2. mminicuc 1/28/2002 System Description
Comment: 2 diversions on Mores Creek, both portable pumps. Diversion near driveway bridge serves original cabin and lawn irrigation. 1.5 hp pump to 1,000 gal storage tank, or directly into house. Second diversion used for camping outings on cleared lot.
Boulder Creek diversion is both pumped and via gravity flow. Gravity flow to storage tank at cabin for use internally and externally (including stockwater.) Pump is used for small amounts (less than .5 acre total) of irrigation on lots 17 and 18.
3. csaxton 3/19/2002 Notice of Error

Comment: Measurement locations 4557A, 4557B (both Mores Creek) and 4557C (Boulder creek)

2. mminicuc 1/28/2002 System Description

Comment: 2 diversions on Mores Creek, both portable pumps. Diversion near driveway bridge serves original cabin and lawn irrigation. 1.5 hp pump to 1,000 gal storage tank, or directly into house. Second diversion used for camping outings on cleared lot.

Boulder Creek diversion is both pumped and via gravity flow. Gravity flow to storage tank at cabin for use internally and externally (including stockwater.) Pump is used for small amounts (less than .5 acre total) of irrigation on lots 17 and 18.

To whom this may concern:

The towles had a rock dam up Boukder creek in 1956. We watched them water their lawn and use the water from the pipe line from that dam for domestic water. They also had a pump in Mores creek which they used for irrigation and stock use.

RE: Water usage at your Boulder Creek property

You asked if I remembered your usage of the water from Boulder Creek to supply your [Father's] property at Boulder creek.

My husband started building a cabin near the mouth of Franer Gulch in the early 1950's. Shortly afterward, your Father started developing the property at the mouth of Boulder Creek.

While I never saw the dam source, I do remember that he had piped water down from a dam on Boulder Creek to give him a gravity-fed supply of water. I remember this to be around 1955.

RE: Water usage at your Boulder Creek property

You asked if I remembered your usage of the water from Boulder Creek to supply your [Father's] property at Boulder creek.

My father started building a cabin near the mouth of Franer Gulch in the early 1950's. Shortly afterward, your Father started developing the property at the mouth of Boulder Creek.

I remember your father built a small dam on Boulder Creek, upstream from the Cabin he was building. He piped it to his cabin area via gravity feed, where he used it for construction and irrigation. I remember him mentioning that he had it tested for potable use and found no contaminants, but that he did not trust the test result because it was an open water source and could change at any time.

Your older brother and I were old enough to be shooting BB guns at pine cones and tin cans we found in the old railroad dump near your property, so we must have been around nine years old, putting this date around 1956.

James D. Roethig

We have known The Towles since 1958 and visited
Their cabin on Mores creek a number of times.

They had water running from a gravity flow pipe
line from a rock dam up Boulder Creek to
irrigate Their lawn and for domestic use.

They later acquired livestock and used The
pipeline to water The stock.

They also pumped water from Mores Creek
to irrigate with.

Dear Jan Shute,

I have known the Towle family for many years, long before we bought the cabin next to theirs at Boulder Creek. We have visited their place from the time they built the cabin in the mid to late 50's. A dam was built in Boulder Creek to supply water for domestic, stock water and irrigation to the Towle cabin which is on Lot 13 of what is now Towle Subdivision. This system was installed in the mid to late 50's. Pumps were also installed at 3 locations to pump water to Lots 3, 5, 6, 7, 13, 17 and 18 of what is now Towle Subdivision in Boise County, Idaho. One pump was used for water at Lots 17 and 18. This pump was located at the rock dam located in Boulder Creek. A second pump was located on Lot 14 adjacent to Mores Creek and used to water Lots 13 and 14. Both of these pumps have been running since I can remember. A third pump was located between Lots 4 and 5 adjacent to Mores Creek and used to water parts of Lots 3, 4, 5, 6, and 7 of what is now Towle Subdivision. The water used for Lots 3, 4, 5, 6 and 7 was pumped out of Mores Creek periodically from the late 50's or early 60's on.

If you have further questions regarding this matter, please contact Rocky Towle or one of his brothers.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

Dear Mr. Towle:

Enclosed is your copy of Claim No. A63-04557 filed on 3/27/89 during the Boise County claims filing for the Snake River Basin Adjudication of water rights. Also enclosed is Receipt #W002475 for the \$50.00 fee paid at that time.

This claim appears to be in good order with one item missing. The fees for filing this type of claim were a \$50.00 flat fee plus a \$1.00 per acre charge. The \$50.00 flat fee was paid by your attorney William D. Collins. However, the \$1.00 per acre charge or \$5.00 fee was not paid. Therefore, in order to compute the filing of this claim for entry in the court for decree, the \$5.00 fee needs to be submitted.

Please submit this fee within 30 days to keep your claims in good standing. If you address your envelope to me, we can see the \$5.00 fee is credited correctly.

Re: Snake River Basin Water Adjudication,
Statutory Claim No. 63-4557

Dear Sir or Madam:

I am enclosing on behalf my clients, Ralph R. Towle, Gary R. Towle and Wesley H. Towle, a Notice of Claim to a water right which we would request be filed as part of the claims in the Snake River Adjudication. I have enclosed our firm check in the amount of \$50.00 to cover the cost of that filing.

If there are any questions regarding the claim, please contact my office.

Very truly yours,

William D. Collins
