An aerial photograph of a city, likely in a Mediterranean or European region, characterized by a dense concentration of red-tiled roofs. The image is overlaid with a grid of thin yellow and blue lines. The word "SESE" is printed vertically in large, bold, yellow capital letters across the center of the image. At the top, a portion of another yellow word, possibly "SS", is visible. The overall aesthetic is that of a vintage or artistic print.

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-5224, A63-5226, A63-5227, A63-5229, & A63-8663 Preliminary Recommendations

November 18, 2005

Mike Chase, son of Eleanor Chase, came into the Western Region office after receiving the *Notice of Error* packet for the claims listed above. Regarding:

63-5224: Mr. Chase did not have any disagreement with the Preliminary Recommendation for this claim.

63-5226: As a result of the changes made to 63-5227, -5229, and -8663, the shape of the commercial dairy will change accordingly.

63-5227: Mr. Chase agreed with the location of the POD, but disagreed with the 10 acres that I recommended. Mr. Chase believed that the shape depicting the irrigated acres was too small, so I made a copy of one of his Tract #2846 map from his personal documents and had him draw an outline of the place of use with a pink marker (see file). Using Mr. Chase's POU boundary drawing, the irrigated acres associated with this claim equaled 12.0 acres. I then changed the diversion rate to 0.24 cfs based on the maximum 0.02 cfs/acre.

63-5229: Mr. Chase questioned the recommendation of 0.13 cfs. After showing him Darwin VanderStelt's Field Report, Mr. Chase said that Mr. VanderStelt's calculations were done for the capacity of the commercial dairy. Mr. Chase pointed out that the well associated with this claim is actually the "small irrigation well" and that Mr. VanderStelt mistakenly applied calculations for the wrong well. Mr. Chase showed me a document in which ERO Resources Corp. calculated the capacity of the small irrigation well at 0.5 cfs (see copy of pertinent pages in file). Based on the increase of the recommended 10.0 irrigated acres to 12.0 acres, I changed the diversion rate to 0.24 cfs.

63-8336: Mr. Chase disagreed with the POU shape for the SESE and SWSE, S5. Therefore, I printed out a 2003 NAPP image of both quarter-quarters and had him draw what he felt the boundaries should be with a pink marker (see file). I then changed the POU boundaries to match his drawings.

Description of diverting works

See Field Report.

OVERLAP REVIEW

Other water rights with the same point of diversion: 63-15820, 63-5224, 63-5227 ⁶³⁻⁵²²⁹

Does overlap add acres or uses to existing system, increase rate of flow or volume, or other? Explain:

63-15820 shares the same well, but is for domestic purposes.
All the other claims have separate PODs.

WATER USES

☐ No change

☐ Different Uses

Domestic use was originally included on this statutory claim (#63-05220), but since the domestic use began in 1920, the domestic use was claimed separately from the dairy operation (see claim #63-15820).
Use Commercial From _____ To _____ Amount 0.05 CFS 1.75 AFA
Use Stockwater From _____ To _____ Amount 0.05 CFS 29.42 AFA
Use _____ From _____ To _____ Amount _____ CFS _____ AFA

TOTAL VOLUME – Groundwater only

☒ Incomplete on claim, the total is, Amount _____ CFS 31.2 AFA

☒ Changes found, the new total is, Amount 0.1 CFS _____ AFA

☐ More than 1" per Acre? Yes _____ (claimant must complete excess flow sheet)

Therefore, domestic is not being recommended on this claim.

NON-IRRIGATION USES:

☐ No change

☐ Changes Exam found: Domestic # of homes _____

Stock # 300 dairy cows

Types _____

Additional comments: (Dairy does not raise nearly as many young stock as claimed for pre-1987.)

PLACE OF USE:

☒ No Change

☐ Changes shown below:

Parcel No: 80505449003.

RE: 63-05226

Eleanor Chase
70 W. Floating Feather Road
Eagle ID 83616

Documents prepared:

no. pages	Item
~~1~~	Affidavit(s)
~~1~~	Adjudication Field Report
1	Calculation of flow
1	Calculation of volume
~~1~~	#N/A

Mike Chase was present when I visited the farm, and he is the source of all the information used in my calculations.

This is a well with 2 pumps currently used for the existing dairy. Using Mike's estimate of lift in 1987, and 70% efficiency for the pumps, I find only .10 cfs of flow was likely as compared to the .31 cfs claimed.

I calculated total diversion numbers for the stockwater and commercial use based on numbers supplied by Mike. The heifer numbers were quite high I thought, but some of the old timers did take 3 years to get a heifer producing and ended up feeding a lot of them.

Mike is in a dispute with the City of Eagle over proximity of a new city well, and has hired a consultant. It's possible he may dispute my numbers.

The Intrepid pictures are fine, and I did not affix a new tag.

The entire estate of Elinore Chase is apparently not settled, and it was unclear to me who is currently in title to the property. The aerial photo and point of diversion appear to be correct.

Description of diverting works drilled wells, 240' deep, with 2- 3/4 hp pumps.

Wells are jet pump design with maximum lift of 32 feet. Owner estimates current lift of 20', lift in 1987 at 10 ft or less.

OVERLAP REVIEW

Other water rights with the same point of diversion: _____

Does overlap add acres or uses to existing system, increase rate of flow or volume, or other? Explain:

NA

WATER USES☒ No change as of 1987. Dairy used to raise more young stock☐ Different Uses

Use Domestic From 1/1 To 12/31 Amount 0.04 CFS AFA

Use Stockwater From 1/1 To 12/31 Amount 0.05 CFS 29.42 AFA

Use Commercial From 1/1 To 12/31 Amount 0.05 CFS 1.75 AFA

TOTAL VOLUME -- Groundwater only☐ Incomplete on claim, the total is, Amount 0.31 CFS AFA☒ Changes found, the new total is, Amount 0.1 CFS 31.2 AFA☐ More than 1" per Acre? RE: Commercial use for Snake River Basin Adjudication claim 63-05226

Dear Mr. and Mrs. Chase,

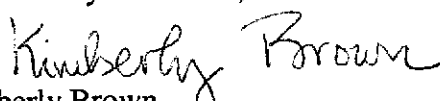

The Idaho Department of Water Resources is currently reviewing the claim to a water right you filed during claims taking in the Snake River Basin Adjudication (SRBA). During the initial review of this claim, we found that you claimed a commercial use that requires a volume amount be included in our recommendation to the SRBA Court (please refer to the enclosed copy of your adjudication claim report: under Annual Volume). In order for us to calculate your annual volume, it is necessary that we ask for additional information not gathered when you, or the original claimant, filed this water right.

Please refer to the Commercial Use Volume sheet (enclosed), answer the appropriate questions as specifically as possible, and return it to this office by May 7, 2004 so that we are able to calculate the annual volume associated with your water right; as required by the SRBA Court.

This review of your claim, in addition to the submittal of our recommendation to the SRBA Court, will result in a decreed right for your property. This water right then remains with the land as long as it is being used. We will give you the opportunity to review our recommendation and provide feedback, if necessary, prior to its submittal to the SRBA Court.

Please feel free to contact me at 334-2190 if you have any questions.

Respectfully submitted,

Kimberly Brown
Water Resource Agent

Re: SRBA Claims A63-05224, ~~05226~~, 05227, 05229

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. **If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.**

Very truly yours,

A handwritten signature in black ink that reads "Nick Spencer".

NICHOLAS B. SPENCER
Deputy Attorney General
Idaho Department of Water Resources

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-5224, A63-5226, A63-5227, & A63-5229

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by October 1, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated

CONVERSATION MEMORANDUM

SUBJECT: OWNERSHIP

WHOM WITH: MATT J. HOWARD Ph. # 333-0622

WATER RIGHTS: 63-5226, 63-5229 & New domestic claim

SENIOR AGENT: RON HOWERTON

DATE: 9/9/02

NARRATIVE:

1. Called Matt and asked why he didn't include an ownership change form to show the change ownership to the "Estate of Eleanor Chase?"

- He said that the estate is in probate and will send the proof of ownership change in as soon as it becomes available for claims 63-5226& 63-5229. I advised I would put the claims in the existing files but could not make any changes until I receive the proof.

2. Asked about new domestic claim, why no filing fee was sent?

- Matt said he would send fee ASAP. I also advised him that I couldn't add it to our records until we receive the fee.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office
