Comment: When Mel Schulte and I were out to get measurement from Erles S. Fork rights, he thought about filing on this claim. He pointed out an area he said was the pod and we took a gps reading. Lori Harris and I went up to get a mannings reading on 10/11/01. Could find no evidence of any ditch. The creek is in a low lying area near the rd and a ditch would have had to run up along the hillside. I walked much of the pou he is claiming and found it to be boggy as it heads towards the river. Could find no evidence of use. Unlike his other claims, this claim was filed in 2001 and would have had to been used without a 5 year period of non use.

Comment: Erle talked to me regarding this right. I told him that all I found was a wetlands type of environment and he said "yes, and I keep it that way by putting water on it". There is no way to cultivate the land nor graze animals due to the hummock nature of the land.

Re: Contest of water rights

Dear Erle:

I received the copies of letters that you want submitted to the court and your notice of error reply letters. As I had mentioned to you, the department will not send out the recommendations to the court until mid to late May. Before that time, there is nothing for you to object to. Once the court has received the department's recommendation, you will receive another packet of information from the court showing the departments recommendation. At that time you can file an objection, I have included the objection form for your review. You will need a separate form for every objection you wish to make.

When you file your objection, you need not send in any additional information, as the court will not be reviewing it, rather our staff will contact you to set up a preliminary meeting to attempt to resolve the objection. If after meeting we are unable to come up with a solution that you feel is beneficial, a date will be set with an officer from the court and you will present any information pertinent to your claims.

At this time we will be able to add the middle initial of "C" to Cynthia's name. When showing the source and tributary, we must follow the nomenclature set forth by the USGS; I have enclosed a copy of the map showing their spelling of Little Smoky Creek.

Let me know if you have any questions.

Sincerely,

Sue Bock

ATTN: Sue Bock there is a ditch located that leaves Skunk & O.P. Creek in place. Has been there way before 1916. This water was use to irrigate 10-20 acre pasture. Which Sue feels was wet ~~of~~ marshy ground. The reasona this land is wet & marshy is the U.S.F.S has refuse to maintain the Rd, Skunk Creek - O.P. Creek & the culvert that drain this area. There should be @ lease 10-20 inch of water right.

Re: Claim No(s) 63-4277B

63-4278B, 63,31282

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water

claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
