Figure 1. Map of The Terteling Company, Inc.'s proposed "Permissible Place of Use" acreage in Township 4 North, Range 2 East associated with Water Right Nos. 63-07595 and 63-03603. The irrigable acreage is marked in transparent orange. The outlined areas (dashed) is the current place of use for which the water rights are licensed. The black numbers in parentheses shown for each tract ($\frac{1}{4}$ - $\frac{1}{4}$ section) represent the total number of irrigable acres within that $\frac{1}{4}$ $\frac{1}{4}$ section.. The points of diversion (wells) for the water rights proposed as points of diversion for the permissible place of use are denoted by solid black circles.

Charlie and Tom -

The Director's Report for Basin 63 Part 2 will be submitted to the SRBA Court the week of December 12. Internal IDWR deadlines in preparation for the Director's Report require that I have all of the supporting documentation for claims to be recommended in this Director's report by October 31, 2005.

Please submit all supporting documentation for the Terteling claims, including the amended claims, by October 31, 2005. If I do not have the information by that time, I will recommend the claims based on the information I have.

Thanks,

Attorneys for Claimants The Terteling Company, Inc., and T-7, LLC

STATE OF IDAHO)
) ss
COUNTY OF ADA)

1. I make this affidavit based upon my own personal knowledge and belief of the facts contained herein.
2. The purpose of this affidavit is to provide information requested by IDWR for claims to water rights located in the Stewart Gulch area near Boise, Idaho made in the Snake River Basin Adjudication by The Terteling Co. Inc. and T-7, LLC.
3. My family has owned the Terteling Ranch in Stewart Gulch (comprised of the lands to which the water rights referenced herein are appurtenant) since June 12, 1944 when my father purchased the property. Consequently, I have lived on the Terteling Ranch for most of my life. I have extensive knowledge regarding the use of all of the water rights referenced

herein because I have worked on, irrigated and developed the property throughout my life.

4. Specifically, my knowledge regarding the information requested by IDWR is as follows:

63-22047

This is not a right claimed by an entity with which I am involved. I have no information regarding this claim. Please contact Ann Terteling Sparks for information about this water right at 7962 Fairview, Boise, ID 83704 - (208)322-6300.

63-27649

This water right is diverted from the Terteling Springs that flow into ponds in the north 1/2 of the Northwest 1/4 of section 22. I recall the use of these ponds and water right for irrigation use since I have lived on the property. I have been told by prior owners that the ponds were in place and used for irrigation and for fish farming since the early 1900s. The ponds have been used for wildlife, boating, fishing and recreation since I have lived in Stewart Gulch.

63-27671

This right is diverted from the Terteling Springs flowing artesian well into ponds. I recall the use of water from this well for irrigation use, commercial fish farming, boating and recreation from my early days on the property. I own a commercial fish farmer's license and have, in the past, sold fish harvested from the ponds into which this water right flows.

63-30006

This water right is diverted from the Duck Pond flowing artesian well located in the SWNW of section 22. I recall the use of this flowing artesian well to provide water to the duck

ponds for storage for wildlife, irrigation, fish, recreation and aesthetic purposes at the time my father purchased the property.

63-30007

This water right is diverted from the Peaceful Cove Nursery Spring. I recall this water right being diverted for irrigation purposes at the time of our purchase of the Terteling Ranch. There has been no change in the place of use of the water right. Rather, the currently claimed place of use has always been the place of use of the water right, and the claim merely corrects earlier filings. A map of the spring location is attached hereto as Exhibit "A."

63-31050

This water right is diverted from a flowing artesian well known as the "Pool Well." My father completed the Pool Well on or about March 31, 1947 as indicated by the hand written notation referencing a check number and date on the second page of the well driller's log for that well attached hereto as Exhibit "B". My father used the Pool well for irrigation purposes immediately after its completion, and developed the ponds fed by the well at about the same time. The aesthetic use claimed are ponds and a flowing water feature. Wildlife has been a use for the water right throughout my residence on the ranch. The fish propagation use claimed is not a commercial use, but is, rather for hobby purposes.

63-31051

I believe that all questions asked by IDWR with respect to this water right can be answered by simply examining approved transfer no. 68559.

63-31052

This water right has been used for the claimed purposes since I have lived on the property. This well is also the "Pool Well" (referenced in the section on water right no. 63-31050 above) which consists of both a hot and cold water well within the same well casing. This water right is used for irrigation, and the wildlife use is a pond that is game and birds drink from and use as habitat. The fish propagation use is not a commercial use but is instead a hobby use - primarily for koi and goldfish. The aesthetic use is for ponds and a flowing water feature.

63-31053

Attached as Exhibit "C" are aerial photos from 193~~8~~⁹ establishing the existence of a house and the irrigation claimed from the well that is the source for this water right. The well was the sole source of domestic water for the houses and other buildings when I first moved to the Terteling Ranch, and has sometimes been used for wildlife and livestock watering.

63-31054

This water right is diverted from a flowing artesian well located in the NWNW of Section 22 into a pond. This well was in existence at the time of the conveyance of the property to my father. This well and water right serves the same ponds as does water right no. 63-27649. As explained above, the ponds have been used for irrigation, stockwatering and wildlife since I have lived in Stewart Gulch. The recreation use is for fishing, wading, boating and other recreational uses. 300 cattle have historically used this water right for stockwater.

63-31055

This water right is diverted from Stewart Creek. The 1938/1939 aerial photos attached hereto as Exhibit "C" establish that the water right was used for irrigation as of that time. My family built the pond claimed as storage pursuant to this water right between 1948 and 1950 after we purchased the property. The wildlife use claimed under the water right began at that time - the pond was also used for aesthetic and boating purposes. As a sidenote, there is a typographical error in the computerized claim form for this water right: the point of diversion that is listed as Section 22 SWNE should be in Section 22 NWNE.

63-31056

This water right is from a well that is used at 5120 Cartwright Road as a domestic well. The stockwatering use is for approximately 300 head. This stockwater is diverted from the well and conveyed by pipe to stockwatering troughs. This water right has been used since I have lived upon the Terteling Ranch for domestic use in the house at 5120 Cartwright Road. It has been used for stockwater and for irrigation purposes around that house for the same period of time.

63-31058

This water right is diverted from Stewart Creek. The irrigation use has been in place since I have lived on the Terteling Ranch. The stockwater use for this water right was claimed in error.

63-31060

This water right is from a well that is used as the domestic well at 7000 Bogus Basin

Road. The stockwatering use is for approximately 300 head. This stockwater is diverted from the well and conveyed by pipe to stockwatering troughs. This water right has been used since I have lived upon the Terteling Ranch for domestic use in the house at 7000 Bogus Basin Road. It has been used for stockwater and for irrigation purposes around that house for the same period of time.

63-31061

This water right is diverted from springs that serve as a domestic water right for the house located at 5115 Cartwright Road. This water right has been used since I have lived upon the Terteling Ranch for domestic use at 5115 Cartwright Road. I specifically recall being fascinated as a young boy that the kitchen in that house had a constantly running faucet in the sink (due to the fact that the springs were diverted directly to the house) when my family was considering purchasing the property in 1943. It has been used for livestock and irrigation purposes around that house for the same period of time, and has probably been used for the same purposes since the turn of the century in 1900.

63-31062

This water right is diverted from the Old Barn well for domestic, irrigation and stockwater uses. It has been diverted for those purposes since I have lived on the ranch. The 1949 aerial photo attached hereto as Exhibit "D" establishes the existence of the home as of at least that time.

63-31086

This is a water right from a well that is near 5115 Cartwright Road that is used for irrigation purposes. It has been used for those purposes since I have lived in Stewart

Gulch. The 1938/1939 photos attached hereto as Exhibit "D" establish the irrigation use claimed under this water right as of that date.

Further your affiant sayeth naught.

Figure 1. Map of The Terteling Company, Inc.'s proposed "Permissible Place of Use" acreage in Township 4 North, Range 2 East associated with Water Right Nos. 63-07595 and 63-03603. The irrigable acreage is marked in transparent orange. The outlined areas (dashed) is the current place of use for which the water rights are licensed. The black numbers in parentheses shown for each tract ($\frac{1}{4}$ - $\frac{1}{4}$ section) represent the total number of irrigable acres within that $\frac{1}{4}$ $\frac{1}{4}$ section.. The points of diversion (wells) for the water rights proposed as points of diversion for the permissible place of use are denoted by solid black circles.

Dear Charlie,

There are several beneficial use claims in Basin 63 filed by The Terteling Co., Inc., Terteling Trust No. 8 and the T-7 LLC, for which I need additional information to recommend. I have enclosed a table that lists the information needed.

For these beneficial use claims to be recommended in the Basin 63, Part 2 Director's Report, I must have the information by Tuesday, September 6, 2005, at the latest.

Please call me if you have questions regarding this matter.

Sincerely,

Re: Terteling Company and T-7, LLC water rights

Dear Mr. Westra:

This correspondence will notify you that my clients, the Terteling Company and T-7, LLC, have requested that I be designated as the attorney of record for all matters involving any water rights that they own. Such matters include SRBA claims filed by my clients, as well as any other water right proceedings in which they are currently involved. Please ensure that such changes are made to IDWR's records as are appropriate.

Thank you for your assistance, and please feel free to contact me with questions or concerns.

Sincerely,

Charles L. Honsinger

Dear Claimants:

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim, please feel free to contact this office.

Sincerely,

Dear Claimants:

Enclosed is a copy of a Notice of Change of Water Right Ownership form that was recently submitted to our office. However, we cannot continue to process the ownership change without additional legal documentation. In order to complete this change, we need a copy of the warranty deed(s) showing the transfer from Terteling Trust No. 7 to T-7 LLC; which includes the **legal description of the property by 1/4 1/4, Section, Township and Range.**

Please note for your information that claim number 63-22047 is in the name of Terteling Trust No. 8, rather than Terteling Trust No. 7.

Please submit the requested information, and we will be able to complete the review of the ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Feel free to contact our office if you have any questions concerning this letter.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
