Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts. ?
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

land uses (Herlihy *et al.*, 1998). While a one point in time sample may not detect changes on a single stream in the long-term, sampling spatially across a large area can provide a valuable snapshot of water quality chemistry trends across a region of many land uses (Herlihy *et al.*, 1998).

Chemistry data included dissolved concentrations of: ANC, SO_4^{2-} , NO_3^- , Cl^- , DIC, DOC, Ca^{2+} , Mg^{2+} , Na^+ , K^+ , NH_4^+ , SiO_2 , total dissolved Al (ALTD), pH, and specific electrical conductance. Samples were analyzed and processed by the EPA (Morrison, 1991). All stream chemistry units are in $\mu\text{eq L}^{-1}$ except for pH, DOC/DIC (mg L^{-1}), SiO_2 ($\text{mg SiO}_2 \text{ L}^{-1}$), and COND ($\mu\text{S cm}^{-1}$). The sum of $\text{NH}_4\text{-N}$ and $\text{NO}_3\text{-N}$ was calculated and used as a variable (Total N) as well ($\mu\text{eq L}^{-1}$).

Changes in stream chemistry with changes in land use, insect defoliation, and atmospheric deposition were examined in three data sets based on a stratification of percent forested land use, which was made using the land use data set.

2.3. INSECT DEFOLIATION

Data on defoliation were obtained from the Pennsylvania Bureau of Forestry, Division of Pest Management in Harrisburg, Pennsylvania for the defoliation index created in this study. An annual survey of defoliation within Pennsylvania has been conducted since 1969. Data were collected seasonally throughout the various state forest districts during over-flights conducted within each district. Defoliated or dead areas were then mapped and transposed to microfiche. Defoliation that could not be verified from the over-flights was cross-checked by ground crews (Liebhold *et al.*, 1994).

The defoliation database defines defoliation or mortality in forest stands using 3 categories of intensity (B): lightly defoliated or light stand mortality (30–45% of trees affected, B = 1); moderately defoliated or moderate stand mortality (46–60% of trees affected, B = 2); heavily defoliated or heavy stand mortality (>60% of trees affected, B = 3). In this study, only defoliation from this database was examined.

Defoliation index estimates were calculated using hard copy maps of the watersheds constructed in Arc Info and Arcview. Defoliation classes, represented by polygons on the microfiche maps, were copied to hard copy maps using contour lines and other geographic features to georeference polygon positions. The defoliation polygon areas were then estimated with a dot-grid.

Indices for defoliation, for individual years from 1988–1992, and for a total five-year period prior to stream sampling, were created by taking the fraction of area of each watershed defoliated (A), based on 1:24 000 and 1:100 000 maps, and multiplying it by the intensity (B) of defoliation (1, 2, 3 given above).

$$\sum [(A_1 B_1) + (A_2 B_2) + \dots (A_N B_N)] = \text{Index Value} \quad (1)$$

For example, a 30% defoliated watershed with a moderate level (B = 2) of defoliation received an index value of 0.6. If several intensities of defoliation occurred

CONVERSATION MEMORANDUM

TO: CLAIM FILE NO. 63-4219G, 4220D

FROM: VICKY L MUSIC, WATER RESOURCE AGENT, IDWR / WESTERN REGION

SUBJECT: PHONE CALL FROM LOUISE HUDSON

DATE: 11/8/2005

CC:

She received preliminary recommendations for the 2 claims referenced above and had several questions. First - she wanted to know why 63-4219G was not in her and her husbands name and that the map was incorrect. I told her that I had a note in the file that she had called me in 7/2005. She had gotten a request for evidence of priority letter from me. At that time, I told her I needed evid of priority and a change of ownership. I send her the form but it was not filed.

We also discussed the pou. The layout I enclosed was incorrect because different individuals own all the 8 acres. Also, she said that she bought the property from Huntington who bought it from Harris and the water has been diverted from a pump on her property as least as far back as 1982 when Harris purchased it. The Hudsons purchased the property about a year ago and do not have a pump but intend to divert Dry Cr from the same pod. The pipe is still in place. It sounds like this qualifies as an accomplished transfer in pod so I will recommend as such.

Re 63-4220D - I told her that I disallowed the right because I could not located the property currently irrigated under this right due to the property having been subdivided among several owners. I loaded Arcview and together we located the subject property, 17 acres that the Hudsons but have sold. It is now owned by ST Properties. I said that I could not change the ownership and that the new owner needed to do that because as of now, I was recommended it as disallowed based on not knowing where the property is.

Additionally, the claim does not claim any acres in the SESE of Sec 34.

RE: Amended Claim for SRBA Claim No. 63-42190

Dear Mr. And Mrs. Hudson,

This correspondence is pursuant to my phone call today with Louise. Enclosed is an Amended Claim for the water right claim referenced above. I changed the claim to 3.5 acres 0.07 cfs rather than the 2 acres and 0.04 cfs I originally recommended.

Although you own 5 acres, you have 0.5 acre irrigation associated with your domestic use. Together, the Dry Creek and domestic uses will provide irrigation rights for 4 acres. The remaining 1 acre is covered with buildings, driveway, and simply has not been historically irrigated.

If you agree with the Amended Claim, please sign it, have it notarized and return it to me in the next 2 weeks with a completed Change of Ownership Form and documentation of owners. I will not be able to amend the claim that was filed by William Thompson, Phil Huff and Marie Harris without the Change of Ownership form.

As I mentioned to Louise today, we intend to file these recommendations with the SRBA Court soon and if it is not resolved in the next 2 weeks the process will be a judicial one and is more complicated.

Please call if you have additional questions.

Sincerely,

Vicky L. Music

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Please submit the required evidence supporting the priority date(s) by May 27, 2005.

Please let me know if have questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Vicky L. Music
Senior Water Resource Agent

Enclosures: Notice of claim report for A63-4219G and "Evidence of Priority" brochure

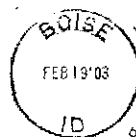

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

Water Right No. 63-4219G

Dear Mr. Huff:

Thank you for advising the Department that you no longer have an interest in the property with the water right referenced above. Enclosed is a copy of the water right for your reference.

Before we can modify our records to reflect the necessary changes in ownership for this water right, we need to have the enclosed Notice of Change of Water Right Ownership form completed by the new/current owners. If you are aware of who the current owners are, please forward this form to them, or have them contact this office and we will be able to assist them in making the appropriate changes.

Thank you for your patience and cooperation in keeping these water right records current. If you have any questions regarding this letter, please feel free to contact our office.

Sincerely,

Re: Original Notice of Claim to a Water Right No. 63-4219D

Renumbered to Notice of Claim to a Water Right No. 63-4219G

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Memorandum

Date: January 27, 2003

To: File

From: Craig L. Saxton

RE: Need for Transfer to change Point of Diversion

Robert Huntington came into the office as a walk-in on my OD day to file a change of ownership and transfer application to change their POD. He purchased property claimed under right 63-04219D

Original claim 63-04219D is for 5 acres of irrigation with three different owners. Mr. Huntington purchased property from Marlene Harris. He stated that the other two owners that are currently listed on 63-04219D are not current anymore either. I don't remember who both of them are, but one should be Perry Flook. He will need to file a change of ownership form.

Mr. Huntington only owns 3.9 acres according to the tax lot information, so it looks like this right will need to be split through the change of ownership.

Finally, Mr. Huntington stated that the point of diversion used to be located in T5N, R1E, S35, SWNW as defined by claim 63-04219D, but 8 to 10 years ago was moved. Water from Dry Creek used to be diverted from a headgate. 8 – 10 years ago that headgate washed out and a pump was put in place on the back of the property to divert water at T5N, R1E S34, SENESE (according to claimant). A formal transfer might need to be filed since the change apparently occurred after 1987, but this is based on Beneficial Use so it could need more review. None-the-less, I provided the claimant with a Transfer application and told him to wait till the C/O was completed and then file the Transfer to change POD.

Exhibit No. 63-4219

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis of a future adjudication of the water right by the Court.

Notice is hereby given that **GLENN STILLWELL &/or MARY STILLWELL**
(Name of claimant)

(mailing address)

ground water or surface water tributary to Boise River

The extent and nature of said claim is as follows:

(1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Dry Creek

(2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount	0.80	Use	Irrigation	Period of Use:	From	4/1	To	10/31
Amount		Use		Period of Use:	From		To	
Amount		Use		Period of Use:	From		To	
100% (per or a 0)		(Bom. int., stock, etc.)		(both dates inclusive)				

4.3) Total quantity of water claimed: 0.80 cubic feet per second, or acre feet per annum, and or gallons per minute.

1-41 Priority claimed: (the date water was first applied to beneficial use) 1/8/82

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

(4) A Point of diversion: The location of point where water is diverted from its source.

SW 1/4 SW 1/4, Sec 35 Twp 58 Rce 1E B.M. County of Ada

Additional points of discussion

B1 Describe means of diversion of water (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Diversion dam and ditch 3 X 1 1/2 about 2000' long

(b) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

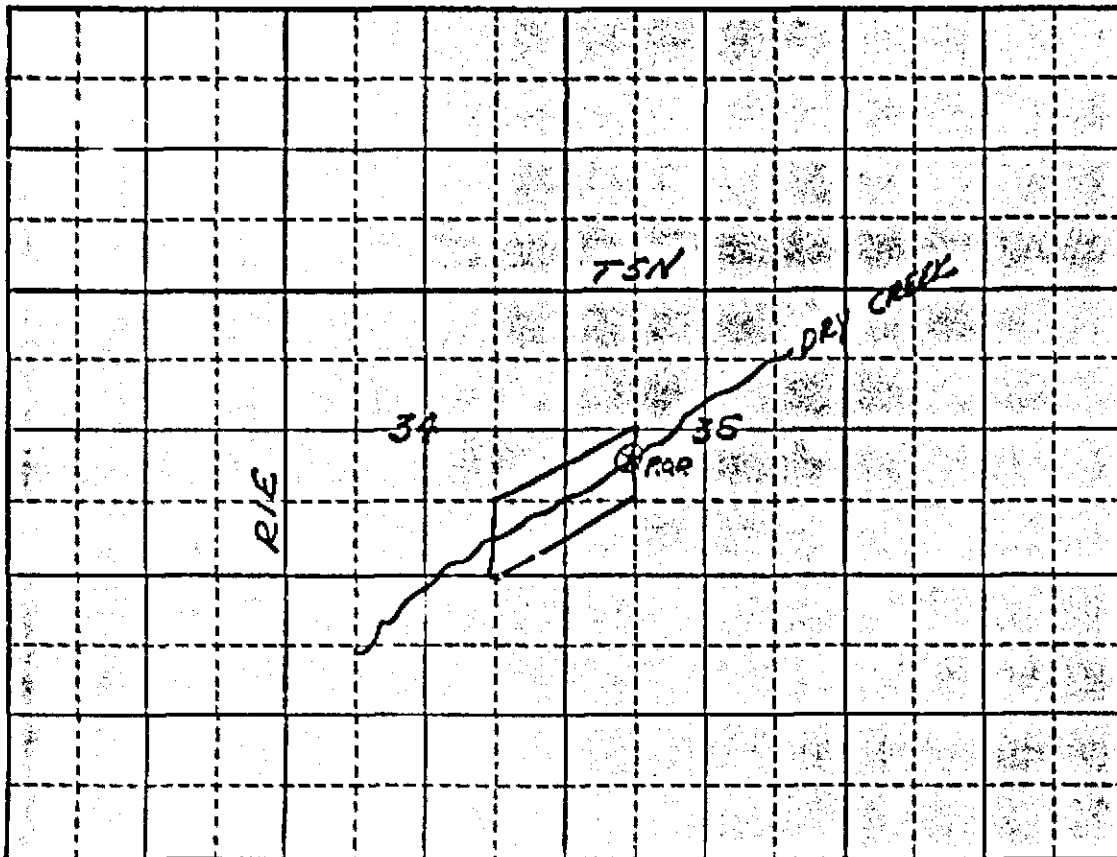

100-443887-100

B) If the water is used for other than irrigation, fully describe that use, being as specific as possible:

(7) If you are claiming water as a member of an organization, list name of organization:

151 7000

DE Remarks

Scale: 2 inches equal 1 mile

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

RE: Notice of Change of Water Right Ownership 63-4219G

Dear Claimants:

Enclosed is a copy of a Notice of Change of Water Right Ownership form that was submitted to our office. However, we cannot continue to process the ownership change without sufficient **proof of ownership**. This proof needs to be a copy of a **Warranty Deed** indicating your ownership of the property with an attached legal description.

Please submit a copy of the warranty deed, and we will be able to complete the ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Feel free to contact our office if you have any questions concerning this letter.

Sincerely,

A handwritten signature in cursive script that reads "Liberty Gagnon".

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

2. The following **REQUIRED** information must be submitted with this form:

A. The appropriate **FILING FEE**. See instructions for fee amounts.

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-4219E

Current owner: Perry and Isabel Flook

Boise ID 83714

EVIDENCE AFFIDAVIT:

Mr. Glenn Stillwell provides this statement of evidence. Mr. Stillwell is the previous owner of said property and Claims.

The Mary Glenn Subdivisions present point of diversion (off Dry Creek) for irrigation purposes is at the same location on the creek, and has been in use for irrigation since the land was originally homesteaded.

This was prior to 1900.

My Family (STILLWELLS), rented /leased this property from the original homesteaders the Clemmens family, before the turn of the century. I latter purchased the said property along dry creek. Myself and my Grand parents before me have always irrigated the land adjoining Dry Creek from that "point of diversion" on Dry creek at its present location, (which is now, Helen Yeagers property),

Sincerely

Glenn Stillwell
