Telephone Number: (208)939-6226

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Believe priority date to be 1925

2. Describe the changes you wish to make in the proposed recommendation:

Believe priority date should be 1925 the year farm was acquired by my family

3. Give a brief explanation as to why you disagree with these portions:

Family members have said that the well was one of the first things Grandpa put in after acquiring the property in 1925.

~~I AGREE~~ with this proposed recommendation: no changes need to be made.

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-5224, A63-5226, A63-5227, A63-5229, & A63-8663 Preliminary Recommendations

November 18, 2005

Mike Chase, son of Eleanor Chase, came into the Western Region office after receiving the *Notice of Error* packet for the claims listed above. Regarding:

63-5224: Mr. Chase did not have any disagreement with the Preliminary Recommendation for this claim.

63-5226: As a result of the changes made to 63-5227, -5229, and -8663, the shape of the commercial dairy will change accordingly.

63-5227: Mr. Chase agreed with the location of the POD, but disagreed with the 10 acres that I recommended. Mr. Chase believed that the shape depicting the irrigated acres was too small, so I made a copy of one of his Tract #2846 map from his personal documents and had him draw an outline of the place of use with a pink marker (see file). Using Mr. Chase's POU boundary drawing, the irrigated acres associated with this claim equaled 12.0 acres. I then changed the diversion rate to 0.24 cfs based on the maximum 0.02 cfs/acre.

63-5229: Mr. Chase questioned the recommendation of 0.13 cfs. After showing him Darwin VanderStelt's Field Report, Mr. Chase said that Mr. VanderStelt's calculations were done for the capacity of the commercial dairy. Mr. Chase pointed out that the well associated with this claim is actually the "small irrigation well" and that Mr. VanderStelt mistakenly applied calculations for the wrong well. Mr. Chase showed me a document in which ERO Resources Corp. calculated the capacity of the small irrigation well at 0.5 cfs (see copy of pertinent pages in file). Based on the increase of the recommended 10.0 irrigated acres to 12.0 acres, I changed the diversion rate to 0.24 cfs.

63-8336: Mr. Chase disagreed with the POU shape for the SESE and SWSE, S5. Therefore, I printed out a 2003 NAPP image of both quarter-quarters and had him draw what he felt the boundaries should be with a pink marker (see file). I then changed the POU boundaries to match his drawings.

RE: Water Use from Chase Dairy and Small Irrigation Wells

Dear Mr. Brewer:

At Chris Meyer's request, I am providing you with my analysis of the water use from the Chase dairy well and small irrigation well. (This irrigation well is located adjacent to Eagle Road near Dry Creek.) *This information is privileged and confidential and is provided solely for settlement purposes.*

The irrigation well was analyzed using available power records to determine the amount of water diverted in the past. Based upon that analysis, up to 60 ac-ft per year of water has been diverted from this well. The well is used as a supplemental water supply for irrigation purposes.

The analysis of the dairy well includes a dairy water requirement analysis using the IDWR dairy analysis spreadsheet. A system check shows the existing system is reasonably capable of meeting the estimated water requirement. Additionally, water right 63-15820 for the domestic use of Mrs. Eleanor Chase in the home located at the dairy is diverted from this well. This domestic right is decreed to be 0.04 cfs for domestic use from the same well used for dairy purposes.

Please call if you have questions about any of this information. I look forward to meeting with you tomorrow.

Yours truly,

David B. Shaw
Project Manager

Chase Small Irrigation Well
63-5229

CONFIDENTIAL

Power records are available for 1979 – 1983 with 2210 KWH used in 1980. The installed system is a 2 hp single-phase 240-volt centrifugal pump. Estimated total pumping head (TDH) is 30 feet. The estimated volume of water diverted in 1980 is determined by the following formula.

$$ac - ft = \frac{KWH \times efficiency}{1.025 \times TDH} = \frac{2210 \times 0.85}{1.025 \times 30} \approx 60 ac - ft$$

The diversion capacity of this system is determined by the following formula.

$$cfs = \frac{8.8 \times hp \times efficiency}{TDH} = \frac{8.8 \times 2 \times 0.9}{30} \approx 0.50 cfs$$

The estimated diversion capacity is in excess of the claimed amount of 0.42 cfs indicating the claimed amount should control.

Michael J. Chase

deposes and says: Well water for this right was first
used for irrigation of 20 acres, domestic use for 1
household, and stockwater use in the SESE Sec 5 4N 1E
in Ada County on 10-27-1925. This is the date
my Grandfather received the deed to the property after
purchasing it from a Mr. Trask. Prior to his
purchase the only water source for irrigation was
from wastewater which was not adequate and so
he immediately constructed the well to supplement
the wastewater as well as provide water for the house
and livestock he had. This information has been
passed down by word of mouth directly to me from my
Grandparents prior to my Grandfather's death in 1975.

Michael J. Chase

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-5224, -5227, -5229

September 22, 2005

Dave Tuthill called me this afternoon after speaking with Mike Chase, Eleanor Chase's son. After Mr. Tuthill's conversation with Mr. Chase, Mr. Tuthill instructed me on how to recommend the various Chase claims. After pulling these three files and answering a range of Mr. Tuthill's questions of what was contained in each of the files, Mr. Tuthill gave me these recommendations:

Regarding 63-5224: Mr. Tuthill instructed me to recommend the claimed priority date of 1872 and to recommend no more than ½ acre for domestic purposes.

Regarding 63-5227: Mr. Tuthill stated that the priority date should be the year after the irrigation district that the Chases use first started up.

Regarding 63-5229 and the number of houses: In their previous conversation, Mr. Chase told Mr. Tuthill that there used to be an old house associated with this right, but that "it's long gone." In his conversation with me, Mr. Tuthill stated that he did not see domestic use as relative to this claim, even though it existed at one time. Therefore, based on this fact, Mr. Tuthill said that we cannot recommend domestic use for this claim. In addition, Mr. Tuthill also instructed me not to accept the affidavit supporting the claimed 1925 priority date. He informed me that the priority date should be the beginning of the irrigation season for 1927.

Documents prepared:

no. pages	Item
1	Calculation of flow
1	Calculation of volume
0	#N/A
0	#N/A
0	#N/A

Mike Chase was present when I visited the farm, and he is the source of all the information used in my calculations.

This is a well with 1 -2hp pump currently used for irrigation on 20 acres, along with quenching the thirst of an occasional grazing cow. I looked at the field, and the pump, they are there, and they were used. Using Mike's estimate of lift in 1987, and 70% efficiency for the pump, I find only .13 cfs of flow was likely as compared to the .42 cfs claimed. The stockwater claim is for 100 Dairy cows, presumably only during the grazing season, since there is no connection between the well and the dairy barns. Consequently I reduced the quantity to what 100 cows might drink in 150 days.

Mike is in a dispute with the City of Eagle over proximity of a new city well, and has hired a consultant. It's possible he may dispute my numbers.

The Intrepid pictures are fine, and I did not affix a new tag.

The entire estate of Elinore Chase is apparently not settled, and it was unclear to me who is currently in title to the property. The aerial photo and point of diversion appear to be correct.

FEB 18 20

CERTIFICATE

No. 114

WATER RESOURCES
WESTERN REGION

CE

No.

~~William C. Richards~~ Susan C. Richards, Widow of William
Richards deceased, of Ada County, Idaho Territory

has deposited in the General Land Office of the United States a Certificate of the Register of the Land Office
at Boise City, Idaho Territory, whereby it appears that full payment has been made by the said
Susan C. Richards

according to the provisions of the
Act of Congress of the 23rd of April, 1820, entitled "An Act making further provision for the sale of the Public
Lands," for the South East quarter of the South East quarter of Section
five, the South half of the South West quarter, and the North East
quarter of the South West quarter of Section four on Township
four North of Range one East, in the District of Lands subject
to sale at Boise City, Idaho Territory, containing one hundred
and sixty acres

according to the Official Plat of the Survey of the said Lands, returned to the General Land Office by the
Surveyor General, which said Tract has been purchased by the said Susan C. Richards

Now know ye, That the United States of America, in consideration of the premises, and in conformity
with the several Acts of Congress in such case made and provided, have given and granted, and by these presents
do give and grant unto the said Susan C. Richards

and to her heirs, the said Tract above described: To have and to hold the same, together
with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereto belonging, unto the said
Susan C. Richards

and to her heirs and assigns forever; subject to any
vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and
reservoirs used in connection with such water rights as may be recognized and acknowledged by the local customs, laws,
and decisions of courts, and also subject to the right of the proprietor of a vein or lode to extract and remove his ore
therefrom, should the same be found to penetrate or intersect the premises hereby granted, as provided by law.

In testimony whereof, J. Wilson Grant, President of the
United States of America, has caused these letters to be made Patent, and the Seal
of the General Land Office to be hereunto affixed.

Given under my hand, at the City of Washington, the Seventh
day of August, in the year of our Lord one
thousand eight hundred and Seventy Two, and of the
Independence of the United States the Ninety Seventh

BY THE PRESIDENT

U. S. Grant

By J. P. Rogers, Secretary.

C. P. Rogers

Re: SRBA Claims A63-05224, 05226, 05227, 05229

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

A handwritten signature in black ink that reads "Nick Spencer".

NICHOLAS B. SPENCER
Deputy Attorney General
Idaho Department of Water Resources

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-5224, A63-5226, A63-5227, & A63-5229

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by October 1, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

CONVERSATION MEMORANDUM

SUBJECT: OWNERSHIP

WHOM WITH: MATT J. HOWARD Ph. # 333-0622

WATER RIGHTS: 63-5226, 63-5229 & New domestic claim

SENIOR AGENT: RON HOWERTON

DATE: 9/9/02

NARRATIVE:

1. Called Matt and asked why he didn't include an ownership change form to show the change ownership to the "Estate of Eleanor Chase?"

- He said that the estate is in probate and will send the proof of ownership change in as soon as it becomes available for claims 63-5226& 63-5229. I advised I would put the claims in the existing files but could not make any changes until I receive the proof.

2. Asked about new domestic claim, why no filing fee was sent?

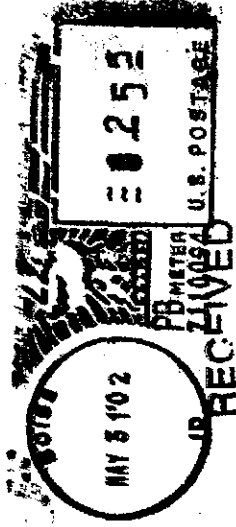

- Matt said he would send fee ASAP. I also advised him that I couldn't add it to our records until we receive the fee.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

CLAIM TO A WATER RIGHT

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that *Eleanor I. Chase*

(Name of Claimant)

Route 3-Floating Feather Rd, Eagle, Idaho
(Mailing Address)

(Zip Code)

Telephone No. 839-6226

(1) Date of priority: (When was the water first applied to a beneficial use) 1927

(2) Describe the source of water: {Name of stream, lake, spring, etc., or ground water}

Ground Water tributary to

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs. at)

(Domestic, Irrigation, Stock, Etc.)

(Both dates inclusive)

(Mo., Day)

(Mo., Day)

Quantity _____ Use _____ Period of Use From _____ To _____

Quantity 140 CFS Use LARIATION Period of Use From 8-15 To 11-15

Quantity 102 CFS Use stock water Period of Use From 1-1 To 12-31

Quantity	Use	Period of Use From	To

Quantity	Use	Period of Use From	To
----------	-----	--------------------	----

(4) .42 TOTAL QUANTITY USED.

{cfs. af}

(5) A) Point of diversion: (Location of point where water is diverted from its source)

SE ¼ SE ¼, Sec. 5 Twp. 4N Rge. 1E B.M., County of ADA

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. well with 2 HP Cent. Pump with 40' of steel pipe diverting water into irrigation ditch.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres 20

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

This water is occasionally used for stockwater for approximately 300 Head of Dairy Cattle as well as for domestic use.

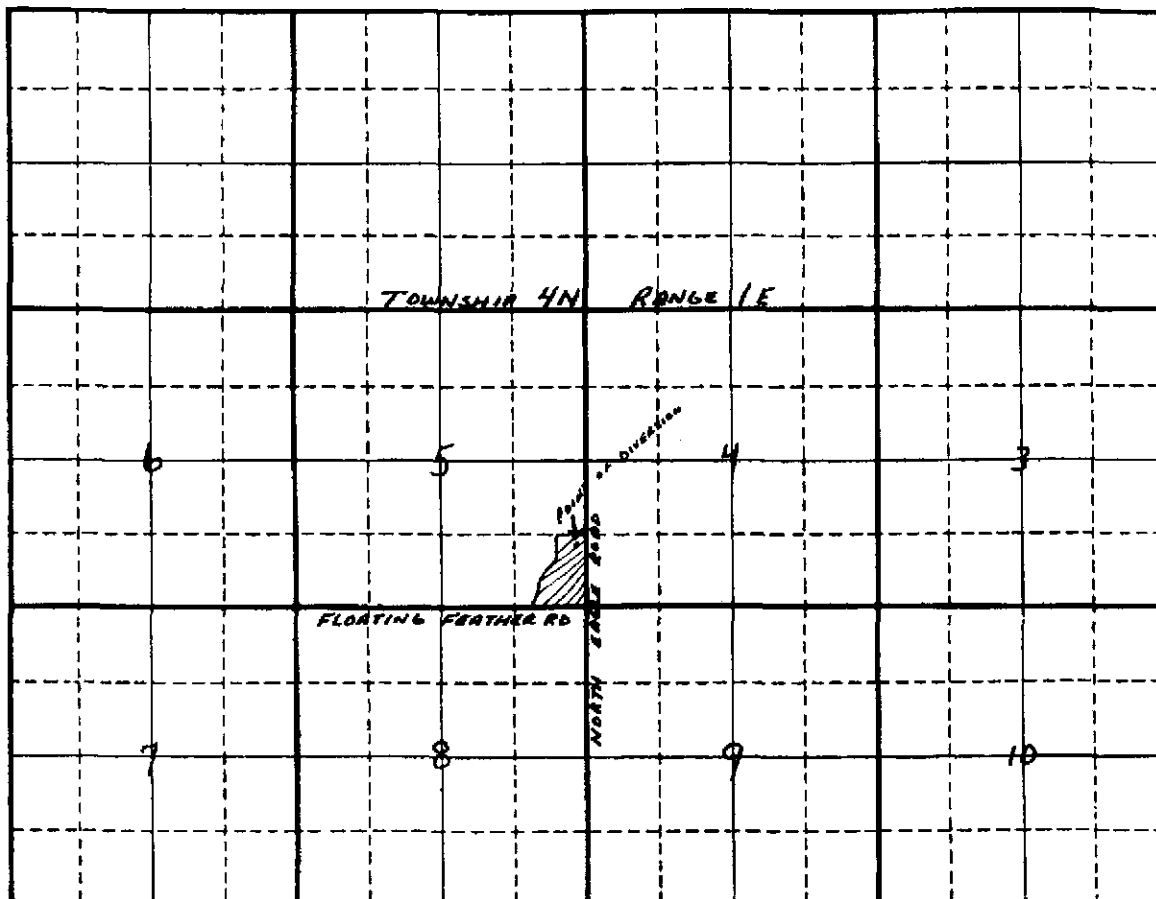

NOTE: Include here the type and number of stock watered

NOTE: Include here the type and number of stock watered: WAS ORIGINALLY ABOUT 100 HEAD STOCK
CATTLE. NOW APPROXIMATELY 300 HEAD, MIXED.

(7) If you are claiming water as a member of an organization, list name of organization: _____

WILCOX LIMITED

(8) Remarks _____

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho)
County of ADA) ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.
