HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

RECEIVED

By order of the court, any document filed with the court will be mailed only to those parties who have been directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months.

The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive) (cfs) (acre feet)

For DOMESTIC purposes from 1/1 to 12/31 amount 0.15 or

For COOLING purposes from 1/1 to 12/31 amount 0.15 or

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

LIMITED POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS:

Idaho Power Company, an Idaho corporation, hereby nominates and appoints James C. Tucker of the law firm of Rosholt, Robertson & Tucker, with offices in Boise, Idaho, and Twin Falls, Idaho, as attorney-in-fact with full authority to act for and on behalf of Idaho Power Company, to authorize, prepare, and/or sign any and all documents, claim forms, amendments, or any other document or instrument required or necessary to protect the interest of Idaho Power Company related to its water rights, including, but not limited to, any and all documents necessary to be filed in the Snake River Basin Adjudication.

Idaho Power Company's agent is hereby authorized to sign, seal, and deliver, as its act and deed, those said instruments of writing that may be necessary or proper to carry into execution and effect all claims relating to Idaho Power Company's water rights as above-mentioned. Further, Idaho Power Company hereby declares that each and every agreement, receipt, or payment which shall be by its said agent given, made or done for the aforesaid purposes shall be as good, valid, and effectual as if they had been signed, sealed, and delivered by Idaho Power Company in its own proper representative; and Idaho Power Company hereby undertakes at all times to ratify whatsoever its said agent shall lawfully do or cause to be done in or concerning the said premises by virtue of these presents.

IN WITNESS WHEREOF, Idaho Power Company has hereunto executed this Limited Power of Attorney this 14th day of August, 1992.

~~63-2785, 63-3024~~, 63-3058, 63-3118, 63-3544**

The Idaho Department of Water Resources is currently reviewing the claim to a water right you filed during claims taking in the Snake River Basin Adjudication (SRBA). During the initial review of this claim, we found that you claimed a commercial use that requires a volume amount be included in our recommendation to the SRBA Court (please refer to the enclosed copy of your adjudication claim report: under **Annual Volume**). In order for us to calculate your annual volume, it is necessary that we ask for additional information not gathered when you, or the original claimant, filed this water right.

Please refer to the **Commercial Use Volume** sheet (enclosed), answer the appropriate questions as specifically as possible, and return it to this office by February 25, 2005 so that we are able to calculate the annual volume associated with your water right; as required by the SRBA Court.

This review of your claim, in addition to the submittal of our recommendation to the SRBA Court, will result in a decreed right for your property. This water right then remains with the land as long as it is being used. We will give you the opportunity to review our recommendation and provide feedback, if necessary, prior to its submittal to the SRBA Court.

Please feel free to contact me at 334-2190 if you have any questions.

Respectfully submitted,

Sandy Egbert

2-4- 2005 Sent letter asking for more information on cooling use to Idaho Power – included Commercial Space Heating/Cooling Requirements form

2-23-05 Sharon Strickland called to say she would get me the information by March 4

3-7 Sharon Strickland called to say she was still working on getting the information for the Idaho Power sites

5-5-05 Talked to Sharon Strickland again about the information needed to complete these recommendations. She said they were supposed to have been sent to me already and that she would check and see what happened to the information I needed.

5-17-05 I still have not received any information so I am taking cooling off the claims and recommending the remaining uses. This will mean disallowing 63-3058 since cooling is the only use claimed.

REQUEST FOR EXTENSION OF TIME

IDAHO POWER COMPANY ("Company") does hereby request an extension of time to file Notice of Claim(s) pursuant to Section 42-1409(10), IDAHO CODE, in the general adjudication of the Snake River Basin water system ("SRBA"). This request is supported by the following facts and information:

The Company operates sixteen (16) hydro-electric projects within the territory subject to the jurisdiction of the SRBA. Because the water rights associated with each project are an integral part of the Company's operation, the Company has given these claims priority and has diligently investigated all possible claims, including, but not limited to, power generation, irrigation of project properties, fish propagation facilities, fire protection and domestic uses associated with facilities located on project properties. In an effort to be thorough, this phase of the Company's investigation has required the attention of additional manpower not originally allocated to the project, thereby slowing the investigation of other claims.

Furthermore, the Company has property interests in 22 of the 38 counties subject to the jurisdiction of the of the SRBA. During the Company's field investigation of possible claims, it has become evident that there are water rights currently utilized by the Company which are appurtenant to the Company's property and which have not previously been recorded. Therefore, in order ascertain all possible claims, a parcel by parcel approach has been utilized by field personnel. Due to the adoption of this method of investigation, coupled with the Company's extensive property holdings, the field work required to complete this phase of the Company's filings is also incomplete.

Although the Company recognizes that a timely filing schedule is necessary, it is also important to identify all water users and uses in order to achieve a thorough and comprehensive determination of water rights within the boundaries of the adjudication. An extension of time granted to the Company would facilitate this effort and would further the stated goals of the general adjudication.
