HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive) (cfs) (acre feet)

For Irrigation purposes from 4/15 to 10/15 amount 3.04 or 304

For Stock purposes from 4/15 to 10/15 amount .06 or ---

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 3.04 (cfs) and/or (b) 304 (acre feet)

8. Total consumptive use claimed is 228 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Water for 1200 head of sheep

10. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
								LOT2	LOT3				LOT7						
3N	10E	28											30						30
3N	10E	33						22	24										46
3N	10E	28											S						
3N	10E	33						S	S										

Total number of acres irrigated 76

11. In which county (ies) are lands listed above as place of use located? Elmore

12. Do you own the property listed above as place of use? Yes X No _____
If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.
_____ or None (X)

14. Remarks: Little Meadow Property consists of porous granitic soil requiring .04 cfs/acre diversion rate to get water over pasture ground. Any excess immediately returns to Boise River as underflow from percolation. Entire irrigation system developed as a unit from both points of diversion.

AUG 21 1992

Last Name Hammett Livestock Co. Ident No. _____

Copies: White -State, Yellow-Claimant

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

USE.

EXPLANATORY MATERIAL: Beneficial Use

STOCKWATER USE IS FOR 1200 SHEEP.

Affidavit of Priority

I, Ann Wilson, am the present owner of the land described in SRBA claim no. 63-5269. The land was previously owned by my grandfather and my father and I spent many years on the land as well. I have personal knowledge of the use of water for stockwatering and irrigation through conversations with my father about this property. None of the employees or previous owners are available for further cooperation. Over 2,000 head of sheep, cattle, and horses were watered on the property and the pasture ground was irrigated from the river and creek. My discussions with my father clearly indicated these uses began on or about 1920 or 1921.

Re: Claim No(s). 63-5267

63-5268, 63-5269,

63-5270, 63-5265

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water ~~availability problems arise in the future.~~ It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. ~~Field exams to verify~~ claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

☒ NAPP, IDWR NO. _____; ☐ ASCS PHOTO; ☐ OTHER _____

NOTES:

On 9-20-94 I went out to the POU site to do a measurement on the river canal. The crew was not successful so I had to do a dry-ditch measurement, rather than a streamflow. The Shubs had already been banded in this meadow so it was no longer necessary to use. In fact, champions employees told me that around October 12 they will be closing up calving & moving stock to Nannett for wintering. JRC - 9-21-94

MANNING EQUATION CHANNEL CAPACITY RESULTS

09-21-1994

File Number:

Claimant: HAMMETT LIVESTOCK

Channel measured: BOISE RIVER

Date of measurement: 9/20/94

Measurement location:

Calculation prepared by: LINDA WERNER

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 271 feet.

The upstream and downstream rod readings are 5.37 and 6.61 feet.

The channel cross section is 5.88 ft-sq.

The wetted perimeter is 6.46 feet.

The hydraulic radius is 0.91 feet.

The slope is 0.0046

The roughness coefficient is 0.0430

The flow velocity is 2.202 ft/sec.

The rate of flow is 12.96 cfs.

CROSS SECTION NUMBER 1

For File Number for the BOISE RIVER

| Number | Rod
Reading | Water
Depth | Distance |
|--------|----------------|----------------|----------|
