1	Affidavit(s)

I visited this place twice to get a tag on the artesian well (they have a mean cow which had to be locked up). I found the wife of the former owner (deceased) in Emmett, and went there to get verification of priority date and what they actually did with the water. (Hence the additional mileage). An affidavit from her attests to what they irrigated and other uses. It would have been nice to remove the cap off the well and see how much water it produces, but that was not possible. I did use a bucket to measure the flow from a 1 inch pipe into a water trough. It was about 100' from the well and not otherwise regulated. Judging from the amount of pressure on the water, it does produce quite a bit of water.

The property has been divided into 3 parcels, and they need change of ownership forms. The person to call is Sharon Lynn Patterson, 5025 W. Old Valley Road, Eagle ID 83616. Phone is 938-0232. Her daughter Stacia is another of the 3 owners, 939-7928. My understanding is that 2 of the three houses get their water from this well.

I am X am not the current owner of the property associated with this claim.

If not the current owner of the property, I owned the property from 1978 (date)

to 1995 (date).

Verification of the Priority Date: I have knowledge of the priority date because

a neighbor named Eva Helton grew up in the immediate vicinity of the property, and she told me the well was drilled in 1920.

Verification of the Place of Use: I have shaded the area I irrigated with this water right on the attached aerial photo. See attached photo

Verification of other uses: I also used water for 50 head of cattle, 300 pheasants and the heating and cooling for the house was done with a water condensed heat pump.

To my knowledge, the facts presented above are true.

Water measurement - bucket method

Claim: 63-04091

Owner Maurice McClue
1163 State Street
Eagle ID 83616

Location: Watering trough (see drawing)

size bucket 5 gals

time to fill 12 secs

gals per minute: 25

cfs= 0.055556

I was not able to isolate the flow and there are 2 houses and other stockwater uses going on so the total quantity claimed of .06 is probably conservative.
