MOUNTAIN HOME IRRIGATION DISTRICT  
System Description

by Linda A. Werner  
Sr. Water Resources Agent

Mountain Home Irrigation District services its irrigated acreages from 3 reservoirs. These are Little Camas Reservoir whose source is Little Camas Creek, Long Tom Reservoir with source Long Tom Creek and Mountain Home Reservoir (aka Rattlesnake Reservoir) with sources of Canyon Creek and Rattlesnake Creek. All three reservoirs are under one system.

Little Camas Creek flows northerly into Little Camas Reservoir. Other sources for storage in Little Camas Reservoir are Dollar Creek, Castle Rock Creek, Chimney Creek and Buck Creek; all are tributary to Cat Creek which flows into Little Camas Reservoir. These sources have no manmade development. Water is conveyed from Little Camas Reservoir by means of an aqueduct whose beginning is located in T1S, R9E, Section 9, SW1/4 NE1/4. The point of origin of this aqueduct is located in drainage Basin 63. The overflow from Little Camas Reservoir flows to the Anderson Ranch Reservoir.

Effluent from this aqueduct flows to the East Fork of Long Tom Creek (Basin 61) in T1S, R8E, Section 22, SW1/4 SW1/4. Water then flows to Long Tom reservoir. Water is conveyed through Long Tom Creek via the spillway in Long Tom Reservoir which is located in T1S, R7E, Section 36, SW1/4 SW1/4. The confluence of Long Tom Creek and Canyon Creek is located in T1S, R7E, Section 31, NW1/4 SW1/4. The means of conveyance from this point is Canyon Creek.

Approximately 5 miles downstream is a feeder canal located in T2S, R6E, Section 36, NE1/4 NW1/4. That canal conveys water to the lands on the east side of the district; some of which were previously known as Elmore County Irrigated Farms. This canal conveys water to Mountain Home Reservoir. Also, at this point, excess water can be conveyed to the Snake River via the old Canyon Creek channel.

A second canal, located in T2S, R6E, Section 36, NE1/4 SW1/4, conveys water to the western lands of the irrigation district. This canal is known as the Lamberton West Side Canal. Any remaining water (if any, there is usually none) will go to a private reservoir located in T4S, R7E, Section 20, NE1/4 SW1/4. Mountain Home Irrigation District's responsibility for water conveyance ends just above this area.

Rattlesnake Creek is also tributary to Mountain Home Reservoir with the inflow located in T3S, R7E, Section 16, NW1/4 NW1/4. The outflow from the dam to the canal originates in T3S, R7E,

Section 18, SW1/4 SE1/4, which used to be the Rattlesnake Creek channel. Spillway water also runs into the canal.

Effluent from the Mountain Home Reservoir is carried through the East Side Canal, located in T3S, R7E, Section 18, SW1/4 SE1/4 and conveys water to the east side of the district lands. The East Side Canal ends in the vicinity of T4S, R7E, Section 16, NW1/4 NW1/4. At this point the conveyance of the water is no longer the responsibility of the irrigation district. There are also ponds in the vicinity for any overflow, which is rare. The flow in the canal after this point is private.

Water was first put to use upon lands under Mountain Home Irrigation District in approximately 1892.

Completion dates of reservoirs, per our records:

Little Camas reservoir-1912  
Mountain Home reservoir-1906  
Long Tom reservoir-1906

Dear Clayton:

Enclosed for your review are copies of profile reports for your Basin 63 rights. As you are aware the Basin 63 recommendations will not be submitted to the court until a later date. However, I think you need these reports when you review the Basin 61 recommendations. You will receive in a separate mailing within the next week the Basin 61 preliminary recommendations.

Also, enclosed are two copies of the revised GIS map that reflects the place of use and boundary for Mountain Home Irrigation District. Please review the map and reports thoroughly and let me know if there are any corrections or questions we need to address. I want to meet with you and the board privately to discuss any questions or corrections rather than at the public meeting on December 10th. You can attend the December 10th informational meeting but it will be more efficient to discuss the MHID questions in a private session.

I need to meet with you sometime before the recommendations are finalized to make several small amendments to your claims. The amendments are necessary to correct the annual diversion volume in a couple of your original claims. We can complete the amendments when we meet to discuss the recommendations or at the public meeting on December 10th.

Call me at the number below if I can be of assistance.

Sincerely,
