NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED
MAY - 8 2003
Department of Water Resources

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Prior to Field Exam

- ☒ Copy of Claim, claim has been signed, sealed, and dated by notary?
- ☒ Check fees paid \$ 85.⁰⁰ (\$ 50.⁰⁰ flat fee + 35 acres irr.)
- ☐ Well logs (if needed) N/A
- ☒ Copy of topo or NAPP
- ☒ Check of Govt. Lots, if needed, Govt. Plat/Tax lot information
- ☒ Check POD & POU overlap, see below - include overlapping right for exam
- ☒ Evidence of Priority - if none, talk with claimant

The Notice of Claim was signed by claimant Thomas McGowan but was not notarized. Since all elements of this claim are recommendable, it was determined that the department would recommend nonetheless.

CLAIMANT INFORMATION - verify contact information is complete

E. NARRATIVE/REMARKS/COMMENTS

I FOUND THIS FARM ON NOV 13, 2003. I WALKED EAST ALONG THE DITCH WHICH DELIVERS WATER FROM THE ARTESIAN WELL TO THE NE. CORNER OF ASUMENDI'S PLACE. I SITE TAGGED THE WELL, PLACING THE TAG ITSELF ON THE BOTTOM RAIL OF FENCE CLOSEST TO THE WELL A0002454 (SEE PHOTO) I GPS'D THE SITE AND MEASURED THE FLOW RATE BY MEASURING TWO 50' SECTIONS AND TIMED A FLOATING STIC THRU EACH SECTION, (SEE CALCULATIONS ATTACHMENT.) AND CALCULATED AN AVERAGE VELOCITY. I MEASURED ^{THE} DEPTH OF WATER AND DETERMINE THE AREA. USING CONTINUITY EQUATION $Q = AV$. FOR FLOW RATE. I EXAMINED THE FIELD WHERE THE WATER COULD BE USED. AND DETERMINED ^{THE} PLACE OF USE. I MARKED THE MAP PHOTO AND MEASURED SIDE DIMENSIONS OF FIELD (SEE PHOTO) = FROM THESE MEASUREMENTS THERE ARE 23.5 ACRES IN THE NENE AND 6.7 ACRES IN THE SE NE. TOTAL OF 30.2 AC. THE GIS SOFTWARE MAY BE ABLE TO MAKE MORE ACCURATE MEASUREMENTS. JULIE STATED THAT ASCS PHOTO SHOWS 32-33 AC.

QUESTIONS FROM REVIEW. (1) POD GPS'D AND SHOULD BE ACCURATE (2) MR ASUMENDI STATED THAT THEIR CANAL WATER COMES FROM SETTLERS IRRIGATION DISTRICT (POSSIBLY THRU RIDENBAUGH CANAL) TO THE CRENSON LATERAL ASSOCIATION.

ON 2/2/04 I TRIED TO CALL DOMINGO AND FAILED TO REACH HIM.

To Whom It May Concern:

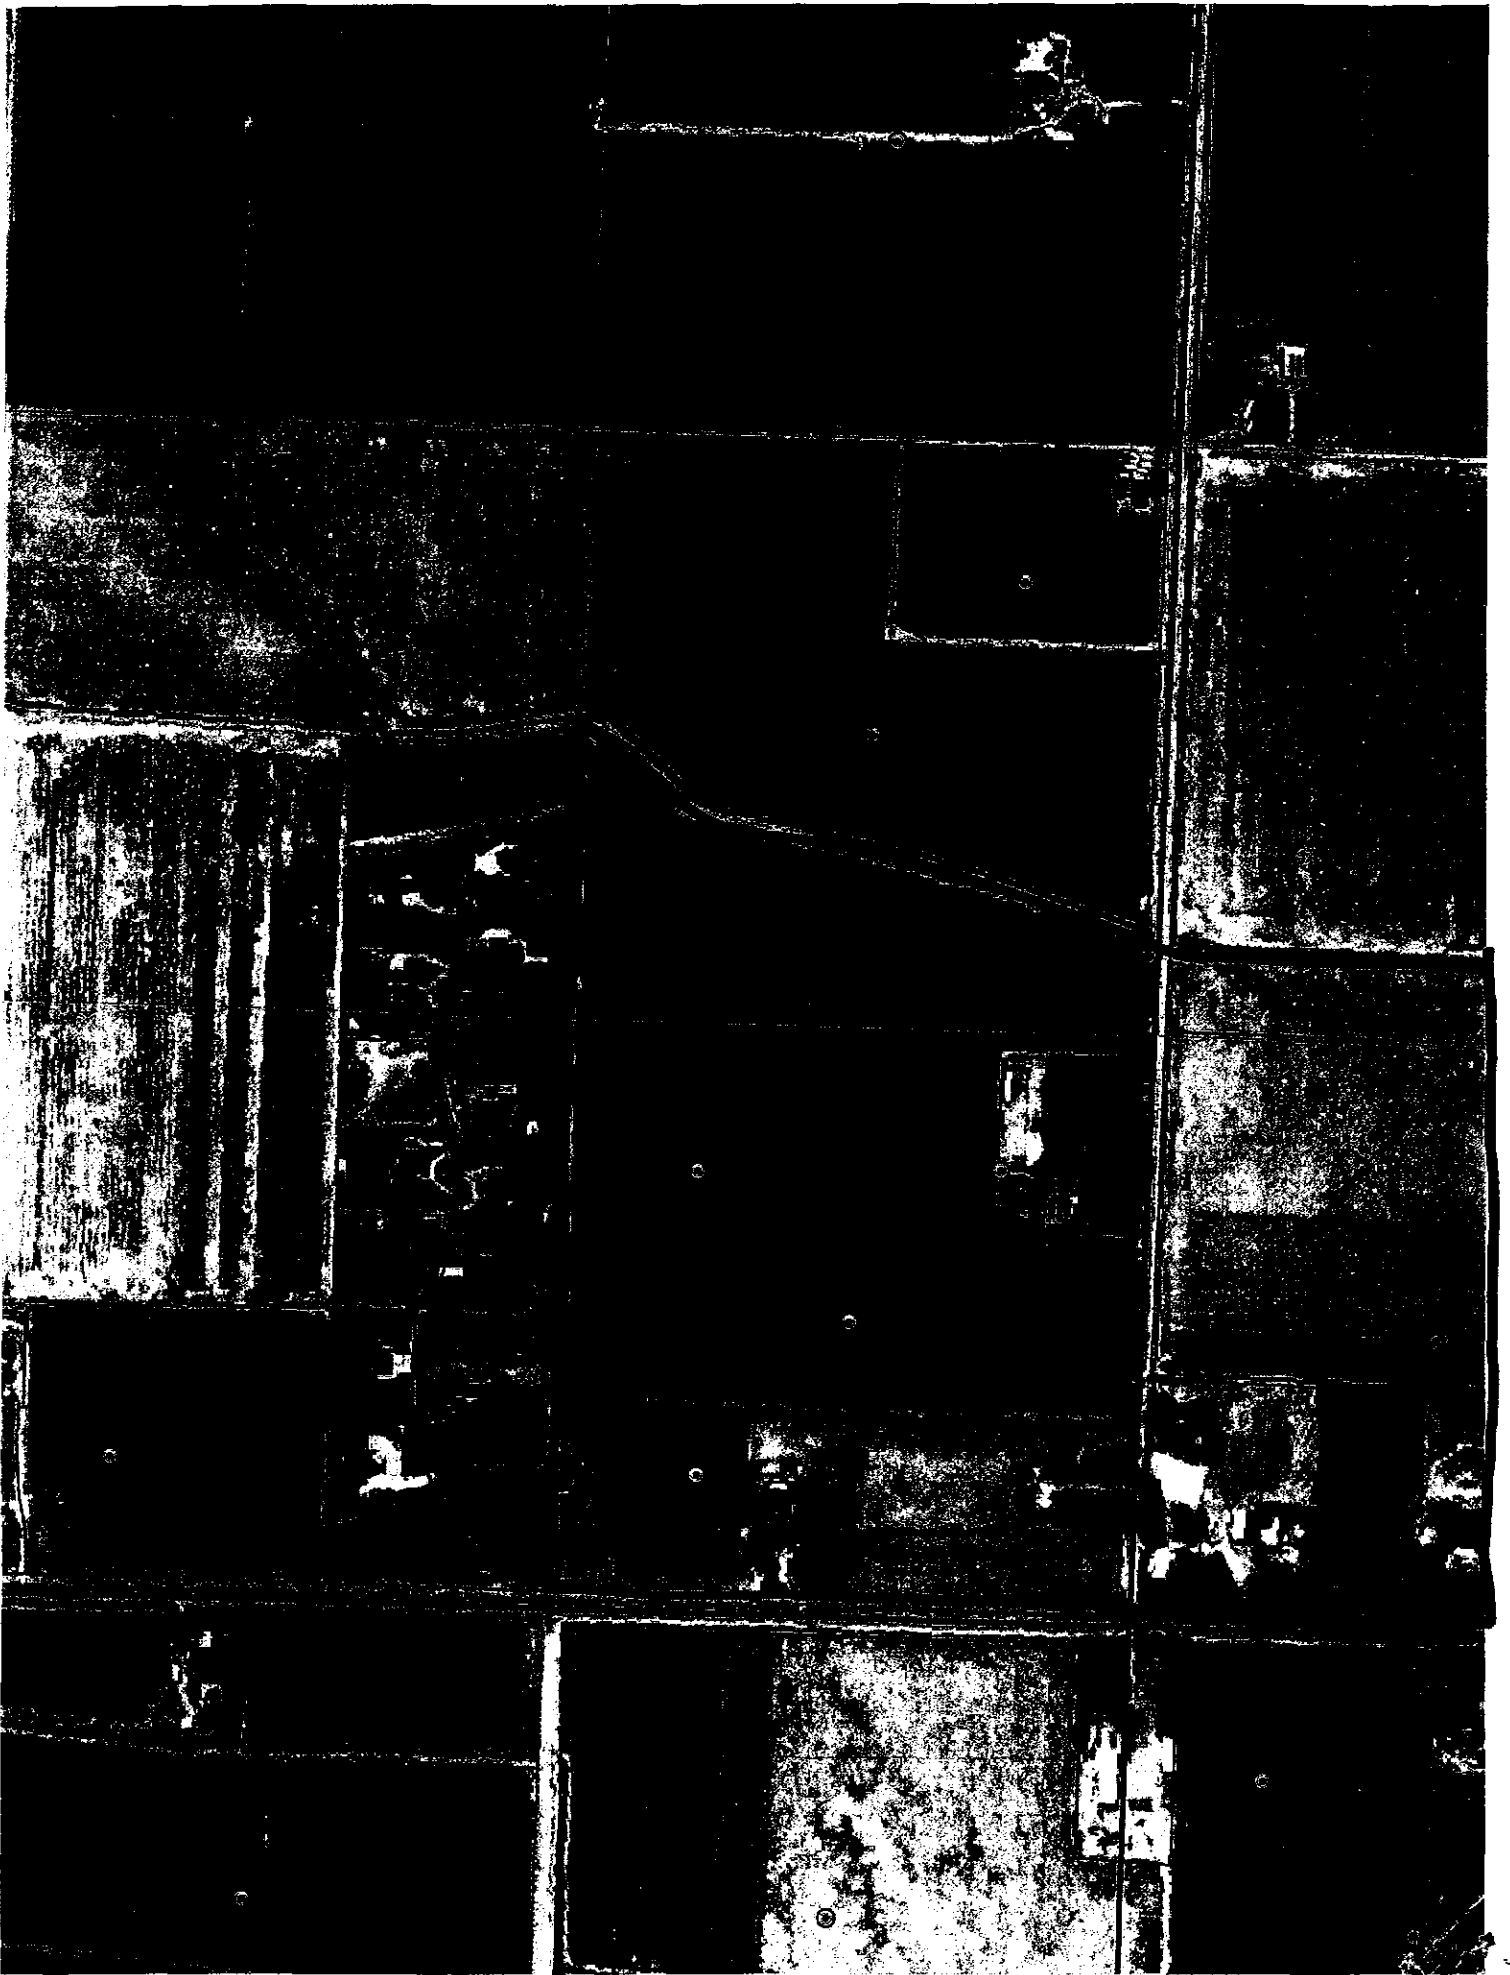

I am writing this letter in regards to water right 63-4⁶~~5~~44 as being used to irrigate 35 total acres to the address of 6100 N. McDermott, Meridian, ID 83642. It is my knowledge that the well located (NE1/4NW1/4NW1/4) Section 28, Township 04N, Range 01W, B.M. was installed in 1936. At that time the water was being used to irrigate the area outlined in black on the attached aerial photograph, which includes the 35 acres associated with water right 63-4⁶~~5~~44 (Outlined in blue) I personally have seen photographs showing the property being irrigated dated 1936.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-04644

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 16, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above. In addition, please contact me at the Western Region office as soon as possible to set up a field exam.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Thomas J. McCollum

Re: Claim to a Water Right No. 63-4644'

Dear Mr. McCollum:

Enclosed is a copy of an exception filed in connection with your above-referenced claim to a water right. The Department will not schedule a hearing in this matter or evaluate for conformation or censure the right claimed since Section 42-244, Idaho Code, states in part the following:

"At anytime after the filing of a claim, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources."

If we can be of further assistance, please contact us.

) PROTEST TO CLAIM OF WATER RIGHT

Statutory Claim to a Water Right)
Claim No. 63-4644, filed by)
Thomas J. McCollum on March 28,)
1979.)
) PROTESTANT: ROBERT H. RUBLE
) CAROLYN J. RUBLE

COMES NOW Robert H. Ruble and Carolyn J. Ruble, residing at 5175 West Chinden Blvd., Meridian, Idaho 83642, and do hereby PROTEST the Claim to a Water Right, Claim No. 63-4644, filed by Thomas J. McCollum, 5120 N. Linder Rd. Meridian, Idaho 83642, with the Department of Water Resources on March 28, 1979, purportedly pursuant to Section 42-243 Idaho Code.

The initial objection of Protestant is the potential ambiguity resulting from the asserted Claim as to the diversion and application to a beneficial use of water flowing from a six inch artesian well casing located in Section 28, Township 4N, R1W, Boise-Meridian, located in Ada County, Idaho.

It is important for the Department to carefully note that there are at least two different artesian wells located in the NW 1/4, NW 1/4 of Section 28. Within that 40 acre parcel, the Protestant, Mr. Ruble, owns property where a ten inch artesian well is located, and the Defendant, Mr. McCollum, owns property where a six inch artesian well is located.

APR 04 1988

The Protestant does not protest any claim with respect to water flowing from the artesian well located on the property owned by Mr. McCollum, which he has described to a six inch well casing; however, Protestant does protest the claim with respect to the beneficial use of any water flowing from the ten inch artesian well located on the property owned by Protestant.

It would appear that the claim is not intended to assert a beneficial use of water from the ten inch artesian well since it is physically impossible to deliver water from the ten inch artesian well to the SW 1/4, NW 1/4 of Section 28 because of the existence of the large drainage waste ditch. With respect to property located in the NW 1/4, NW 1/4 of Section 28, we have more acres claimed for which a beneficial use of water has been applied that is actually contained in a 40 acre parcel. The ten inch artesian well is located approximately 1/3 of the way in from the East boundary of this 40 acre parcel, which means approximately 13 acres could never be irrigated from this ten inch artesian well because of the natural flow of the land. That 13 acres is irrigated only from head waters of the Settlers Irrigation lateral system, and the artesian water has never before flowed onto any of that 13 acre parcel. With respect to the down stream remaining acreage, Mr. McCollum has less than 17 acres, and the artesian water flowing from his six inch well casing may well be used to augment the Settlers Irrigation ditch lateral, should there ever be an event when the Settlers Irrigation system is unable to supply sufficient waters for their shares. Coincidentally, Protestant has inquired of Settlers Irrigation District personnel and reviewed their records and has learned that there has never been a time in the history of that District that they have been unable to provide for adequate water needs of their shareholders.

RECEIVED
APR 04 1988

There has never been a need to augment or supplement water sources by that District, and any suggestion that such may become a need in the future is certainly not supported historically and could not be the basis for a claim to a water right of any beneficial use of artesian water from this ten inch casing and such has not been the case.

Additionally, of the 17 acres remaining, there is the homestead area, the house, the barn, the riding arena, hay storage facility and large unirrigated areas comprising 3 acres in approximate demension. It would appear that Claimant has asserted a claim that is five times greater than could ever be beneficially applied to his property, though in fact no such beneficial use has ever been made of the ten inch artesian well water to his premises.

At no time has Mr. McCollum ever claimed a right by diversion and application to a beneficial use of any water flowing from the artesian well described in his Claim to a Water Right.

The Protestant is the owner of the property where the artesian well is located, and there has never been any authorization, license or easement granted to Mr. McCollum to divert any water from this artesian well to any point across the property of Protestant or that of any adjoining neighbor. Any attempt to divert water from Protestant's premises and from this artesian well would constitute trespass and could never support the basis of a valid claim to a water right.

In summary, there has never been a beneficial use of water from this artesian well by Claimant for at least 8 years continuously to the protested land, and if there were any claim existing from any previous use by any previous landowners, it is long since been forfeited and abandoned.

APR 04 1988

law.

Protestant does further note that in December, 1981, he filed an Exception to Claim to Water Right with reference to this Claim, No. 63-4644. In that exception, Protestant did state that Claimant's right is not to water from the artesian well, but to their shareholder right to water from Settlers Irrigation District which flows within their lateral. That fact is clearly the case today as Claimant has never used more water than provided to him through sources of Settlers Irrigation District. There has never been a need to augment or supplement the source of water needed to service the shareholders in the Settlers District, and Mr. McCollum has never made beneficial use of any water from the ten inch artesian well. If the artesian well were capped, as it has been on numerous occasions, the water source provided by Settlers Irrigation District is not impaired whatsoever. Furthermore, the Board of Directors of the Settlers Irrigation District have affirmatively stated that they make no claim to any water flowing from the ten inch artesian well and that they have for their shareholders with their own water sources. There is no basis to a water claim whatsoever.

Dated this 15 day of March, 1988.

COME Robert H. Ruble and Carolyn J. Ruble and file exception to the Claim to Water Right No. 63-4644. Said claim is for .60 cfs for irrigation. It names as a source ground water, and as a means of diversion: Artesian well, 6 inch casing and ditches for irrigation. Claimants list 70 acres as place of use. Under question 6 B it names as uses "Settlers water". Claimant does have a right to .60 cfs of Settlers Irrigation water which runs through the ditch. The water from the artesian well which is located on Rubles' property flows into the ditch also. Claimant's right is not to water from the artesian well but to Settlers water running in the ditch.
