MEMO TO FILE

Water Rights: 63-3151A & 63-3151B
From: Sandy Egbert

Both Fred Wolske and Edwart Montierth claimed water right license 63-3151 so the claims were renumbered to 63-3151A belonging to Wolske and 63-3151B belonging to Montierth.

The place of use on the license is: 2N 1E S 34 NWSW for 17 acres and SWSW for 26 acres, which totaled 43 acres. The field exam done in 1964 says the place of use is in the SW quarter of Section 34 and the E half of the SE quarter of Section 33, T2N R1E. The field exam does not mention the amount of acres except on the map. The field exam pou description seems to include all irrigation on the land it described (ground water, surface water and irrigation company water) but the map with the field exam also plainly shows the ditches used after the water is diverted from Indian Creek.

Both claims were filed describing a different place of use as follows:
T2N R 1E S34 NESW 18 acres and NWSW 25 acres with a total of 43 acres.

The license description of the pou seemed to be the most accurate since this is a surface water right from Indian Creek and Indian Creek does not flow into the NESW of section 34. The field exam map also does not show any ditches going into the NESW from Indian Creek.

Since Montierth owns most of the 43 acres shown on the field exam map 63-3151B was recommended for 39 acres and .46 cfs. A Wolske (although not Fred) owns a small portion of the place of use so 63-3151A was recommended in Wolske's name for 4 acres and .05 cfs. The license was for 43 acres and .51 cfs which calculates out to .0119 cfs per acres. That figures was also used to calculate the cfs for both of these water rights.

ORIGINAL NOTICE OF CLAIM TO A WATER RIGHT NO. A63-03151

RENUMBERED NOTICE OF CLAIM TO A WATER RIGHT NO. A63-03151A

Dear Mr. and Mrs. Wolske:

The original notice of claim which you filed in the Snake River Basin Adjudication (SRBA) has been renumbered by adding a suffix to the end of the claim number. Your claim has not been changed in any other way.

Your claim number was changed because another party has filed a claim on the same water right. At this time IDWR requests that you submit evidence that you own the acres originally licensed. A report which summarizes the water right as originally licensed is enclosed with this letter.

Please submit evidence of property ownership to this office by December 27, 1995. If no response to this letter is received by this office, your claim to a water right may not be recommended to the court for decree.

If you have any questions about this letter or need additional information, please do not hesitate to contact this office.

Sincerely,

Maria Minicucci

ADJUDICATION MEMORANDUM

CLAIM NO.: A63-03151

SUBJECT: Changes in IRR acres

EMPLOYEE: TTTTINICUCCI

DATE: 08/03/1995

Mr. Fred Wolske came into the office today to get info about IDWR's corr of July 7, 1995. From our conversation it appears that Mr. Wolske intended on transferring his water to new acres at the time he filed the SRBA claim. He was unable to complete the change. At this time it appears that Mr. Wolske must file a transfer application to accurately reflect the actual irrigation from N. Indian Creek. It is unclear what acres were previously licensed with this water. The licensing exam was done in ~~1964~~ 1964 and it appears that things have changed several times since then. Mr. Wolske has a ~~of~~ survey map of his property - he will come back in next week with the map so we can ^{complete} ~~describe~~ the transfer application accurately. It is unclear how many acres have been irrigated since 1964 - 1981 quad does not seem to show the 43 acres licensed. Some acres or other acres owned by Mr. Wolske also receives IRR District water and well water.

RE: Claim(s) to a Water Right filed in the Snake River Basin Adjudication

Claim Nos. A63-03151

Dear Claimants:

The Department of Water Resources will be conducting claim verification field exams in your area this summer. An examination is needed to verify your water use in order to complete our report on the above-referenced claims for the court's decree.

The field exams are conducted to gather information about your water right. This information may include the source of water, type of usage, amount of water used, number of acres irrigated, and the legal description of the point of diversion and/or place of use.

Please contact me at this office by July 21, 1995, in order to make an appointment at a time which is convenient for you. Although it is not mandatory that you accompany me on the field exam, it is helpful if someone familiar with the water delivery system is present during the exam. This will help insure that your water right is described accurately for the report to the court.

To make an appointment, or if you have any questions or concerns about the field exam, please contact me at your earliest convenience.

Sincerely,

Maria Minicucci
