RE: Beus Transfer No. 68524, 63-3196A, 63-3601A

The original transfer review occurred before the system upgrade in August of 2000. At that time I referred to the original SRBA claims and consulted SRBA staff in regards to future recommendations. The transfer recommendations were based on that analysis.

After the system upgrade, it was discovered that early SRBA recommendations had been made and data entered on the rights listed above. These recommendations did not coincide with the results of my consultation with SRBA staff. As a result, rather than the original claim amounts pulling over, the system reflected the early recommendations that did not make sense and did not work in regards to the transfer proposal.

Jan Schurte then reviewed the original SRBA recommendations along with the transfer review findings to determine what the SRBA recommendations for the two rights should be. As a result, the attached profile reports reflect the final recommendations for 63-3196A and 63-3601A.

Right 63-3601A was recommended for 20 acres in the SWNW Sec 14. Right 63-3196A was recommended for 110.1 acres.

The proposal required 27 acres to be retired for the dairy's uses. The following adjustments should be accounted for in the approved transfer based on Jan's revised and final SRBA recommendations:

16 acres were reduced from 63-3601A for the commercial uses, which now leaves 4 acres in the SWNW Sec 14.

11 acres were reduced from 63-3196A for the remaining stockwater needs, which now leaves 17.6 acres in the SENE Sec 15.

Hope this helps Pam. Sorry for the mix-up.

NOTES: 02/09/1996: Domestic claims A63-10007 & A63-17575 are for a total of 3 domestic units and 1 acre of irrigation. Based on a review of those claims, the irrigation recommended for A63-03601A is ~~not~~ not the same ground as represented by the domestic claims. The acres for this claim are based on the Warranty deed for the sale of 197 acres to the Nichols, and a conversation (telephone) w/ Mrs. Beus. The deed indicates that the west boundary of the Nichols' property in the SWNW S.14 is 3406.23 ft from the ^{SOUTH} east corner of the SWNE. Assuming that each QQ is 1320 ft per side, this would put the boundary line 766 ft from the east border of SWNW $[(1320 \times 2) = 2640; 3406 - 2640 = 766]$. The deed then indicates the line runs NORTH 1228 ft, making Nichols' parcel in the SWNW $1228' \times 766' = 985,320 \text{ ft}^2 \div 43,560 \text{ ft}^2/\text{acre} = 22.6 \text{ acres}$. This created a potential problem. If it is assumed that all QQ's sold are 40-acre tracts, and the Nichols bought 297 acres, then they bought only 17 acres worth of water right in the SWNW $(40 \times 7 = 280; 297 - 280 = 17)$. It appeared that the Nichols may

have bought 22.6 acres in the ~~SWNW~~ ^{SWNW} but received only 17 acres worth of the water right. Mrs. Beus indicated, however, that they did not hold back any water from the acres they sold. After discussion w/ Ron Howerton, IDWR SR SRBA agent, it was decided that the pins referenced in the deed were not corner markers but property markers (Ron is the resident survey expert). The corners of the QQ's are probably in the right of ways for the roads on 3 sides of the farm. Consequently, the QQ's are not full 40-acre

tracts and the total acreage mentioned in the warranty deed is accurate. MN

NOTES: 02/09/1996: This system was measured 3 different times for 3 different BIV exams:

63-03196	May 3, 1966	6.72 CFS (ORIFICE Method)
63-03601	June 12, 1974	7.41 CFS (sprinkler head)
63-07915	June 17, 1975	5.71 CFS (weir)

Based on memo from D. Shaw to J. Shute, most current measurement should be used to determine system capacity + limitations on combined rights. 63-03196 is for 5.5 cfs and is not limited by the system. However 63-03601 takes the system over capacity, and the limitation should be a part of this recommendation as well as A63-07915 should the Beus' file that claim in the future (see TOWNE CORR. dated 02/12/1996).

There is no overlap in the place of use. n.n

02/13/1996: System capacity is 7.41 cfs. Measurement in 1975 was not accurate, based on weir location on outlet of settling pond. See pg. 12 of C.V.R. A63-03601B for further discussion

RE: Original Notice of Claim to a Water Right No. A63-03601

Renumbered to Notice of Claim to a Water Right No. A63-03601A

Dear Mr. Beus:

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another party resulting in a split of the original claim, the original claim number is renumbered by adding alpha suffixes to represent each split. Each split contains a portion of the original claim for each separate owner. The proportions of each split are based on information submitted with the Change of Ownership form. The above referenced Renumbered claim reflects your remaining portion of the original claim.

Enclosed is a copy of the new claim for your records. Note that the address has been updated as shown on the signed Change of Address form. Please refer to your new claim number when corresponding with our office. If you have any questions concerning this ownership change or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Maria Minicucci
