:

After spending several months corresponding and meeting with the attorneys for the other parties in the Hagerman Valley water suit and making a number of trips to Boise, we have finally been able to work out the details of a decree in that matter, without the necessity of you and your witnesses making a trip to Boise and submitting proof, and on Tuesday of this week, Judge Cavanaugh, the United States District Judge, at Boise, Idaho, signed the Findings of Fact, Conclusions of Law, and Decree and the entire matter is fully adjusted. The water right decreed to you is as follows:

- 30 inches of Billingsley Creek diverted through the John Bell Ditch, with a priority of June 26, 1881;
- 60 inches of Billingsley Creek, diverted through the Pipe line, with a priority of June 26, 1881;
- 285 inches of Billingsley Creek, diverted through the Padgett Ditch, with a priority of June 26, 1881;

As you will remember, the fee which you were to pay me was \$40.00, on which you have paid \$20.00, leaving a balance of \$20.00. Will you therefore kindly forward me your check to cover this balance?

Very truly yours,

The attachment also contains part VIII, AFFIRMATIVE DEFENSES (pp. 20 through 28) and a PRAYER FOR RELIEF (untitled, p. 28).

In response to each of the items enumerated above IDWR responds that pursuant to Section 4 a.(2)(c) of SRBA Administrative Order 1, Rules of Procedure, IDWR generally denies each and every allegation, if any, contained in each enumerated portion of the attachment. IDWR affirmatively responds that neither SRBA Administrative Order 1, Rules of Procedure, nor Title 42, Chapter 14, Idaho Code, make provision for IDWR to affirm, amplify, or otherwise respond to the claimant's admissions, or to deny the claimant's denials, and that IDWR therefore does not believe that it is required to do so. Title 42, Chapter 14, Idaho Code solely defines the content and scope of the director's report. It is to contain a description of the water system and is to provide a recommendation as to each water right claimed and as to those matters necessary for administration of those water rights. Therefore, the content and scope of the objection is limited to those same matters. The attachment to the present objection asserts or otherwise raises matters not directly addressing the elements of the water right as recommended, the description of the water system, or the general provisions. Rather, the attachment raises broad issues as to the constitutional, statutory and administrative efficacy of the entire adjudication process. All such issues should be raised by means of motions to designate basinwide issues and similar procedural vehicles specifically designed to provide for basinwide notice and participation. They should not be permitted to divert the focus of any individual subcase away from the issues directly connected to the elements of the water right and the administration thereof. Therefore, because the attachment to the present objection is not within the scope of the statutory purpose of an objection it should be stricken.

However, in the event that the court should determine that all or part of the attachment is properly within the scope of the objection, IDWR further responds as follows:

IDWR affirmatively responds that all statements within the director's report are properly included therein pursuant to Title 42, Chapter 14, Idaho Code, and in particular pursuant to Idaho Code §§ 42-1411 and 42-1412(8); and that the provisions of the Idaho Rules of Civil Procedure regarding pleadings are inapplicable to the extent that they are in conflict with the statutory requirements. Therefore IDWR denies all allegations directed at the contents of the director's report.

As to the enumerated portions of the attachment addressing the listings of recommended water rights, abstracts of federal reserved water right claims, or negotiated agreements, other than the individual recommendation that is the subject of this objection, IDWR responds that such claims or agreements are not brought before this court by this objection.

RECORDED

Responding to the 27 affirmative defenses asserted in the attachment, IDWR generally denies each and every affirmative defense asserted. IDWR further responds that affirmative defense numbers 1, 2, 4, 5, 10, 11, 12, 18, and 22, asserting various violations of civil or constitutional rights, fail to comply with the requirements I.R.C.P. 9(b) providing that in all averments of violation of civil or constitutional rights the factual circumstances constituting such violation must be stated with particularity. Accordingly, IDWR asserts that those affirmative defenses should be stricken.

In response to that portion of the multi-page attachment to the objection wherein the claimant asserts a prayer for relief, IDWR responds as follows:

1. IDWR denies that the director's report asserts any claims against the claimant; rather, the director's report contains only the recommendation of the director as to how the claimant's water right should be decreed and administered.
2. IDWR denies that the claimant is entitled to have the water right decreed as claimed unless in the director's report the water right has been recommended as claimed.
3. IDWR denies that any acts upon its part constitute the taking of private property for which just compensation should be allowed and awarded.
4. IDWR denies that the claimant is entitled to recover court costs and reasonable attorney fees.
5. IDWR denies that the claimant by this objection has raised any claims against IDWR entitling such claimant to any relief other than the eventual judicial determination and decree of the various elements of the claimant's water right, if any, and of those related matters necessary to describe and administer that water right.

II.

DESCRIPTIVE SUMMARY

(DIRECTOR'S REPORT PART I)

(hereinafter DRP-I)

(DRP-I at first unnumbered page)

The objectors admit that Part I of the Director's recommendation contains some claims to water rights appropriated under state law from Reporting Area 3. The objectors deny all other averments because the objectors lack sufficient knowledge or information upon which to form a belief as to the truth of the averments.

III.

TABLE OF CONTENTS

(DRP-I at 2nd and 3rd unnumbered pages)

The objectors admit that the Table of Contents reflects the page numbers of the referenced sections and deny all other averments based upon the objectors' lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments and because any averment, expressed or implied, is so

indefinite that it prevents the objectors from knowing what would be admitted or denied.

IV.

INTRODUCTION

1. INSTRUCTIONS FOR USING THIS REPORT PART I. (DRP-I at page 1)

The objectors admit that Part I consists of seven sections; that the description of the water system includes a brief description of Reporting Area 3 and an illustration of the boundaries of the reporting area; that the water rights and the list of the recommended rights are grouped alphabetically by source and listed chronologically by priority date; that the rights or claims in the list of claims/rights not recommended are listed numerically by water right number; and that brief instructions are found at the beginning of the applicable sections. The objectors deny that any description or any implication that the description of the water system or the illustrations are true and accurate due to lack of knowledge or information regarding the truth of the averment; deny that the general provisions apply to all water rights or define or limit classes of water rights; and deny that the general provisions "will affect your water right," based upon insufficient knowledge or information upon which to form a belief as to the truth of the averments.

2. SCOPE OF THE ADJUDICATION. (DRP-I at page 1 - 3)

The objectors deny all averments in paragraph a., due to lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments.

Regarding paragraph b., the objectors lack sufficient information or knowledge upon which to form a belief as to whether water rights which are not claimed in the adjudication will or will not exist upon entry of the court's decree and, therefore, deny such averment. The objectors admit that the court entered an order dated January 17, 1989, but presently lack sufficient knowledge to know whether any of the other averments concerning the court's order are true or accurate and, therefore, deny the same. The objectors deny that a right must be adjudicated before water may be distributed by the director. The objectors deny all other averments in paragraph b.

3. PURPOSE OF THIS REPORT PART I. (DRP-I at page 3 - 4)

The objectors admit that portion of the first sentence which states "This report contains the Director's recommendations to the SRBA District Court as to the nature and extent of water rights," but deny that such recommendations "are necessary for administration of water rights in Reporting Area 3," and further deny the Director has authority to "administer" such rights.

Regarding the second paragraph, the objectors admit that all water rights remain subject to the applicable law generally, but deny the remainder of the second paragraph.

Regarding the third paragraph of this section, the objectors deny all averments therein based upon lack of knowledge or information upon which to form a belief as to the truthfulness of the averments.

V.

DESCRIPTION OF THE WATER SYSTEM: BASIN 36

1. BOUNDARIES OF BASIN. (DRP-I at pages 4 - 6)

Regarding the first paragraph of this section, the objectors deny all averments due to a lack of knowledge or information upon which to admit or deny.

Regarding the second, third and fourth paragraphs of this section, the objectors admit that as broad statements, those paragraphs are generally accurate but the statements are so broad and attenuated from any matter relevant to the objectors' water right that the objectors are unable to know what would be implicitly admitted or denied and therefore, deny the same.

With respect to the fifth paragraph of this section, the objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred and, therefore, deny the averments.

2. WATER SOURCES. (DRP-I at page 6)

The objectors admit that the Snake River Plain Aquifer is the source of outflows of springs located along the Snake River Canyon Wall in the Hagerman Valley. The objectors presently lack sufficient knowledge or information upon which to form an opinion as to the truth of the other averments set out in this section and, therefore, deny the same.

3. DEVELOPMENT OF WATER USE. (DRP-I at pages 6 - 9)

The objectors admit that numerous factual and historical averments are set out in this section, which may be accurate, but

these objectors have no basis for knowing whether some or all of the averments are intended to relate to the objectors' claims and, thus, are prevented from knowing what would be admitted or denied. Therefore, the averments are denied.

VI.

GENERAL PROVISIONS

GENERAL PROVISIONS 1 - 8 APPLY TO ALL WATER RIGHTS IN BASIN 36.

(DRP-I at page 9)

The objectors deny that "General Provisions 1 - 8" apply to all water rights in Basin 36 as the statements are so broad and attenuated from any matter relevant to the objectors' water rights, that the objectors are unable to know what would be explicitly admitted or denied. The objectors also specifically deny that general provisions 1-8 apply to the objectors' right.

1. EFFECT OF ADJUDICATION. (DRP-I at page 9)

With respect to paragraph a., the objectors presently have no knowledge or information upon which to form a belief as to the truth of whether a future decree would supersede prior decrees, or whether unclaimed rights would cease to exist and, therefore, deny the same.

Regarding paragraph b., the objectors deny that the Director has any powers to administer water rights other than those specifically delegated by the Legislature of the State of Idaho, and which do not violate the objectors' state and federal constitutional rights, and therefore the averments are denied.

SCANNED
APR 23 2008

2. **GENERAL ADMINISTRATIVE PROVISIONS.** (DRP-I at pages 9 - 10)

The objectors admit paragraphs a. and b.

3. **CONJUNCTIVE ADMINISTRATION** (DRP-I at page 10)

The objectors deny the conjunctive administration provisions based upon the objectors' lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments and because any averment expressed or implied is so indefinite that it prevents the objectors from fairly understanding what would be admitted or denied. Additionally, the objectors deny that the Department of Water Resources has any statutory or regulatory authority for the "conjunctive administration" as therein described.

4. **ADMINISTRATION OF GROUND WATER RIGHTS** (DRP-I at page 10)

The objectors deny the averments within this section.

5. **ADMINISTRATION OF BASIN 36 RELATIVE TO THE SNAKE RIVER** (DRP-I at page 10)

The objectors admit that the springs are hydrologically interconnected with the Snake River Aquifer, but deny all other averments based upon the objectors' lack of sufficient information or knowledge upon which to form a belief as to the averments herein. The objectors additionally deny any said averments expressed or implied because the averments are so indefinite and generalized as to prevent the objectors from fairly understanding what would be admitted or denied.

6. ADMINISTRATION OF SMALL DOMESTIC AND STOCK WATER RIGHTS (DRP-I at page 11)

The objectors admit that part of the first sentence of subparagraph a. to the effect that "small domestic and stock water rights from surface water are not subject to administration," but deny the balance of said sentence and said paragraph.

The objectors admit the first sentence of paragraph b., and deny the balance of that paragraph because the criteria set forth therein ("if the director determines that administration is necessary") is so ambiguous, indefinite and uncertain that it prevents the objectors from knowing what would be admitted or denied, and by further reason of the fact that no statutory or regulatory authority exists conferring such sweeping and unlimited authority upon the Director or the Department.

The objectors deny the averments in paragraph c. as the averments are inaccurate and because the objectors lack sufficient knowledge or information upon which to form a belief as to the truth of the matters averred.

7. MEASURING DEVICES AND CONTROL WORKS (DRP-I at page 11)

The objectors deny all averments contained herein as such averments are based upon an indeterminate subjective standards which are so ambiguous and indefinite as to prevent the objectors from fairly knowing what would be admitted or denied. Additionally, no statutory or regulatory authority exists conferring such sweeping and unlimited authority upon the Director or the Department as is alleged in this paragraph.

8. FIRE FIGHTING PURPOSES (DRP-I at page 11)

The objectors admit that subparagraph a. and subparagraph b. are generally accurate statements of present law, but deny the averments are in any way relevant to defining the objectors' right.

9. CONSUMPTIVE USE (DRP-I at page 12)

The objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred and, therefore, deny the same.

GENERAL PROVISION 10 APPLIES TO ALL WATER RIGHTS IN BASIN 36 SHOWN WITH DOMESTIC USE AS A PURPOSE OF USE (DRP-I at page 12)

The objectors deny that "General Provision 10" applies to all water rights in Basin 36 shown with domestic use as a purpose of use as the statements are so broad and attenuated from any matter relevant to the objectors' water rights, that the objectors are unable to fairly understand what would be explicitly admitted or denied and, therefore, deny the same.

10. DOMESTIC USE (DRP-I at page 12)

The objectors deny that the definition of "domestic use" contained in paragraphs a., b., and c. is consistent or in conformity with the definition of such term for purposes of the Idaho Constitution, or statutory definition contained in I.C. Section 42-111 as now, or as heretofore in effect at relevant times. The objectors further deny that the limitations set forth therein exist, are in force, or apply or serve in any way to limit objectors' rights.

GENERAL PROVISION 11 APPLIES TO ALL WATER RIGHTS IN BASIN 36 SHOWN WITH STOCK WATER USE AS A PURPOSE OF USE. (DRP-I at page 13)

The objectors deny that "General Provision 11" applies to all water rights in Basin 36 shown with stock water use as a purpose of use as the statements are so broad and attenuated from any matter relevant to the objectors' water right, that the objectors are unable to fairly understand what would be admitted or denied and, therefore, deny the same.

11. STOCK WATER USE (DRP-I at page 13)

The objectors deny the averments herein as beyond the scope and applicability of the definition as provided by Idaho law as now, or as heretofore in effect at relevant times. The objectors further deny that the limitations set forth therein limit the objectors' right or are relevant to the right.

GENERAL PROVISIONS 12 - 16 APPLY TO ALL WATER RIGHTS IN BASIN 36 SHOWN WITH IRRIGATION AS A PURPOSE OF USE (DRP-I at page 13)

The objectors deny that "General Provisions 12 - 16" apply to all water rights in Basin 36 shown with irrigation as a purpose of use as the statements are so broad and attenuated from any matter relevant to the objectors' water right that the objectors are unable to fairly understand what would be admitted or denied.

12. IRRIGATION USE. (DRP-I at pages 13 - 14)

The objectors deny all averments based upon the objectors' lack of sufficient knowledge or information upon which to form a belief as to the truth of the averments and because

prevent the objectors from fairly knowing what would be admitted or denied; because the standard utilized ("as determined by the director") is ambiguous, subjective and indefinite so as to prevent objectors from knowing what would be admitted or denied; and because it is both expressly and implicitly in excess of the power and authority conferred upon the State of Idaho, the Director or the Department by the Constitutions of the United States and State of Idaho, pertinent provisions of the Idaho Code or valid applicable regulations, if any, adopted by the Department in conformity with law. Therefore, the objectors deny the same.

13. DIVERSION VOLUME FOR IRRIGATION. (DRP-I at page 14)

The objectors admit that Figure 1 generally depicts certain lands in Basin 36; however, the objectors deny all other averments including that the amounts set forth are the maximum annual volume of water reasonably required at the field headgate for irrigation, either within Basin 36 in general, or upon objectors' real property in particular. The objectors additionally deny that the maximum annual volumes per acre set forth is that which is "reasonably required for irrigation unless a higher annual diversion volume is reasonably required due to conveyance losses, method of irrigation or field conditions;" because the standard utilized ("as determined by the director") is ambiguous, subjective and indefinite so as to prevent objectors from knowing what would be admitted or denied; and because it is both expressly and implicitly in excess of the power and authority conferred upon the State of Idaho, the Director or the Department

by the Constitutions of the United States and State of Idaho, pertinent provisions of the Idaho Code or valid applicable regulations, if any, adopted by the Department in conformity with law. Therefore, the objectors deny the same.

14. CONSUMPTIVE USE FOR IRRIGATION. (DRP-I at page 14 and 15)

The objectors admit that the recommended water rights contained within the Director's Report show only the irrigation use listed unless otherwise indicated in "Remarks." The objectors deny all other averments contained within this section, including the amount of maximum annual volume of consumptive use per acre in the northern and southern portions of the basin, all of which is beyond the scope of any power or authority vested in the Director or the Department, and contrary to fact; historical use; established, vested, decreed, licensed or permitted rights.

15. AMOUNT OF COMBINED WATER RIGHTS FOR IRRIGATION. (DRP-I at page 15)

The specific averments have no relationship to or basis in fact relating to the individual needs or rights of the objectors, and accordingly, objectors deny this section in its entirety. In addition, no statutory or regulatory authority exists conferring upon the Director, or the Department, the power to limit use and ownership of objectors' private property rights as alleged.

16. DIVERSION RATES IN EXCESS OF .02 CFS PER ACRE. (DRP-I at page 15 - 16)

The objectors deny the averments contained in this section in its entirety.

17. INSTRUCTIONS FOR USE OF LIST OF RECOMMENDED WATER RIGHTS. (DRP-I at page A-i, A-ii and A-iii)

The objectors admit that each water right in the list of recommended water rights includes a description including right number, name and address, source, maximum quantity, consumptive use, priority date, point of diversion, purpose of use, period of use, place of use, basis of right and others. The objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred in said descriptions other than that the descriptions allegedly include the Director's or Department's version of the facts as they relate to the matters identified. Objectors deny the accuracy of the substantive allegations or information set forth with regard to the objectors' right.

18. IDAHO DEPARTMENT OF WATER RESOURCES RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW. (DRP-I, pages A-1 - B-25)

The objectors lack sufficient knowledge or information upon which to form a belief as to the truth of any matter averred in said recommended water rights other than those specific admissions contained in Questions 1 - 12 of the attached individual objection, and therefore deny the same.

DIRECTOR'S REPORT FOR REPORTING AREA 3 (BASIN 36)

(DIRECTOR'S REPORT PART II)

I.

Objectors do not understand the allegations, averments or contents of Part II of the Director's Report for Reporting Area 3 (Basin 36) to pertain or relate to objectors or their claims, and do not believe any response is required. To the extent a response is required, objectors deny the same in its entirety.

DIRECTOR'S REPORT FOR REPORTING AREA 3 (BASIN 36)

(DIRECTOR'S REPORT PART III)

I.

No report denominated as Part III of the Director's Report for Reporting Area 3 (Basin 36) has been filed, and accordingly objectors are unable to admit, deny or otherwise response to the same. Objectors do not understand that the contemplated subject matter of such Part III will relate or pertain to objectors or their claims, and no response is required in any case. To the extent any response is required, objectors deny the same in its entirety.

VIII.

AFFIRMATIVE DEFENSES

Pursuant to I.R.C.P. 8(c), objectors herewith state the following matters of affirmative defense or avoidance:

AFFIRMATIVE DEFENSE NO. 1

The objectors' water right is an incorporeal form of real property (as defined by Idaho Code Sections 7-703, 73-114, 55-101,

APR 23 1974
SCANNED

and like statutes) protected by Section 14, Article 1, of the Idaho Constitution, and the Fifth Amendment to the United States Constitution, and allege that the actions of the Director in recommending, limiting and/or regulating said rights is an unconstitutional infringement upon and a taking of private property, without just compensation and violation thereof.

AFFIRMATIVE DEFENSE NO. 2

The adjudication authorization legislation, I.C. Section 42-1401, et seq., on its face and as applied by the Director and the Department constitutes an improper delegation of constitutional power and authority conferred upon the executive, legislative and/or judicial branches of government and as such violate the provisions governing separation of powers set forth in Article 2, Section 1, Idaho Constitution.

AFFIRMATIVE DEFENSE NO. 3

The procedure set forth in the adjudication authorization legislation, statutes, I.C. Section 42-1401, et seq., and any rules, regulations, procedures, policies or standards promulgated by the Director and/or the Department, if any, are vague and so lacking in reasonable specificity so as to render them impossible of reasonable comprehension, or consistent and meaningful application.

AFFIRMATIVE DEFENSE NO. 4

The procedures, rules, regulations, policies or standards, if any, adopted, implemented and applied by the Department and/or the Director violate the equal protection and due

process clauses of the Fourteenth Amendment, United States Constitution, and Article 1, Sections 2 and 13, Idaho Constitution.

AFFIRMATIVE DEFENSE NO. 5

The adjudication authorization legislation, Idaho Code Section 42-1401, et seq., and the actions of the Director and Department in recommending, limiting and/or regulating the objectors' water right constitutes a violation of 42 U.S.C. Section 1983.

AFFIRMATIVE DEFENSE NO. 6

The water right owned by the objectors is the subject of valid existing decrees issued by the Director and Department, which decrees are binding upon the State of Idaho, the Department and the Director. As a result, the State of Idaho, the Department and the Director are precluded by the doctrines of res judicata, collateral estoppel, judicial estoppel and the like from relitigating or questioning the validity, existence or priority of such right, and/or from taking any position in the Director's Report, or otherwise, which is inconsistent with such decrees.

AFFIRMATIVE DEFENSE NO. 7

The Director's recommendations are contrary to decreed rights, historical use and extent licenses and permits issued by the Department. There has been no forfeiture nor abandonment of the objectors' water rights, nor have the objectors' water rights been prescriptively or adversely possessed, nor have such decrees been vacated or such licenses and permits revoked.

AFFIRMATIVE DEFENSE NO. 8

The Directors' Report fails to state a claim to the extent the same asserts a forfeiture, abandonment, prescriptive or adverse acquisition or loss, or loss resulting from estoppel, of the objectors' water right in the absence of any fact upon which forfeiture, abandonment, prescriptive or adverse acquisition for loss, or loss resulting from estoppel, may be based or asserted.

AFFIRMATIVE DEFENSE NO. 9

The objectors' water right is an incorporeal form of real property, as defined by Idaho Code Sections 7-703, 73-114, 55-101, and like statutes, and, as such, pursuant to Idaho Code Section 7-904, et. seq., the actions of the Director in attempting to limit, reduce and/or regulate such rights, and the assertion of some inconsistent proprietary ownership or right to use or control by the State of Idaho, constitutes an unauthorized and invalid taking of private property without the payment of just compensation, or compliance with statutory requirements, all in violation of Title 7, Chapter 7, Idaho Code.

AFFIRMATIVE DEFENSE NO. 10

The actions of the Director, the Department and their agents, servants and employees in recommending, limiting, reducing and/or regulating objector's water rights, either as alleged in the Director's Report or as in fact applied, violates objectors' rights as secured by Art. 1, Section 1; Art. 15, Sections 3, 4 and/or 5; and/or as otherwise provided in the Constitution of the State of Idaho.

AFFIRMATIVE DEFENSE NO. 11

The various allegations, statements and assertions contained in the Director's Report concerning the Department and/or the Director's position or intentions with regard to the adjudication, as well as the implementation of statutes and/or regulations, as well as the administration of water or management of water rights or claims to the beneficial uses of water, if implemented, constitute a violation of various provisions the United States and Idaho constitutions, and/or a violation of the letter, spirit and/or intent of various statutes enacted by the legislature, and/or constitute an exercise of purported authority or powers either in excess of those conferred by law, or in a manner inconsistent with those conferred by law, or both.

AFFIRMATIVE DEFENSE NO. 12

The individual recommendations relating to the specific water right of the objectors as set forth in the Director's Report are (1) not based upon substantial evidence and/or are not, in fact, the product of any reasonable, complete or accurate investigation as required by law; (2) are the product of arbitrary and capricious action on the part of the Department or the Director; (3) have been made in excess of the constitutional and statutory authority of the Department and the Director; (4) have been made upon an unlawful and invalid procedure; (5) are affected by various and sundry errors of law; and/or (6) are clearly erroneous in view of the reliable, probative and substantial evidence.

AFFIRMATIVE DEFENSE NO. 13

The Director's Report is a pleading subject to the provisions of the Idaho Rules of Civil Procedure, including, but not limited to the requirement of I.R.C.P. 8(a)(1) that such pleadings contain a clear and plain statement of the facts, demonstrating an entitlement to relief. The Director's Report violates such provision.

AFFIRMATIVE DEFENSE NO. 14

The Director's Report fails to state a claim upon which relief may be granted.

AFFIRMATIVE DEFENSE NO. 15

The Director's Report is subject to, and must comply with, the requirements of Idaho Code Section 42-1411. The Director's Report does not comply with the requirements of the statute.

AFFIRMATIVE DEFENSE NO. 16

In conducting the investigation and compiling the Director's Report, the Department and the Director have not complied with the requirements of Idaho Code Section 42-1410.

AFFIRMATIVE DEFENSE NO. 17

In conducting the investigation and compiling the Director's Report, the Department and the Director have not complied with the requirements of Idaho Code Section 42-1416.

AFFIRMATIVE DEFENSE NO. 18

The procedures specified in the authorizing legislation and procedural rules promulgated in accordance therewith serve to

deny objectors due process of law in violation of Amendment Fourteen to the Constitution of the United States and Art. 1, Section 13, Idaho Constitution.

AFFIRMATIVE DEFENSE NO. 19

The "General Provisions" and "Other Statements" contained in the Director's Report, along with the Claims Investigation Manual, Adjudication Memoranda and other materials of a similar nature used or employed by the Department, the Director and/or their agents, servants and/or employees constitute rules and regulations which were required to be proposed, promulgated, adopted and approved in conformity with the Administrative Procedures Act and other applicable statutory provisions. The Department, Director and their agents, servants and employees have failed to comply with such requirements, and accordingly, the "General Provisions," "Other Statements", Claims Investigation Manual and the like are invalid, void and of no force or effect.

AFFIRMATIVE DEFENSE NO. 20

Neither the "General Conditions," the Claims Adjudication Manual, Adjudication Memoranda or other promulgations, adoptions, policies, or the like have been submitted to or approved by the Legislature as required by Idaho Code Section 67-5217.

AFFIRMATIVE DEFENSE NO. 21

The relief requested by the Department and the Director in the Director's Report are beyond and in excess of the subject matter jurisdiction of the Court.

AFFIRMATIVE DEFENSE NO. 22

The actions of the Legislature, or the Department and the Director to enact, adopt, implement or enforce statutes, regulations, rules or policies subsequent to November 19, 1987, and to apply or enforce the same for the purpose of, or with the effect of recommending, diminishing or altering objectors' water rights, constitute a violation of Amendment Fourteen, United States Constitution; Art. 1, Section 13, Idaho Constitution; the SRBA authorization legislation; and Idaho Code Sections 73-101 and 73-106.

AFFIRMATIVE DEFENSE NO. 23

These proceedings are subject to the requirements and provisions of Idaho Code Sections 12-117, 12-121, 12-123 and I.R.C.P. 11, and the provisions of the private attorney general doctrine, and other related doctrines, and the Department, Director and State of Idaho are obligated to objectors for the payment and reimbursement of any and all reasonable costs or attorney fees incurred herein.

AFFIRMATIVE DEFENSE NO. 24

The Director's Report asserts what amounts to be a taking of private property by power of eminent domain as governed by Idaho Code Section 7-701 et seq., and as such, venue is therefore improper.

AFFIRMATIVE DEFENSE NO. 25

The Department and the Director are equitably estopped from seeking any reduction in the quantity, quality or priority of

objectors' water rights by virtue of prior statements, representations and actions of the Department, Director or their agents, servants and employees.

AFFIRMATIVE DEFENSE NO. 26

The Department and the Director are barred by laches and the applicable statutes of limitation, including, but not limited to, Idaho Code Sections 5-202, 5-203, 5-204, 5-206, 5-207, 5-208, 5-215, 5-218, 5-219(2), 5-224 and/or 5-241.

AFFIRMATIVE DEFENSE NO. 27

Objectors hereby reserve the right to assert any further affirmative defenses not expressly stated herein, but which subsequently become apparent.

WHEREFORE, the objectors pray for judgment as follows:

1. That the State of Idaho take nothing by reason of its Directors' Report, and that this action, and any claims asserted against objectors, be dismissed.
2. That a decree be entered adjudicating the existence, validity, amount and priority of objectors' water rights in accordance with objectors' claims.
3. That to the extent the acts of the Department or Director constitute a taking of objectors' property for public use, that objectors be allowed and awarded just compensation therefor.
4. That the objectors be allowed all costs of suit and reasonable attorney fees incurred herein.

(Instead of filling in items 3 and 4 below you may include a copy of your proposed recommendation with the changes marked on the copy.)

3. Describe the portion of proposed recommendation with which you disagree:
I disagree with the amount of water and the period of use that has been recommended.

SCANNED
APR 23 2008

4. Describe the changes you wish to have made in the proposed recommendation:
I wish to have the amount of water that was decreed under the 1932 Federal Court Decree, which will increase the amount of water allowed per irrigated acre, and the period of use as per Decree, which was from March 15th to November 15th of each year.
5. Describe why you disagree with the proposed recommendation:
The amount of water that was originally decreed is needed because of the sandy soil, the terrain and the flexibility of using different methods of irrigation. The additional period of use is needed because of the climate, growing season, crops grown, the practice of double cropping & etc. in the Hagerman Valley area.

RE: NOTICE OF ERROR FOR SEASON OF USE AND DIVERSION AMOUNTS
WATER RIGHT NO(S): 36-10283A

DEAR Ms BARRETT:

THIS LETTER IS IN RESPONSE TO THE NOTICE OF ERROR (NOE) YOU RECENTLY FILED WITH IDWR REGARDING THE DIRECTOR'S PROPOSED RECOMMENDATION OF THE CLAIM LISTED ABOVE. YOUR NOE QUESTIONS TWO POINTS; 1) YOUR NOE INDICATES THAT YOU WOULD LIKE THE RECOMMENDATION TO SHOW A LONGER SEASON OF USE FOR IRRIGATION. AND 2) THE BASIS FOR RECOMMENDATION OF AN AMOUNT THAT IS LESS THAN THE AMOUNT SHOWN IN A PREVIOUS DECREE.

- 1) THE DIRECTOR HAS APPROVED EXTENDING THE PERIOD OF USE FOR THE HAGERMAN VALLEY TO 3/15 TO 11/15.

THE PROPOSED RECOMMENDATION IS BASED ON IRRIGATION SEASON OF USE STANDARDS ADOPTED BY THE DIRECTOR FOR THE VARIOUS REGIONS THROUGH THE STATE. THESE STANDARDS ARE BASED ON THE PERIOD OF THE YEAR IN WHICH THERE IS LESS THAN A 75% CHANCE OF A 24 DEGREE F. FROST.

IN ADDITION, SINCE THERE ARE SOME YEARS IN WHICH WATER CAN BE BENEFICIALLY USED FOR IRRIGATION OUTSIDE THE IRRIGATION SEASON, THE PROPOSED DIRECTOR'S REPORT INCLUDES A GENERAL PROVISION WHICH PROVIDES FOR IRRIGATION OUTSIDE THE IRRIGATION SEASON UNDER CERTAIN CONDITIONS. THE CONDITIONS ARE THAT THE WATER IS BENEFICIALLY USED, AS DETERMINED BY THE DIRECTOR; THAT ALL WATER RIGHTS WITH A PERIOD OF USE OUTSIDE THE IRRIGATION SEASON REGARDLESS OF PRIORITY, ARE SATISFIED; AND THAT THE USE DOES NOT CONFLICT WITH THE PUBLIC INTEREST AS DETERMINED BY THE DIRECTOR. THIS PROPOSED GENERAL PROVISION WILL BE INCLUDED IN THE DIRECTOR'S REPORT.

- 2) UNDER IDAHO LAW, A WATER RIGHT IS LIMITED TO THE AMOUNT OF WATER BENEFICIALLY USED FOR THE PURPOSES FOR WHICH THE WATER RIGHT WAS ESTABLISHED. THE AMOUNT OF WATER BENEFICIALLY USED IS LIMITED TO THE AMOUNT THAT IS ACTUALLY USED AND IS REASONABLY REQUIRED. FOR IRRIGATION PURPOSES, A REASONABLE AMOUNT IS THE

AMOUNT REQUIRED USING IRRIGATION METHODS THAT ARE REASONABLY EFFICIENT UNDER CURRENT CIRCUMSTANCES. IF THE AMOUNT OF A WATER RIGHT SHOWN IN A DECREE IS GREATER THAN THE AMOUNT THAT IS BENEFICIALLY USED, THEN THE PORTION THAT IS NOT BENEFICIALLY USED IS FORFEITED.

THE AMOUNT PROPOSED TO BE RECOMMENDED FOR YOUR CLAIM IS BASED ON THE AMOUNT OF WATER DETERMINED TO BE BENEFICIALLY USED FOR THE RECOMMENDED USES, BASED ON AVAILABLE DATA AND CURRENT METHODS OF ANALYSIS.

IF YOU STILL DISAGREE WITH IDWR'S RECOMMENDATIONS YOU WILL AN OPPORTUNITY TO FILE AN OBJECTION TO THE DIRECTOR'S REPORT WITH THE COURT. WHEN THE DIRECTOR'S REPORT IS FILED WITH THE COURT, YOU WILL BE MAILED A NOTICE THAT WILL CONTAIN MORE INFORMATION ABOUT THE OBJECTION PROCESS.

SINCERELY,

SENIOR WATER AGENT
