********** CHANGE OF ATTORNEY - GARY SLETTE - 3/24/94 BY JG.
CONFORMED ATTORNEY MAILING ADDRESS DMS

The total instantaneous diversion of water from all points of diversion under Transfer No. 4713 shall not exceed 2.72 cfs, nor total combined annual diversion volume of 122.5 af.
A portion of the authorized rate of diversion under Right No. 37-00296B is for conveyance purposes in the delivery of this right.
Two points of diversion are located within SWSE, S22; NWSW, S23; and NESE, S28, T03N, R18E.

After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.

Use of water under this water right will be regulated by the watermaster of State Water District No. &DISTRICT.

This right when combined with all other rights shall provide no more than 3.5 afa per acre for irrigation of the lands above.

Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

15. Basis of Claim: Decreed

LIMITED POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS:

Indian Creek Ranch Owners' Association, Inc., hereby nominates and appoints Gary D. Slette of P.O. Box 1906, Twin Falls, Idaho, 83301, as attorney-in-fact with full authority to act for and on behalf of him to execute any and all documents required or necessary to facilitate the filing of a water rights claim in the Snake River adjudication in Idaho.

My agent is hereby authorized to sign, deal, and deliver, as my act in deed, those instruments of writing that may be necessary or proper to carry into execution and effect the aforementioned. Further, I hereby declare that each and every application, agreement, receipt, or payment which shall be by my said agent given, made or done for the aforesaid purposes shall be as good, valid, and effectual as if they had been signed, sealed, and delivered by me in my own proper person; and I hereby undertake at all times to ratify whatsoever my said agent shall lawfully do or cause to be done in or concerning the said premises by virtue of these presents.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal this 25 day of October, 1988.

INDIAN CREEK RANCH OWNERS' ASSOCIATION, INC.

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
2. This right when combined with all other rights shall provide no more than 3.5 afa per acre for the lands above.
3. After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.
4. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
5. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
6. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

*9. The total instantaneous diversion of water from all points of diversion under Transfer No. 4713 shall not exceed 2.72 cfs, nor total combined annual diversion volume of 122.5 af.

*10. A portion of the authorized rate of diversion under Right No. 37-00296B is for conveyance purposes in the delivery of this right.

11. Two points of diversion are located within SWSE, S22; NWSW, S23; and NESE, S28, T03N, R18E.

Dated this 18th day of January, 1996.

RE: INDIAN CREEK TRANSFERS; SRBA CLAIM A37-00296B

DEAR MR. WILLIAMS,

Enclosed is the forms you requested. Below is a brief summary of our conversation of this day.

◇◇

February 9, 1996 10:16am

NAME:		RE:
TERRY WILLIAMS	**CALLIN**	**INDIAN CREEK USES**

HE WANTED TO KNOW WHAT WAS NEEDED TO USE WATER FOR HIS LOT. I EXPLAINED THAT IN ADDITION TO THE COOPERATION AND AGREEMENT OF THE HOMEOWNERS ASSN. THE RIGHT MUST BE CHANGED VIA THE DEPARTMENT'S TRANSFER PROCESS. TRANSFERS ARE USED WHENEVER AN ELEMENT OF A WATER RIGHT IS BEING CHANGED, SUCH AS PLACE OF USE. I WILL FORWARD HIM A TRANSFER FORM AND INSTRUCTION SHEET.

HE ASKED IF THE 10 ACRES BELOW THE HIAWATHA CANAL IS TO BE DEDUCTED FROM THE TOTAL FLOW RECOMMENDED FOR THE INDIAN CREEK RIGHT... IT IS NOT. THAT PARCEL WAS DETERMINED NOT TO HAVE BEEN IRRIGATED NOR DID IT HAVE ANY DIVERSION MEANS TO IRRIGATE. IT WAS NOT PART OF THE RECOMMENDED INDIAN CREEK RIGHTS.

PHONE: 788-2176
ADDRESS: BOX 1627, HAILEY, 83333
CLAIM: A37-00296B

Sincerely,

STEVE CLELLAND
Water Resource Agent

DATE	CUSTOMER	
April 25, 1997 2:31pm	**JOYCE KOLBRENER**	**INDIAN CREEK RANCHES OWNERS ASSN A37-00296B, A37-19740**

SUBJECT: COMPLAINTS ABOUT NEIGHBOR...
phone call (X) walk-in (.)

Said her neighbor Jerry Higman was going to run a pipeline under the road to water some horses he had recently placed on his property which has never been irrigated before. She wanted to know if this was legal? Evidently he had asked to use her water and when she refused he said he'd just run a pipeline from his own house. (This portion of his Lot is across the road (Apache) from where his house is. It looks like they each own a portion of what our map shows as Lot 116 and that's where the problem lies.) Since I could find no water rights under his name, I realized all the claims for Indian Creek are covered by these two claims under the Owners Association. I talked with Steve who did the field exam for this area and he said nothing on the uphill side of the creek has been reccommended for irrigation and that is where this property lies. I explained this to her and said he wouldn't be allowed to irrigate this piece from the creek but up to ½ acre is allowed under his domestic well. If he is just going to run some water over for stockwater use, this would probably be okay. I suggested she take it up with the Owners Association to try and resolve this with them...

July 12, 1995

An informational meeting was held on July 12, 1995 with Idaho Water Resources, Water Auditor Steve Clelland, and water rights consultant Bruce Lium, at the Indian Creek Ranch lake park.

Present:	Absent:	Guests:
Dennis Kavanagh	Caron Halle	Steve Clelland
Malcolm Gardner	Woody Preucil	Bruce Lium/American Water Resources
Ned Williamson	Williamson left meeting mid-way	
Rosalind Kipping		

The meeting convened at approximately 6:10 p.m.

1-Question
The Board is receiving occasional applications from property owners requesting use of Indian Creek water for their private landscape irrigation. Can ICROA submit a blanket application to Water Resources once a year?

1-Answer
NO. ICROA may submit a transfer application moving a point of diversion from one place to another. There may be more than one pump at a point of diversion.

2-Question
ICROA has been allotted 136" of water or 35 acres. Does this mean that if the water is used economically we may use the 136" of water for additional acres?

2-Answer
NO. 35 acres is the limit. If individual owners are allowed to irrigate some number of acres of private landscape, then those acres are subtracted from the open space acres.

3-Question
Can ICROA apply for a new water right with points of diversion identified for each lot along the creek that could possibly want to use Creek water for private landscape irrigation?

3-Answer
It may be possible to purchase an existing water right but there is a moratorium on new agricultural water rights. However, it may be possible to obtain a domestic use water right which is limited to 1/2 acre per household. Each household could make application for the 1/2 acre domestic use water right. A letter from ICROA would have to accompany the application stating that ICROA allows the use of Indian Creek Water to be used in this manner. The application fee is $100. Alternatively, ICROA could submit an

RECEIVED
1995
Department of Water Resources
Southern Region

application showing all points of diversion for the domestic water right. To maintain control of the water right, the warranty deed of each property would have to be changed to reflect that upon the sale of the property the water right reverts to ICROA and does not belong to the property.

4-Question
Can ICROA irrigate the 10 acres below Hiawatha Canal with the water out of that Canal? The Water Master told Jim Scott that he could do so.

4-Answer
Not necessarily so. Some research would have to be done.

Discussion of how to handle these issues will be continued at the regularly scheduled Board meeting on August 10th.

The meeting ended at 6:45 p.m.

Respectfully submitted:
Rosalind Kipping
General Manager

Accepted by:
Dennis Kavanagh
President

NAME:		RE:
ICROA BOARD	**MET AT HAILEY**	**STATUS OF USES & RIGHT**

I MET WITH DENNIS, NED, MALCOMB, ROSALIND AND BRUCE LIUM AND DISCUSSED THE EFFECTS OF FUTURE TRANSFER PROPOSALS ON THEIR WATER RIGHT AS CURRENTLY RECOMMENDED FOR THE SRBA. THE MAIN ISSUE IS HOW TO ALLOW FUTURE LOT OWNERS TO USE SMALL PUMPS IN THE CREEK TO IRRIGATE LESS THAN 1/2 ACRE LAWNS. ONE OPTION IS TO CHOP UP THE EXISTING HISTORIC RIGHT AS NEEDED BY TRANSFER PROCESS WITH IDWR. THEY MAY ALSO TRY TO DEVELOP NEW PERMITTED RIGHTS BY HAVING THE LOT OWNER APPLY FOR A DOMESTIC USE FROM THE CREEK. MAY BE ABLE TO AVOID THE MORATORIUM SINCE THE SOURCE DOES NOT DIRECTLY ENTER THE BIG WOOD RIVER. I DID NOT CONFIRM THE RIGHTS WOULD BE APPROVED AND I SUGGESTED THEY MAKE THE APPLICATIONS OR SUBMIT A WRITTEN PROPOSAL WHEN THE TIME COMES; IDWR CAN THEN REVIEW THE SPECIFICS AND FORWARD A DECISION.

NAME:		RE:
BRUCE LIUM	**CALLIN**	**QUESTIONS ON FUTURE USES.**

HE CALLED TO THANK US FOR THE ASSISTANCE WE GAVE ON 4/18. HE WANTED TO KNOW IF OTHER LOT OWNERS COULD ADD PUMPS AND START PUMPING WATER FOR THEIR LOTS... I TOLD HIM THE ICROA WOULD HAVE TO FILE THE TRANSFER AND IT COULD BE DONE; POU WOULD HAVE TO MOVE WATER FROM THE FIELDS TO THE PROPOSED LOT. OTHER OPTIONS WOULD BE TO FILE NEW APPLICATION OR TRANSFER WATER FROM OUTSIDE THE AREA. BRUCE IS CONCERNED WITH THE DOMINO EFFECT THIS COULD CREATE AND I EXPLAINED THE ICROA STILL HAS CONTROL OF THAT GROWTH.

NAME:
BRUCE LIUM (ICROA REP.)

RE:
APPT. FOR TRANSFER

HE MET W/ ME AND MEL SCHULTE TO REVIEW THE PREPARATION OF THE TRANSFER TO CHANGE POU AND ADD POINTS OF DIVERSION. WE DISCUSSED THE POSSIBLE RECOMMENDATIONS OF THE DIVERSION RATE AND ACRES AS FOUND CURRENT BY THE SRBA EXAMS AND REVIEWS. IT WAS DETERMINED TO HAVE THE TRANSFER REFLECT THE SAME END RESULT AS WAS DESCRIBED BY THE PROPOSED RECOMMENDATION. THE TRANSFER WOULD MOST LIKELY BE APPROVED AS SUCH WITH THE SRBA CLAIM REVIEW AS SUPPORTIVE EVIDENCE. I TOLD MR. LIUM THE TRANSFER WILL BE WRITTEN UP THIS WAY INITIALLY AND THE ICROA OFFICERS HAVE THE OPPORTUNITY TO CHANGE IT BEFORE THEY SIGN IT AND RETURN IT FOR PROCESSING IF THEY DISAGREE. THEY ALSO HAVE THE SAME OPTIONS FOR RECOURSE OF THE CLAIMED AMOUNTS WITHIN THE SRBA IF THEY CHOOSE TO PURSUE THE CLAIMED AMOUNTS.

THE TRANSFER WILL BE WRITTEN UP BY MEL S. THEN MAILED TO BRUCE LIUM FOR THEIR USE. MEL ALSO EXPLAINED THE TRANSFER PROCESS AND THE TIME LINES THAT MAY BE INVOLVED BEFORE THE FINAL APPROVAL IS GRANTED BY IDWR.

◇◇

January 19, 1995 12:11pm

NAME:		RE:
BRUCE LIUM	**APPT.**	**ICROA REVIEW**

HE ASKED A COUPLE QUESTIONS REGARDING THE WATER USE OF INDIAN CREEK: 1) DOES THE CREEK FLOW TO BIG WOOD RIVER? ANSWER GIVEN WAS NO, NOT DIRECTLY, BUT FLOWS BACK INTO THE BIGWOOD SYSTEM VIA HIAWATHA CANAL AND THEN SINKS. NO CLAIM HAS EVER BEEN MADE BY HIAWATHA CANAL USERS TO THE WATERS OF INDIAN CREEK, APPEARS TO HAVE BEEN CONSIDERED BIG WOOD WATER UPON ENTERING THE CANAL. 2) CAN THEY SKIP THE TRANSFER PROCESS AND GET A BLANKET TRANSFER FOR THE ENTIRE STREAM? ANSWER WAS NO. THIS WOULD DEFEAT THE PURPOSE OF THE TRANSFER PROCESS TO CONTROL THE APPROPRIATION OF PUBLIC WATERS.

I EXPLAINED THE REVIEW TO MR. LIUM AND THE PURPOSE OF THE TRANSFER TO THE RIGHT AS CLAIMED. I REMINDED HIM THAT I CANNOT PROVIDE LEGAL ADVICE AND CANNOT TELL HIM HOW TO FILE HIS TRANSFER BUT I HAVE DESCRIBED THE USES I FOUND TO BE VALID AT THE TIME OF MY REVIEW THIS FALL. THE FINAL VERSION OF THE WATER RIGHT WILL NOT BE COMPLETE UNTIL THE COURT REVIEW PROCESS HAS RULED AND DECREED THE RIGHT.

HE ASKED IF HE COULD COME BACK WITH DENNIS KAVANAGH AND GET AN APPT. TO WRITE UP A DRAFT TRANSFER AND I AGREED THAT IS POSSIBLE.

2ND letter sent w/ corrected address 1-19-95 sm

INDIAN CREEK RANCHES OWNERS ASSN
C/O ROSALIND KIPPING
GENERAL MANAGER
PO BOX 3411
HAILEY ID 83333

RE: SRBA CLAIM A37-00296B; TRANSFER NOTICE

DEAR MS. KIPPING,

Thank you for clarifying the position of the ICROA and answering my previous questions. Upon receiving your response I noted an error in my letter of November 25, 1994. I described the Lot 47 as an irrigated lot on page 1 but the lot I was referring to was Lot 37 as you mentioned later in your letter. Lot 37 was found irrigated and Lot 47 does not have irrigation uses.

Since any lot owner may irrigate on behalf of ICROA's water right, please take warning and remind the lot owners that any additional uses from those found to currently exist would be a violation of I.C. §42-222. Any change to the water right as it is being used requires ICROA to file for a transfer of their water right.

THE FOLLOWING USES REQUIRE A TRANSFER TO BE FILED BY ICROA **BEFORE USE BEGINS IN THE SPRING OF 1995.** Irrigation use for Lots 59-63, owned by Brad Roos, requires a transfer of point of diversion (POD) and place of use (POU); this irrigation use began in 1994. Lots 164, 172 & 173, owned by Holcomb, Martzel & Barto, respectively, appear to have been developed for irrigation after the SRBA commencement date of November 19, 1987. These three lots also require a transfer of POD and POU, unless, evidence of the irrigation uses for the lots can be shown to have been developed prior to November 19, 1987.

The current recommendation of this claim will list 28.0 acres of crop irrigation, 1.0 acre for the park at the pond, 0.5 acre for Lot 37, owned by McClatchy, for a total of 29.5 acres. The most recent flow rate recommendation is for 2.56 cfs (on the 28.0 ac.) plus 0.03 cfs (for the park) and 0.02 cfs (for Lot 37) for a total diversion under this water right of 2.61 cfs or 130.5 miners inches. Upon receipt of the transfer application as described above the recommendation can be changed to those uses providing

RE: SRBA CLAIM A37-00296B

Dear Jim,

You requested a copy of this file when I completed my review; please find that information enclosed. Keep in mind this may not be the final version since more information can be added to the file before the Director's Report is submitted to the SRBA court. For example, I am expecting a transfer to be filed by ICROA which could change the recommendation results as shown.

As I read your letter of October 7, 1994, you wish to have copies of all other claims associated with the Indian Creek system. I have not yet completed the reviews of these other claims but they will be based on some of the same findings as shown in A72-00296B. I will forward copies of the other claims as they are completed.

Finally, please remit coping costs for this file of $6.15, there were 123 pages @ $0.05/page.

If you have further questions please call me.

Sincerely,

STEVE CLELLAND
Water Resource Agent

DRAFT

Date: 11/25/1994 User-ID: SCLELLAN Subject: COPIED FROM REMARKS
PROPERTY IS OWNED BY EACH INDIVIDUAL.
WATERMASTER, REID NEWBY, HAS MEASURED MAXIMUM FLOW OF 6.33 CFS
FROM INDIAN CREEK. CITY OF HAILEY HAS WR OF 2.62 CFS, A37-00269.

Date: 12/28/1994 User-ID: SCLELLAN Subject: PRELIMINARY REVIEW

Comments: Date: 12/28/1994 User-ID: SCLELLAN Subject: PRELIMINARY REVIEW
1. RECOMMENDATION AT THIS DATE:
28.0 AC. WITH 2.56 CFS
1.0 AC. WITH 0.03 CFS
0.5 AC. WITH 0.02 CFS
==>29.5 AC. AND 2.61 CFS TOTALS
SUGGESTED TRANSFER FOR NEW DEVELOPMENT, CAN ADD ANOTHER 5.5 ACRES
AND 0.11 CFS TO THE FINAL VERSION UPON RECEIPT &/OR APPROVAL OF
THE TRANSFER BY IDWR.

RE: SRBA CLAIM A37-00296B; TRANSFER NOTICE

DEAR MS. KIPPING,

Thank you for clarifying the position of the ICROA and answering my previous questions. Upon receiving your response I noted an error in my letter of November 25, 1994. I described the Lot 47 as an irrigated lot on page 1 but the lot I was referring to was Lot 37 as you mentioned later in your letter. Lot 37 was found irrigated and Lot 47 does not have irrigation uses.

Since any lot owner may irrigate on behalf of ICROA's water right, please take warning and remind the lot owners that any additional uses from those found to currently exist would be a violation of I.C. §42-222. Any change to the water right as it is being used requires ICROA to file for a transfer of their water right.

THE FOLLOWING USES REQUIRE A TRANSFER TO BE FILED BY ICROA **BEFORE USE BEGINS IN THE SPRING OF 1995.** Irrigation use for Lots 59-63, owned by Brad Roos, requires a transfer of point of diversion (POD) and place of use (POU); this irrigation use began in 1994. Lots 164, 172 & 173, owned by Holcomb, Martzel & Barto, respectively, appear to have been developed for irrigation after the SRBA commencement date of November 19, 1987. These three lots also require a transfer of POD and POU, unless, evidence of the irrigation uses for the lots can be shown to have been developed prior to November 19, 1987.

The current recommendation of this claim will list 28.0 acres of crop irrigation, 1.0 acre for the park at the pond, 0.5 acre for Lot 37, owned by McClatchy, for a total of 29.5 acres. The most recent flow rate recommendation is for 2.56 cfs (on the 28.0 ac.) plus 0.03 cfs (for the park) and 0.02 cfs (for Lot 37) for a total diversion under this water right of 2.61 cfs or 130.5 miners inches. Upon receipt of the transfer application as described above the recommendation can be changed to add those uses providing

the transfer is approved by the Department of Water Resources.

If you have further questions please contact me at our office.

Sincerely,

STEVE CLELLAND
Water Resource Agent

Subject: SRBA Claim A37-00296B; Exam & Review
Your letters dated October 3, 1994 & November 25, 1994

Dear Mr. Clelland:

Following your letter dated October 3rd, we have had an opportunity to research your questions. Our responses are set forth after your questions.

1. Who is authorized to irrigate on behalf of ICROA's water right?

   Response: Any owner of a subdivision lot or owner's agent and the Board of directors and/or their agents.

2. Who is authorized to divert water from Indian Creek via pump or headgates, pursuant to ICROA's water right?

   Response: Any owner of a subdivision lot or owner's agent and the Board of directors and/or their agents.

3. Are there currently any persons or parties using water from Indian Creek that are not approved or authorized by ICROA?

   Response: None known.

Your letter of November 25th indicates that several lot owners using Indian Creek water for irrigation are unknown by you. Following is the missing information:

Lot 47/3: Richard F. Paris and Kathryn A. Woods.
Lot 172/2: Robert Martzel
Lot 173/2: Michael A. & Patricia H. Barto

The following lot owners should be added to your list of users of Indian Creek water for irrigation:

Lot 37/3: James S. & Linda B.H. McClatchy
Lot 164/2: James R. & Nancy L. Holcomb

If you have any questions or need other information, please contact us.

Thank you for your patience.

Sincerely,

MEMORANDUM

TO: Indian Cr Homeowners Claim A37-002963

FROM: Douglas Jones

DATE: 12/13/94

RE: Conversation with Bruce Liom

I was contacted by Liom this afternoon about an appointment we had set up for this week. He was interested in some process or method to utilize 50" of water for 50 ac inr. He was also concerned with storage in a reservoir recorded under A37-19740.

I obtained the file from Steve Clelland to review. Steve had recently done a field claim verification review in light of a water diversion complaint.

I indicated to Liom that only 29 ac are recognized as irrigated and presently recommended. Diversion of 135" is acknowledged to account for conveyance loss & inr.

Liom was to meet with Speck & H.O.A. officers on Thurs, 12/15. They plan to talk about water issues.

I told Liom IDWR will probably allow storage for this coming year based on diligence to repair deficiencies & establishing some kind of right for storage.

31—Drage very gravelly loam, cool, 0 to 3 percent slopes

Composition

Drage very gravelly loam, cool, 0 to 3 percent slopes—85 percent
Contrasting inclusions—15 percent

Characteristics of the Drage Soil

Position on landscape: Stream terraces, fan terraces
Parent material: Mixed alluvium
Elevation: 5,000 to 6,100 feet
Average annual precipitation: About 16 inches
Average annual air temperature: About 41 degrees F
Frost-free period: About 65 days
Typical profile:
0 to 16 inches—very dark grayish brown and dark grayish brown very gravelly loam
16 to 41 inches—dark brown and brown very gravelly sandy clay loam and very gravelly clay loam
41 to 61 inches—yellowish brown and light yellowish brown extremely gravelly sandy loam
Depth class: Very deep
Drainage class: Well drained
Permeability: Moderately slow
Available water capacity: Low
Potential rooting depth: 60 inches or more
Restriction affecting rooting depth: Sand and gravel at a depth of 41 inches
Runoff: Slow
Hazard of water erosion: Slight
Shrink-swell potential: Moderate

NOTE: PRECIP. COULD SUPPORT CROP W/O NEED FOR IRRIGATION,

p.37 & 38
SOIL SURVEY
BLAINE CO.

Contrasting Inclusions

Isknat gravelly clay loam (5 percent); Bringmee loam (5 percent); Hutton Variant clay loam (5 percent)

[redacted]

Major Uses

Hayland and pasture

Currently grown irrigated crops: Alfalfa, pasture
General management considerations:
• Proper grazing practices, irrigation water management, seeding of suitable forage plants, and applications of fertilizer help to improve the quality of forage on pastures.
• The best suited method of irrigation is a sprinkler system, but corrugation systems are also suitable.
• Adjusting the rate at which irrigation water is applied to the available water capacity, the water intake rate, and the needs of the crop helps to prevent overirrigating and the leaching of plant nutrients.

INDIAN CREEK SUBDIVISION
FIELD NOTES REVIEW

BASED ON 10-19-94 EXAM

BY: STEVE CLELLAND
DATE: NOVEMBER 22, 1994

The purpose of this summary is to describe the irrigation uses I have verified for reporting on Snake River Basin Adjudication claims for Indian Creek Ranch Owners, Inc.

The irrigation and farming of the common areas of this Indian Creek Subd. have been performed by Jim Scott for the last five years; the period of 1990-1994. It is a common farming practice in this drainage to harvest crops of hay from fields that are never irrigated; sub-groundwater provides water for the crop.

Areas not described within these field descriptions are considered not irrigated since most of the land has been designated as subdivision building lots or roadways and no longer has a delivery to the property or an irrigation system.

ABOVE THE DAM & POND

No irrigation was found or diversion found to support any irrigation above the pond site. However, the City of Hailey does pump from their spring source to irrigate above the spring collection area. The meadows found below the City's diversion are naturally supported by sub-water and spring flows. Jim Scott said at one time the gulch in the SWSW of Section 23 was sprinkler irrigated; he estimated 1985. No claim for acres, no proof found and nothing remains of the system or diversion, however the lands can be swathed and harvested for hay without irrigation. In fact, cutting of the fields is desired to reduce the potential for fire hazards, according to Mr. Scott.

Two lots were identified as having small pumps in Indian Creek for lawn use around homes; Lots #172 and #173.

BELOW THE DAM

Field #1. There was, historically, a point of diversion (POD) below the dam that diverted waters to the west and southward direction and irrigated lands to the west of Indian Creek. When the new road system was constructed the old diversion structure was removed and no diversion structure exists to divert the stream to the previous land shown on the Review Map as Field #1. A second POD is used currently and was used by Jim Scott in 1993 to irrigate portions of Field #1. This POD is located at NENENW, SEC. 27 (T3N, R18E) and is used to gravity, flood irrigate 14.0 acres (Planimeter measured 13.8 and rounded up to even 14.0 acres). In 1994 the delivery ditch to this irrigated parcel was removed in part due to the construction work on the common sewer system. Since the ditch flows over the sewer system the continued use of this ditch is

questioned and may need future review. The north end of Field #1 is too high to use the current ditch. The south end of this field was served from a diversion about ¼ mile downstream. This diversion has not been used for over 5 years. The field has been sub-watered and is able to raise a cutting of hay without direct irrigation. <See photo sets B & C>

Field #2 has not been irrigated for over 5 years and has no delivery system but has raised a hay crop for cutting.

Field #3 cannot be irrigated and has not been for over 5 years. The diversion structures can be found on the creek but all the ditches were destroyed when the roadway was constructed. This east ditch system was needed to irrigate the higher ground down the valley and included the Field #6 which can no longer be irrigated. Remains of the old ditch system can be found east of the current road and are not useable for water deliveries. North of Field #3 a new irrigation use was started in 1994 by Brad Roos. He began to pump from the stream and irrigate about 4.0 acres by big gun sprinkler. <See photo set D>

Field #4 is the most irrigated parcel and has been irrigated for each of the past five years by Jim Scott. Diversion system and ditches were found and appear to be useable. POD is at NWNESE, SEC. 28 and 14.0 acres are found irrigated by a gravity flood system. <See photo set E>

Field #5 has not been irrigated in over 5 years and has no system of delivery from the creek. I did not confirm the existence of the POD in the creek but the delivery ditch system no longer exists to the field. A culvert under the road marks the crossing of the old ditches but can also account for the wastewater running off from Field #4. This field has been cut for volunteer hay crops. The City of Hailey has constructed a million gallon storage tank within this field and the top area of the tank is irrigated by the City from city water. <See photo set E>

Field #6 was part of the east ditch as described above with Field #3.

Field #7 has not been irrigated in the past 5 years by Jim Scott but was irrigated in 1988 & 1989 by Ray Salmon, according to Mr. Scott. The field shows as irrigated in the NAPP photos X74SE and X74NE dated 9-15-88. The diversion structure has been removed from the creek and the ditch has been filled in, is not in use and abandoned. The owner of Lot #47 has a small pump for lawn use in the stream. <See photo set F>

Field #8 and below have no diversion works or delivery systems to control the water anywhere downstream from the abandoned diversion described above in #7. Acres claimed in section 4, T2N, R18E, have no delivery system or irrigation uses from the Indian Creek system.

The flow of Indian Creek spills into the Hiawatha canal and returns to the Big Wood River system to which it is tributary.

SUMMARY OF ACRES FOUND TO BE VALID IRRIGATION USES

FIELD #1	14.0 ACRES
FIELD #4	14.0 ACRES
	====
	28.0 ACRES

SUBD. LOTS USING WATER:

LOT 172	0.5 ACRE
LOT 173	0.5
LOT 59+	4.0
LOT 47	0.5
	===
	5.5 ACRES

SPRINKLER USE AT POND PARK:
1.0 ACRE

==========

TOTAL POSSIBLE ACRES = 34.5 ACRES

+ .5

35.0

Note:
Lot 164 adds 0.5 Ac to the Total shown. SCC 4/26/95

NOTES:
1. Individual lot uses within the Subdivision are not yet confirmed as allowed uses within this water right.

RE: SRBA CLAIM A37-00296B; EXAM & REVIEW

DEAR MR. KAVANAGH,

Enclosed please find a second copy of my previous letter. I have not yet received a reply to the questions raised therein and this letter will reference back to the first letter.

I have completed my initial review of the claim A37-00296B and prepared a preliminary recommendation based on the information currently available in the file. Please keep in mind this is not the final recommendation and your file may change right up until the day the recommendation is presented to the SRBA Court as the Basin 37 Director's Report. I have not completed the flow rate analysis for this claim and it will not be addressed.

Based on my review of several aerial photo maps, a field examination, and conversations with your irrigator, Jim Scott, I have found 28.0 acres of cropland to be actually irrigated under this claimed right and 1.0 acre is irrigated at the park area near the pond for a total of 29.0 acres of irrigation use. All the other acres claimed have no system of water delivery or irrigation uses. Some lands have been harvested for a hay crop but no irrigation was used to raise the crops harvested. The old ditch systems and points of diversion have been abandoned and were found in unusable conditions.

You will find a map enclosed which shows the irrigated area found to still be in use.

Since no response was given to my first letter, the following situation needs to be resolved. Several lot owners were found to be irrigating portions of their lots by pumps in the Indian Creek.

Lot 47 Owner: Unknown This user pumps from the creek and irrigates ½ acre or less. The POD (point of diversion) is near an old POD that has been abandoned and the POU (place of use) was decreed and claimed. This use MAY be recommended if a written authorization from the Indian Creek Ranches Owners Assn. is submitted to IDWR. A transfer for this use does not appear necessary.

Lots 59-63 Owner: Brad Roos This use first began in 1994 and is irrigating lands found to be not irrigated previously. The POD was not claimed in A37-00296B and although the POU may have been, it was found as not irrigated. This use appears to be based on a transfer of the POD and the POU since some acres were dried up within the subdivision 5 years prior to this use. However, the required transfer should be filed with IDWR **before use resumes in the spring of 1995.** Upon receipt of the transfer request by Indian Creek Ranches Owners Assn., acres could be added to the recommended POU (since the use began in 1994, the final year of forfeiture of some acres) to allow for the 4.0 acres in the transfer. The transfer may stand as the written authorization for Roos to use the water and water right.

Lots 172 & 173 Owners: Unknown These two lots were identified as having a small pump system in the stream to irrigate ½ acre parcels each. Since no proof was found to show these uses prior to 11-19-1987, these uses can be made valid within the same transfer as described in the paragraph above regarding Roos. If the uses can be shown to be prior to 11-19-1987, then a written statement of authorization by the Indian Creek Ranches Owners Assn. may allow recommendation of these uses within the claimed water right.

Finally, enclosed is a copy of my review notes of the 10-19-94 exam and a summary of the maps used in the review.

If you have further questions please contact me at our office.

Sincerely,

STEVE CLELLAND
Water Resource Agent

RE: SRBA CLAIM A37-00296B; AUTHORIZED USERS

DEAR MR. KAVANAGH,

Pursuant to our telephone conversation on this day, could you please meet with your fellow officers &/or the Indian Creek Ranches Owners Assn. (ICROA) to provide IDWR with the following information:

1) Who is authorized to irrigate on behalf of the ICROA's water right?
2) Who is authorized to divert water from Indian Creek, via pump or headgates, pursuant to ICROA's water right?
3) Are there currently any persons or parties using water from Indian Creek that are not approved or authorized by ICROA?

If you will provide the name, lot number and phone number of these persons or parties, it will help IDWR to more accurately verify the points of diversion and places of use for irrigation of your claimed water right in the Snake River Basin Adjudication.

As I mentioned on the phone, the point of diversion currently used by Brad Roos is not described by the old decreed right or the SRBA claim you filed. Since the diversion is a new development a transfer of point of diversion should be filed with IDWR. You may want to coordinate that transfer with the results of my SRBA examinations in case other items of your water right need to be resolved by a similar transfer.

Finally, the day to day variations on the water levels &/or flows in the stream channel appear to be a result of the underground hydrogeological environment at the source of your water supply. The City of Hailey's spring diversion system is designed to overflow at the top of the million gallon storage tank, into the stream just above the new pond developed near the tank. The system

A37-00296B

is not designed to overflow at the spring site unless the spring is flowing over 5.0 cfs; then water will spill into the stream channel at the upper end where the stream forms.

I hope this assists you in your planning and I thank you for the help in identifying the correct diversions used and acres irrigated. Remember your SRBA file and contents are open to you at any time should you need to review them.

If you have further questions please contact me at our office.

Sincerely,

Steve Clelland

Re: Indian Creek Ranch Owners Association and City of Hailey

Dear Steve:

I understand you have now completed your field investigation of the SRBA claims to waters of Indian Springs and Indian Creek filed by my clients, Indian Creek Ranch Owners Association and the City of Hailey. Would you please send me copies of those reports, including copies of all notes, photographs, memorandum or other documentation used in the preparation of the reports.

Please call me if you have any questions. Thank you.

Sincerely yours,

MET BRUCE LIUM W/ AMERICAN WATER RESOURCES. DOING WORK ON NEW DEVELOPMENT FOR WILDLIFE POND. WORKING WITH TERRY BLAU FROM IDWR AND DAVE PARRISH FROM IDFG. **788-2860**

REVIEWED THE ROOS PROPERTY -- SEE ADDITIONAL SHEET.

JIM SCOTT IS THE PERSON WHO HAS BEEN IRRIGATING THE HAY FIELDS IN THE AREA AND WILL AGAIN IN 1995. MR. SCOTT IS ALSO A WELL DRILLER.

CALLED STEVE TOZIER FROM KAVANAUGH'S -- SEE COMMUNICATION DOC.

MET W/ JOHN MILLS OF CITY OF HAILEY AND HE SHOWED ME THE POWER PLANT FACILITIES AND THE SPRING DIVERSION SYSTEM. TWO FOOT CIPOLLETTI WEIR MEASURED AT 0.43'; WATER MEASUREMENT MANUAL TABLE SHOWS 1.90 CFS FLOW. <<SEE DRAWINGS AND NOTES ON OTHER SHEET>>

END

IDWR FIELD EXAM REVIEW:

BY STEVE CLELLAND
W/ DENNIS KAVANAUGH

DATE: September 28 & 29, 1994

FOUND PASTURE BEING IRRIGATED BY MR. ROOS FROM INDIAN CREEK THROUGH A PUMP AND BIG GUN SPRINKLER SYSTEM. CURRENTLY IRRIGATING ABOUT 5 ACRES AS DETERMINED FROM OPQ MAP.

BELOW IS THE THEORETICAL CALCULATION OF THE DIVERSION BEING MADE:

$$\frac{8.8(7\frac{1}{2})0.70}{0+(60 * 2.31)} = 0.33 \text{ CFS}$$

0.33 CFS/5 ACRES = 0.066 CFS/AC

THIS IS BEYOND WHAT IS ACCEPTED AS BENEFICIAL USE FOR FIVE ACRES. ALSO THE POD AS FOUND IS NOT COVERED BY A WATER RIGHT OR THE ADJUDICATION CLAIM FILED BY THE INDIAN CREEK RANCH OWNERS ASSN.

SHOULD ICROA PROVIDE IDWR WITH A LIST OF THE AUTHORIZED WATER DIVERSIONS/DIVERTORS? WHO IS ALLOWED TO DIVERT UNDER THE ICROA WATER RIGHT?

NAME:	RE:
RAY SALMON 788-2164	**TRANSFER OF HIS ICROA WR'S**

I RETURNED HIS CALL -- I TALKED WITH JIM STANTON ABOUT THIS SITUATION; TRANSFER OF OLD SURFACE RIGHT TO A NEW G.W. WELL. RESEMBLES THE MITIGATION PLANS BEING USED IN THE BIG WOOD VALLEY AND WOULD CAUSE AN INSTREAM FLOW TO BE DEVELOPED HERE IN THE INDIAN CREEK STREAM. SUGGESTED HE FILE THE TRANSFER (IN THIS CASE THE ICROA WOULD HAVE TO FILE) AND SHOW THE WATER MOVING AND THE LAND BEING DRIED UP TO ALLOW THE TRANSFER.

HE ASKED SEVERAL QUESTIONS ABOUT THE EFFECTS OF THIS RESULTING SCENARIO; HOW TO PROTECT THE WATER LEFT IN THE STREAM TO KEEP IT FROM BEING USED OR APPROPRIATED LATER? CAN THE WHOLE SUBD SWITCH THEIR RIGHTS TO GROUNDWATER AND LEAVE THE STREAM FOR INSTREAM FLOW? I TOLD HIM I DON'T KNOW THE ANSWERS, BUT I HAVE HEARD THE QUESTIONS BEFORE.

SUGGESTED HE WRITE A LETTER TO KEITH HIGGINSON AND POSE THE SITUATION AND QUESTIONS. THIS WAY HE CAN GET A DEPT. POLICY ON THE PROPOSAL BEFORE THEY ACTUALLY TAKE THE ACTION TO TRANSFER THE RIGHT.

NAME: **BRUCE LIUM**

RE: **ICROA WR'S**

HE CALLED BACK-- I FOUND FOUR WATER RIGHTS FOR THE INDIAN CREEK RANCHES OWNERS ASSN. THEY ARE:

A37-00296B	INDIAN CREEK	IRRIGATION USE	4.01 CFS
A37-19740	INDIAN CREEK	STORAGE USES	45.0 AFA
37-08035	GROUNDWATER	DOMESTIC	3.50 CFS
37-08721	INDIAN CREEK	STORAGE W & R	7.30 AFA

I COULD NOT FIND ANYTHING ELSE ON FILE. THE QUESTION YOU HAD ON TRANSFERING 50" TO IRRIGATION USE DOESN'T FIT IN THE PICTURE OR MAKE ANY SENSE.

WE DISCUSSED THE UPCOMING PROOF DUE NOTICE ON 37-08721. THEY WILL RECEIVE THE FORMS AROUND NOV. 1, 1994 AND MAY CHOOSE TO LICENSE WHAT IS DEVELOPED, THE NEW POND; OR, THEY CAN FILE AN EXTENSION TO INCLUDE THE FUTURE PONDS PLANNED. DR. LIUM TOLD ME THE NEW POND IS ABOUT 60' X 290' X 8' = 3.2 AF. THEY MAY NEED TO FILE AN ADDITIONAL PERMIT TO DEVELOP ALL THE NEW PONDS THEY HAVE PLANNED ANYWAY.

HE SAID THEY HAD TALKED WITH TERRY BLAU ON THIS EARLIER AND HE HAD DESCRIBED SOME OPTIONS TO AVOID LOSING THEIR WATER RIGHTS, WHEN NOT USED FOR IRRIGATION. I WILL VISIT WITH TERRY AGAIN.

HE RESTATED THAT HE IS JUST TRYING TO KEEP FROM LOSING THE WATER RIGHT. WILL KEEP IN TOUCH...

NAME: RE:
STEVE TOZIER CITY OF HAILEY **EXAM OF SYSTEM**

I CALLED STEVE TOZIER FROM DENNIS KAVANAUGH'S HOUSE TO GET ACCESS TO THE SPRING HOUSE AND POWER PLANT BUILDINGS. HE WOULD HAVE SOMEONE MEET ME AT MY VEHICLE AT BUTTERCUP AND INDIAN CREEK RD.

I EXPLAINED I WOULD VERIFY THE USES CLAIMED WITHIN THE CITY OF HAILEY'S SRBA CLAIM. HE TOLD ME THE SPRING HOUSE HAS A TELEMETRY SET-UP THAT REPORTS INTO HIS OFFICE WITH THE FLOW RATES. I ASKED IF WE COULD GET PRINT OUT DOCUMENTATION IF NEEDED AND HE AGREED. HE SAID THE SPRING HAS BEEN RUNNING CONSISTENTLY AT 2.0 - 2.2 CFS.

(EVERYONE I TALKED WITH DURING THIS EXAM SAID THE SPRING AND CREEK FLOWS ARE NOT GREATLY AFFECTED BY THE SEASONAL OR DROUGHT CONDITIONS.)

HE ALSO MENTIONED THERE IS AN AGREEMENT BETWEEN THE CITY AND THE ICROA TO HAVE THE CITY INSTALL MEASURING DEVICES AT TWO POINTS ALONG THE CREEK ITSELF. AS YET THEY HAVE NOT BEEN INSTALLED.

END

RE: Alleged Illegal Diversion of Indian Creek Water

Dear Mr. Roos:

As we discussed in our phone conversation today our office recently received a complaint about diversion of water from Indian Creek on to land reported to be owned by you. The complaint from an official of the Indian Creek Ranch Owners Assn Inc indicates that water is being diverted into a sprinkler system which utilizes a "big gun" sprinkler. The complaint indicates that the diversion is made without a valid water right. I have completed a search of our water right records and find that the rights for your area are included in the Snake River Basin Adjudication (SRBA) claims by the Indian Creek Ranch Owners Assn Inc (Copies of Proof Reports of these Claims Enclosed). Since you indicate that you are diverting water pursuant to being a member of this organization there appears to be a misunderstanding between you the Indian Creek Ranch Owners Assn Inc (ICROAI) about the use of this water. As we discussed you should resolve this issue with the ICROAI as soon as possible.

Ultimately these rights will be determined in the SRBA process and such issues as historical use and forfeiture will be considered in the final determination of these rights. I caution you that if new diversions or newly irrigated lands have been developed these new uses are not covered by existing rights and are considered illegal. Please be advised that to divert water without a valid water right is illegal under Section 42-201 & 42-351 of the Idaho Code and ultimately could be result in a civil penalty of $100.00 per day.

In the near future one of our Adjudication agents may investigate in the field the legal descriptions of your water use and points of diversion and you may be contacted at that time.

If you have questions please feel free to contact our office.

Sincerely,

Allen Merritt, P.E.
Water Right Supervisor

USES REVIEW SHEET

CLAIM #37-00296B

A. S.R.B.A CLAIMED USES:

	PURPOSES	MONTH/DAY	RATE
FOR	Irrigation	FROM 4-1 TO 11-1	4.010 CFS
FOR		FROM __-__ TO __-__	____ CFS
FOR		FROM __-__ TO __-__	____ CFS

B. I.D.W.R. RECORDED USES:

	PURPOSES	MONTH/DAY	RATE
FOR	IRRIGATION	FROM ____ TO ____	ALL CFS 2.62 city of Hailey
FOR		FROM __-__ TO __-__	____ CFS
FOR		FROM __-__ TO __-__	____ CFS

PRESUMPTION FLAG: D

PERIOD OF USE:

IS PERIOD OF USE WITHIN THE RECOMMENDED SEASON? Y(X) N(_)

RECOMMENDED AS CLAIMED? Y(_) N(_)

RECOMMEND TO IDWR STANDARDS OR OTHER? Y(_) N(_)

REMARKS:

DIVERSION AMOUNT REVIEW SHEET CLAIM # 37-00296B

A. DOES DIVERSION RATE CLAIMED AGREE WITH EXISTING RECORDS? Y(_) N(X)

SRBA CLAIMED RATE: 4.01 CFS IDWR ROOT RIGHT RATE: ALL/2.62 CFS

IF NO or IF STATUTORY CLAIM or BENEFICIAL USE field exam required.

IS FLOW MEASUREMENT REQUIRED? Y(_) N(_)

B. FLOW MEASUREMENTS

MEASUREMENT METHOD _____, SEE ATTACHED CALCULATIONS

C. ARE OTHER WATER RIGHTS USED? Y(_) N(X) If YES complete overlap review.

OTHER RIGHTS LISTED IN CLAIM: ___-_____ ___-_____ ___-_____

___-_____ ___-_____ ___-_____

___-_____ ___-_____ ___-_____

D. RATE/VOLUME CALCULATIONS: (IRRIGATION)

1. IRRIGATION RATE.

ACRES _____ X 0.02 CFS/ACRE = _____ CFS.
(Taken from p/u review)

DOES AMOUNT CLAIMED EXCEED 0.02 CFS/ACRE? Y(_) N(_)

IF YES EXCESSIVE WATER USE FORM FILED AND ATTACHED? Y(_) N(_)

2. ANNUAL IRRIGATION CONSUMPTIVE USE & FIELD HEADGATE DIVERSION VOLUME.

ACRES _____ X CONSUMPTIVE RATE FOR AREA _____ A.F./ACRE =

TOTAL CONSUMPTIVE USE _____ ACRE FEET/ANNUM

ACRES _____ X FIELD APPLIC. RATE FOR AREA _____ A.F./ACRE =

TOTAL FIELD APPLIC. _____ ACRE FEET/ANNUM

E. RATE/VOLUME CALCULATIONS: (OTHER USES)

CONTACT OWNER? Y(_) N(_) SEE ATTACHED SHEET? Y(_) N(_)
