CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right No. A63-02931, 63-31967

June 4, 2004

Tim McCormick received a second round notice and came into the Western Region to file 2 claims (63-2931 & 63-31967) in the SRBA. Mr. McCormick said that he purchased the 20 acres on April 4, 2000 as a foreclosure. He also informed me that, currently, no city water or irrigation district water are available in their area, therefore, he is totally dependent upon the geothermal well located on their property and the seasonal water from Willow Creek. He stated that the bank of Willow Creek is full during "big rains" and from runoff in the spring. Mr. McCormick uses water from the well to irrigate his orchard and the pasture above Willow Creek.

Since Mr. McCormick has plans for a future wholesale greenhouse on his land, I pulled the 1987 NAPP image up on the screen in order to give him an estimate of what could be possibly recommended. After looking at the 1987 NAPP image, I informed Mr. McCormick that it appears that less than 5 acres were actually irrigated at that time. Mr. McCormick said that he would be happy with 5 acres. Since considerably more acres were licensed on his parcel, I gave Mr. McCormick some blank affidavits so that he could talk to neighbors about the actual use of irrigation water during the 1982 to 1987 span. He said that he has two neighbors that may have that personal knowledge.

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right No. A63-2931

July 6, 2004

I spoke with Shelly Lynn (#286-9759) on the telephone regarding A63-3574 and A63-2931. Mrs. Lynn set up a time to come into the office the next day to file on A63-3574. She stated that they only use water from the well and do not use any water from Willow Creek. Since it is Dan Nelson's office day tomorrow, I put together all the necessary information for him to help the Lynns during their appointment.

April 1, 2005

When Shelly and Wade Lynn came into the office on 7/7/04 to file on their portion of licensed Water Right No. 63-3574, they told Dan Nelson that they didn't want to pursue a claim for any portion of 63-2931. According to Mr. Nelson's summation of their discussion regarding this matter, "They haven't used the creek [Willow Creek] in the 10 years they owned the property" (see attached sheet, dated 7/7/04).

Senior Water Resource Agent

Regarding 63-2931 (Willow Creek):

Neighbor, Tim McCormick, who owns 20 ACRES in the
NE SW, Sec. 9; claimed 20 acres of irrigation (even
though the 1987 NAPP shows a maximum of 5 AC
of irrigation). Therefore, the Lynns could feasibly
claim 5.3 AC of irrigation from Willow Creek —
the problem lies in the fact that they have not
used Willow Creek water to irrigate any of their
property. Please ask the Lynns how long they
have owned this property. ^{+ if they are aware of the last time Willow Creek water was used on their 20 ACRES.} (This right is considered
abandoned if it has not been used on their land
for more than 5 years; especially the five years
prior to 1987.)
