The *Notices of Claim* for each of the above-captioned water rights include a claim for stockwater use in sections 26, 27, 31, and 36, T02N, R02E. The *Director's Report* recommended stockwater use as claimed only for the most senior of these claims, 63-00329B. The irrigation place of use for 63-00329B is described by stating: "the boundary encompassing the place of use for this water right is described with a digital boundary . . ." Because the stockwater place of use does not entirely fall within the digital boundary for the irrigation place of use, the above-quoted language should perhaps be modified to make it clear that the digital boundary is describing the "irrigation place of use." In other words, this Special Master is concerned that any ambiguities be cleared up concerning the stockwater place of use – whether within or outside of the digital boundary for the irrigation place of use.

Another concern is regarding subcase 63-00379, which includes a purpose of use of "stockwater from storage." The place of use, however, is solely described as the digital boundary for the irrigation place of use – which would exclude the use of stockwater from storage for any land that falls outside of the digital boundary. Accordingly, this Special Master would like to hear from the parties and IDWR to make sure that the partial decrees for these rights accurately describe the scope of the rights.

A hearing will be held to discuss these matters on **July 10, 2007, at 4:00 P.M.** Mountain Time, at the Snake River Basin Adjudication Courthouse, 253 3rd Avenue

North, Twin Falls, Idaho. Parties may participate by telephone by dialing 1-225-383-1099 participation code 675342

Water for this right and the other, line flow and storage rights is not available every year and is very dependent on a lot of snow and rain in the winter and spring.

Some of the land under the Pleasant Valley Irr. Co. system is now irrigated with groundwater because the surface water is not a reliable source. This and the other recommendations for the decreed surface water rights are based on historical use.

Plaintiff is also hereby decreed the right, with priority of [REDACTED], to store said waters in said reservoir at any other time than during said non-irrigation season when by so doing it will not interfere with the prior rights of defendants herein decreed; and plaintiff may release said stored water at its pleasure through the gates of its said reservoir and divert the same at the point of diversion described in the preceding paragraph hereof and use the same for the irrigation of and domestic and stock use upon its lands aforesaid.

IV.

The term "miner's inch" of water as used in this decree means one-fiftieth of a cubic foot per second; the term "irrigation season" as used in this decree means the period from ~~March 1st~~ *March 20th* to November 1st of each year; the term "non-irrigation season" as used in this decree means the period beginning November 1st of each year and continuing to ~~March 1st~~ *March 20th* of the succeeding year.

VI.

The parties hereto shall, before beginning the diversion of water at the commencement of the ensuing irrigation season hereafter, install at the head of each of their respective ditches where water is permitted to be diverted from the stream in accordance with the terms of this decree a suitable head gate equipped with a measuring device whereby the amount of water at any time diverted through said ditch can be regulated and the amount so diverted may be determined and all water herein allotted and decreed shall be measured at said points of diversion.

VII.

The defendants, and each of them, are hereby ordered forthwith to remove and keep removed that certain dam or obstruction heretofore constructed and maintained by them in the channel of Big Creek, a tributary of Ten-Mile Creek, which obstruction is located in the Southwest quarter (SW1/4) of Section 32, Township 2 North, Range 4 East Boise Meridian; and the said defendants, and each of them, their servants, agents, and

successors in interest, are hereby perpetually enjoined and restrained from constructing or maintaining in the channel of Ten-Mile Creek (or ~~Washita~~ Creek), or any of its tributaries, any dam or obstruction (except dams equipped with measuring devices and reasonably required for the diversion of water at the points of diversion herein specified for defendants) whereby the waters of Ten-Mile Creek or any of its tributaries is prevented or hindered from flowing freely down the channel of the water course to plaintiff's reservoir; and the several parties hereto, and the agents, servants, employees, and successors in interest of each of them, respectively, are hereby, and each of them is hereby, enjoined and restrained from any and all interference with or diversion or use of the waters of Ten-Mile Creek or its tributaries except in the manner and to the extent and for the purposes specified in this decree.

VIII.

The court reserves jurisdiction of this cause for the following purposes:

- (a) To enforce the provisions of this decree.
- (b) In case during any subsequent irrigation season, by reason of natural conditions, and not by ^{improper} diversions of water by defendants upstream, there should at any time be water available for diversion at defendants' points of diversion which even though not diverted or interfered with would not reach plaintiff's reservoir on account of the character of the creek bed or other natural cause, but would instead be wholly lost and wasted, then under such conditions (if not caused by any act of defendants) defendants may upon not less than 5 days' notice to plaintiff make application to the court to be

permitted to use said water during the period while such condition obtains; and the court hereby reserves jurisdiction to permit by its subsequent order upon such application of defendants the use of such water by defendants when it shall clearly appear to the court that such use by defendants will in no manner deprive plaintiff of the use of any of the water allotted to it by the terms of this decree.

EX.

331B, 379, 2200, 332NAME OF PARTY Bell WagnerEMPLOYEE Mel SchultePleasant Valley Irr. Co.

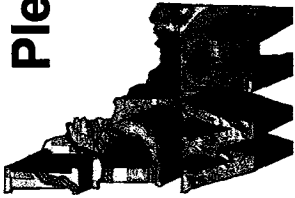

RE: Mr. Wagner is a shareholder and landowner in the Pleasant Valley Irr. Co. He is concerned about the competing claims filed on their decreed rights. He asked about the review process, C.R.P., forfeiture (not using their water) and the effect the drought will have on the review of their claims.

He indicated some of the long time share holders are elderly and some have died in recent years which impacts how some of the water has been used.

He is concerned about what he perceives as a "water grab" by the wealthy and more powerful people and entities in the south part of the County.

Subject: Pleasant Valley Irrigation digital boundary

Hi Jan. Ted Booth called with a question about the place of use on the SF-5s for these rights. He has found that the quarter quarter description of the stockwater POU is not congruent with the digital boundary for the irrigation POU. The question is whether this is the way it is supposed to be, or whether when the digital boundary was changed to address the BLM objections, the stockwater POU was inadvertently not updated. On the other hand, if the POUs for the two uses are not supposed to be the same, then he wants to insert clarifying language in the digital boundary remark to make it clear that the digital boundary only describes the irrigation POU. Could you let me know which it is, and then give him a call to discuss? Thanks. NBS

*Ted will call me back ^{or email} on whether
they can do this with a remark
w/o on SF5 or not -*

Fred & Becky,

Sandy has completed correcting all 3 rights to match the transfer previously approved. The stock water pou in the SWSW, S. 35, T2N, Rge. 1W has been left out of 63-3170 & 63-8087. 63-3093 was for irrigation only and did not include stock water. The other two water rights 63-18592 & 63-18594 were decreed in 2000 and I do not believe anything can be done about them at this time. The decrees were issued in 2/2000 and the transfer approved in 5/2000 which did include the SWSW, S35, T2N R. 1W. It did not appear to be protested and was approved, however, if you wish to speak further with the allocations staff you could contact Shelly Keen.

On another subject, I (with help from Danielle Favreau) am putting together the large places of use for 63-183, Pioneer Ditch Co. (aka Little Pioneer Ditch Co.) to delete Lot 7 (now known as Lot 9 (NWSE), S17, T1N, R1W) to handle BLM's settlement portion of this right although there are other objections. On the Pleasant Valley Irrigation Co. it looks like we need to delete the SESE, S. 19, T2N, R2E. Removing it from the claim data is not necessary since it will not be decreed and the recommendation is the only one to be decreed. It does not matter the claim has that 1/41/4 on it - it will not give the claimant any further ground. As far as the stock water place of use goes, it was claimed in the 5 1/41/4's you spoke of. Mel put it on only 63-329B and it was also claimed on all the others. It appears to me that he meant to put it on all of the others, however, the large place of use data entry wiped it out. If you would like we can put those 5 1/41/4's on as a part of the settlement - which you may have already done. Otherwise we do assume it covers the entire place of use for irrigation as it is listed with no pou. On Farmer's Union Ditch Co. it appears we need to delete the NWSW, S26: SESW, SESE, S27, NESE, NWSE, S31, T5N, R1W as a part of the large place of use. Please let us know on all of these if it is the entire 1/41/4, a portion or if it is a snapping issued.

If you agree with this memo we should be able to settle these prior to the hearings. We will complete the changes and send you a CD of the large places of use to go with the SF5's for signature as soon as we hear from you.

Thank you for your patience in this time of transition for the Department.

Larry,

Brad Carlson (your spelling is correct) is one of three Presidents of the "Pioneer Ditch Company, Limited." I checked the Secretary of State's website for any permutation of "pioneer ditch" and there is no such entity called "Little Pioneer Ditch Co., Ltd." See attached search results. I do not believe that a Change of Ownership would be appropriate.

There are two other objections that have been filed in this subcase (BOR and Boise Project Board of Control) and resolution of those objection issues will need to be addressed in any SF-5. Both the BOR and the Boise Project Board of Control objections seek to decree the following remark under the Purpose and Period of Use element:

"Diversion for irrigation and mitigation under this right prior to April 1 and after October 31 shall occur only as authorized by the Water

District 63 Water Master and only when water is being released for flood

control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the

U.S. Department of the Army and the U.S. Department of the Interior for

flood Control Operations of the Boise River Reservoirs, dated November

20, 1953, the Water Control Manual for the Boise River Reservoir dated

April 1985 and any future amendments or revisions made thereto pursuant

to state of federal procedures or law; provided that any such use of

this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, as decreed in SRBA Case No. 39576."

This remark is included within the recommendations of 137 claims in the Director's Report which suggests that it is a standard remark where appropriate. The only question is whether this standard remark should be employed in this subcase.

Subject 63-00183; Claimant: Pioneer Ditch Co., LTD

I talked to Brad Carlson "SP" the president of "Little" Pioneer Ditch Co., Ltd., who is the owner of water right number 63-00183. I pointed out to him that the name on the water right was Pioneer Ditch Co. and asked if needed to have the name changed, and he said yes. Do we need a "Change of Ownership" form or is the name of the owner on the claim for "Little Pioneer Ditch Co., Ltd.?"

Anyway, we negotiated a settlement where T1N, R1W, Sec. 17, Lot 7 (now Lot 9) (NWSE) would be deleted from the digital boundary of the place of use. This POU was not part of the original claim. Also, please remove this POU from IDWR's claim data.

PLEASANT VALLEY IRRIGATION COMPANY

ADDITIONAL INFORMATION

DATE: JUNE 8, 2005

BY: MEL SCHULTE

The main contact for Pleasant Valley Irrigation Co has been their president; Eric Bodily (343-0870 = H, 475-1119 = W) The company attorney is Terry Copple. Eric Bodily wants the recommendations, maps and all correspondence to be mailed to Mr. Copple. Mr. Bodily assisted in reviewing the boundary map and was the main source of information.

Pleasant Valley's water rights and operation are open to some serious scrutiny. Their historic place of use is in the desert area South and West of the Idaho State penitentiary and their water sources are very sporadic. Because they may not have sufficient water at all for several years at a time the delivery system is not always well maintained and appears in places to be inadequate. The ditch system along Tenmile Creek west of the prison has been partially removed because the land is now irrigated with center pivots from groundwater. When the ditches were removed is unknown, but according to Eric Bodily water was delivered and used prior to 1987 on this land.

Iowa Beef Processors filed competing claims to some of Pleasant Valley's water rights. According to Eric Bodily these claims should be disallowed because IBP is a shareholder of Pleasant Valley. However, it was hard to find evidence that Pleasant Valley water can still be delivered to IBP.

All of the facts above provide the opportunity for challenges to our recommendations and the validity of Pleasant Valley's rights. Because there is still evidence of a ditch system in place to most of the company's service area and because of the Peiper decision, all claims but 63-2200 were recommended. 63-2200 was disallowed in favor of 63-379 because 63-2200 was superceded by 63-379.

The preliminary recommendations and boundary map were reviewed with Eric Bodily on June 2, 2005 in our office. He was satisfied with our recommendations and map and signed the notices of error. He indicated it has now been four years since they have had enough moisture to fill their reservoir and deliver live flow water.

The POD's were verified with GPS.

PLEASANT VALLEY IRRIGATION DITCH COMPANY

Shareholder IBP Inc. initiated discussion in 1998-99 about combining its ditch water from PVIC into IBP PPOW proposal for groundwater (Appl. for Transfer #5442).

After lots of "to & fro", neither IBP or PVIC elected to file any type of PPOW transfer.

This research is provided to SRBA files for PVIC in case it might be of any value.

That prior to the year 1914, plaintiff's said irrigation project was successively owned and operated by certain predecessors in interest which, like itself, were mutual co-operative irrigation companies distributing water for the irrigation of the lands of their respective stockholders which were the same lands as above described.

II.

That plaintiff, ~~Pleasant Valley Irrigation Company~~, Limited, a corporation, is entitled (in addition to the storage rights hereinafter decreed) to divert and use for the irrigation of and domestic and livestock use upon the lands of its stockholders, as described in the preceding paragraph hereof, the following amounts of the natural flow waters, during the irrigation season, of Ten-Mile Creek and its tributaries with the respective dates of priority as specified below:

- 63 0329 (a) 200 miner's inches with priority of April 1, 1907;
- 63 0330 (b) 200 miner's inches with priority of April 1, 1908;
- 63 0331 (c) 250 miner's inches with priority of April 1, 1910;

The point of diversion of said water is described as follows:

III.

That in addition to the rights herein decreed to plaintiff in the natural flow waters of Ten-Mile Creek and its tributaries during the irrigation season, ~~plaintiff has~~ ^{Plaintiff has} the further right to store in its reservoir (located on Ten-Mile Creek in Sections 31 and 32, Township 2 North, Range 3 East Boise Meridian, and Sections 1 and 6, Township 1 North, Range 3 East Boise Meridian) all the waters flowing in said stream and its tributaries during the non-irrigation season as that term is hereinafter defined, up to the capacity of the said reservoir, which capacity is 7,900 acre feet; and the said right of plaintiff to store in its reservoir and thereafter use the waters of said stream and its tributaries during the non-irrigation season in no manner interferes with or infringes upon any rights of defendants. Plaintiff is also hereby decreed the right, with priority of May 15, 1912, to store said waters in said reservoir at any other time than during said non-irrigation season when by so doing it will not interfere with the prior rights of defendants herein decreed; and plaintiff may release said stored water at its pleasure through the gates of its said reservoir and divert the same at the point of diversion described in the preceding paragraph hereto and use the same for the irrigation of and domestic and stock use upon its lands aforesaid.

IV.

Need to show how shares are portion of each right, especially since PVIC describes shares ^{as} rate of flow & right 379 is for storage.

Solution - pick a midpt. in priority date 1907-1912 & use that right to reflect transfer, recognizing that in reality all rights are involved. IBP gains no advantage over other shareholders. PVIC is not assuming any add'l. obligations nor losing control over its water system etc.

IBP should show news that have been in w/ with PVIC shares historically, especially:
