1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Place of Use and Annual Volume

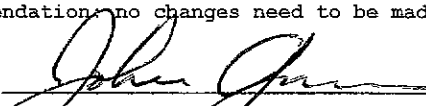

2. Describe the changes you wish to make in the proposed recommendation:

Reduce irrigated area to 347 acres. Remove 2 acres from NENE Section 30, and 11 acres from NWNW (Lot 1) Section 30, T2N, R2E. Reduce diversion volume to 1,561.5 AFY. No change to diversion rate.

3. Give a brief explanation as to why you disagree with these portions:

Claimant purchased entire water right but not entire property. See attached documents. The entire diversion rate is needed to irrigate the reduced place of use.

☐ I AGREE with this proposed recommendation; no changes need to be made.

Re: Water Right 63-3242/Renumbered as 63-31686

Dear Ms. Shurte:

Micron Technology, Inc. has received confirmation dated May 16, 2003 from the Idaho Department of Water Resources ("IDWR") that Micron Technology's Notice of Change of Water Right Ownership filed on or about November 3, 1999 ("Notice") has been processed. Thank you.

We have noted an error, however, in IDWR's supporting paperwork that we request IDWR correct. As indicated in the Notice (signed by Richard T. Mooney), Mr. Mooney transferred the entire diversion rate of 3.56 cfs represented by water right number 63-03242 to Micron Technology for use on 347 acres. Mr. Mooney owns no portion of water right number 63-3242. Consequently, water right 63-31685 should be voided. Please make these corrections at your earliest convenience and forward confirmation to the undersigned.

Please contact me with any questions. We look forward to your response.

Sincerely,

Michael D. McIntyre

Re: Original Notice of Claim to a Water Right No. 63-3242

Renumbered Notice of Claim to a Water Right No. 63-31686

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section

Re: Notice of Claim to a Water Right No. 63-3242

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the appropriate change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any further questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

Re: Water Right 63-3242/Renumbered as 63-31686

Dear Ms. Shurte:

Micron Technology, Inc. has received confirmation dated May 16, 2003 from the Idaho Department of Water Resources ("IDWR") that Micron Technology's Notice of Change of Water Right Ownership filed on or about November 3, 1999 ("Notice") has been processed. Thank you.

We have noted an error, however, in IDWR's supporting paperwork that we request IDWR correct. As indicated in the Notice (signed by Richard T. Mooney), Mr. Mooney transferred the entire diversion rate of 3.56 cfs represented by water right number 63-03242 to Micron Technology for use on 347 acres. Mr. Mooney owns no portion of water right number 63-3242. Consequently, water right 63-31685 should be voided. Please make these corrections at your earliest convenience and forward confirmation to the undersigned.

Please contact me with any questions. We look forward to your response.

Sincerely,

Renumbered to Notice of Claim to a Water Right No. ~~63-31685~~

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Renumbered Notice of Claim to a Water Right No. 63-31686

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.
