"I was born in Cove, Oregon, October 3, 1881. My parents brought me to Placerville when I was three weeks old. With the exception of eight years spent elsewhere Placerville has been my home always.

Starting in 1897 the Village of Placerville purchased water from Mike Leary for fire fighting purposes. In later years, under other ditch owners, the water was also used for domestic purposes.

The same ditch, now owned by the Village of Placerville, has carried water to the town continuously since 1897."

RE: A63-4027, 63-3561 & 63-3619

I'm writing to remind you we still need evidence to support the priority date claimed in Snake River Basin Adjudication (SRBA) claim A63-4027.

I'm currently preparing the recommendations for claims in the Boise Basin and plan to be finished by the end of January 2002. If I don't receive any evidence of priority for claim A63-4027 by January 31, 2002 I will recommend it be disallowed.

On October 12, 2001 I mailed two claim forms for water rights 63-3561 & 63-3619 that need to be signed and returned with filing fees. To this date we have not received them. If claims are not filed in the Snake River Basin Adjudication (SRBA) for these rights they will be lost.

Call me at the number below if you have any questions.

Cordially,

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

ADJUDICATION MEMORANDUM

CLAIM NO.: A63-04027

SUBJECT: 2ND ROUND NOTICE

EMPLOYEE: TIT/leniccc

DATE: 02/06/1996

The mayor of Placerville came into the office to investigate the 2nd Round Notice received by the Village of Placerville. Besides this claim, there are two licenses issued for Placerville - 63-03561 & 63-03619. 63-03619 was issued for storage, for fire protection & irrigation (11/01/1966 priority), for 1.5 AFA & 1.54 cfs. 63-03561 was issued for .50 cfs for domestic use (12/09/1966 priority).

Based on conversation with the mayor, it appears that all 3 water rights describe the same water use. The diversion system is the same - ~~gr~~ water is pumped out of Granite Creek to a ditch which runs to the town. There are two small reservoirs which are a part of the diversion system.

~~There is not internal use of the Grimes Creek water~~

There is some internal use of Grimes Creek water, but not for human consumption. Domestic use has not been filed on; this issue should be addressed in the future. ~~&~~ This issue ~~did~~ was not addressed today as apparently my brain was not yet fully engaged. The mayor will pursue evidence of priority information & will contact IDWR @ a future date. An additional filing for domestic use (either B/U or based on 63-03561) can be discussed at that time.
