FY '90 Action Plan Highlights. During FY '90, the Division will continue to promote cooperative ventures utilizing the expertise of Idaho businesses, the research capabilities of INEL and the state's higher education system. By facilitating technology transfer and promoting investment, the Division will insure that knowledge gained at INEL and elsewhere translates into quality jobs for Idahoans and expanded business opportunities for Idaho!

Exotic Fish Thrive in Idaho's Geothermal Waters

The Albino Red Tail Shark. The Blue-Eyed Plecostomus. The Red-Faced Angel Fish.

These fish are not well known species in Idaho today, but in coming years, they could be an important new business in Idaho. The reason is our plentiful geothermal water.

On a national scale, there is a large and growing market furnishing exotic fish for aquariums. At the present time, while 90% of all commercial trout sold in

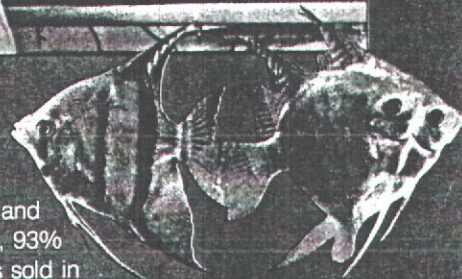

*Headlee with
geothermal
aquarium*

the U.S. are raised and processed in Idaho, 93% of all exotic species sold in the U.S. are imported from foreign breeders. In Boise, L. M. Headlee is working to change that percentage and to help develop Idaho's geothermal assets into new business opportunities.

Headlee has teamed his 15 years of tropical fish breeding with Planning Dynamics Corporation to serve as the catalyst for development of new fish breeding operations in Nampa and New Meadows.

Very soon Idaho will likely have to expand its definition of aquaculture to include "exotic."

POD and diversion into the Boise
City Canal upstream from the
Warm Springs Golf Course.

XXXI.

That the defendant, ~~THE BOISE CITY CANAL COMPANY~~ a corporation, be, and it is hereby awarded the use of the waters of Boise River, diverted at a point on said river above the city of Boise for use on the lands lying under its canal system, in the following amount from the following date;

63 0165 T 320, 373, 1048, 1059,
1903 inches, from June 1, 1866, and hereby designated as Right No. 33.
And be adjudged to pay \$133.21 costs in addition to the costs incurred by it.

XXXII.

That the defendant ~~THE FRANKLIN DITCH COMPANY~~, a corporation, be and it is hereby awarded the use of the waters of Boise River, diverted at a point on the William Frost farm in Sec. 18, T. 4 N. R. 1 W. B.M., for use upon the lands lying under its canal system, in the following amounts from the following dates;

63 0166
770 inches, from July 3, 1866, and hereby designated as Right No. 34.
63 0167
1380 inches, from Oct. 29, 1880, and hereby designated as Right No. 77.
And be adjudged to pay \$150.50 costs in addition to the costs incurred by it.

XXXIII.

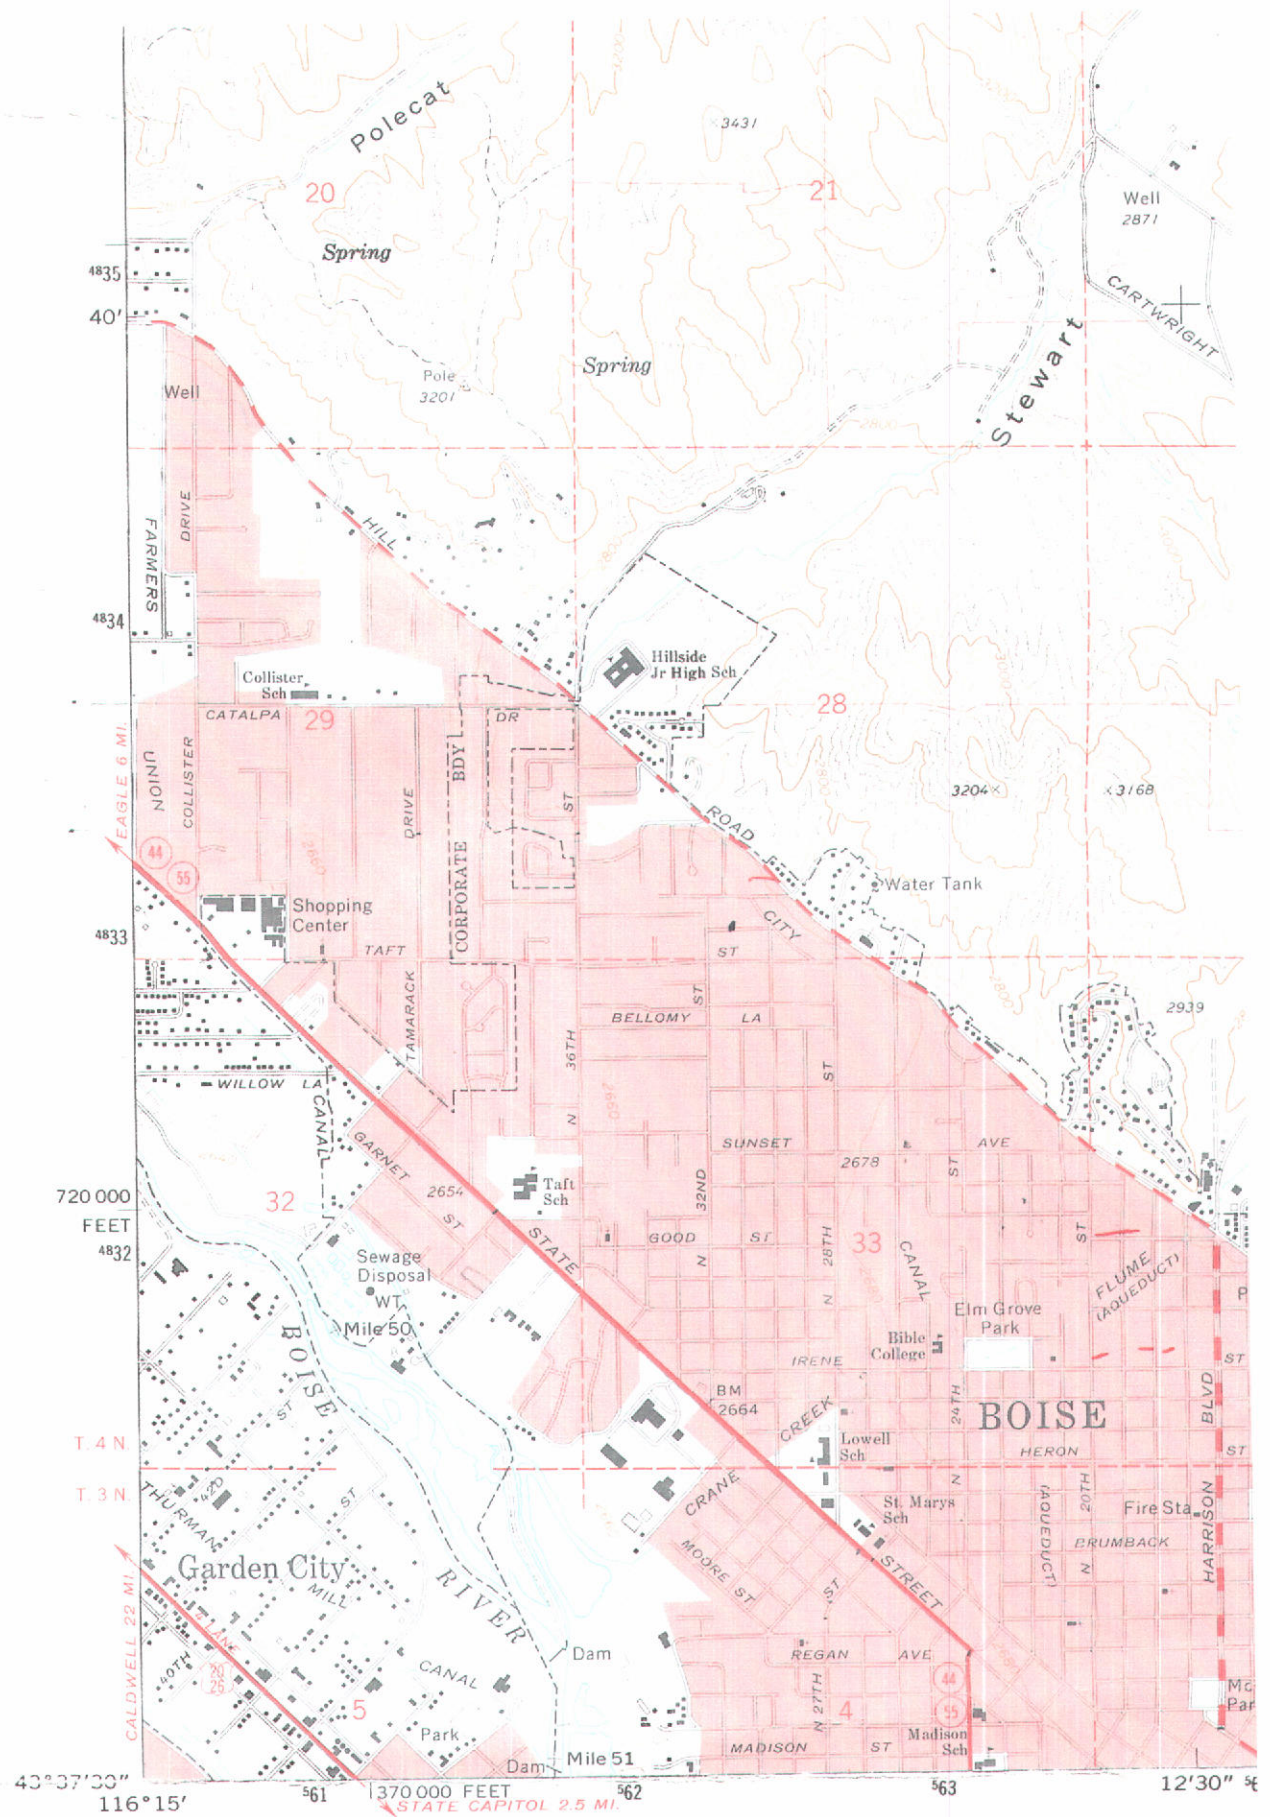

That the defendant ~~THE CANYON COUNTY WATER COMPANY~~, a corporation, be, and it is hereby awarded the use of the waters of Boise River, diverted at a point on the north bank of said river near where the east line of Canyon County intersects said north bank, for use upon the lands lying under its canal system, in the following amount from the following date;

63 0168
3790 inches, from June 1, 1867, and hereby designated as Right No. 35.
And be adjudged to pay \$265.30 costs in addition to the costs incurred by it.

XXXIV.

That the defendant ~~MARTHA E. MCCARTHY~~ be, and she is hereby awarded the use of the waters of Boise River, diverted at a point on the south side of said river on SE 1/4 of NE 1/4, Sec. 5, T. 3 N. R. 2 E. B.M., through what is known as the Thurman Mill Slough or ditch, for use upon lands lying under said ditch, in the following amount from the following date;

63 0169
705 inches, from June 1, 1868, and hereby designated as Right No. 36.
And be adjudged to pay \$49.35 costs in addition to the costs incurred by her.

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTORS REPORT

Name: Boise City Canal Co

Address: PO Box 2157

Boise, ID 83701-2157

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be:

2. ☐ **Source**

Should be:

3. ☐ **Quantity**

Should be:

4. ☐ **Priority Date**

Should be:

5. ☐ **Point(s) of Diversion**

Should be:

6. ☐ **Instream Flow Description**

Should be:

7. ☐ **Purpose(s) of Use**

Should be:

8. ☒ **Period of Year**

Should be: Diversion for irrigation, aesthetic, aesthetic storage, stockwater, and municipal under this right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for the Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, as decreed in SRBA Case No. 39576.

9. ☐ **Place of Use**

Should be:

11. **I object because:**

☐ This water right should not exist.

☐ This water right was not recommended, but should be recommended with the elements described.

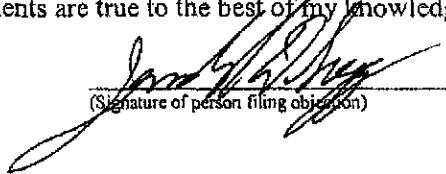

E. **REASONS SUPPORTING EACH OBJECTION(S):** The proposed language is intended to preserve the historical practice of allowing Reclamation's reservoirs to fill until April 1 and after October 31 if necessary.

BOISE CITY CANAL COMPANY

ADDITIONAL INFORMATION ABOUT THEIR CLAIMS AND RECOMMENDATIONS

DATE: APRIL 4, 2005

BY: MEL SCHULTE

Alan Winkle is the company president, Barney Skogerson was the primary contact but is no longer working for the company and Bruce Smith is their attorney. The last amended claim for 63-20041 was submitted by Bruce Smith. Carl Sheets is the ditch rider and very knowledgeable about the system. He met with me several times to show me the POD and several re-diversions sites.

63-20040 was disallowed in favor of Drainage District No. 2's claim 63-31937.

I met several times with the company officers and directors to discuss their claims and proposed options on how to structure a recommendation for their decreed water right claim 63-20041. The options were based on using delivery loss, accomplished transfers of use and one acre for each inch of water leased to United Water. These proposals were shot down by Bruce Smith and he submitted an amended claim based on different criteria.

A primary issue in the review of BCCC claims is how to address the significant changes that have taken place in the place of use and use of their water as the City of Boise and surrounding area developed through the years. The Stewart decree gave BCCC 1903 inches of water (63-165) and the Stewart decree map indicated a place of use of about 1820 to 1850 acres. The place of use has changed significantly from irrigated land to buildings, concrete and asphalt. The records of the company indicate they are now providing water for irrigation of closer to 500 acres rather than 1800 plus acres.

Another issue to be addressed is how to address and account for water that was previously covered by shares returned to the company and now held as treasury shares. The company indicated they now have 1179 treasury shares. They also indicated they lease on a regular basis to United Water 400 inches of water associated with the treasury shares. United Water diverts the 400 inches into their system for use by their customers. We have agreed to give BCCC credit for one acre for each of the 400 inches leased to United Water. The water related to the remaining 779 shares is an unresolved issue.

The current amended claim requests 1956 acres of irrigation within the boundary of BCCC. The 1956 acres represents all of the land within the boundary less roads and streets. This request is unreasonable given the fact the companies own records indicate their shareholders irrigate about 1500 less acres than the 1956 acres requested.

The current claim also requests a live flow aesthetic component of 6.35 cfs for uses within their ditch system. The intention and motivation for this request is to develop a component that can later be sold and moved to another location. Any aesthetics associated with the delivery of their irrigation water is incidental to the irrigation use. In prior discussions with Dave Tuthill about this issue he agreed to allow the aesthetic live flow component but only associated with the flow of water through the ponds at Warm Springs Golf Course, Julia Davis Park and Veterans Park when the ponds are full.

The irrigation component diversion rate includes 11.04 cfs that is not related directly to the 915 irrigated acres. ($915 \times .02 = 18.30$ cfs.---- 29.34 cfs minus 18.30 cfs = 11.04 cfs). The excess diversion rate is considered necessary for delivery loss and carriage water. The delivery loss and carriage water is specific to the Boise City Canal and cannot be transferred to another ditch. Our recommendation for this excess water is based on the fact the Boise River water master has historically diverted all of BCCC's decreed right. However, Nick Spencer found a court case that indicates BCCC could be required to surrender the water relating to shares turned back to the company's control by prior shareholders.

The POD was determined by using GPS and USGS topo map Boise South, Idaho X59.

It appears Bruce Smith wants BCCC's water rights structured without any delivery loss or carriage water associated with the rights, with aesthetic components that can be amended and transferred without interference from the State and every share, including treasury shares, to have attached an acre of use and an inch of water. He wants to have all the components of the decreed right in a form that can be sold and easily transferred by the company.

MTS

Mel

Nick called on Friday with two questions concerning the Boise City Canal Co. treasury shares. First, I'll explain his newest idea vs Bruce Smith's ideas:

Bruce is going on the idea that because the treasury shares were given back to the company and even though they are in the company's control it is not the fault of the company that they have not been used yet and they should still be good.

No! If the company controls it could only be their fault for not finding new users.

Nick & Dave - not yet through Susan & Phil yet - Now looking at it that if we grant those 700 treasury shares to Boise City Canal Co., we could be setting a precedence for someone to establish a delivery entity amongst some users on the same ditch, return unused shares back to that entity, do not re-lease the shares for use by anyone else and basically set up a speculative scheme to later sell the water to others (or something like that). He has found an appealed court case dating back to 1908 in the Boise River decree proceedings that states that if shares are granted and the people turn the shares back to the company, the company does not re-lease them to new users so they are not used again, then they are lost. Because the Peiper decision did not go back and reference this case as being overturned, Nick feels he could harmonize that court case with his idea that because the shares were returned to the company and not re-leased and reused, we could not then recommend the treasury shares as valid.

So, he has two questions that he will likely call on Monday to ask you:

1- In the transfer for Boise City Canal Company where they changed some irrigation use to aesthetic were any of those part of the treasury shares, or was it irrigation rights being previously used (that had shares) and were given up for the aesthetic uses. I suspect they were irrigation rights with shares being used, but we need to check.

In to aesthetic by accomplishing turn of use.

2- Were, or can you tell, if the 700 treasury shares (or any parts thereof) were turned back to the company within 5 years prior to the date the claims were filed for Boise City Canal Company. If not, then they have not yet been forfeited and that will make a difference.

Don't know - the company has not revealed this info!

We can talk about this if I don't make sense here. I tried to type this right after Nick's call and was interrupted a few times, so feel free to come see me.

Jan

4-1-05 - Meeting with Dave, Nick, Jan -

- 1) Stay with current recommendation but change season of use for municipal to 3-1 to 11-15.*
- 2) If the company provides proof that some treasury shares were surrendered to the company within 5 yrs of the claim date (1-2-1990) we can add one acre per share. (No forfeiture within 5 yrs of filing)*
- 3) Nick found a case that indicates BCCC could have to surrender some of their diversion rate. For now the excess diversion is considered carry water in their system.*

Re: Amended SRBA Claim

Dear Bob,

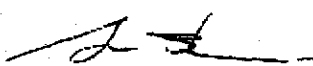

This letter is to inform you that United Water Idaho Inc. ("United Water"), a shareholder in the Boise City Canal Company ("BCCC"), hereby withdraws its independent claim to water right 63-165L for 0.68 cfs in the Snake River Basin Adjudication ("SRBA") based on the following:

First, United Water understands that BCCC has filed a claim in the SRBA to water right 63-20041 for 36.37 cfs that overlaps United Water's claim to water right 63-165L. In other words, the same diversion and use represented by United Water's claim to 0.68 cfs under claim 63-165L is part of the 36.37 cfs claimed by BCCC under right 63-20041. BCCC has assured United Water that BCCC will protect right 63-20041 (or however its claim to 36.37 cfs from the Boise River may subsequently be renumbered and/or split) in the SRBA. Based on this assurance that BCCC will protect United Water's property interests in water right 63-165L through BCCC's SRBA claims, and in reliance on BCCC's obligation to protect United Water's rights, United Water will withdraw its overlapping SRBA claim.

Second, by withdrawing its claim to water right 63-165L in the SRBA, United Water does not relinquish any property interest it holds to water rights as a shareholder in BCCC. Nor does United Water waive its right to assert its ownership rights in a future proceeding. United Water simply acknowledges that BCCC holds legal title to water rights BCCC uses to deliver water to its shareholders, while United Water (and other shareholders) holds equitable title as a shareholder, and based on this division of title, United Water believes it is appropriate for BCCC, and not individual shareholders, to be listed for SRBA purposes as the owner of these water rights.

We have greatly appreciated the working relationship between our companies. BCCC continues to find new ways to put excess water to "work" for the benefit of all parties. As you can understand we want to make sure that all water is properly accounted for during this rigorous review. We look forward to the future and will stand-by to become involved as needed.

Sincerely,

Scott Rhead
Managing Engineer

AMENDED

TRANSFER NO. 4232
WATER RIGHT NO(S). 63-00165L/63-00169F/63-00243E/63-00243H

This is to certify that: BOISE WATER CORP
PO BOX 7488
BOISE ID 83707

has requested a change to the above captioned water right(s). This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code, provided the conditions listed below are met.

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL VOLUME</u>
Right No. 63-00165L : MUNICIPAL Priority: 06/01/1866	03/15 to 11/15	0.68 CFS	167.0 AF
Right No. 63-00169F : MUNICIPAL Priority: 06/01/1868	03/15 to 11/15	0.81 CFS	199.0 AF
Right No. 63-00243E : MUNICIPAL Priority: 05/01/1889	03/15 to 11/15	3.30 CFS	682.0 AF
Right No. 63-00243H : MUNICIPAL Priority: 05/01/1839	03/15 to 11/15	0.93 CFS	172.0 AF

<u>SOURCE</u>	<u>TRIBUTARY OF</u>
BOISE RIVER	SNAKE RIVER

LOCATION OF POINT(S) OF DIVERSION: Lot 7(SENE), Sec. 14, Township 03N, Range 02E
ADA County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.
2. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
3. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
4. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

AMENDED TRANSFER NO. 4232 *AMENDED*
 WATER RIGHT NO(S). 63-00165L/63-00169F/63-00243E/63-00243H

CONDITIONS/REMARKS:

5. Prior to diversion and use of water under Transfer No. 4232, a totalizing flow measuring device and lockable controlling works acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
6. Construction of diversion works is subject to the application of best management practices in accordance with standards utilized in the State of Idaho Stream Protection Program. Specific requirements include the following:
 - a. Turbid water pumped from the construction site shall not be returned directly to the stream (Alternatives are: settling pond, sump hole, irrigation ditch, etc.). Any discharge to a natural waterway shall be in compliance with Idaho Water Quality Standards and Wastewater Treatment Requirements and EPS NPDES permit requirements.
 - b. Fuel, oil, and other hazardous materials shall be stored, and equipment refueled, away from the stream to ensure that a spill cannot enter the stream channel.
 - c. All construction activities shall be conducted in such a manner as to minimize turbidity and other water quality impacts.
 - d. Any structure(s) placed within the stream channel of the Boise River shall be constructed in such a manner as to allow float boat traffic to pass over or around the structure(s) except at very low flows. The IDWR and the Idaho Department of Fish and Game will evaluate the structure(s) as constructed.
 - e. Stream bank vegetation shall be protected to the extent practicable during construction. Care shall be taken to select locations for ingress and egress from the stream that will minimize bank and riparian vegetation damage. Disturbed and eroded areas shall be revegetated with perennial shrubs, grasses, and forbs as recommended by Idaho Department of Fish and Game and/or the local office of the Soil Conservation Service, to reduce erosion, restore bank cover and habitat and inhibit the invasion of noxious weeds.
 - f. All temporary cofferdams shall be constructed of either jersey barriers, sandbags, sheet piling, or other materials reviewed and approved by this Department prior to construction of the cofferdams.
7. Place of use is located within the city limits of Boise and the surrounding service area.
8. Four points of diversion are located within Lot 7, SENE, 514, T03N, R02E.
9. Transfer No. 4232 adds a point of diversion identified as the Warm Springs Water Treatment Plant River Intake to the three existing points of diversion known as Ranney collector diversions.

Dated this 14th day of January, 1994.

J. Blum Saylor

Delivery System Narrative: The main canal and a series of smaller laterals and ditches provide irrigation to shareholders within Boise City. The municipal component is delivered through United Water's system. Stockwater is incidental to the irrigation use. The aesthetic uses are related directly to and conditioned upon the ponds at Warm Springs Golf Course, Julia Davis Park and Veterans Memorial Park. Each pond has its own delivery system to the pond and overflow when full and are unique to each.

Well or Diversion Identification No GPS ID	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge size
NA					

FLOW MEASUREMENTS:

NARRATIVE/REMARKS/COMMENTS

Designated as No. 33 in Stewart Decree

The aesthetic component covers the flow of water through the ponds at Warm Springs Golf course, Julia Davis Park and Veterans Park when the ponds are full. The Diversion to Storage component is the combined site at Julia Davis Park and Veterans Park sites. The Aesthetic Storage combines the ponds at all three sites described above. The three components related to aesthetic uses are limited to the three sites described

Combines 165 K & L

above only. These aesthetic uses are the result of accomplished transfers that changed irrigation to other uses as the city of Boise developed from a rural area to primarily urban uses. The irrigation component consists mostly of small lawns and gardens with a few larger lawns interspersed through the system. Transfer 3559 split the municipal component from the irrigation use. The irrigation use and acres irrigated is composed of the following: 515 irrigated acres plus one acre for each of 400 shares of water leased to United Water Corp.

AFTER EXAM THE FILE SHOULD CONTAIN:

- ☐ Completed claim checklist
- ☐ Photographs of POD's and POU
- ☐ GPS readings
- ☐ Completed map and or GIS layout showing POD's and POU

DATE EXAM CONDUCTED: 5-12-03 with Carl Sheets to view system
5-19-03 for measurements. Numerous meetings with board and
FIELD EXAMINER: attorneys for company - Mel Schultz.

JUN 21 1936

Notes and Mel's responses from meeting with Carl Sheets & Ben Hepler on 9-12-05

During the meeting with the above representative of the Boise City Canal Company a couple of questions were discussed.

One of the questions concerned the omission of the land in the middle of the two boundary shapefiles on the boundary map. According to Mel Schulte he made the boundaries per a map submitted to him by the Boise City Canal Co. If we include the boundaries requested at the meeting then that would also increase the # of acres within the district. Per Mel I am letting the map stay as it is for the Director's Report. If objected to, then a reason for the inclusion of the middle portion can be heard.

Another item discussed was ditch loss. However, Mel Schulte computed delivery loss and carriage water coming up with the historical amount ever delivered to this ditch company. Any more would exceed their decreed rights. This is a combined right for decreed right nos. 63-165K(35.69 cfs) & 63-165L(.68 cfs) for a total of 36.37 cfs which is what has been recommended.

The share issues have been met about several times and it was decided that the company has control of 400 shares for 400 leased to United Water, plus 515 acres which equals 915 acres recommended. The additional 779 shares in question will have to be decided in the objection phase of this procedure.

Water Supply Bank:

BOISE CITY CANAL COMPANY

ADDITIONAL INFORMATION ABOUT THEIR CLAIMS AND RECOMMENDATIONS

DATE: JUNE 28, 2005

BY: MEL SCHULTE

ROBERT JAHN

BEN HEPLER

~~Alan Winkle~~ is the company president, ~~Barney Skogerson~~ ^{is} was the primary contact but is no longer working for the company and Bruce Smith is their attorney. The last amended claim for 63-20041 was submitted by Bruce Smith. Carl Sheets is the ditch rider and very knowledgeable about the system. He met with me several times to show me the POD and several re-diversions sites.

63-20040 was disallowed in favor of Drainage District No. 2's claim 63-31937.

I met several times with the company officers and directors to discuss their claims and proposed options on how to structure a recommendation for their decreed water right claim 63-20041. The options were based on using delivery loss, accomplished transfers of use and one acre for each inch of water leased to United Water. These proposals were shot down by Bruce Smith and he submitted an amended claim based on different criteria.

A primary issue in the review of BCCC claims is how to address the significant changes that have taken place in the place of use and use of their water as the City of Boise and surrounding area developed through the years. The Stewart decree gave BCCC 1903 inches of water (63-165) and the Stewart decree map indicated a place of use of about 1820 to 1850 acres. The place of use has changed significantly from irrigated land to buildings, concrete and asphalt. The records of the company indicate they are now providing water for irrigation of closer to 500 acres rather than 1800 plus acres.

Another issue to be addressed is how to address and account for water that was previously covered by shares returned to the company and now held as treasury shares. The company indicated they now have 1179 treasury shares. They also indicated they lease on a regular basis to United Water 400 inches of water associated with the treasury shares. United Water diverts the 400 inches into their system for use by their customers. We have agreed to give BCCC credit for one acre for each of the 400 inches leased to United Water. The water related to the remaining 779 shares is a separate issue. It is Nick Spencer's opinion the water related to these shares could be lost and do not follow the intentions of the Pieper decision. When shares are returned to the company, the company accepts control of the shares and is responsible to reissue those shares and continue the use of the water relating to those shares. This issue will likely be argued in the objection phase.

The current amended claim requests 1956 acres of irrigation within the boundary of BCCC. The 1956 acres represents all of the land within the boundary less roads and streets. This request is unreasonable given the fact the companies own records indicate their shareholders irrigate about 1500 less acres than the 1956 acres requested. The notice of error filings requests the entire 1956 acres be recognized as irrigated land.

The current claim also requests a live flow aesthetic component of 6.35 cfs for uses within their ditch system. The intention and motivation for this request is to develop a component that can later be sold and moved to another location. Any aesthetics associated with the delivery of their

irrigation water is incidental to the irrigation use. In prior discussions with Dave Tuthill about this issue he agreed to allow the aesthetic live flow component but only associated with the flow of water through the ponds at Warm Springs Golf Course, Julia Davis Park and Veterans Park when the ponds are full.

The irrigation component diversion rate includes 11.04 cfs that is not related directly to the 915 irrigated acres. ($915 \times .02 = 18.30$ cfs,----- 29.34 cfs minus 18.30 cfs = 11.04 cfs). The excess diversion rate is considered necessary for delivery loss and carriage water. The delivery loss and carriage water is specific to the Boise City Canal and cannot be transferred to another ditch. Our recommendation for this excess water is based on the fact the Boise River water master has historically diverted all of BCCC's decreed right. However, Nick Spencer found a court case that indicates BCCC could be required to surrender the water relating to shares turned back to the company's control by prior shareholders.

The POD was determined by using GPS and USGS topo map Boise South, Idaho X59.

It appears Bruce Smith wants BCCC's water rights structured without any delivery loss or carriage water associated with the rights, with aesthetic components that can be amended and transferred without interference from the State and every share, including treasury shares, to have attached an acre of use and an inch of water. He wants to have all the components of the decreed right in a form that can be sold and easily transferred by the company.

We did not change any components of our recommendations after we received the notices of error filing.

MTS

**NOTICE OF ERROR
REPLY**

JUN 23 2005
WATER RESOURCES
WESTERN REGION

Please type or print clearly, fill out this form completely and mail.

Return this for to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: June 24, 2005

Water right number: 63-20041
BOISE CITY CANAL CO
PO BOX 2157
BOISE ID 83701-2157
Telephone Number: (208) 342-7548

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity
Place of Use

2. Describe the changes you wish to make in the proposed recommendation:

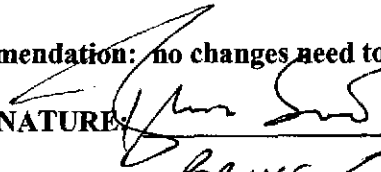

Delete remarks in quantity section.
Place of Use should be 1956 acres.

3. Give a brief explanation as to why you disagree with these portions:

It is not clear what basis there is for including remarks in the quantification section. It should be a quantity, not a recitation of conditions. The place of use for the service area is 1956 acres. This is the entire service area with street area deleted.

____ I AGREE with this proposed recommendation: ~~no changes need to be made.~~

DATE: 6/23/05

The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
2. 155 This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and preceding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and preceding to the earliest, shall be reduced to 60 percent of their decreed quantities.
3. C04 RIGHT INCLUDES ACCOMPLISHED CHANGE IN PURPOSE OF USE PURSUANT TO SECTION 42-1425, IDAHO CODE.
4. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
5. S45 Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.

Remarks:

1. Explanatory THIS RIGHT IS DESIGNATED AS NO 33 IN THE STEWART DECREE AND THE RECORDS OF THE BOISE RIVER WATER MASTER
2. Explanatory THE MUNICIPAL COMPONENT IS USED WITHIN THE SERVICE AREA OF UNITED WATER
3. Explanatory THE STOCKWATER COMPONENT IS INCIDENTAL TO THE IRRIGATION COMPONENT
4. Purpose of Use THE AESTHETIC COMPONENTS OF THIS RIGHT ARE LIMITED TO AND CONDITIONED UPON THE CONTINUED EXISTENCE OF THE PONDS AT WARM SPRINGS GOLF COURSE LOCATED IN T03N, R02E, SEC 13, SWNW, SESW; THE POND AT JULIA DAVIS PARK LOCATED IN T03N, R02E, SEC 10, SESE, NWSE, SWSE, SESW; THE VETERANS PARK SLOUGH POND LOCATED IN T04N, R02E, SEC 32, NESE, SESE, SWSE. THE AESTHETIC COMPONENT DIVERSION RATE OF 6.35 CFS IS FOR THE FLOW OF WATER THROUGH THE PONDS DESCRIBED ABOVE WHEN THE PONDS ARE FULL AND THIS COMPONENT IS CONDITIONED UPON THE EXISTENCE OF THE PONDS DESCRIBED ABOVE.

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 63-20041 V1

5. Explanatory RIGHT 63-31937 IS ALSO DIVERTED THROUGH THE POINT OF DIVERSION DESCRIBED ABOVE AS T03N, R02E, S24, NWNE, LOT 1.
6. Quantity THIS RIGHT WHEN COMBINED WITH ALL OTHER RIGHTS SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE FOR IRRIGATION AT THE FIELD HEADGATE.
7. Explanatory WATER IS DELIVERED THROUGH THE BOISE CITY CANAL
8. Place of Use - Irrigation THIS RIGHT IS LIMITED TO THE IRRIGATION OF 915 ACRES WITHIN THE BOUNDARY OF THE BOISE CITY CANAL COMPANY
9. Explanatory THIS RIGHT IS A COMBINATION OF OLD RIGHT NOS. 63-165K AND 63-165L

To: Shurte, Jan
Subject: Re: Boise City Canal Co and another question

Jan:

First, relative to the question about BCCC and Veterans Park: Thank you for the quick response. Although, I understand that the Park is within the authorized permissible place of use, this may not be enough if the number of acres authorized under the right does not cover all of the calls for water made by the active shareholders in the ditch company either as a request to deliver water on any given day or as part of a mitigation plan filed in response to conjunctive management.

I plan to follow up with Bruce Smith to see if the acres represented by the shares held by IDPR were added to the total acres.

Second: Could you check IDWR's file to see if the recommended place of use for Pioneer Ditch Company under right number 63-183 includes 40 acres within the NENW Section 16, T4N R1W?

Sorry for the bother and thank you for all of your help.

Norm

Subject: Boise City Canal Co

Norm,

There is no shapefile for the place of use for the Boise City Canal Company. After reading through Mel's notes it appears he based the 515 acres of actual irrigation on the Canal Company's records. The 400 shares are counted as 400 acres leased on a regular basis to United Water. This is where the 915 acres come up.

The way I look at it is that if the Veteran's Park has 66 shares, then their acres were counted in the 515 acres. The park is mentioned several times for the aesthetic use, so I know it was not forgotten. The rule we used with the ditch company followed the Pieper decision and that was if the landowner had been paying for shares and the land had been irrigated, then the acres were counted. It appears Mel got his information on the acres from Carl Sheets and Barney Skogerson.

If need be I can call Mel and ask him about this. The bottom line is that the Verteran's Park is included in the boundaries and if they pay shares and the land was irrigated at one time in the past, then they should have been counted.

Let me know if you want me to call Mel.

REVISED EXHIBIT A
BOISE CITY CANAL COMPANY
AMENDED NOTICE OF CLAIM (36.37 cfs)

Part I (Item 5)

Description of existing diversion works:

35.69 cfs is diverted by a concrete dam approximately 3 ft. high which spans the Boise River east of the Warm Springs Golf Course. The water flows into a channel then through two headgates into the canal. The headgates are approximately 2' x 3' each and are located about 500-600 feet from the river on the Warm Springs Golf Course. Users take water from the canal by gravity flow, pumps and two operating waterwheels. There are approximately 40 lateral headgates diverting from the canal.

0.68 cfs is diverted by Boise Water Corp. via four (4) ranney collectors into its distribution system. Ranney collectors draw shallow groundwater from the alluvium near the bank of the Boise River. Three (3) collectors are located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SEC.14, T.3N, R.2E and one (1) is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SEC.5, T.3N, R.2E.

Part II (Item 6)

Water is claimed for the following purposes:

For Irrigation purposes from 3/15 to 11/15 amount 35.69 cfs.

For Municipal purposes from 3/15 to 11/15 amount .68 cfs

For Stockwater purposes from 3/15 to 11/15 amount .17 cfs
[Incidental to irrigation - non-additive]

For Aesthetic/Wildlife purposes from 3/15 to 11/15 amount 15.0 cfs
[Flow through canal and laterals - non-additive]

For Storage for Aesthetic purposes from 3/15 to 11/15, amount 46.44 acre feet

Part III (Item 8)

Consumptive use for:

(a)	Acres irrigated directly from canal -	1,642.62 acre-feet
(b)	Acres irrigated via United Water -	<u>779.33</u> acre-feet
	TOTAL	2,421.95 acre-feet

Part IV (Item 9)

Description of non-irrigation uses:

Municipal use is within the certificated area for United Water Idaho Inc.

Stockwater use is scattered among shareholders (a few head here and there and is incidental to irrigation use - see computer printout attached as Exhibit E to the original claim [Ident. Number A63-20041] filed January 2, 1990). In 1989, the shareholders collectively reported the following livestock use: 38 horses; 23 cows; 16 sheep; 3 goats; 12 chickens. The amount claimed has been treated as non-additive and was calculated by multiplying .01 cfs by the number of quarter-quarters (17) in which one or more shareholders claimed stockwater use.

Aesthetic uses include: (i) the marsh at Veteran's Park, the two ponds on the Warm Springs Golf Course and the duck, paddle boat and zoo ponds and waterways at Julia Davis Park which together require about 6 cfs of flow; and (ii) users along the canal and the laterals describe numerous landscaped pools, "creeks," "waterfalls," waterwheels, ditches, ditchbanks, ditchbank landscaping, and other aesthetic features throughout the use area. The canal and its laterals are also used by shareholders to create wildlife habitat. Many of the shareholders surveyed described aesthetic uses and a synopsis of those remarks is in the "Comment" column of the computer print-out attached as Exhibit E to the original claim (Ident. Number A63-20041) filed January 2, 1990. The claimant believes that, due to the unusual urban setting of this canal, the entire amount of claimant's Stewart Decree right could be claimed for aesthetic use, however, the high cost of the filing fee prevented claimant from filing on the full amount.

Storage for Aesthetic purposes is the acre feet capacity of the ponds and marsh described under aesthetic use above. That storage was calculated as follows:

<u>Nature of Storage</u>	<u>Dimensions</u>	<u>Acre Feet</u>
Marsh-Veteran's Park	.70A X 2 ft.	1.40
Ponds/Waterways Julia Davis Park	8.26A x 4 ft.	33.04
Two Ponds-Golf Course	3A x 4 ft.	<u>12.00</u>
TOTAL		46.44

Part V (Item 14)

Remarks:

1. The places of use described in Revised Exhibit D [as of 2001] are within the boundary of the service area of Boise City Canal Company ("BCCC").

2. A calculation of water use for land irrigated directly from the canal or through delivery of water to United Water for irrigation and/or municipal uses is attached as Revised Exhibit B. This calculation shows total use of 29.259 cfs. The balance of claimant's water right (36.37 cfs - 29.259cfs = 7.11 cfs) is absorbed through ditch loss and/or is necessary carry water and/or is also used for aesthetic and wildlife purposes as described herein.

3. The ponds on the Warm Springs Golf Course are both aesthetic and functional. The canal flows directly into and through one of the ponds. Water is pumped from the ponds to irrigate the golf course.

4. Water Right No. 63-00165K (35.69 cfs) and Water Right No. 63-00165L (0.68 cfs) are both part of claimant's Stewart Decree water right (formerly No. 63-00165J, collectively). The Department apparently assigned these separate numbers upon approval of Transfer No. 3559 pertaining to Water Right No. 63-00165J. The transfer permitted a change in the point of diversion and nature of use of 0.68 cfs. of claimant's decreed water right. After entry of the order, Boise Water Corporation became a shareholder in Boise City Canal Company and as a shareholder became entitled to divert water in the amount and at the location approved by the Department. The 0.68 cfs is now diverted by United Water through its ranney collectors described in Item 5 of this Notice of Claim. BCCC is the owner of Water Right No. 63-00165L. The water right itself was not sold or otherwise transferred to United Water (formerly, Boise Water Corporation).

5. BCCC and United Water entered into a Lease Agreement dated June 7, 2000 pursuant to which BCCC has leased "100 Base Shares" to United Water for a term of 10 irrigation seasons. The Lease Agreement also provides that, subject to availability, the parties may agree to lease additional shares on an annual basis. The water is diverted from the canal through a headgate (Lateral No. 3) and piped to a United Water treatment facility. For the 2001 irrigation season, BCCC delivered 6.0 cfs of water to United Water pursuant to the Lease Agreement. This Lease Agreement allows BCCC the flexibility to fully utilize its water from year to year while meeting the challenges of a constantly fluctuating shareholder base and varying weather conditions.

EXHIBIT A
TO
BOISE CITY CANAL COMPANY
NOTICE OF CLAIM (36.37 cfs)

PART I

Description of existing diversion works:

- 35.69 cfs is diverted by a concrete dam approximately 3 ft. high which spans the Boise River across from the old Gate City Steel factory. The water flows into a channel then through two headgates into the canal. The headgates are approximately 2' x 3' each and are located about 500-600 feet from the river on the Warm Springs Golf Course. Users take water from the canal by gravity flow, pumps and two operating waterwheels. There are approximately 47-50 lateral headgates diverting from the canal.
- .68 cfs is diverted by Boise Water Corp. via four ranney collectors equipped with pumps, lockable control devices and totalizing flow measuring devices into its distribution system. Ranney collectors draw shallow groundwater from the alluvium near the bank of the Boise River. Three collectors are located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SEC.14, T.3N, R.2E and one is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SEC.5, T.3N, R.2E.

PART II

Water is claimed for the following purposes:

For Irrigation purposes from 3/15 to 11/15 amount 35.69 cfs

For Municipal purposes from 3/15 to 11/15 amount .68 cfs

For Stockwater purposes from 3/15 to 11/15 amount .17 cfs
[Incidental to irrigation - non-additive]

For Fish Propagation purposes from 3/15 to 11/15 amount .09 cfs
[Flow through research ponds - non-additive]

For Storage for Fish Propagation purposes from 3/15 to 11/15
amount .37 acre feet

MICROFILMED

SEP 02 1992

For Aesthetic/Wildlife purposes from 3/15 to 11/15 amount
15.0 cfs

[Flow through canal and laterals - non-additive]

For Storage for Aesthetic purposes from 3/15 to 11/15 amount
46.44 acre feet

PART III

Description of non-irrigation uses:

Municipal use is within the certificated area for Boise Water Corp.

Stockwater use is scattered among shareholders (a few head here and there - see computer printout attached as Exhibit E) and is incidental to irrigation use. Collectively, the shareholders currently report the following livestock use: 38 horses; 23 cows; 16 sheep; 3 goats; 12 chickens. The amount claimed has been treated as non-additive and was calculated by multiplying .01 cfs by the number of quarter-quarters (17) in which one or more shareholders claimed stockwater use.

Fish Propagation of exotic species occurs in a group of research ponds located off Warm Springs Avenue. During the irrigation season, the ponds use canal water heated by waste water from the Boise Warm Springs Water District geothermal system. See Exhibit C for a diagram of the fish ponds and more information on use of water.

Storage for Fish Propagation purposes is the holding capacity of the research ponds described under fish propagation use above.

Aesthetic uses include: (i) the marsh at Veteran's Park, the two ponds on the Warm Springs Golf Course and the duck, paddle boat and zoo ponds and waterways at Julia Davis Park which together require about 6 cfs of flow; and (ii) users along the canal and the laterals describe numerous landscaped pools, "creeks", "waterfalls", waterwheels, ditches, ditchbanks, ditchbank landscaping, and other aesthetic features throughout the use area. The canal and its laterals are also used by shareholders to create wildlife habitat. Many of the shareholders surveyed

MICROFILMED

SEP 02 1992

described aesthetic uses and a synopsis of those remarks has been entered in the "Comment" column of the computer print-out which is attached as Exhibit E. The claimant believes that due to the unusual urban setting of this canal, the entire amount of claimant's Stewart Decree right could be claimed for aesthetic use, however, the high cost of the filing fee prevents claimant from filing on the full amount.

Storage for Aesthetic purposes is the acre feet capacity of the ponds and marsh described under aesthetic use above. That storage was calculated as follows:

<u>Nature of Storage</u>	<u>Dimensions</u>	<u>Acre Feet</u>
Marsh-Veteran's Park	.70A x 2 ft.	1.40
Ponds/Waterways Julia Davis Park	8.26A x 4 ft.	33.04
Two Ponds-Golf Course	3A x 4 ft.	<u>12.00</u>
TOTAL		46.44

PART IV - REMARKS

1. The property listed as place of use in Exhibit D is within the service area of Boise City Canal Company.
2. A calculation of water use for land irrigated with canal water is attached as Exhibit B. This calculation shows total use of 28.09 cfs. Claimant believes that the remainder of its water right for irrigation purposes ($35.69 - 28.09 = 7.6$ cfs) is absorbed through ditch loss and/or is necessary carry water. Claimant requests that ditch loss and necessary carry water be considered in calculating the allowable amount of this claim. Claimant has filed another notice of claim on 3.01 cfs of water apportioned to it under Drainage District No. 2. The water under both this claim and the claim for 3.01 cfs are diverted into the canal at the same point of diversion and the 3.01 cfs is also necessary carry water for the irrigation water described in this claim. Claimant's ditch rider, Mr. John Wilson, has stated to claimant that the full amount of both of claimant's water rights

MICROFILMED

SEP 02 1992

must be turned into the canal in order to allow water to reach users at the end of the canal.

3. The ponds on the Warm Springs Golf Course are both aesthetic and functional. The canal flows directly into and through one of the ponds. Water is pumped from the ponds to irrigate the golf course.

4. On the quarter section maps contained in Exhibit F, the pink highlighted outlines indicate parcels for which associated shares have been surrendered to the Canal Company within the last four years and are now held as treasury stock. Based on reasonable investigation, Claimant believes that the water associated with these shares has, in each case, been used within the last five years. Claimant is seeking new users to purchase the shares and expects use of the water to be reinstated shortly.

5. Water Right No. 63-00165J and Water Right No. 63-00165L are both part of claimant's Stewart Decree water right and have the same priority date. Water Right No. 63-00165L was assigned to .68 cfs when a change in point of diversion was approved by order of the Department dated June 2, 1989. After entry of the order, Boise Water Corporation became a shareholder in Boise City Canal and as a shareholder is entitled to divert water in the amount and at the location approved by the Department. The .68 cfs is now diverted by Boise Water Corporation through its ranney collectors described in item 5. Claimant Boise City Canal Company, continues to be the owner of Water Right No. 63-00165L. The water right per se was not sold to Boise Water Corporation.

FY '90 Action Plan Highlights. During FY '90, the Division will continue to promote cooperative ventures utilizing the expertise of Idaho businesses, the research capabilities of INEL and the state's higher education system. By facilitating technology transfer and promoting investment, the Division will insure that knowledge gained at INEL and elsewhere translates into quality jobs for Idahoans and expanded business opportunities for Idaho!

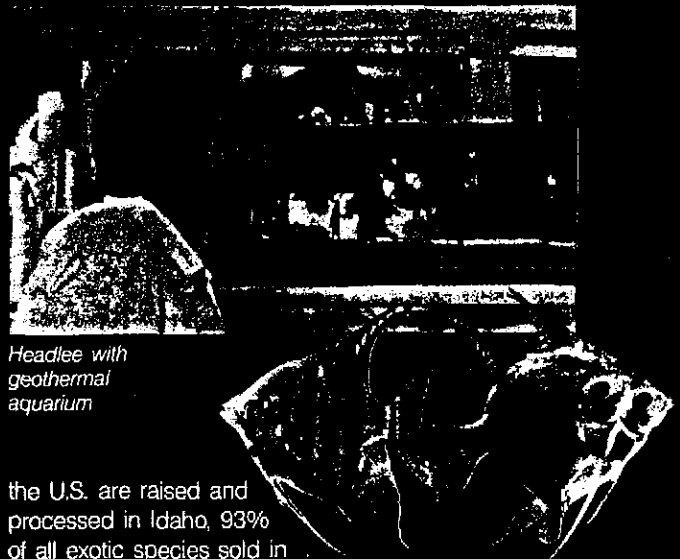

Exotic Fish Thrive in Idaho's Geothermal Waters

The Albino Red Tail Shark. The Blue-Eyed Plecostomus. The Red-Faced Angel Fish.

These fish are not well known species in Idaho today, but in coming years, they could be an important new business in Idaho. The reason is our plentiful geothermal water.

On a national scale, there is a large and growing market furnishing exotic fish for aquariums. At the present time, while 90% of all commercial trout sold in

Headlee with
geothermal
aquarium

the U.S. are raised and processed in Idaho, 93% of all exotic species sold in the U.S. are imported from foreign breeders. In Boise, L. M. Headlee is working to change that percentage and to help develop Idaho's geothermal assets into new business opportunities.

Headlee has teamed his 15 years of tropical fish breeding with Planning Dynamics Corporation to serve as the catalyst for development of new fish breeding operations in Nampa and New Meadows.

Very soon Idaho will likely have to expand its definition of aquaculture to include "exotic."

line of Canyon County intersects said north bank, for use upon the
lands lying under its canal system, in the following amount from the
following date;

63 0168
3790 inches, from ~~June 1, 1867~~, and hereby designated as Right No. 35.
And be adjudged to pay \$265.30 costs in addition to the costs incurred by it.

XXXIV.

That the defendant ~~MARY J. BURTON~~ be, and she is hereby awarded
the use of the waters of Boise River, diverted at a point on the south
side of said river on SE 1/4 of NE 1/4, Sec. 5, T. 3 N. R. 2 E. B.M.,
through what is known as the Thurman Mill Slough or ditch, for use upon
lands lying under said ditch, in the following amount from the following
date;

63 0169
705 inches, from ~~June 1, 1868~~, and hereby designated as Right No. 36.
And be adjudged to pay \$49.35 costs in addition to the costs incurred
by her.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT

PART 2

(Attach one copy for each right)

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by:

- a. Decree No. _____ Decreed to _____
 in case of _____ vs. _____
 dated _____ in _____ county of _____
- b. License No. 63-00165L issued by the Idaho Department of Water Resources.
- c. Claim No. _____ on file with the Idaho Department of Water Resources.
- d. Transfer No. 3559 ("BCCC transfer") which produced this right.

2. Attach a copy of last year's tax notice for the property to which the water right is appurtenant or other documents which show ownership. Label document as attachment A. Check appropriate box below: Not applicable.

☐ Tax Notice ☐ Warranty Deed ☐ Other _____

3. Source of water Boise River tributary to Snake River

4. Date of priority June 1, 1866

5. Water is used for the following purpose:

amount 2.025 cfs for Municipal purposes from Mar. 15 to Nov. 15
 (cfs/ac-ft) _____
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft) _____
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft) _____

6. Total amount of water under right 0.68 cubic feet per second and/or 167 acre-feet per annum.

7. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion
		SE	NE	14	3N	2E	Ada	Marden Ranney collectors

8. Lands irrigated or place of use: Current and future service area in and near the City of Boise, Idaho

Twp.	Rge.	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total acres _____

9. Describe any other water rights used for the same purpose as described above See Attachment A.

and said cause having been regularly tried and submitted to the court for its decision, and the court having considered the evidence and being fully advised in the premises, makes and files its findings of fact ^{and conclusions of law} and directs judgment to be entered in accordance therewith.

Whereupon it is ordered, adjudged and decreed as follows;

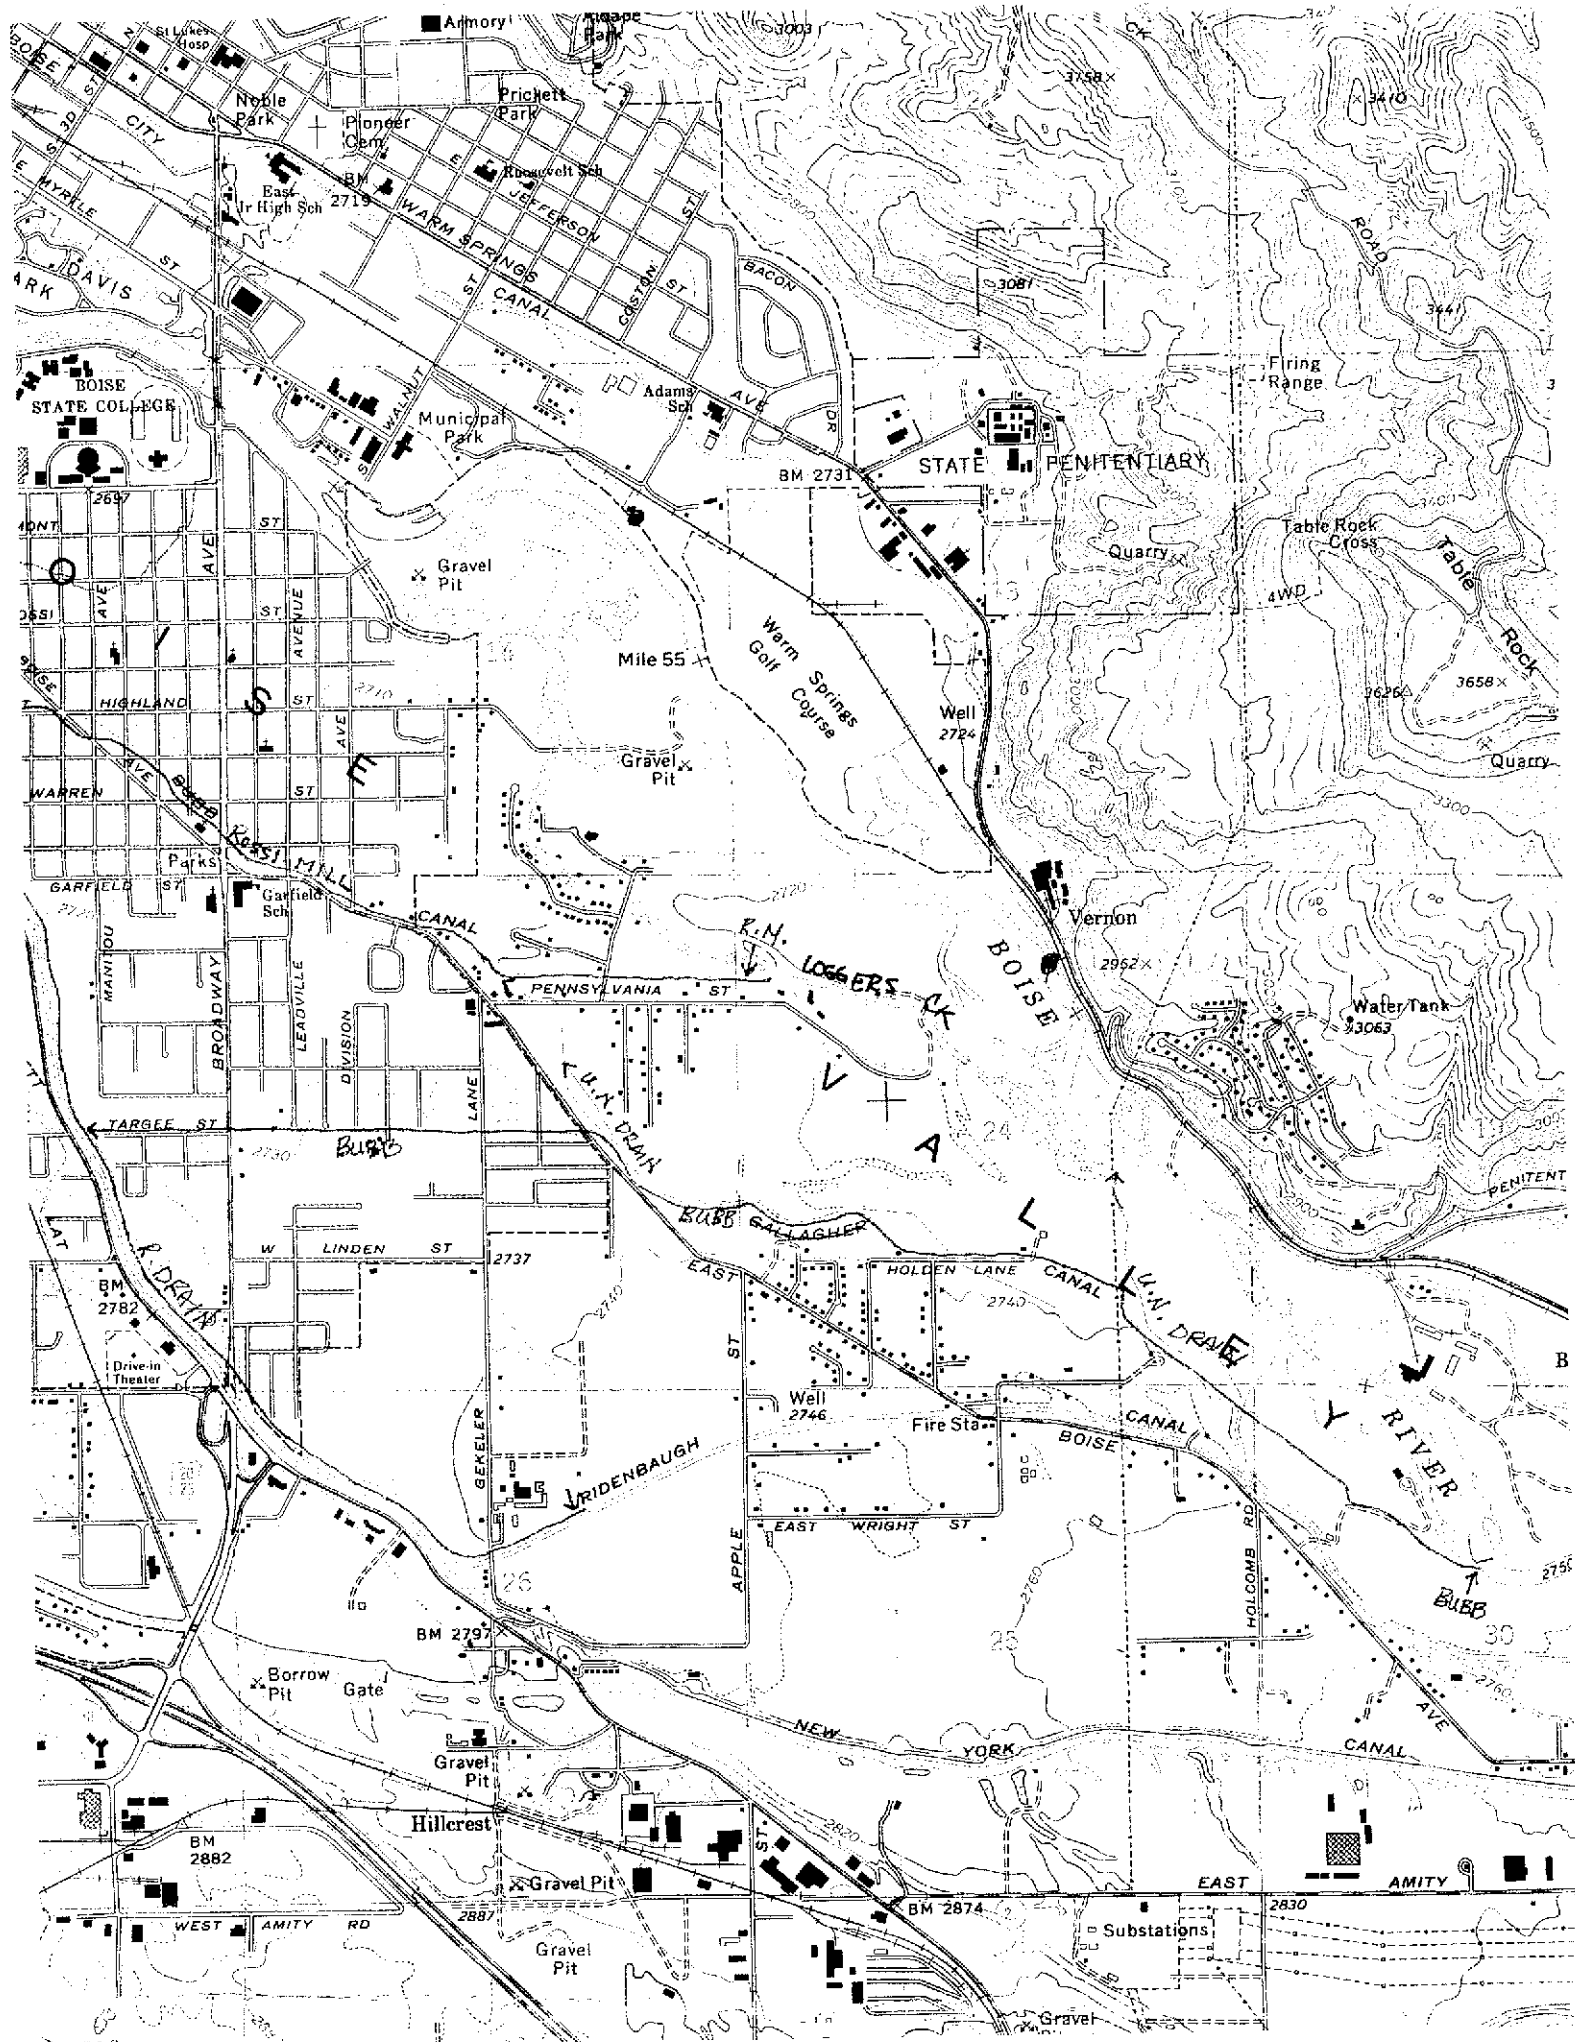

1. That each and every of the tracts of land described in the complaint, answers and cross-complaints in this action as belonging to the several parties, or tributary to the canals of certain parties plaintiff and defendant herein, are arid in character and require the artificial application of water to render them valuable for agricultural purposes.
2. That the quantity of water required for the successful irrigation and cultivation of said lands, measured at the intake of the respective ditches under a four inch pressure, is one inch per acre for bench lands, and one and one-tenth inch per acre for bottom lands.
3. That the quantity of water to which each of the parties to this action is entitled under this decree, shall be measured at the point or points of diversion thereof.
4. It is further ordered, adjudged and decreed that none of the parties hereto, or their successors in interest, shall have a right to the use of the waters of Boise River herein awarded, except for a beneficial purpose; and that whenever the beneficial use has ceased, such party or parties shall cease to divert and have no right to divert the said waters; that each and every of the parties hereto, their servants, attorneys, employees, privies and successors in interest, are hereby enjoined and restrained from any and all interfer-

ence with or diversion or use of the waters of said Boise River, except as provided in this decree, whenever such interference, diversion or use would in any manner interfere with the quantity of water awarded by this decree to any of the other parties to this action.

5. It is further ordered, adjudged and decreed that the complaint, answers and cross-complaints and all pleadings filed in this cause be and the same are hereby amended to conform to the facts as found by the court herein.

6. That each of the parties to this action or their predecessors in interest, whose rights are adjudicated by this action, did respectively appropriate and divert from the Boise River the quantities of water hereinafter stated, and on the dates respectively as hereinafter stated, such water being estimated and measured under a four inch pressure and did respectively appropriate and divert such quantities of water for a beneficial use, and that ever since said dates of the several appropriations such water has been by said parties and their grantors and predecessors in interest so diverted and used.

7. That the following named parties, parties to this action, are entitled to the use of the waters of Boise River upon the lands mentioned and described in the complaint and cross-complaints and answers herein, in the following amounts and from the following dates, to-wit;

Memorandum

TO: Dave Shaw
FROM: Dave Tuthill *DT*
DATE: September 15, 1989
RE: Recommendation for Approval of Extension of Time to File Adjudication Claims

Representatives from Boise City Canal Company began in the fall of 1988 to prepare recordings of their water rights in anticipation of filing claims in the SRBA. Their research resulted in the filing of an application for transfer which disposed of water rights on 65 parcels for which use had ceased within the past 5 years. Representatives from the Company actively pursued approval of this transfer, and were timely in all their submittals of information. Thus, I recommend approval of the attached request.

If you feel that adequate justification of extension has not yet been provided, please advise and Western Region can provide additional support for the request.

**REQUEST FOR EXTENSION OF TIME
TO FILE ADJUDICATION CLAIM(S)**

RECEIVED
SEP 07 1989

Department of Water Resources
Western Regional Office

The Idaho Department of Water Resources will consider this form as a request by the claimant for an additional period of time in which to file claim(s) beyond the 90 days allowed by Section 42-1409(10), Idaho Code.

Boise City Canal Company (208) 343-8183
Name of Claimant Phone Number

P.O. Box 931 Boise Idaho 83701
Mailing Address City State Zip

Ada September 8, 1989
County(s) where place of use is located Date claim originally due
(1) Water Right No. 63-00165J for 36.37 cfs under Stewart Decree and
(2) 3.01 cfs under order of Judge Brink dividing drainage water
Identify water right(s) for which extension is requested in drainage District No. 2.

State why an extension of time is requested explaining how a diligent effort has been made to meet the deadline:

1. The Canal Company learned only a short time ago of the existence
of the drainage water right and does not yet have all information
required to complete the Filing. 2. In the fall of 1988, the Canal
Company was involved in a complex, time-consuming application for
transfer of some of its water to Boise Water Corporation. The
application was approved in June, 1989, and has a direct impact on
the Canal Company's Notice of Claim filings. The Company lacked the
manpower and financial resources to complete both projects so close
together in time.

Claimant requests an extension to December 31, 1989
