INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

RE: EVIDENCE OF PRIORITY

I called Patsy Corke today to follow up on the above. I had left a phone message for her on 10/13/04 telling her that I had received her letter but that it did not provide evidence of priority back to the 1938 claimed priority date. Also, I wanted to confirm where the POD was.

I told Patsy that I had found a 1939 aerial that showed her property cultivated and that I could advance the priority date a year and use the 1939 aerial as evidence of priority. She was fine with that. She also confirmed that the POD was in the drainage ditch in the SW corner of the property about 30 feet north of where the ditch meets the Farmers Union flume on the south side of her property.

I asked her if she know of any other diversions from the drainage ditch from the subdivision or the original farmland owned by the Williams family. [She was somewhat familiar with the history of the property] She didn't know of any.

RE: PROOF OF PRIORITY

I called and left a message for claimant Patsy Corke this date. I had sent her a request for evidence of priority for the 6/1/1938 priority date claimed by the prior owners. She responded with a letter and photos of her use of the wastewater since she bought the property in 1991.

I left her a lengthy message on her answering machine and explained in my phone message that I needed priority of the 1938 claimed date. I suggested that she contact a neighbor regarding past use or if she had any knowledge of the use of the water before she owned it to write a letter to me regarding that.

Dear Ms Music:

I have been utilizing the drain ditch water since purchasing this property in 1991. This water is used for irrigation. I currently have two horses in pasture.

I have a gasoline powered water pump down at the ditch and PVC and poly pipe with sprinklers throughout the pasture. I purchased and maintain all this equipment myself and have not kept extensive records regarding costs because I do not deduct them for tax purposes.

Enclosed is a picture from 1998 of the irrigation system at work. The drain ditch runs through my property and a Farmers Union Canal flume borders my property. Since a subdivision was built across the drain ditch, my property is the access to the ditch and where the Canal flume meets the drain ditch. In the event of an emergency on the Farmer's Union Canal downstream, water could be diverted down the flume, flooding my neighbors and my pastures. I consider that the trade-off for my being able to utilize the ditch water free of charge.

#63-4608

I would love to be able to place a pipe in the flume (fresh water) and gravity flood my pasture, but I do not have that water right.

I do not know what kind of evidence I can provide you aside from this testimony.

Please do not take away my drain ditch water right. If the pasture dries up noxious weeds take over and the fire risk increases.

Also, I spoke with a Farmers Union Canal representative and he mentioned covering the flume and drain ditch. Before I bought this property, the story goes, the Farmer's Union Canal ditchrider opened the valve to the flume and the water came down the flume, hit the flat wall where ^{the flume} it joins the drain ditch and splashed to within 30 feet of the subdivision house facing it. That house sets back about 80 feet from the ditch.

I hope this information and picture help with my case. You are more

that would help. The pump is still at
the ditch and I am irrigating right now.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared; one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

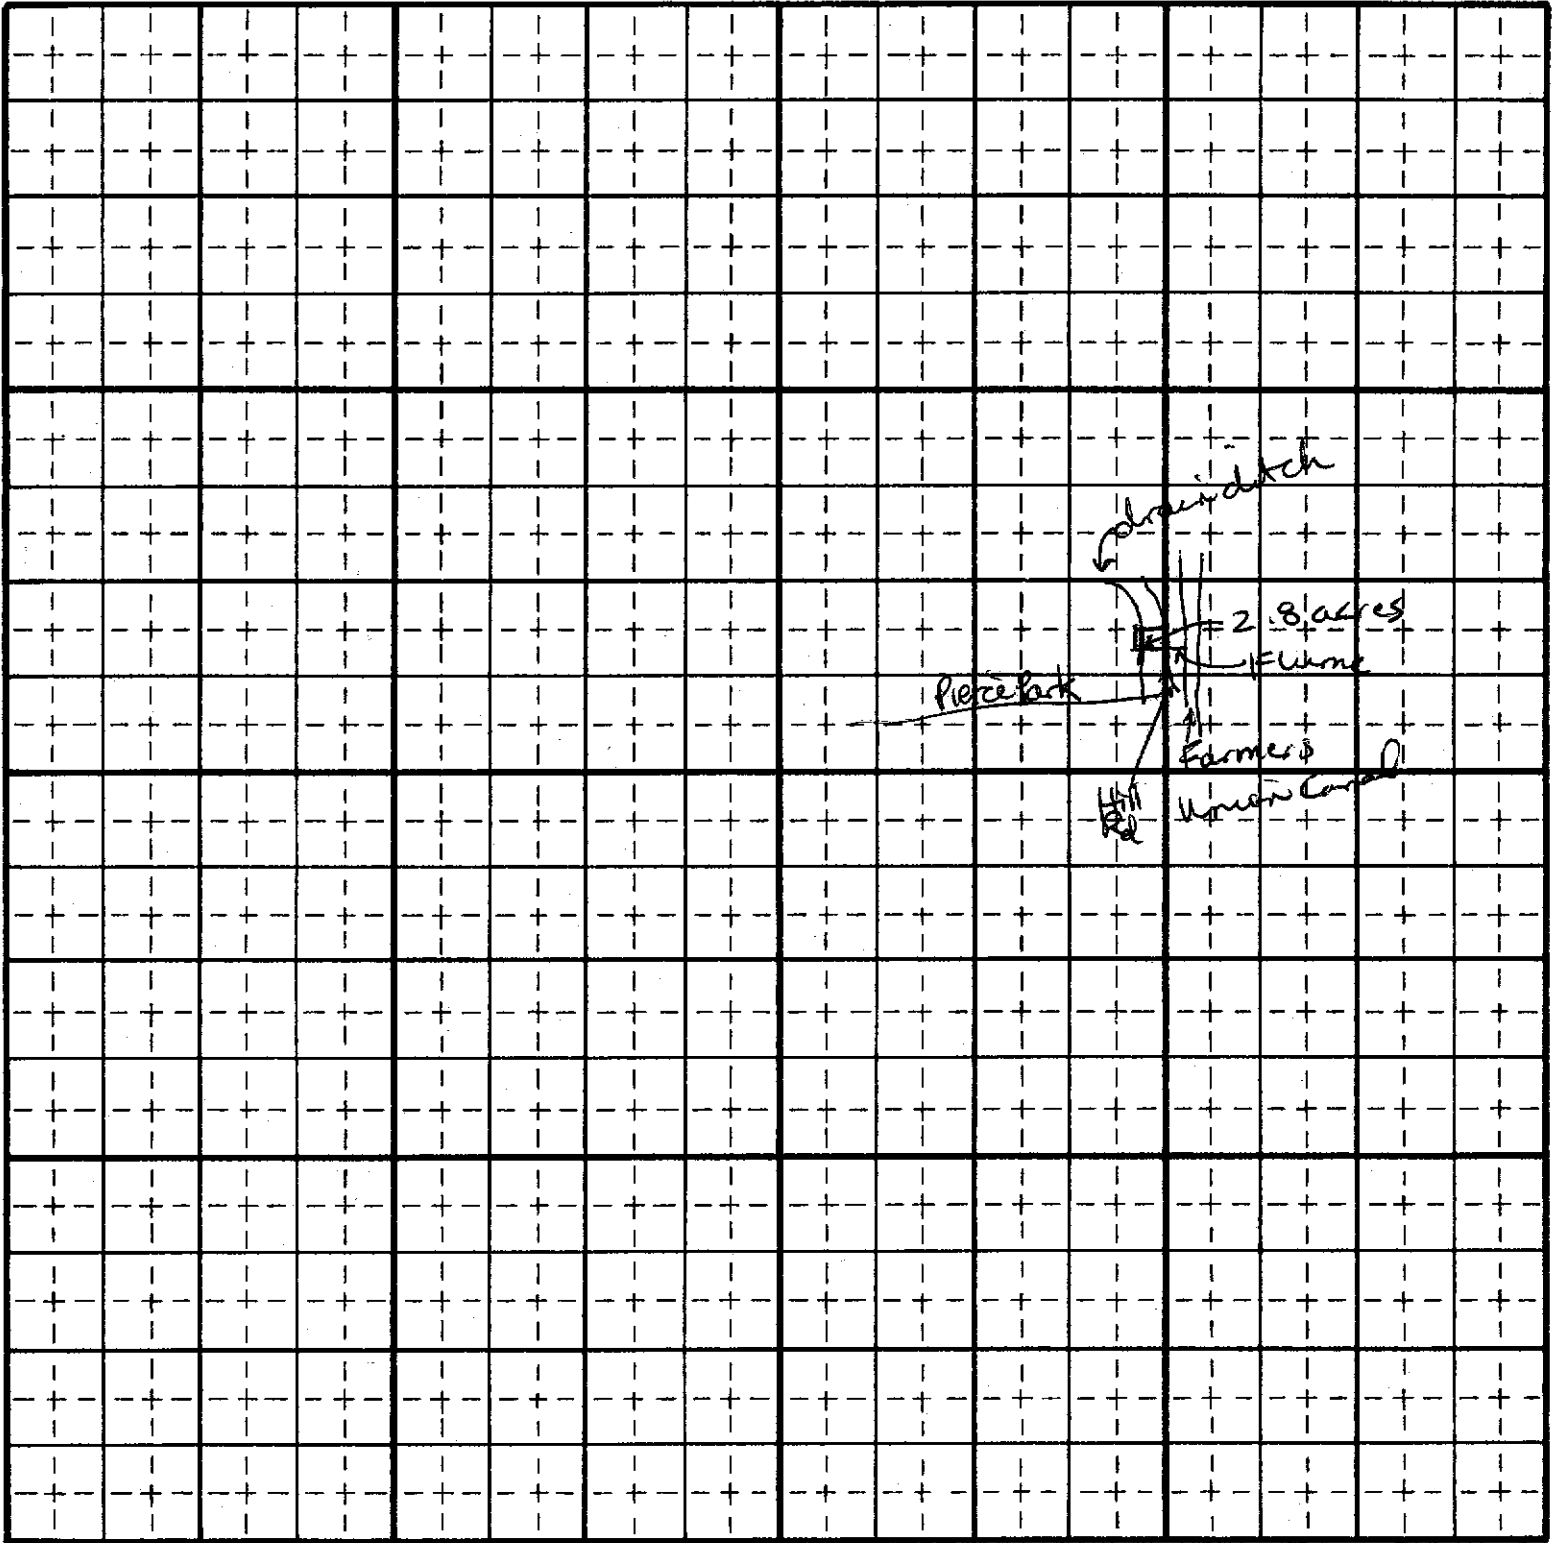

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-04605

Dear Claimant(s),

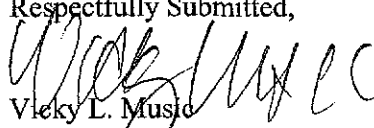

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by September 10, 2004. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully Submitted,

Vicki L. Musie
Water Resource Agent
Adjudication Bureau

Enclosure: "Evidence of Priority" pamphlet

Dear Mr. Allred:

The Farmers Union Ditch Co., Ltd. hereby files an objection to Notice of Claim to a Water Right No. 63-4605 filed by George G. and/or Delores M. Williams, 6633 Hill Road, Boise, Idaho.

The Williams have created a nuisance to our company by inserting a plastic hose into our wasteway and have tampered with our spillway controls to cause water to be wasted when it could have been put to beneficial use by our rightful water users. Further, in 1976 they filed a tort claim saying that their land was excessively wet from seepage water from our canal.

Very truly yours,

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that GEORGE G. &/or DOLORES M. WILLIAMS
(name of claimant)
of 6633 Hill Road, Boise, Idaho, claims a right to the diversion and beneficial use of
(mailing address)
the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) waste water, tributary to, drain ditch
- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
