HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For MINING purposes from 01/01 to 12/31 amount .15 or _____

For DOMESTIC purposes from 01/01 to 12/31 amount .02 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) .15 (cfs) and/or (b) .6 (acre feet)

8. Total consumptive use claimed is _____ acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) MILLING GOLD ORE, DRILLING, DOMESTIC IS FOR MINE CAMP

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

AUG 24 1992

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

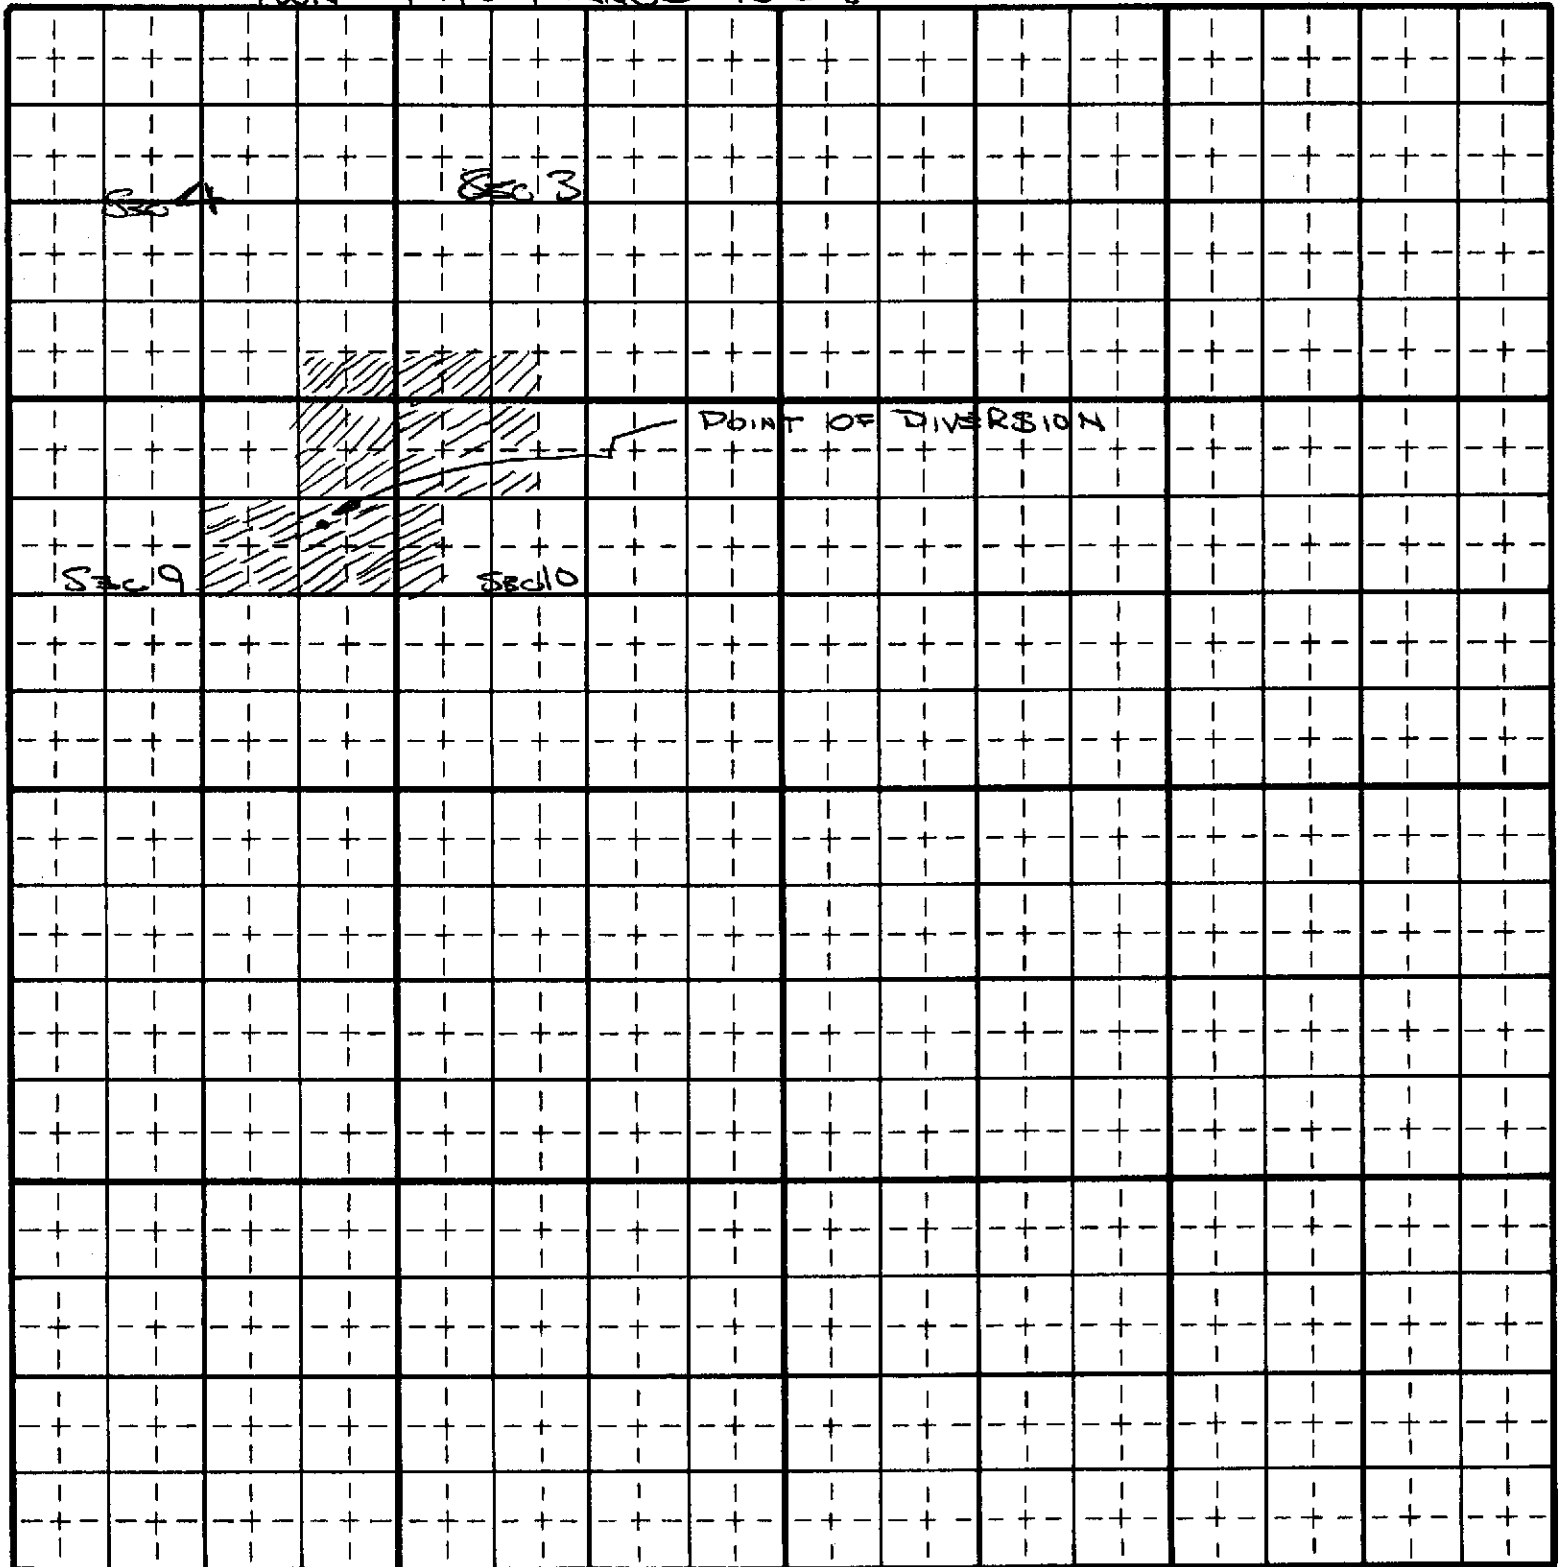

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

C. SYSTEM DESCRIPTION

1. Diversion System Diagram: Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable. ☐ Alternative diagram attached

diagram not appropriate

Scale: 1" = _____

2. ☒ Copy of U.S.G.S. Quadrangle Attached ☐ Aerial Photo Attached
Showing location(s) of point(s) of diversion and (required for irrigation of 10 acres or more).
place(s) of use (required).
☒ Photo of Diversion and System Attached
(required for all but single household domestic groundwater, and stockwater).

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Source is springs discharging within an old mine tunnel (Blacksmith Tunnel). Spring waters are collected with 5" pipe (the tunnel is filled in) and brought to a diversion box. From there, 4" pipe brings water to milling area.

Note: No water is diverted from Hardscrabble Cr. as indicated on permit.

Water is used in the milling process of ore.

See Remarks on page 4 for continuation

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
5 gallon bucket						

2. Measurements:

5 gals. / 4.5 secs. (3 times)
 = 66.7 gpm = .15 cfs

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

2. Alternate Method for Checking Purposes:

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3) ; Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____

$V_{OR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____

$V = \text{Smaller of } V_{IR} \text{ and } V_{OR} =$ _____

2. Volume Calculations for Other Uses:

N/A

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Continued:

Water is not used for the generation of power.

Water is used for domestic purposes in a temporary camp set up ~~near~~ near the milling area.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Mining	1/1	12/31	.15	
domestic	1/1	12/31	.02	.6 afa
Totals:			.15	into Na. (domestic)

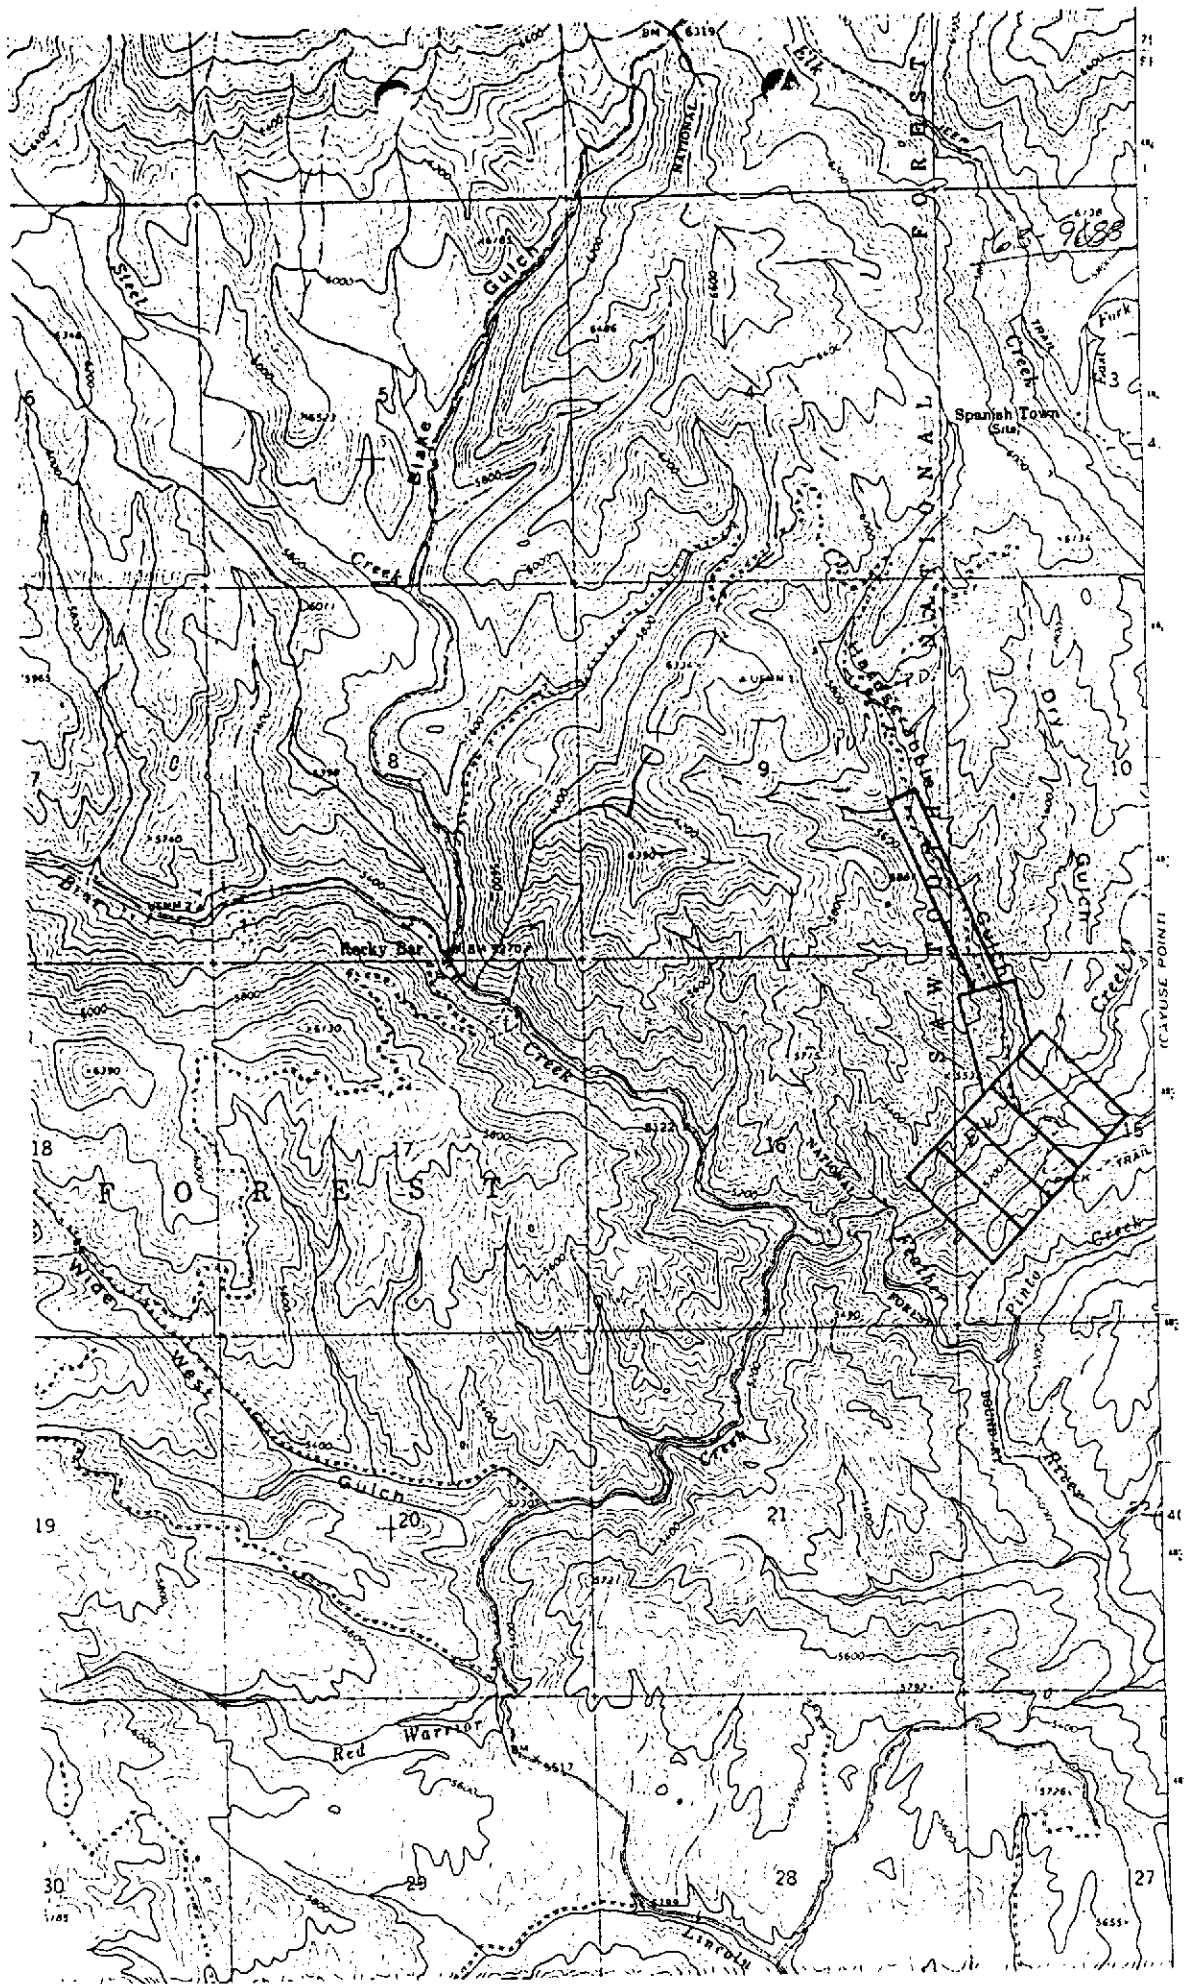

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

Civil No. 39576

COMMENCEMENT NOTICE

TO: ALL PERSONS OWNING RIGHTS TO THE USE OF WATER
FROM THE SNAKE RIVER BASIN WATER SYSTEM.

SEE SPECIAL NOTICE TO OWNERS OF SMALL DOMESTIC AND/OR STOCKWATER
RIGHTS ON PAGE TWO (2)

YOU ARE HEREBY NOTIFIED THAT:

On November 19, 1987, the District Court for the County of Twin Falls issued an order commencing a general adjudication of water rights from the Snake River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights from the water system. The purpose of the adjudication is to get an accurate schedule of water rights to assure the proper delivery of water in times of shortage. The purpose of this notice is to inform you of the commencement of the adjudication and your legal responsibilities at this stage of the adjudication.

GENERAL REQUIREMENT TO FILE NOTICE OF CLAIM WITH IDWR

Idaho Code §42-1409 requires all persons owning water rights within the boundaries of the Snake River Basin water system in Idaho to file a Notice of Claim with the Idaho Department of Water Resources (IDWR) for each water right, except for certain water rights specifically excluded by law. "Water rights within the boundaries of the Snake River Basin water system in Idaho" includes rights to the use of water from any water source, including streams, springs, lakes, ground water, developed water, waste water, or any other source within the boundaries of the Snake River Basin water system in Idaho. A map showing the boundaries of the water system is included at the end of this notice. **FAILURE TO FILE A REQUIRED NOTICE OF CLAIM WILL RESULT IN A DETERMINATION BY THE COURT THAT THE WATER RIGHT NO LONGER EXISTS.**

A Notice of Claim must be filed for all water rights based upon Idaho state law. Water rights based upon Idaho state law include historic use rights (based upon diversion and application of water to a beneficial use, regardless of whether the water right has been recorded with IDWR pursuant to Idaho Code §42-243), decreed rights (based upon a decree of a state or federal court), licensed rights, or appropriation permits if proof of beneficial use was filed before November 19, 1987 (based upon a license or permit issued by IDWR, which used to be called the Idaho Department of Water Administration, the Idaho Department of Reclamation, and the State Engineer's Office). A Notice of Claim or negotiated agreement must be filed for all water rights based upon federal law. Water rights based upon federal law are generally reserved rights claimed by the federal government, by or on behalf of the Indian Tribes, or by subsequent owners of former federal reserved lands.

SPECIAL PROCEDURE FOR SMALL DOMESTIC AND STOCKWATER CLAIMS

A Notice of Claim **MAY BUT IS NOT REQUIRED TO BE FILED AT THIS TIME** for water rights used solely for **SMALL DOMESTIC AND/OR STOCKWATER PURPOSES (D&S)**, as those terms are defined by Idaho Code § 42-1401A (5) & (12). This applies to wells and springs used solely for small domestic and stockwater purposes, as well as other types of water rights used solely for small domestic and stockwater purposes. The owner of a small D&S water right may file a motion with the district court at a later date to have the water right adjudicated when the need arises. The owner of a small D&S water right who does not file a Notice of Claim **AT THIS TIME** will be required to have the water right adjudicated before the water right can be distributed by a watermaster, and will be required to agree to have the water right adjudicated before an application for change of the water right may be filed with IDWR.

The fee for filing a Notice of Claim with IDWR for a small D&S water right **AT THIS TIME** is \$25. The owner of a small D&S water right who files a motion with the district court at a later date to have the water right adjudicated will be required to pay their own cost of serving notice of the motion, and will be required to pay IDWR's costs to investigate and prepare a report of the water right claimed, which is likely to be more than \$25. A claimant of a small D&S water right will be bound by the terms of any decrees entered in this adjudication (including the limitation on D&S water rights that may be adjudicated at a later date) regardless of whether or not the claimant files a notice of claim for the small D&S water right **AT THIS TIME**. However, you will not be on IDWR's mailing list to receive legal notices in the SRBA unless you either 1) file a Notice of Claim or 2) subscribe to the docket sheet described in the "Further Information" section at the end of this notice. A claimant should be certain that the claimant's water use qualifies for the special procedure for small D&S claims before deciding not to file a notice of claim **AT THIS TIME**.

EXCEPTIONS TO GENERAL REQUIREMENT TO FILE NOTICE OF CLAIM

A Notice of Claim may but is not required to be filed for permits for which proof of beneficial use was filed on or after November 19, 1987. The director of IDWR may at a later date require holders of such permits to file a Notice of Claim. If the director does issue such an order, the permit holder will be notified by mail. A Notice of Claim may not be filed for an application for permit until the application has been approved by IDWR.
