CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right No. A63-05031
Preliminary Meeting at Lewis & Clark Middle School Cafeteria**

June 16, 2005

Apple Valley Subdivision homeowner, John McLaughlin, received the *Notice of Error* packet for the subdivision because he lives at 6045 Becky Dr. (once owned by former representative Diane Spencer). Mr. McLaughlin and two other Apple Valley Sub. homeowners (unfortunately, I did not get the couples' names) attended the 7:00 p.m. Preliminary Meeting and had three basic concerns. The first concern was that David Parker, who lives across the street from former representative Diane Spencer's home, agreed to be the contact for the subdivision and accompanied contractor Burke Scholer on the field investigation conducted on 10/22/03. All three homeowners agreed that Mr. Parker did not have authority to take over this position and they said that they were going to check with the other homeowners in the subdivision. I asked if there was a homeowner's association currently in place and they said that there was not. As an aside, since an initial letter I sent to Diane Spencer was returned as undeliverable and I did not have a telephone number in the file, I requested that contractor Burke Scholer make an effort to make contact with any homeowner within the subdivision (especially those located near the POD) to see if they knew who the association's current president was or to ask them about the use of the water for irrigation and stockwater purposes (see attachment to field investigation).

The second concern voiced at the Preliminary Meeting was that they were concerned about the reduction of irrigated acres in the recommendation. I explained that my recommendation of 64 acres was based on removing houses, roads, driveways, out-buildings, barns, garages, etc. from the 1987 NAPP image and then calculating the total acres irrigated. (In actuality, the ArcView GIS acres showed that 61.282 acres were being irrigated, but I chose to use the calculation of giving 4 acres of irrigation to each lot and multiplying by 16 units = to come up with 64 acres -- which is a little more than what I calculated in ArcView [see pertinent documents in file]). Mr. McLaughlin asked that I

send him a copy of the Field Report, which I did the next day; and I also sent him a copy of my Adjudication Field Report and the 1987 NAPP with my calculations and acres associated with each lot.

The third concern was that a fellow Apple Valley Sub homeowner had a pond on their property and they were wondering if this was legal. They mentioned that the pond bred mosquitoes and they were concerned about that aspect. I told them that I would send them some information about ponds; along with the other information from the file.

E. NARRATIVE/REMARKS/COMMENTS

THE PERSON LISTED ON THE ADJUDICATION CLAIM - DIANE SPENCER, MOVED ABOUT 6-8 YRS AGO. THE FELLOW ACROSS THE ROAD FROM THIS HOUSE, DAVID PARKER, AGREED TO BE THE CONTACT FOR THIS SUBDIVISION. HE SAID THE SUBDIVISION ORGANIZATION HAD BEEN DEFUNCT FOR SEVERAL YEARS.

THE WELL SHOWN FOR THIS RIGHT IS AN ARTISIAN WELL RUNNING ABOUT 172 GPM OR .34 CFS. I GAGED THE WELL AND TOOK CRUDE MEASUREMENTS FOR FLOW. THIS WATER RUNS YEAR-AROUND - SUPPOSEDLY FOR STOCKWATER IN THE OFF-IRRIGATION SEASON. AND IS CO-MINGLED W/ CANAL WATER DURING IRRIGATION SEASON. EACH SAC LOT IN SUBDIVISION USES THIS WATER FOR IRRIGATION. I AM NOT SURE WHICH IRRIGATION DIST. OR DITCH COMPANY SUPPLIES THE CANAL WATER.

Re: SRBA Claim A63-05031

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

A handwritten signature in black ink that reads "Nick Spencer".

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-05031

Dear Claimant(s),

In the past, Diane Spencer submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. Diane Spencer indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 19, 2004. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Dear Mr. and Mrs. McLaughlin,

I sent a letter addressed to Diane D. Spencer to this address on August 19th, 2003 and it was returned as undeliverable. The letter enclosed in the undeliverable envelope concerns the irrigation and stock water rights for the Apple Valley Subdivision.

Since I do not have a telephone number listed on the claim for Ms. Spencer, who I am assuming was the President of your subdivision's Association in 1989 when the claim was filed, one recourse I have is to send this letter to you in hopes that you are aware who the current President of your subdivision's Association is.

If you are aware of the current President, I ask that you deliver this letter to him or her. Since I am in the process of recommending these rights for your subdivision, you would be doing a great service for your subdivision. Thank you. If you have any questions, please contact me at the Western Region office.

Sincerely,

Kimberly L. Brown

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): 05031

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 16, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above. In addition, please contact me at the Western Region office as soon as possible to set up a field exam.

RECORDED

(B) Remarks: There are 16 five acre lots in the subdivision. Each lot has a 1/16 share in the artesian well. During the irrigation season each lot gets water for 12 hours every 8 days as specified on the attached schedule. The well is shown on the enclosed plat map which is recorded in Book 30 of Plat 5 at Page 1844 in Ada County.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.
