7-21-03: Need Better Priority Evidence - Letter Sent

: Need measurements and specs on waste ditch. Pond size covered in field exam for 63-07749. Just need to confirm that the ditch can hold 3 cfs.

: Called Phone # listed on claim and received no answer. No apparent answering machine so I could not leave a message

: All other elements of the claim can be verified in FE Report for 63-07749

12-2-03 : I re-calculated slope and x-sectional area based on Burk Shofers Field Exam data and then re-calculated Diversion Rate for High water capacity of ditch came to $12.23 \frac{ft^3}{s}$ which is (see calc sheet) well above what was claimed. Burk's calc came to 10.56 cfs which was also well above what was claimed. Rec claimed diversion rate

: Tilt to sinks as there is no apparent outlet from pond

: One POA as where waste ditch enters claimants property

: POA recommended as licensed in 63-07749. Licensing FE done in 1992. 63-07749 is same system as this right. Any changes in acreage would require a new permit

: 5 acres in SWNW out per licensing FE for 63-07749

E. NARRATIVE/REMARKS/COMMENTS

I WENT DOOR TO DOOR UNTIL I FOUND A PERSON BY THE NAME OF TERRY DALEY WHO IS THE SECRETARY FOR THE ASSOCIATION. I DISCUSSED W/HER THE NEED OF AN AFFIDAVIT TO SUPPORT PRIORITY DATE. - SHE WENT THRU HER RECORDS AND DISCOVERED A PERSON WHO IS STILL ALIVE WHO MAY BE ABLE TO PROVIDE A SIGNATURE. HER NAME IS PEARL SIMON. I TOLD HER I COULD FURNISH A BLANK FORM IF SHE WOULD CALL.

I DELIVERED BLANK FORM AND BROCHURE EXPLAINING THE AFFIDAVIT REQUIREMENTS. SHE GAVE THIS TO PEARL. SEVERAL DAYS LATER I RECEIVED A CALL FROM PEARL SIMON WHO HAD SOME QUESTIONS. SHE SAID SHE KNEW SOMEONE ELSE WHO WOULD SIGN ALSO.

I EVENTUALLY WENT TO PEARL'S HOUSE & PICKED UP THE TWO AFFIDAVITS. THEY ARE ATTACHED.

I ALSO CHECKED THE X-SECTION OF THE WASTE DITCH TO THE POND. JUST NORTH OF THE ROAD WHICH CROSSES THE DRAINAGE WAY - SHEET ATTACHED.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 63. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by **October 31, 2003, referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 334-2190.

Respectfully submitted,

ADJUDICATION MEMORANDUM

CLAIM NO.: A63-04410

SUBJECT: Evidence of priority

EMPLOYEE: T. T. Wolske

DATE: 10/6/1995

Pearl Simon called to say that she is working on obtaining evidence of priority. She has located the previous owner's brother who should be able to write an affidavit in support of the priority date.

10/6/1995: Ms. Simon called to request clarification of IDWE's requirements for evidence of priority. I explained that Mr. Wolske had submitted an affidavit in Dec of 1976 but that the affidavit did not specify the source or the place of use. We will send her a copy of the affidavit and she will ^{ask} ~~ask~~ Mr. Wolske to write a more specific affidavit. TT

ADJUDICATION MEMORANDUM**CLAIM NO.:** A63-04410**SUBJECT:** Evid. of priority letter**EMPLOYEE:** TTTINICUCC1**DATE:** 08/01/1995

Mrs. Pearl Simon of the Cloverdale Ridge (water) Co-op called regarding IDWR correspondence requesting evidence of priority. We talked about why IDWR requires this documentation and she indicated that she could speak to development as of 1973 but that an old neighbor may be able to provide an affidavit. This neighbor was present at the time the housing development occurred. Mrs. Simon indicated that all lots were set up to receive irrigation water from the beginning. The irrigation water is wastewater which collects in a pond and is then pumped to the lots. Claim No. A63-07749 uses the same pond and has a recent (fairly) exam and license. Mrs. Simon will pursue the evidence of priority + submit it to this office.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
