Sure I can call in. I did speak with him about these and he was going to leave the stockwater on the one. It is different as the stockwater is for Idaho Beef Products or whatever that slaughterhouse out by the prison is called. The rest is for irrigation for the ditch company. We had a conversation concerning the storage part and I cannot recall what was decided there. So, I'll have the files handy. Jan

Hi Jan. SM Booth has set these subcases for a hearing on the SF-5s for these rights on Tuesday, at 4:00 p.m. This was the group where he had noticed that the POU description for the stockwater use was not congruent with the digital boundary for irrigation. You and I talked about this, and my recollection is that you told me that they were not supposed to be congruent, and that you had talked to SM Booth about it and were okay with him putting a clarifying remark on the water right descriptions explaining that the digital boundary only described the irrigation POU. Since he has nonetheless set these for a hearing I suspect he must have thought of some other concerns. Might you be available to call into the hearing at 4:00 on Tuesday so that somebody with some intelligence and knowledge about these rights would be available to field his questions? NBS

RE: Mr. Wagner is a shareholder and landowner in the Pleasant Valley Irr. Co. He is concerned about the competing claims filed on their decreed rights. He asked about the review process, CRP, forfeiture (not using their water) and the effect the drought will have on the review of their claims.

He indicated some of the long time share holders are elderly and some have died in recent years which impacts how some of the water has been used.

He is concerned about what he perceives as a "water grab" by the wealthy and more powerful people and entities in the south part of the county.
