HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

The total instantaneous diversion of water from all points of diversion under Transfer 5442 shall not exceed 10.77 cfs, nor a total combined annual volume of 4403.1 af.

Rights 63-07531 and 63-10383 when combined shall not exceed a total diversion rate of 5.87 cfs.

Right 63-03362 is limited to the irrigation of 186.0 acres in the place of use described above in a single irrigation season.

Right 63-07531 is limited to the irrigation of 160.0 acres in the place of use described above in a single irrigation season.

Right 63-10383 is limited to the irrigation of 151.0 acres in the place of use described above in a single irrigation season.

Right 63-11347 is limited to the irrigation of 122.0 acres in the place of use described above in a single irrigation season.

Rights 63-03362, 63-07531, 63-10383 and 63-11347 when combined are limited to the irrigation of 619.0 total acres under the irrigation components of the rights in the 1286.0 acre place of use described above in a single irrigation season. This condition does not limit the acreage upon which wastewater from the industrial and commercial uses under the rights may be land applied for wastewater treatment purposes to satisfy water quality requirements.

The period of use for the irrigation described in this approval may be extended to a beginning date of 3/01 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water under Right 63-03362 before 4/1 and after 10/31, and under Rights 63-07531, 63-10383 and 63-11347 before 3/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.

Use of water under Rights 63-07531 and 63-10383 shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.

The place of industrial and commercial use authorized by this approval includes land upon which wastewater may be applied for wastewater treatment purposes to satisfy water quality requirements. Water diverted under the industrial and commercial components of Rights 63-07531 and 63-10383 shall not be land applied unless the water is first used for the commercial/industrial purposes as authorized under these rights. A single new point of diversion is authorized in either the SWSE, S07 or Lot 2(SWNW), S18, T01N, R02E to provide water that shall not exceed a temperature greater than 85 degrees Fahrenheit.

The right holder shall be required to utilize any cold water from the well located in the NENW, S06, T01N, R02E B.M. up to its capacity for irrigation of the place of use under Right 63-11347. The low temperature geothermal well in the NWNE, S06, T01N, R02E B.M. shall only be diverted at the rate equal to the remaining portion of 2.23 cfs not capable of being satisfied by cold water from the well.

Three (3) points of diversion are located within Lot 3(NWSW), S07, T01N, R02E B.M.

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under Right 63-11347 and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.

If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, Right 63-11347 to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is

to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

Approval of this transfer does not preclude the opportunity for review of the validity of Rights 63-03362 and 63-07531 in the ongoing Snake River Basin Adjudication.

Wastewater pond is located within Lot 1(NWNW), S19, T01N, R02E B.M.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

The low temperature geothermal well in the NWNE, S06, T01N, R02E B.M. shall only be diverted at the rate equal to the remaining portion of 2.23 cfs not capable of being satisfied by cold water from the well.
19. Three (3) points of diversion are located within Lot 3 (NWSW), S07, T01N, R02E B.M.
20. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under Right 63-11347 and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
21. If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, Right 63-11347 to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
22. Approval of this transfer does not preclude the opportunity for review of the validity of Rights 63-03362 and 63-07531 in the ongoing Snake River Basin Adjudication.

PART 1*6 existing***6. General Information:**

a. Description of diversion system System consists of a collection of ~~five~~ wells with associated pumps and piping. *An additional well is proposed.*

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes X No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
The place of use and point of diversion changes will allow water from existing rights to be comingled and used throughout the farm. The total number of acres irrigated, the diversion rate, and the total amount of water used will not increase.

d. Remarks:

The purpose of these transfers is to make all points of diversion common to one another and to make all places of use common to each point of diversion.
