Re: Claim No(s). AG3-18771

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

RE: EVIDENCE OF PRIORITY

Dear Mr. and Ms. Hines:

On March 9, 2004, you met with IDWR contractor Gene Gibson so he could conduct a field exam regarding Snake River Basin Adjudication (SRBA) claim 63-18771. During the field exam, Mr. Gibson's notes indicated that he mentioned to you that evidence of the 1948 priority date claimed needs to be supported. At this time our office has not received and information to support this priority date, or the commencement of use of the North Fork of Indian Creek water for the purposes claimed. Mr. Gibson's notes indicate that you will be submitting an affidavit from the former owners to support the priority date claimed.

For your convenience, I thought I would drop you a quick note to remind you that we still need that information. In addition, I would like to add that the affidavit doesn't need to be from the original owner. If there is a neighbor that could vouch for when they remembered when Indian Creek water was last used, that would work too.

Below is a description of what kind of evidence will be accepted and why we need it.

The Idaho Department of Water Resources has begun its water right review in Basin 63. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

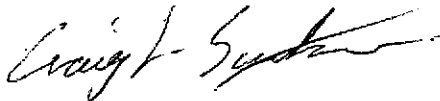

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 4, 2004 referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 334-2190.

In addition, a contractor employed by The Idaho Department of Water Resources may be contacting you to set up a filed exam in order to verify the elements of your water right.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent
Adjudication Bureau
