EXHIBIT 1
PURPOSE FOR TRANSFER

Mr. and Mrs. Dallas Harris have operated a ranch for years in Ada County, generally in T3N, R3E, Sections 19, 20, 28, 29 and 30. The property was irrigated primarily as a cattle ranching operation for feed and pasture for beef cattle. Water has been supplied to the ranch under various water rights which include a relatively intermittent supply from Warm Spring Creek (63-00365), a Boise River water right (63-00184) which is conveyed under special contract through the Penitentiary Canal and two (2) ground water rights (63-07103, 63-08627). Additional water has been provided by Boise-Kuna Irrigation District for a specific acreage on the ranch. The point of diversion and place of use for the Boise-Kuna Irrigation District water rights are unaffected by this transfer. Over the past few years the Harris' have been involved in the development of Harris Ranch, a planned unit development. Because of the significant changes in land use and water distribution requirements, the Harris' wish to combine their water rights into a permissible place of use, which will provide enhanced flexibility and efficiency in their operation. There will be no increase in water volume usage or rate of diversion nor will there be an expansion of water right onto additional irrigated lands. As described on Item 2, Page 1 of the application, no more than 581 acres will be irrigated with the water rights listed on the transfer.

Subject: Harris Ranch water rights

Good morning all -

This e-mail is per our correspondence this week regarding the Harris Ranch water rights 63-184, 63-365, 63-2973, 63-3261 and 63-7103. I forwarded all e-mails and attachments to Nick on Wednesday for review.

Nick, Steve Hannula called me this morning regarding language in the DRAFT Memorandum of Understanding (MOU). Though the claimant realizes that there is no timeline or a solution yet regarding splitting 63-184 and 63-3261 from the PPU and changing ownership of these 2 rights to the Phase A homeowners assn, they would like to formalize the MOU as soon as possible. The claimant would like IDWR input regarding the MOU. Will you please review the MOU, specifically the paragraph on page 2 entitled "Consultation with IDWR", and perhaps suggest language especially since IDWR has not issued instructions and there are no assurances that it will be resolved in the SRBA?

Here is the language on page 2:

"Consultation With IDWR: Harris and the Association have consulted with IDWR concerning this proposed allocation of the Water Rights and have been instructed to place these issues before the SRBA Court for approval, rather than filing a transfer application."

Vicky,

Some time ago, I had talked to you about IDWR's water right recommendations for Dallas Harris (63-184, 63-365, 63-2973, 63-3261, and 63-7103). These 5 water rights have recommendations in the name of Dallas Harris. These water rights are in new ownership as the result of development.

You had suggested that I send to you the maps and Agreement being formulated by all of the parties so that you and Mr. Spencer can offer comments to facilitate the change in ownership.

Attached, please find the DRAFT Agreement and the accompanying maps. I would appreciate your review and your recommendations to make the change in ownership as easy as can be.

I look forward to hearing from you.

Vicky,

Thanks for the e-mail.

It sounded like Nick had already identified some issues that needed correction. I'm not sure what those issues are exactly, so I looked through the recommendations and checked them against Transfer 5577.

The main thing I noticed is that the total acres listed below the PPU land list should read 590 acres and not the individual limitation. The individual limitation is spelled out separately.

The differences noted for the 5 recommendations are listed below:

63-2973: The total acres irrigated listed beneath the PPU land list should read 590 acres total. The limitation to the individual water right should read "This right is limited to the irrigation of 24 acres within the place of use" The recommendation shows 80.5 acres, it should be 24 acres.

63-7103: The total acres irrigated listed beneath the PPU land list should read 590 acres total. The limitation to this individual right reads correctly at 80.5 acres (I'm not sure where the "82 acres" as listed for the total came from.

63-3261: The total acres irrigated listed beneath the PPU land list should read 590 acres total.

63-365: I found nothing wrong.

63-184: This water right should have a limit of 112 acres, i.e. "This right is limited to the irrigation of 112 acres within the place of use"

I hope this information is helpful to you and is what Nick had identified. If you need this information on a separate form or response, please let me know. I look forward to hearing back from you.

Hi Steve -

I received your message today re errors in Harris ranch recommendations. I am not sure what they are though Nick referred to them after he had a conversation with Al Barker.

This situation is not one that I can spend a lot of time on right now. Will you please send me an email with the claim nos, and a short summary of the errors so I can research them when I have some time?
Thanks. Vicky Music.

Steve -

As I mentioned to you in our conversation, due to the complexity of this matter, there is nothing I can talk to anyone about until we look at the copy of the agreement to see what the intent of the parties is. Also, although you indicated the title search document is voluminous, I am sure that IDWR attorneys will have to look at the ownership documents and look at the wording in the deed before anyone at IDWR can provide adequate guidance regarding this matter and whether it can be handled through the SRBA as Jeff P and John H thought might be possible.

Hence, I will do nothing until you can provide a copy of the agreement that I can forward to an adjudication attorney.

Subject: Harris Ranch Water Rights

Vicki,

Attached are two .pdfs that illustrate what we want to accomplish with the Harris Ranch water rights. As I mentioned on the telephone yesterday, Harris Ranch (currently in the name of Dallas Harris) has 5 water rights that are all listed in a PPU. The development of 'Phase A' and future development necessitated breaking up the PPU that was approved in a 2000 transfer.

7/13/2006

Specifically, 63-184 and 63-3261 are to be owned by the Harris Ranch Owners Association (HROA) for use within their subdivision.

Also, 63-2973 will be separated out of the PPU and goes with the eastern portion of the original ranch. The remaining two rights 63-365 and 63-7103 are to remain in the western part of the original ranch (west of the Idaho Power corridor).

An Agreement has been drafted between HROA and the Harris Family regarding the water rights, but there are some changes that need to be made, so the attorney is hesitant to send out a draft quite yet. It will be available in January.

My question for you is.... do you have suggestions for me to effect the ownership change and the respective PPUs shown on the attached maps through the SRBA? Our most recent thought was to file competing claims, but yesterday it sounded like you had better ideas for us.

I am looking forward to your suggestions. I will be back at the office beginning January 3rd.
