CLAIM NO.: A63-15156

SUBJECT: Evidence of Priority

EMPLOYEE: PIPINICUCCI

DATE: 01/25/2002

Called Mr. Cooper at work (3348507). We discussed the requirement for evidence of priority. He claimed the date of development as told to him by the real estate agent who assisted in the purchase. He will send a letter supporting the claimed priority date. I told him that the Preliminary Report is to be released in early March 2002, so we will need the evidence in the next week or so.

RE: Applications for Permit

Dear Mrs. And Mr. Cooper,

Enclosed please find two applications for a water right permit, along with filing instructions and information sources.

As I discussed with Mr. Cooper during my field visit on November 2, 2001, the use of water at the new house on your property on the Middle Fork of Thorn Creek requires a water right permit from this department. In addition, Mr. Cooper mentioned plans to develop a small hydropower operation for your property. This use also requires a permit from the department.

If you have any questions or need additional information, please contact me at the above address.

Sincerely,

Re: Claim No(s) 103-15156

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
