IN THE DISTRICT COURT OF THE SEVENTH JUDICIAL DISTRICT
OF THE STATE OF IDAHO, IN AND FOR CANYON COUNTY.

LIZZIE HUCKRA AND WILLIAM HUCKRA
wife and husband,

Plaintiffs,

vs.

A. V. Tallman, as watermaster,
having charge of the Distribution
of the Waters of Boise River,
Defendant.

JUDGMENT AND DECREE,

This cause came on for hearing in open court, on the 12th day of April 1920 Hays Martin Cameron & Hays, appearing for the plaintiffs and neither the defendant nor anyone else appearing either in person or by attorney, in opposition to the plaintiffs; the court having heard all of the evidence, and proof adduced herein, and having examined the files and duly considered the same, and being fully advised in the premises, and it appearing therefrom to the satisfaction of the Court;

1. That the summons in this action, together with a copy of the complaint herein, was duly and personally served upon the defendant in this action, and that said defendant has been duly and regularly summoned to answer the plaintiffs complaint in this action; and that the time within which the said defendant may appear herein has expired and that the defendant has made default in that behalf and that the default of said defendant for not appearing and answering under plaintiffs' complaint has been duly and regularly entered herein; that the plaintiffs have caused to be published for four weeks a notice of the pendency and purpose of this action in a newspaper, to-wit: The Oildwell Tribune, as ordered by the Judge of this court which notice contained the title of this court and of this cause and the name of the stream, to-wit: the Boise River, in whose waters the plaintiffs

claim an interest with the date of priority claimed by plaintiffs and the date and short title of the decree heretofore entered fixing the permanent rights of the waters of Boise River; that the time fixed by the Court for the publication of said notice in its said order has expired and no interested party nor any one else has appeared and defended against the rights claimed by the plaintiffs.

NOW, THEREFORE, On motion of Hays Martin, Cameron & Hays, it is ordered, adjudged and decreed as follows:-

That the lands described in plaintiffs' complaint as belonging to the plaintiffs are arid in character and require the application of irrigation water to render them valuable for agricultural purposes, and are what are commonly termed Boise River Bottom lands.

That the quantity of water required for the successful irrigation and cultivation of plaintiffs land for which a water right is hereby decreed, measured at its Point of diversion from Boise River is _____ inches per acre.

That the quantity of water to which the plaintiff is entitled under this decree shall be measured at its point of diversion from Boise River.

That the plaintiffs nor their successors in interest shall have a right to the use of the waters of Boise River herein awarded, except for a beneficial purpose; and that whenever the beneficial use has ceased, such parties shall cease to divert and have no right to divert said waters.

That the pleadings herein be and the same hereby are amended to conform to the facts as found by the court herein.

That the predecessors in interest of the plaintiffs did appropriate and divert from the waters of Boise River the quantity of water on the date hereinafter stated, such water being

estimated and measured under a four inch pressure and did appropriate and divert such water for a Beneficial use and ever since the date of such appropriation such water has been used by the plaintiffs and predecessors in interest as so diverted and used.

That the plaintiff is entitled to the use of water of ~~Boise River~~ upon the lands mentioned and described in plaintiffs' complaint and is hereby awarded the use of the waters of Boise River diverted at a point on the north side of said river in Section 14, Township 4 North Range 1 East, Boise Meridian, in Ada County, Idaho, for use upon the following described lands in Ada County, Idaho.:-

Commencing at the quarter section corner common to sections nine (9) and sixteen (16) township four (4) north Range one (1) East of Boise Meridian, and running thence South $35^{\circ}34'$ West a distance of Seven and fifty and two-thirds ($7.50 \frac{2}{3}$) chains to a stone, thence North $0^{\circ}30'$ East a distance of 14.79 chains to a stone, thence South $88^{\circ}58'$ East a distance of 7.44 chains to a stone thence South a distance of 15.45 chains to an iron pin, the place of beginning. Area, Ten and fifteen hundredths acres, in the following amount from the following date;

63 0259
inches from May 1st, 1883.

That the plaintiffs shall pay all costs arising under this action.

That the said waters shall be distributed to the plaintiffs in the same manner as though they had had their rights included in that decree adjudicating the waters of Boise River dated January 18, 1906 in that action in the District Court of the Third Judicial District of the State of Idaho in and for Canyon County, entitled "Farmers Co-operative Ditch Company, (a corpor-

ation) plaintiff, vs. Riverside Irrigation District Limited
a corporation et als. defendants."

That the number of inches of water per acre required for
irrigation and hereby decreed and the corresponding total num-
ber of inches of water hereby awarded shall be in accordance with
the duty of water for Boise River Bottom Lands as the same shall
be hereafter determined in a suit for the purpose now pending in
this court entitled "Farmers Co-operative Ditch Company (a corpor-
ation) Plaintiff vs. Riverside Irrigation District Limited, a cor-
poration, et als., Defendants." and when the duty of water is
so determined in said suit. on motion of plaintiffs, the blanks
left in this decree for the insertion of the number of inches
shall be filled and completed to accord with the duty of water as

The main contact for New Dry Creek Ditch is their president, Dana Purdy (286-9701). He assisted in the review of the boundary and place of use map, the location of their POD and measurements to estimate delivery loss in their canal.

There are no major issues of concern with the New Dry Creek Ditch Company claims except for the number of acres the rights will be limited to in our recommendations as discussed below. They share a POD and canal with New Union Ditch, which might motivate New Union to have an interest in New Dry Creek's recommendations and boundary map. There is an overlap of New Dry Creek's boundary at the extreme West edge with the East boundary of Middleton Irrigation because Circle DJ Ranch is a shareholder of both companies. There is also an overlap with New Union Ditch boundary at the East side of New Dry Creek boundary for the same reason.

The historical boundary and place of use was not easy to ascertain because the historical place of use is an area of rapid residential and commercial development in the Eagle area. A final review of the boundary and place of use was made with Dana Purdy, two board members and Bryce Farris in the offices of Ringert Clark on June 7, 2005.

The acre limitation of 2709.5 acres is less than the 2964 acres claimed and the 3059 acres described in the water master's records. The 2709.5 acre number is based on digitized acres of 2604.5 plus 10 shares allocated to Circle DJ Ranch plus 75 shares within the City of Eagle. Using the 2709.5 acres at an inch per acre makes it necessary to include delivery loss in order to show beneficial use of the companies 62.09 cfs of decreed water. It's interesting to note that the maximum monthly diversions into the New Dry Creek/New Union Ditch canal have shown a continued decline through the years. The declining diversion rates might support what appears to be a reduced number of irrigated acres through the years due to the increased subdivision development in the Eagle area.

New Dry Creeks claim for credited wastewater, 63-17468 was disallowed in favor of Drainage District No 2's right 63-31937. This matter was discussed with New Dry Creek's officers and board by Bryce Farris and does not seem to be a concern for the company.

There are no major issues of concern with the New Dry Creek Ditch Co claims except for the number of acres the rights will be limited to in our recommendations as discussed below. They share a POD and canal with New Union Ditch, which might motivate New Union to have an interest in New Dry Creek's recommendations and boundary map. The acre limitation of 2517.8 acres is less than the 2964 acres claimed. The 2517.8 acre number is based on digitized acres and is open for scrutiny. Using the 2517.8 acres at an inch per acre makes it necessary to include delivery loss in order to show beneficial use of the companies 62.09 cfs of decreed water. The water master's records indicate a place of use of 3059 acres. It's interesting to note that the maximum monthly diversions into the New Dry Creek/New Union Ditch canal have shown a continued decline through the years. The declining diversion rates might support what appears to be a reduced number of irrigated acres through the years due to the increased subdivision development in the Eagle area.

**Re: Lost River Estates
94-73-PDR/94-41-ZC**

Dear Mr. Nickel:

The purpose of the New Dry Creek Ditch Company (NDCDCo.) is to provide the continuing flow of water to our shareholders. New development is in no way to impede this delivery, or add to the expense of providing this service.

The delivery canal and maintenance road easement must be fenced from the development. The fencing must be a minimum of 6 feet high and of a non-burnable material. No bike path, greenbelt, bridle path or other public use will be allowed within the easement. This is to guard against unauthorized tampering with the headgate system and to protect the public from the water velocity associated with the canal and the headgates.

No landscaping will be allowed to infringe upon the canal's easement. Grass will be allowed within a ten foot setback from the outside of the easement road and the opposite canal bank.

Bridges to be constructed across the canal must have the written approval of Ada County Highway District and the NDCDCo. No round culverts are accepted without the written approval of the NDCDCo. NDCDCo feels the two entrances from Park Road are unnecessary and should be abandoned or reduced to one canal crossing with an additional entrance to the development being supplied via Curlew Court being extended to Beacon Light Road.

No storm drain water, heatpump water, or any wastewater will be allowed to be discharged into the delivery canal. Water shares shall be retained for irrigation of the development. The homeowner's association will be responsible for paying the annual water assessment and managing the water delivery within the development's boundaries.

Sincerely,

Lynne Sedlacek, Bookkeeper
