TO: Pam Skaggs

RE: Beus Transfer No. 68524, 63-3196A, 63-3601A

The original transfer review occurred before the system upgrade in August of 2000. At that time I referred to the original SRBA claims and consulted SRBA staff in regards to future recommendations. The transfer recommendations were based on that analysis.

After the system upgrade, it was discovered that *early* SRBA recommendations had been made and data entered on the rights listed above. These recommendations did not coincide with the results of my consultation with SRBA staff. As a result, rather than the original claim amounts pulling over, the system reflected the early recommendations that did not make sense and did not work in regards to the transfer proposal.

Jan Schurte then reviewed the original SRBA recommendations along with the transfer review findings to determine what the SRBA recommendations for the two rights should be. As a result, the attached profile reports reflect the final recommendations for 63-3196A and 63-3601A.

Right 63-3601A was recommended for 20 acres in the SWNW Sec 14. Right 63-3196A was recommended for 110.1 acres.

The proposal required 27 acres to be retired for the dairy's uses. The following adjustments should be accounted for in the approved transfer based on Jan's revised and final SRBA recommendations:

16 acres were reduced from 63-3601A for the commercial uses, which now leaves 4 acres in the SWNW Sec 14.

11 acres were reduced from 63-3196A for the remaining stockwater needs, which now leaves 17.6 acres in the SENE Sec 15.

Hope this helps Pam. Sorry for the mix-up.

NOTES: 02/09/1996: Domestic claims A63-10007 & A63-17575 are for a total of 3 domestic units and 1 acre of irrigation. Based on a review of those claims, the irrigation recommended for A63-03601A is ~~not~~ the same ground as represented by the domestic claims. The acres for this claim are based on the Warranty deed for the sale of 197 acres to the Nichols, and a conversation (telephone) w/ Mrs. Beus. The deed indicates that the west boundary of the Nichols' property in the SWNW S.14 is 3406.23 ft from the ^{corner} east corner of the SWNE. Assuming that each QQ is 1320 ft per side, this would put the boundary line 766 ft from the east border of SWNW $[(1320 \times 2) \times 3406 - (1320 \times 2) = 766]$. The deed then indicates the line runs North 1228 ft, making Nichols' parcel in the SWNW $1228' \times 766' = 985,320 \text{ ft}^2 \div 43,560 \text{ ft}^2/\text{acre} = 22.6 \text{ acres}$. This created a potential problem. If it is assumed that all QQ's sold are 40-acre tracts, and the Nichols bought 297 acres, then they bought only 17 acres worth of water right in the SWNW ($40 \times 7 = 280$; $297 - 280 = 17$). It appeared that the Nichols may

have bought 22.6 acres in the ~~SWNW~~ but received only 17 acres worth of the water right. Mrs. Beus indicated, however, that they did not hold back any water from the acres they sold. After discussion w/ Ron Howerton, IDWR SR SRBA agent, it was decided that the pins referenced in the deed were not corner markers but property markers (Ron is the resident survey expert). The corners of the QQ's are probably in the right of ways for the ~~experts~~. The corners of the QQ's are not full 40 acre

tracts and the total acreage mentioned in the warranty deed is accurate. MN

NOTES: 02/09/1996: This system was measured 3 different times for 3 different B/U exams:

63-03196	May 3, 1966	6.72 CFS (ORIFICE Method)
63-03601	June 12, 1974	7.41 CFS (sprinkler head)
63-07915	June 17, 1975	5.71 CFS (weir)

Based on memo from D. Shaw to J. Shute, most current measurement should be used to determine system capacity + limitations on combined rights. 63-03196 is for 5.5 cfs and ~~is~~ is not limited by the system. However 63-03601 takes the system over capacity, and the limitation should be a part of this recommendation as well as A63-07915 should the Beus' filed that claim in the future (see TOWNE CORR. dated 02/12/1996). ~~is~~

There is no overlap in the place of use. ~~is~~

02/13/1996: System capacity is 7.41 cfs. Measurement in 1975 was not accurate, based on weir location on outlet of settling pond. See pg. 12 of C.V.R. A63-03601B for further discussion

(both dates inclusive)			

Subject, however, to the condition that no more than 6.40 cfs of water be diverted at any one time, and

that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose

aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed

1,440 acre feet per year, said waters to be diverted within the NE 1/4 of Sec. 15,

ADJUDICATION MEMORANDUM

CLAIM NO.: A63-03601ASUBJECT: No. of acresEMPLOYEE: M. M. NICUCCIDATE: 02/09/1996

After review of the warranty deed which split off some of the originally claimed acres to the Nichols (A63-03601B), I called the Beuses for clarification. Ms. Beus indicated that they had retained approximately 11 acres but she wasn't sure of the exact number. She described the location of the property line and indicated that they did not hold back any water in the sale.

We discussed the fact that the water right license was issued for 40 acres in the SWNW 5.14, the location of her home (plus 2 other homes?) She agreed that 40 acres are not irrigated in that AQ and understood that the recommendation will reflect the number of actually irrigated acres & a pro-rated amt of water.
