HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

See attached map.

The image displays a large 16x16 grid of squares. Each square in the grid contains a smaller 3x3 sub-grid of dashed lines. The dashed lines in each sub-grid are arranged in a cross pattern, with a vertical line and a horizontal line intersecting at the center. The grid is composed of 16 rows and 16 columns of these squares, totaling 256 squares.

AFFIDAVIT OF VERNON K. BRASSEY

STATE OF IDAHO)
) ss:
COUNTY OF ADA)

Vernon Keith Brassey, being first duly sworn, deposes and says:

1. I was born in 1923 and was raised in Placerville, Boise County, Idaho. My father, W.C. Brassey, had been in the Boise Basin area, and in particular Placerville, Idaho, since approximately 1913.
2. I am a resident of the City of Boise, County of Ada, State of Idaho, and reside at 3200 Treasure Drive, Boise Idaho. I also have a home near Placerville, Idaho, where I live a portion of each year.
3. I am the direct predecessor in title to the Vernon K. Brassey Family Partnership, an Idaho limited liability partnership, to property in Boise County, generally described as:

Township 7 North, Range 4 East, B.M., Boise County, Idaho:

Section 16: SESW
Section 21: NENE (Lot 1), NWNE (Lot 2), NENW (Lot 3), S1/2,
 S1/2NE1/4, SENW
Section 22: SWNW, NWSW, SWSW
Section 23: NESW (Lot 7), SENW (lot 4), SWNW (Lot 3)
Section 28: SW1/4, SENW, N1/2NW1/4

Exhibit A, attached hereto and incorporated herein, is a map of the Boise County property I owned and later conveyed to the Vernon K. Brassey Family Partnership.

4. A stream known as Canyon Creek runs through the property described in paragraph 3 above. A spring commonly referred to as the Brassey Spring but shown upon various maps as an unnamed spring also runs through the property described in paragraph 3 above. Brassey Spring is tributary to Canyon Creek. The water from the spring and Canyon Creek is utilized for the irrigation of adjacent grounds and has been for as long as I can remember. My parents used the spring water to irrigate the property for grazing cows, sheep, pigs and horses. The spring water also provided stock water for these same animals. I have continued irrigation from the spring since the late 1940's.
5. A stream known as Fall Creek runs through the property described in paragraph 3 above. Water from Fall Creek and Canyon Creek has been used for mining on adjacent lands as long as I can remember. A large Norwegian Community lived on this property from the early 1900's and used vast amounts of Canyon Creek water in their dredge mining operations. The Norwegians also panned gold and irrigated the land for grazing livestock. I was a friend of the Doaka brothers who were part of the Norwegian community that was dredge mining on the property. My uncle, Anthony Fairchild, and his wife Della had a placer mine on the property from approximately 1915 to the late 1950's and placer mined during those years. A dredge mine operated on the property until 1948, when I spent an entire summer tearing the dredge down and moving it to Long Valley in Valley County, Idaho. I have personally observed continuous mining activity on the property to the present.
6. A stream known as Woof Creek runs through the property described in paragraph 3 above. Water from Woof Creek has been diverted and impounded for a pond as long as I can remember. The pond was originally used for mining, then logging, and now for aesthetic purposes.
7. There are many ditches on the property described in paragraph 3 which I maintained for most of my life. They are still prevalent today and in the spring my son uses them to irrigate the adjacent ground. We still allow Frank Shields to run his sheep through our

property every year, which is one reason we irrigate the ground. Mr. Shields is not very good about paying us the contract rate we agreed on for using the property but I was raised to help my fellow man so I continue to let him bring the sheep. Prior to Mr. Shields, we always let the Basque shepherders graze their sheep on the property, even though they started a few forest fires over the years. Sometimes they'd give us a sheep or two in return.

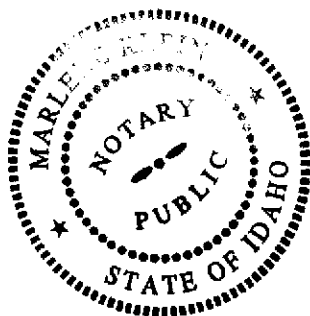

8. Canyon Creek, Brassey Spring (also known as an unnamed spring), Fall Creek, and Woof Creek were used prior to my acquisition of the above-described property and the reputation in the area was that the springs and creeks were utilized from the first settlement of the area, being approximately 1863.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

DATED this 17th day of July 2002.

January 28, 1913.

:Homestead application rejected.
:Reversed.

Register and Receiver,
Boise, Idaho.

Sirs:

On August 29, 1912, Perry J. Fairchild filed homestead application 013250 to enter Lots 4 and 7 of Section 23, T. 7 N., R. 4 E., B. H. M., which you rejected for the reason that the lands were withdrawn from all forms of settlement and entry under the first-form withdrawal by the Secretary of the Interior on December 4, 1909, in connection with the ~~Payette~~ Boise project under the provisions of Sec. 3 of the Reclamation Act of June 17, 1902 (32 Stat. 388). On August 27, 1912, the applicant filed an appeal from your decision alleging settlement on the lands prior to the withdrawal and continuous residence, improvement, and cultivation since that date. The records of this office show that the lands were withdrawn from entry, as stated above but that on February 13, 1912, the Secretary of the Interior approved an order revoking said withdrawal and restoring the lands to the public domain, to be subject to settlement on and after May 29, 1912. You were notified of the release of these lands from the first-form withdrawal by letter X-211214 dated February 20, 1912.

In view of the foregoing and homestead application is herewith returned and you are directed to allow the same in the absence of objection of record, proceedings in the usual manner.

Very respectfully,

Board of Law Review

NOTICE OF ALLOWANCE.

Mr. Perry J. Fairchild,

Placerville, Idaho.

Sir:

Your homestead application, SERIAL No 013250
(Kind of Application or Entry.)
Receipt No. 910801, for Lots 4 & 7,
Section 23
Township 7 North, Range 4 East, Boise Meridian,
has been this day allowed, subject to your further compliance with
law and regulations applicable thereto.

Very respectfully,

, Register.

, Receiver.

NOTE.—The homestead law contemplates that residence shall be established immediately after entry, where not established before that time. Failure to establish residence within six months will forfeit the entry, if proven upon contest or final proof, unless it be shown that the entryman has been prevented, by climatic conditions, sickness, or other unavoidable cause, from establishing residence within six months immediately following entry. In such event his failure may be excused, provided it be shown that actual residence was not delayed beyond twelve months from the date of entry. An application for extension of time to begin residence will not ordinarily be considered except upon contest or final proof. Leave of absence can not be granted, for any cause, unless the entryman has established bona fide residence.

rights or ditches in any way appertaining or belonging thereto.
Excepting that portion of said tract on which the present group
of buildings are located, as hereinafter further defined and set
forth in Term No.4, below.

TO HAVE AND TO HOLD the same unto the said Lessee for the period of Ten
(10), years from and after the date hereof unless forfeited or terminated by the
said Lessors on account of default on the part of the Lessee as hereinafter pro-
vided, and the said Lessors do hereby give and grant to the said Lessee the sole
and exclusive right and privilege to mine and extract the precious and semi-precious
metals and minerals from such portion of said premises as they may select and elect
to mine and operate as hereinafter set forth, in such manner and by such means as
the said Lessee may elect; this lease and the mining operations to be conducted by
the Lessee hereunder to be subject, however, and performed according to the follow-
ing terms and conditions:

1. The Lessee agree that when the said ground is reached by the dredge
that they will proceed to mine all of the ground that in their opinion is profit-
able and practical to dredge. It being understood that the same will be operated
with reasonable diligence and without interruptions except at such times as the

weather conditions, strikes, break downs or other casualties beyond the control of the Lessee shall prevent and in such matters they shall resume operations as soon as reasonably possible. But it being understood, however, that the said ground is to be operated in connection with the Miller et al properties adjoining and should it be practical in the Lessee's opinion to dredge across the line into the adjoining properties so as to cover the dredgable area of the properties as a whole, then it will be considered the same as dredging on the above described property except the clean-ups, which shall be made according to the property lines with the Royalty payments of said clean-ups to be made according to the ownership of same.

2. The Lessee agrees to pay as Royalty to the Lessors, as rental consideration for this lease, ten per cent (10%), of the net amount of the United States Mint, or Smelter, returns from sales of gold and silver values of each and every clean-up made by the Lessee in mining said property, said payment to be made within ten days after the Lessee shall have received returns from the sale of said clean-up, and to be accompanied by a copy of the mint or smelter returns from each and every clean-up.

3. The Lessors agree that the Lessee in their dredging operations of said ground are privileged to extract, save and stockpile all "heavy concentrates or black sands" which are possible to recover and as they may see fit. The Lessors further agree that no accounting or Royalty payments shall be required on any possible future sales of said concentrate materials by the said Lessee.

4. The Lessors agree to clearly mark or define, as soon as possible, the limits of a tract surrounding and on which the present buildings are located, said tract as thus defined, is to be excluded and withheld from any and all mining operations, and the Lessee hereby agrees to recognize said tract as defined and refrain from any encroachment of the lines thereof, in their mining operations of the remainder of the land as hereinbefore described.

5. The Lessee shall have the right to remove all dredges or machinery, equipment, tools, buildings and improvements which they place or cause to be placed upon said property during the lifetime of this lease and said removal to be effective within twelve (12), months after the termination hereof.

6. The Lessors shall not be liable for any costs or charges or liens of any type or kind which may be incurred by the said Lessee, during the life-time of this lease and agreement.

7. The Lessee shall in no wise be considered to be the agent of or in any way authorized to bind the Lessors so as to cause the said property, or any part thereof, to be bound or held in lien or claim because of any acts of the said Lessee, arising out of possession of said property.

8. The Lessee agrees to surrender peaceful possession of the said property to the said Lessors upon completion, or at any time previous upon demand for forfeiture.

9. This lease and agreement shall be binding on the parties hereto as well as the heirs and representatives and assigns.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals in duplicate the day and year first above written.

LEASE

THIS LEASE AGREEMENT, made and entered into this 23 day of September, 1940, by and between A. A. FAIRCHILD and his wife DELLA FAIRCHILD, both of Placerville, Idaho, as parties of the first part, hereinafter designated as Lessors, and FISHER & BAUMHOFF, a co-partnership, as parties of the second part, herinafter designated as Lessees, WITNESSETH:

That the said Lessors, for and in consideration of the sum of ONE DOLLAR (\$1.00) to them in hand paid by the Lessees, the receipt of which is hereby acknowledged, and in further consideration of the covenants and agreements hereinafter set forth by the said Lessees to be kept and performed, have leased, demised and let, and by these presents do lease, demise and let unto the said Lessees the following described mining premises and real property situate in Boise County, Idaho, described as follows:

All those certain lots, pieces or parcels of land bounded and particularly described as follows, to-wit; Lots 3, 4 and 7, Section 23, Township 7 North, Range 4, East of Boise Meridian, and all the metals, ores, concentrates, gold and silver bearing rocks and earth therein, together with any and all water rights and ditches in any way appertaining or belonging thereto.

TO HAVE AND TO HOLD the same unto the said Lessees for the period of fifteen years from and after the date hereof, and the said Lessors do hereby give and grant to the said Lessees the sole and exclusive right and privilege to mine and extract precious and semi-precious metals and minerals, including concentrates from said mining property.

The Lessees shall be the sole judges of what ground they will mine or dredge and in what manner such operations shall be conducted or carried on and, whenever Lessees may deem it impracticable or underisable to continue such mining operations on said property, they shall have the right to discontinue such operations without giving notice to Lessors.

The rental consideration of this lease is the agreement of the Lessees to pay to the Lessors, directly, or to their credit wherever they may designate, ten percent (10%) of the gross amount of each and every clean-up made by the Lessees in mining said property, said gross amount to be as shown on U. S. Mint reports or reports of smelters or other reduction plants; said payments to be made within fifteen days after the first day of each month.

In order that the Lessors may be assured of the correct amount of the clean-up and the proceeds from the sale thereof, the Lessees shall surrender one copy of any and all Mint, smelter or other reduction works reports to the said Lessors.

The Lessors hereby grant under this lease exclusive right of possession of said mining property during the term of this lease to the Lessees, excepting as against the paramount title of the United States of America, including full right on the part of the Lessees to prospect, mine and acquire all gold, minerals and concentrates from said property in such manner and time as they desire within the terms of this lease.

The Lessees shall keep the property free and clear of all liens and claims of lien resulting from their operation, and shall permit no liability of any kind to attach to said property by reason of any work done or improvements made by them.

On termination of this lease, the Lessees agree to surrender peaceful possession of the said property to the Lessors.

On termination of this lease for any cause, the Lessees shall have the unrestricted right to remove all of their mining equipment, tools, dredge and other materials within twelve months from the date of the termination of said lease.

This agreement shall inure to the benefit and be binding upon the heirs, executors, administrators, successors, and

assigns of the parties hereto.

IN WITNESS WHEREOF, the said parties hereto have
hereunto set their hands and seals in duplicate the day and
year first above written.

A Tribute to Willis Brassey

By Spike Ericson

Willis C. Brassey, one of Boise Basin's well-known residents died of natural causes Sunday, September 9, 1984 in a Boise hospital. He was almost 90 years old. From 1916 to 1940 he lived in Placerville. His parents, Cenia and Christian Brasse, moved to Idaho from Nevada in 1880 according to records from the State Historical Society. Christian changed the family name from Brasse to Brassey so that his mail would not be confused with his neighbor's, who spelled their name Braase.

Willis Brassey was born in Middleton in 1894 and grew up from age five in Pearl, Idaho. In the small mining camp of Pearl young Willis learned all about the mining trade. When he was 18 he was driving the mail from Horseshoe Bend to Pearl. The next year he worked 500 feet down in a mine near Placerville. Right away he opened his own "auto livery" business running passengers between Boise and the Placerville-Centerville area for \$5.00 per person. He had saved money through his various jobs and bought a 1915 Studebaker which he soon traded in on a new 1916 seven-passenger Cadillac. He left this thriving business in 1917 to join the war effort and spent two years in France with the 20th Engineers division of the Army. When he returned home he bought a logging truck and supplied many of the area mines with timber.

Brassey also hauled ore to Centerville and to the Boise assay office from the Gold Hill, the Belshazzar, the Mountain Chief, and the Mayflower mines. All the ore went through the mills at the mines and the concentrates were hauled down along with his timber runs. The concentrates were stored at the mills during the winter. Sometimes as much as five- to seven-hundred tons would be hauled by Brassey in the spring to Centerville, where it would be loaded in to boxcars and shipped to Murray, Utah to recover the gold values. With his old Cadillac Brassey often hauled gold retorts, melted down at the mills, to the Boise assay office. One chunk from the Gold Hill was worth \$51,000. He kept the "Gold buttons" in an oak box under the seat of the stage car and the passengers never knew there was any such cargo. "The assay office was a very efficient, very good agency of the government" in those days. "It really was the thing that started the development of this whole area around here. That's why the people came here in the first place, was the mining; that's all that ever brought 'em."

Brassey continued hauling ore until 1931 when that big forest fire came into the Boise Basin. That burned all the mines up there... And there's really been no mining to amount to anything up there since

William Brassey at age 25

Willis C. Brassey 1894 - 1984

Brassey, who was almost caught in the fire when it broke out said it was started by a man who came over the Jerusalem Summit with a couple of horses; and "he must have thrown a cigar or a match on the road up near the Belshazzar mine about 11 O'clock on the morning of August 18, 1931. The fire kept running and going until a snow storm really put it out near Summit Flat that fall. It burned down the whole of Quartzburg. Burned down the mining plant and everything. A real disaster for the Boise Basin - burned down the power lines and everything."

In about 1940 he moved to Boise where he bought property for a housing development and worked as a contractor in this area for many years.

Considering his rich life and many experiences Brassey thought he was privileged: "I always credit the Lord for taking us to the right place at the right time for a great many of

Brassey is survived by his wife, Josephine Fairchild Brassey, also from a pioneer family, and his three sons, Bart, Vernon and John. Vernon Brassey is a State Legislator and John Brassey also served the state in that capacity. Brassey left ten grandchildren and five great grandchildren. His funeral was held Wednesday, September 12 at Saint Michael's Cathedral, Boise and he is buried at Star Cemetery, just a few miles from his birthplace.

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Vernon K. & Isabel J. Brassey

Re: Claim No(s) 63-5232

63-5294, 63-5295,

63-5304

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
