Place of UseConditions of Approval:

1. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
2. 155 This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and preceding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and preceding to the earliest, shall be reduced to 60 percent of their decreed quantities.
3. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. **Re: Lost River Estates
94-73-PDR/94-41-ZC**

Dear Mr. Nickel:

The purpose of the New Dry Creek Ditch Company (NDCDCo.) is to provide the continuing flow of water to our shareholders. New development is in no way to impede this delivery, or add to the expense of providing this service.

The delivery canal and maintenance road easement must be fenced from the development. The fencing must be a minimum of 6 feet high and of a non-burnable material. No bike path, greenbelt, bridle path or other public use will be allowed within the easement. This is to guard against unauthorized tampering with the headgate system and to protect the public from the water velocity associated with the canal and the headgates.

No landscaping will be allowed to infringe upon the canal's easement. Grass will be allowed within a ten foot setback from the outside of the easement road and the opposite canal bank.

Bridges to be constructed across the canal must have the written approval of Ada County Highway District and the NDCDCo. No round culverts are accepted without the written approval of the NDCDCo. NDCDCo feels the two entrances from Park Road are unnecessary and should be abandoned or reduced to one canal crossing with an additional entrance to the development being supplied via Curlew Court being extended to Beacon Light Road.

No storm drain water, heatpump water, or any wastewater will be allowed to be discharged into the delivery canal. Water shares shall be retained for irrigation of the development. The homeowner's association will be responsible for paying the annual water assessment and managing the water delivery within the development's boundaries.

Sincerely,

Lynne Sedlacek, Bookkeeper

NEW DRY CREEK DITCH COMPANY

ADDITIONAL INFORMATION

DATE: JUNE 8, 2005

BY: MEL SCHULTE

The main contact for New Dry Creek Ditch is their president, Dana Purdy (286-9701). He assisted in the review of the boundary and place of use map, the location of their POD and measurements to estimate delivery loss in their canal.

There are no major issues of concern with the New Dry Creek Ditch Company claims except for the number of acres the rights will be limited to in our recommendations as discussed below. They share a POD and canal with New Union Ditch, which might motivate New Union to have an interest in New Dry Creek's recommendations and boundary map. There is an overlap of New Dry Creek's boundary at the extreme West edge with the East boundary of Middleton Irrigation because Circle DJ Ranch is a shareholder of both companies. There is also an overlap with New Union Ditch boundary at the East side of New Dry Creek boundary for the same reason.

The historical boundary and place of use was not easy to ascertain because the historical place of use is an area of rapid residential and commercial development in the Eagle area. A final review of the boundary and place of use was made with Dana Purdy, two board members and Bryce Farris in the offices of Ringert Clark on June 7, 2005.

The acre limitation of 2709.5 acres is less than the 2964 acres claimed and the 3059 acres described in the water master's records. The 2709.5 acre number is based on digitized acres of 2604.5 plus 10 shares allocated to Circle DJ Ranch plus 75 shares within the City of Eagle. Using the 2709.5 acres at an inch per acre makes it necessary to include delivery loss in order to show beneficial use of the companies 62.09 cfs of decreed water. It's interesting to note that the maximum monthly diversions into the New Dry Creek/New Union Ditch canal have shown a continued decline through the years. The declining diversion rates might support what appears to be a reduced number of irrigated acres through the years due to the increased subdivision development in the Eagle area.

New Dry Creeks claim for credited wastewater, 63-17468 was disallowed in favor of Drainage District No 2's right 63-31937. This matter was discussed with New Dry Creek's officers and board by Bryce Farris and does not seem to be a concern for the company.

Extra

An aerial photograph of a rural landscape, likely a farm or ranch, with a grid overlay. The grid is composed of thin white lines forming a rectangular pattern across the entire image. The landscape features various fields, some of which are dark and others lighter, possibly indicating different crops or land use. There are some small, light-colored structures or buildings scattered throughout the landscape. The overall image is in black and white, with high contrast.

THIS ACREAGE IS BASED, IN SOME INSTANCES, UPON ACTUAL SURVEYS, AND IN OTHER CASES UPON THE ACREAGE AS DETERMINED AT THE TIME OF THE STEWART DECREE, AND IS THE BEST INFORMATION AVAILABLE AT THE PRESENT TIME. IT WAS ORIGINALLY COMPUTED FEBRUARY 14, 1941, BUT HAS BEEN REVISED SEVERAL TIMES, PARTICULARLY TO REDUCE RIVER BOTTOM ACREAGES TO CONFORM TO STEWART DECREE ACREAGES AS DETERMINED BY SPECIAL COMMITTEE, AND TO ACCOMMODATE TRANSFERS FROM ONE CANAL OR USER TO ANOTHER.

RIDENBAUGH REPRESENTS OLD LANDS WITHIN THE NAMPA & MERIDIAN IRRIGATION DISTRICT THAT ARE WATERED BY THE OLD RIDENBAUGH RIGHTS IN THE STEWART DECREE. THE BALANCE OF THE NAMPA & MERIDIAN IRRIGATION DISTRICT LANDS ARE INCLUDED UNDER THE BOARD OF CONTROL.

*3960 ACRES ARE WATERED WITH LIVE WATER. THE BALANCE OF THE WATER COMES FROM SEVERAL DRAINS.

NEW DRY CREEK DITCH COMPANY

ADDITIONAL INFORMATION

DATE: AUGUST 17, 2004

BY: MEL SCHULTE

The main contact for New Dry Creek Ditch is their president, Dana Purdy (286-9701). He assisted in the review of the boundary and place of use map, the location of their POD and measurements to estimate delivery loss in their canal.

There are no major issues of concern with the New Dry Creek Ditch Co claims except for the number of acres the rights will be limited to in our recommendations as discussed below. They share a POD and canal with New Union Ditch, which might motivate New Union to have an interest in New Dry Creek's recommendations and boundary map. There is an overlap of New Dry Creek's boundary at the extreme West edge with the East boundary of Middleton Irrigation because Circle DJ Ranch is a shareholder of both companies.

The historical boundary and place of use was not easy to ascertain because the historical place of use is an area of rapid residential and commercial development in the Eagle area.

The acre limitation of 2517.8 acres is less than the 2964 acres claimed. The 2517.8 acre number is based on digitized acres and is open for scrutiny. Using the 2517.8 acres at an inch per acre makes it necessary to include delivery loss in order to show beneficial use of the companies 62.09 cfs of decreed water. The water master's records indicate a place of use of 3059 acres. It's interesting to note that the maximum monthly diversions into the New Dry Creek/New Union Ditch canal have shown a continued decline through the years. The declining diversion rates might support what appears to be a reduced number of irrigated acres through the years due to the increased subdivision development in the Eagle area.

New Dry Creeks claim for credited wastewater, 63-17468 was disallowed in favor of Drainage District No 2's right 63-31937. This matter might be of concern to New Dry Creek's officers and board.
