) ORDER GRANTING OBJECTION AND
) REQUIRING OBJECTOR TO PROPOSE
) REMARK
)

On April 21, 2006, the Nampa and Meridian Irrigation District (NMID), by and through its attorney Bryce Farris of Ringert Clark Chartered, filed an objection to the *Director's Report* in the above-captioned subcase. The objection seeks a remark to be placed under the "source" element of any partial decree that may be issued that identifies the source of water as wastewater or seepage from the NMID, and as such any water rights derived from this source are subject to NMID's right to recapture said water, cease wasting it or to change the place and manner of use.

An initial hearing on the objection was held on December 5, 2006, at which the claimants failed to appear. An *Order to Show Cause* was issued, and a hearing thereon was held on January 9, 2007. Again, the claimants failed to appear. Accordingly, and pursuant to the terms of the *Order to Show Cause*, the objection is hereby granted.

Because the NMID is involved in a number of other subcases dealing with this same issue, and because of this Special Master's preference to have uniformity in any "source" remark that may ultimately become part of a partial decree for this and other water rights, the following are hereby ordered:

1. On or before April 30, 2007, the NMID shall either propose language for the subject remark; or in the alternative shall file a status report explaining why more time is needed to propose said language.

2. Any language submitted shall either bear the concurrence of IDWR, or contain a statement as to why IDWR does not concur. Should IDWR not concur with the proposed language, the matter will be set for hearing.

) Subcase 63-04626

Case No. 39576

) ORDER TO SHOW CAUSE
)

This matter came before this Special Master pursuant to a *Notice Setting Subcases for Initial Hearing* issued September 11, 2006. Jean R. Burnett and Douglas W. Burnett (hereinafter "Claimants") were notified of the hearing via first class mail sent to his/her last known address. The Claimants failed to appear at the December 5, 2006, initial hearing either in person or through counsel.

On April 21, 2006, the Nampa & Meridian Irrigation District, by and through its attorney Daniel Steenson of Ringert Clark Chartered, filed an objection to the *Director's Report* for this water right claim, asserting that the source of the water right claim is wastewater and or seepage from the Nampa & Meridian Irrigation District, and it is subject to the irrigation district's right to recapture said water, cease wasting it or to change the place and manner of use. On June 23, 2006, the United States of America, Department of Interior, Bureau of Reclamation, filed a response to the objection.

It is **hereby ordered** that the Claimant shall appear before this Special Master on **January 9, 2007, at 1:30 P.M.** Mountain Time, at the Snake River Basin Adjudication Courthouse, 253 3rd Avenue North, Twin Falls, Idaho, or participate by telephone by dialing 1-225-383-1099 participation code 675342, to show cause why the objection filed by the Nampa & Meridian Irrigation District should not be granted. The purpose of the show cause hearing is to provide the Claimants with a final opportunity to oppose the objection despite failing to appear at the initial hearing.

Participation in the show cause hearing is **not mandatory** and failure to appear will not be considered contempt of court. **However, failure to appear will result in the**

Claimants being deemed to have consented to the remedy sought by the objector. If the Claimants participate in the hearing, the Claimants will be expected to notify this Special Master whether he/she intends to oppose the objection, and accordingly a trial date will be set. In such case, no additional evidence or argument need be presented as subcases(s) will be allowed to proceed to trial as a matter of course. Therefore the parties need not produce testimony or evidence in accordance with I.R.C.P. 6(c)(4).

A copy of this *Order to Show Cause* shall be served upon the Claimants not less than five (5) days prior to the date herein shown, upon which those parties are required to appear before this Special Master and show cause. Service of the *Order to Show Cause* shall be made in accordance with I.R.C.P. 5(b) and 6(c)(2).

IT IS SO ORDERED

Mr. Decker,

This mail was forwarded to me from my home in Provo, as I have just had a knee replaced, and I am staying at my daughters in St. Louis.

This property was sold back in early 2004, as I remember. I do not have access to the file here & I will not be home until January 7, 2006.

If you need further information please call Howard Barlow at 801-489-0421. He handled the sale and could get you any information you might need.

Sincerely

KARL J. DREHER
Director

November 1, 2005

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a printout showing our preliminary recommendation for reporting your claim(s) to the SRBA District Court later in 2005.

Please review the preliminary recommendation carefully. If there is any information on the printout that you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with review are enclosed. For water rights with an irrigation water use, a map produced from Geographic Information System (GIS) computerized images of the place of use for your water right is also enclosed.

If you have questions concerning your recommendation, please contact the Department's Western Regional Office at (208) 334-2190. If needed, an appointment with a water resource agent can be made. Please bring any and all information you have which could help IDWR understand your claim(s) and recommend the claim(s) accurately, which is my directive to the staff.

This preliminary recommendation process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary and appreciated by IDWR to provide accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous services provided by IDWR.

Sincerely yours,

John M. Melanson
Presiding Judge
Snake River Basin Adjudication

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and rediversion. Points of injection and rediversion are indicated where water is diverted from one source, injected into another source, and then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s).** Please enter the number(s) at **Item 1.** Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3.**
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4.** Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at **Item 6**. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. If an "and" connector is used at Item 4, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

CONVERSATION MEMORANDUM

TO: CLAIM FILE NO. 63-4626
FROM: VICKY L MUSIC, WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: ADDITIONAL INFORMATION NEEDED FOR RECOMMENDATION
DATE: 3/21/2005
CC:

I received a call from Jean Burnett, former owner of the property. Her husband is deceased and he handled all matters related to the property. They sold the property about 1 - 2 years ago. She does not know the name of the company that owns it now but has called and left a message for someone who was involved in the transaction who can follow up on my request. I told her that a change of ownership needed to be done and let her contact know that I needed additional information to recommend this right to the court.

I asked her about the old license and the west tributary of Eightmile Creek and she really could not provide any information. They bought the property at least 20 years ago [she is not sure when], leased to Darwin McKay who formed it and then turned it into a sod farm. She said he would know more about the use of the water and the property.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-4626

Dear Claimant(s),

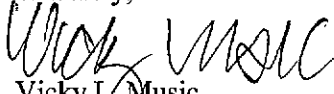

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Please submit the required evidence supporting the priority date(s) by March 28, 2005.

Please let me know if have questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Vicky L. Music
Water Resource Agent

Enclosures: Notice of claim report for A63-4626 and "Evidence of Priority" brochure

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.
