RE: Snake River Basin Adjudication (SRBA) claim A63-04676

Dear Mr. Asumendi,

After you submitted the Affidavit as evidence of your priority date, I began reviewing your claim and found that your file does not contain the original Notice of Claim to your water right. Then I realized that I saw the original Notice of Claim in your personal files that you brought with you to the Western Region office on March 4th. Since it is necessary that the department have the original document in our possession, please go through your documents to locate the **notarized** Notice of Claim to a Water Right Acquired Under State Law for claim #A63-04679 and send it to:

ATTN: Kimberly Brown

Please feel free to contact me if you have any questions.

Respectfully submitted,

CONVERSATION MEMO

RE: Snake River Basin Adjudication Water Right No. A63-04676

August 29, 2003

Julie Asumendi called in response to the evidence of priority letter I sent on August 15th, 2003. Mrs. Asumendi commented that they bought the property in the 1980's and that someone at the State office helped her come up with the claimed priority date. I stated that the document the person at the State office must have used to come up with the 1936 priority date must be in her files. She is going to look through her files and see if she can find a pertinent document. In addition, I told Mrs. Asumendi that a field exam was necessary and that we would have someone contact them in order to schedule an appropriate time to conduct an exam.

March 4, 2003

After initially going to the State office to speak with Nick Spencer, claimant Domingo Asumendi came to the Western Region office to talk about the required evidence of priority with me. As evidence, he initially handed me the original Notice of Claim (which I later realized is the actual original claim that he somehow has in his personal possession). After explaining that the Notice of Claim would not suffice and Mr. Domingo's comments that there is no one that can provide an Affidavit (previous owners have passed away, no neighbors that have any personal knowledge regarding this right, etc.), we decided that Mr. Domingo should fill-out an Affidavit himself; based on his knowledge of the right.

While he was here, Mr. Asumendi also verified the place of use and the location of the point of diversion on 1987 NAPP and stated that Boise-Kuna Irrigation District water is used to supplement this right.

Re: SRBA Claim A63-04676

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. **If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.**

Very truly yours,

E. NARRATIVE/REMARKS/COMMENTS

I FOUND THIS FARM ON NOV 13, 2003. I WALKED EAST ALONG THE DITCH WHICH DELIVERS WATER FROM THE ARTESIAN WELL TO THE NE CORNER OF ASUMENDI'S PLACE. I SITE TAGGED THE WELL, PLACING THE TAG ITSELF ON THE BOTTOM RAIL OF FENCE CLOSEST TO THE WELL. A0002454 (SEE PHOTO) I GPS'D THE SITE AND MEASURED THE FLOW RATE BY MEASURING TWO 50' SECTIONS AND TIMED A FLOATING STICK THRU EACH SECTION, (SEE CALCULATIONS ATTACHMENT.) AND CALCULATED AN AVERAGE VELOCITY. I MEASURED ^{THE} DEPTH OF WATER AND DETERMINED THE AREA USING CONTINUITY EQUATION $Q = AV$. FOR FLOW RATE, I EXAMINED THE FIELD WHERE THE WATER COULD BE USED. AND DETERMINED ^{THE} PLACE OF USE. I MARKED THE NAPP PHOTO AND MEASURED SIDE DIMENSIONS OF FIELD (SEE PHOTO) : FROM THESE MEASUREMENTS THERE ARE 23.5 ACRES IN THE NENE AND 6.7 ACRES IN THE SE NE. TOTAL OF 30.2 AC. THE GIS SOFTWARE MAY BE ABLE TO MAKE MORE ACCURATE MEASUREMENTS. JULIE STATED THAT ASCS PHOTO SHOWS 32-33 AC.

QUESTIONS FROM REVIEW. (1) POD GPS'D AND SHOULD BE ACCURATE (2) MR ASUMENDI STATED THAT THEIR CANAL WATER COMES FROM SETTLERS IRRIGATION DISTRICT (POSSIBLY THRU RIDENBAUGH CANAL) TO THE CREASON LATERAL ASSOCIATION.

ON 2/2/04 I TRIED TO CALL DOMINGO AND FAILED TO REACH HIM.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-04676

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 12, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

Claim No. 63-4676
Amended

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Eugene R. Eby (Name of Claimant)
028 Amber Boise Id 83706 Telephone No. 376-1450
 (Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) 8/20/1936

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Groundwater tributary to _____

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
