) CONCLUSIONS OF LAW
)
) FOR WATER RIGHT 63-05325

I. FINDINGS OF FACT

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On April 21, 2006, the Edwards Family LLC filed an objection to the *Director's Report*, asserting that the water right does not authorize diversion of geothermal water from the Stewart Gulch Geothermal Aquifer. On January 16, 2007, the parties to the subcase filed a *Standard Form 5 - Stipulated Elements of a Water Right*, which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-05325 be decreed with the elements as set forth in the attached *Recommendations for Partial Decree Pursuant to I.R.C.P. 54(b)*.

This form is used to report the stipulated elements of one water right acquired under state law and/or a federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

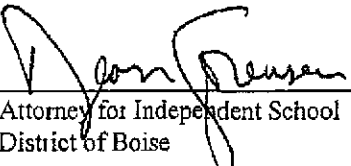

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Dana: I just spoke with Dean Sorensen, attorney for the school district. He said it would be just fine for the department to cross out the address and correct it on the SF 5 attachment placing initials beside the correction. I will have Vicky do just that when she signs it. Please place a copy of this email in the file to document this conversation with Mr. Sorensen. Thank you everyone. Becky

I would have no objection to IDWR correcting the address. Perhaps you can contact Dean Sorensen, the attorney for the school district and see if he's okay with that too.

Thank you,
Dana

Harvey, Becky wrote:

Dana:

The SF 5 for this subcase came in the mail to me today. In reviewing the file, I notice that the school district filed a change of address and the department filed the NCAP in October of 2006; however, the recommendation page attached to the SF 5 does not reflect that change in address. I am surprised that the school district reps did not notice this when they signed off on the SF 5. I suspect the court will question why we don't have the current address since the SMRR and Partial Decree need to be mailed in the future.

Please let me know at your convenience how you would like to handle this. All signatures have been obtained except for Vicky Music's, the Senior Water Resource Agent and Nick's. Perhaps a call to the school district authorizing you or the department to cross out the old address and fill in the new would be the most efficient way to take care of this since it would not be a significant change to the recommendation page.

Thank you for your assistance.

Sincerely,

Becky Harvey

Dear Mr. Carlson:

I have received your letter of February 8, 1994 requesting waiver of the late filing fees for the school district's claims in the Snake River Basin adjudication. The basis of your request seems to be "... it is my belief that we did not receive proper notice under the adjudication ..." and you are therefore requesting the late fees be waived.

A review of the department's records shows notice of the adjudication was mailed to the BOISE INDEPENDENT SCHOOL DIST., 1207 WEST FORT, BOISE, ID 83702 on April 28, 1989. I understand this is the proper address for the office of the superintendent of the Boise Independent School District.

The Snake River Basin adjudication is a judicial procedure for the determination of all water rights in the Snake River Basin in Idaho. Section 33-513(2), Idaho Code, lists the superintendent of schools as the authorized representative for the receipt of service of process. A check with the school district office confirmed that you had not been designated the authorized representative for service of process for the Boise Schools.

This analysis leads me to believe that service of the notice of the adjudication was proper and your request for waiver of late fees is denied.

Yours truly,

David B. Shaw

Dear Mr. Shaw:

The Independent School District of Boise City is filing it's adjudication claims under the Snake River Basin Adjudication for water necessary for operation of the school's within the Boise Valley. I realize that the Department has, in the past, notified some of the administration in the School District of the Snake River Basin Adjudication but unfortunately notice was never sent to me as the Administrator of Maintenance for the District. Since it is my sole responsibility to administer the water resources of the District, it is my belief that we did not receive proper notice under the adjudication and therefore I am requesting a waiver of late fee requirements. As required by your agency, we have paid the late fees with the submission of our adjudication claims but would urge you and the Department to favorably consider refund of those late fees. It is a significant outlay for the School District and reduces monies available for maintenance of our school system.

Sincerely yours,

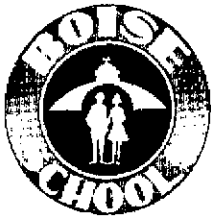

Roger Carlson

Gentlemen,

Enclosed please find the corrected claim to water right forms as requested.

I will attempt to clarify some of the questions delineated in your letter of January 30, 1984. I will preface the clarifications by stating that records on some of the older schools are not complete and some assumptions must be made.

Collister School - This school has been in operation continuously since 1912 and I feel it is safe to say that some water right is indicated. As for the present pump, I do not have exact installation dates but understand it was in the late 1950's or early 1960's.

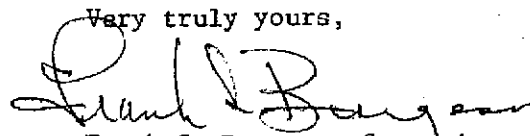

Taft School - This school was constructed in 1960 and the term "new addition" was evidently given to the property at that time and has no significant meaning.

Whittier School - The correct well location is the NE 1/4 of the SW 1/4 of Section 4.

Franklin School - The exact date of first use of this well is not readily available to us. The school has been in continuous operation since 1936 and the physical appearance of the well would indicate that it also is probably that old.

I hope that this is the information and correction required.

Very truly yours,

Gentlemen:

We are in the final processing of the claims submitted during the June, 1983, mandatory claims filing deadline and have some questions on four of the claims you submitted at that time.

The claim submitted for Collister School needs to have the exact date the water was first used to irrigate 4 acres. This is the most important portion of the claim as water is regulated (if necessary) according to your date of first use. If you used water prior to another well, then you would have a better water right. But the date of first use has to be claimed. The quantity needs to be listed in cubic feet per second (cfs) rather than acre feet. Normally acre feet amounts are used if a storage of water is taking place, i.e., pond or reservoir. For 4 acres at 1 1/2" of water per acre, the amount in cfs is 0.12 cfs or 54 gallons per minute. I added irrigation as the use. Domestic does not need to be listed since Boise Water Corp. has filed on all of their wells.

On the claim for Taft School you have listed the priority date of the new addition. If this is when the school was built and the water first used, then this date is correct. However, if the well was used to irrigate for the school but in 1960 another addition was built and the water used on additional acreages, then another claim needs to be filed listing the old priority date and number of acres irrigated before the addition. Enclosed is a claim form for this purpose. This also needs to be listed in cfs rather than acre feet. The recommended amount for 8 acres at 1" per acre is 0.16 cfs.

The claim for Whittier Elementary also needs a cfs amount. For 4 acres of irrigation at 1 1/2" per acre would be 0.12 cfs. The place of use listed under Item No. 6A shows the NE1/4NE1/4 and
