ADJUDICATION MEMORANDUM

CLAIM NO.: 63-03254

SUBJECT: Dillard Water Users Assoc.

DATE: 10.10.03 @ 11:20 am

Home # (208) 322-3540

Work # (208) 866-1792

Cell # (208) 344-0885

Brian Goffin, President, stopped by the office to drop-off the Change In Address form I sent him on August 19, 2003. He also brought in a map depicting the 11 homes comprising the water users association, a copy of the association's March newsletter, and a brief synopsis of this right's irrigation use since pre-1969 until the present.

I informed Mr. Goffin that the original license was for 0.16 cfs for the irrigation of 8 acres in the NWSE and SWSW of Section 25, 4N, 1E and that current use covers only the irrigation of 3.263 acres in the NWSE, SWSW, and SESE of Section 25. Based on this information, Mr. Goffin is now aware that approximately 5 acres remains unclaimed.

The Dillard Water Users Association has an accomplished transfer for the place of use, since the transfer was accomplished in 1969.

(As an aside, this place of use is also known as San Marino Park Subdivision Number 5.)

Revised 12/13/1999

IDWR Use Only:
Data Entry: KLB

Date: 10-10-03

This license was used for irrigation by the Farm west of the location of the point of diversion until spring of 1969 when the land was subdivided and houses were built over the irrigated acres.

At that time the sub divider pulled the pump and the ownership of the well & license was verbally transferred to the owners of the lots and homes adjacent to the point of diversion.

A new smaller pump was put in by these individuals and an underground distribution system was installed to all of the lots. Nine lots are located between N Mountain View Dr and Sorrento Dr, east of Sandee Ave. The other 2 lots are located north of Sorrento Dr, west of Montecito Place. See attached map of Dillard Water Association.

This system has been used continuously in this manner since 1969, for lawn and garden irrigation.

In 1994 because of the Snake River Basin Adjudication this group of homeowners was advised to formally create a water users association and file to claim this License. The Dillard Water Association was registered with the Sec. of State at that time. This SRBA claim #A63-03254 was filed by the Dillard Water Association claiming an accomplished transfer of the place of use, because the transfer was complete in 1969.

RE: Starting up the System & Annual Assessment

This is a notice let everyone know that with the early warm weather we will be starting up the pump next weekend... March 21-22. This should give everyone a few days to make sure that their system is ready.

At the annual meeting it was decided that the 2003 assessment would be \$100, could you please forward your payments to Kathy Carpenter at 5127 Sorrento Dr. I have included a list of all water users for your convenience.

If you have any problems or questions, please give me a call @ 322-3540.

RE: Analysis of Snake River Basin Adjudication (SRBA) claim A63-03254

Dear Mr. Jensen,

The Idaho Department of Water Resources (IDWR) is in the process of reviewing SRBA claims in Basin 63. During my initial review of claim 63-0324, I am having difficulty creating a shape file, or map, of the 10 lots that are using ground water for lawn and garden irrigation.

The map created by the field examiner in 1966, the map attached to the Notice of Claim submitted in 1989 (copy enclosed), and the ARC VIEW shape file I am attempting to create (according to 2002 Tax Lot information) all vary. In order to recommend your claim, it is necessary that I plot the specific lots this claim pertains to. Please contact me within the next 10 days to clarify this situation.

Respectfully submitted,

Kimberly L. Brown

DOCUMENT DESCRIPTION: Mr. Goffin- Here is a copy of the Field Examiner's
map and a copy of Anna's map (sent yesterday) regarding the
place of use. If these two maps are super-imposed,
the two lots off Montecello Place and the first of the 5
lots bordering Sorrento Drive ^(Anna's map) would fit into the
Field Examiner's triangle area in the SWSW. As you
can see, these two maps differ quite a bit and the
point of diversion, according to both, is also askew.

RE: A63-03254 – PLACE OF USE MAP & POINT OF DIVERSION LOCATION

Number of pages: 2 (including cover)

I have used a city street map to designate to location – the Faxed map was too dark to use..

There are two lots on the north side of Sorrento

There are nine lots in the area bound by Mountain View Dr (south) Sorrento Dr (north) and Sandee Ave (west).

The point of diversion (well) is marked by the triangle in the center.

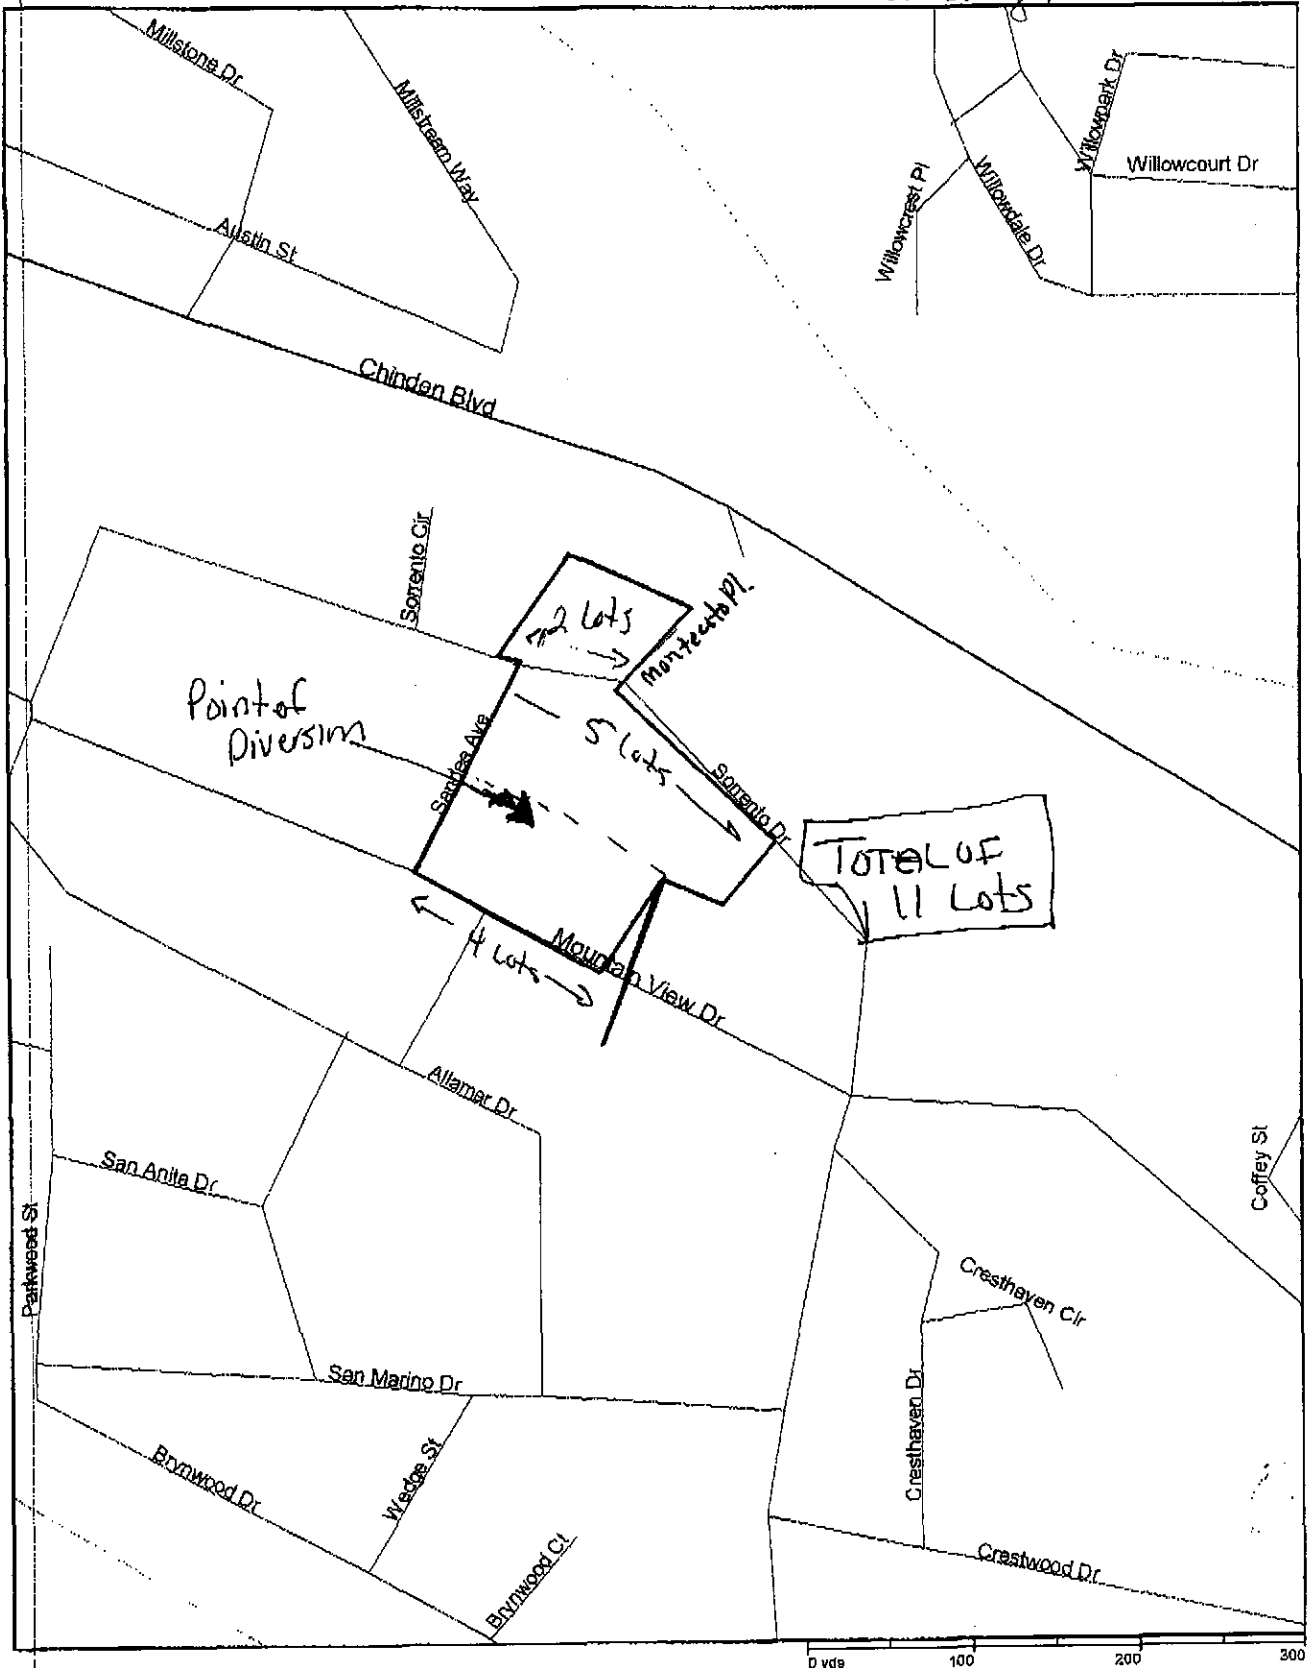

I see that the acreage on your map is total LOT acreage, not excluding the areas covered by houses, driveways & other non-irrigated landscaping –

Please call me if you have questions.. I will send the change of address once I have the Pres. sign it.

THIS IS TO CERTIFY that O. V. and/or MARGARET DILLARD
 of Boise, Idaho made application for a permit to appropriate the
 public waters of the State of Idaho, dated August 4, 1961; that Permit No. G-30043
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.16 second feet, was issued thereunder on May 11, 1966, showing that said works
 were completed on the 1st day of October, 1965; and that on the 1st
 day of October, 1965, O. V. and/or MARGARET DILLARD

of Boise, State of Idaho, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of a well
a tributary of subterranean flow, for the purpose of domestic and irri-
gation use, under Use Permit No. G-30043 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

13 of Licenses at page 8467, on the 11 day of May, 1966;

The right hereby confirmed dates from August 4, 1961;

The Point of Diversion is located

in the SW 1/4 SW 1/4 Sec. 25, Tp. 4 N, R. 1 E., B. M. Ada County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed 0.16 cubic feet per second.

Description and location of use:

RE: Permit No. G-30043

O. V. Billard
5100 Mountain View Drive
Boise, Idaho

Dear Mr. Billard:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-30043 shows the well(s) is (are) capable of conveying 8 miner's inches, or .16 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 9.00 , we will issue the Certificate of Completion of Works for 0.16 c.f.s. and the License and Certificate of Water Right for 0.16 c.f.s. confirming the right, with priority of August 4, 1961 , to the use of subterranean water with the point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 25 for domestic use and irrigation of 8 acres in the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 25, T. 4 N., R. 1 E., B.M.

Very truly yours,
