	)	
Case No. 39576	)	Standard Form 5
	)	
	)	STIPULATED ELEMENTS
	)	OF A WATER RIGHT
	)	

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine the facts, date, expert opinions and law supporting the issuance of a partial decree for the water right.

The parties agree that the Snake River Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached claim. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Hi Becky,

Steve Spencer has called a couple of times wondering where this SF5 is. I'm pretty sure we mailed this one to you - I think Lori did? Anyway, when you get back could you check to see if you have this one and are going to route or have already routed. Thanks!

Jan

SF5.wpd

I'm sorry, but I can't remember if I've talked to you about this one.

In any event, I'm ready to go on it and will probably stop in unannounced to hand you a map to substantiate the suggested changes.

(See attached file: Directors Report Page.doc) (See attached file: SF5.wpd)

In addition, when I was discussing the Nicholson cases with Nick, we were both shorted the last pages of the Carl E. power of attorney. So you have the only complete copy of it. I'd like to get one for my records.

STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA

Case No. 39576

A. Subcase: _63-31458_
STANDARD FORM 1
OBJECTION

Please fill in the following information:

B. NAME AND ADDRESS OF PERSON OBJECTING

Name: United States of America, Acting through the USDA Forest Service

Address: 550 West Fort Street
MSC 033
Boise, Idaho 83724

Daytime Phone: (208) 331-5943

Name and Address of Attorney, if any:

David L. Negri
550 West Fort Street
MSC 033
Boise, Idaho 83724

C. CLAIMANT OF WATER RIGHT AS LISTED IN THE DIRECTOR'S REPORT

Name: Elsie V. Hanson

Address: Robert J. Hanson
4151 Hartley Road
Eagle, ID 83616

D. I object to the following elements as recommended in the Director's Report.
(Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be:
2. ☐ **Source**
Should be:
3. ☐ **Quantity**
Should be:
4. ☐ **Priority Date**
Should be:
5. ☐ **Point(s) of Diversion**
Should be:
6. ☐ **Instream Flow Description**
Should be:
7. ☐ **Purpose(s) of Use**
Should be:
8. ☐ **Period of Year**
Should be:
9. ☒ **Places of Use**
Should be: See E below.

11. I object because:

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The place of use, NENW of Section 10 Lot 1, T7N R5E, shown on the Directors Report Recommendation is on National Forest System Land. The NENW of Section 10 includes Lot 11 and part of Mineral Survey 2824. There is no Lot 1. Lot 11 is National Forest System land. The claimant is not authorized to occupy and use National Forest System lands for this purpose.

Conditions of Approval:

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 63-31458 V1

1. C18 THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.

Remarks:Comments:

1. sbock 7/30/2002 recommendation

Comment: Claimant talked with Mel regarding filing a mining claim. He originally filed for 4 cfs. I conducted a field exam on June 3, 2002. At that time claimant took me over entire property, but there was no evidence of any mining operation other than tailings piles from the turn of the century. I explained that the department was looking at historical practices with no more than 5 continuous years of nonuse. At the time I told him that my recommendation would be for disallow. Mr. Hanson came into the office and met with myself and Craig Saxton at one point and Jan Shurte was involved for a while. Told claimant he could withdraw his claim and try to seek a refund for the \$450 he paid, or try filing an application for permit and that it might go through. Claimant stated that his goal was to tie up water rights on his property so that water could be used in the future and he did not want water being sold to outside interest. Claimant was still undecided on course of action.

2. sbock 7/30/2002 recommendation

Comment: Claimant came back into office in late July and said that he felt confident that if he needed to prove that mining has been occurring for all of these years without non use, that he could. He has had different family members bring portable dredges up and mine in various places. The dredge that he has at the moment does not have a face plate with hp or gpm information, so he provided a page for a catalog with comparable information. Claimant feels the dredges he has used and is using now is capable of using 350 gpm. So, I am recommending this right at .78 cfs for the instant diversion he should be able to obtain. I am basing the date of priority, pods, pou, season of use etc on information provided by client as I was not able to see any of this for myself. Claimant has been made aware that all of these components will be up to him to defend if they are objected to.

FREE STANDING CENTRIFUGAL PUMPS

Keene Engineering free standing pumps are designed for any engine application. These heavy duty pumps can be direct or belt driven, are made of lightweight aluminum and are precision machined for dependability and maximum performance in the field.
