I would estimate this system would flow twice the Q amount mentioned above during the earlier part of the season when

SYSTEM DESCRIPTION: the stream flow would be higher

4" Steel Pipe Leads from Johnson Creek to an earth ditch which runs along the high side of the irrigated land. V notch weir is installed about 15' downstream from the mouth of the pipe.

REMARKS:

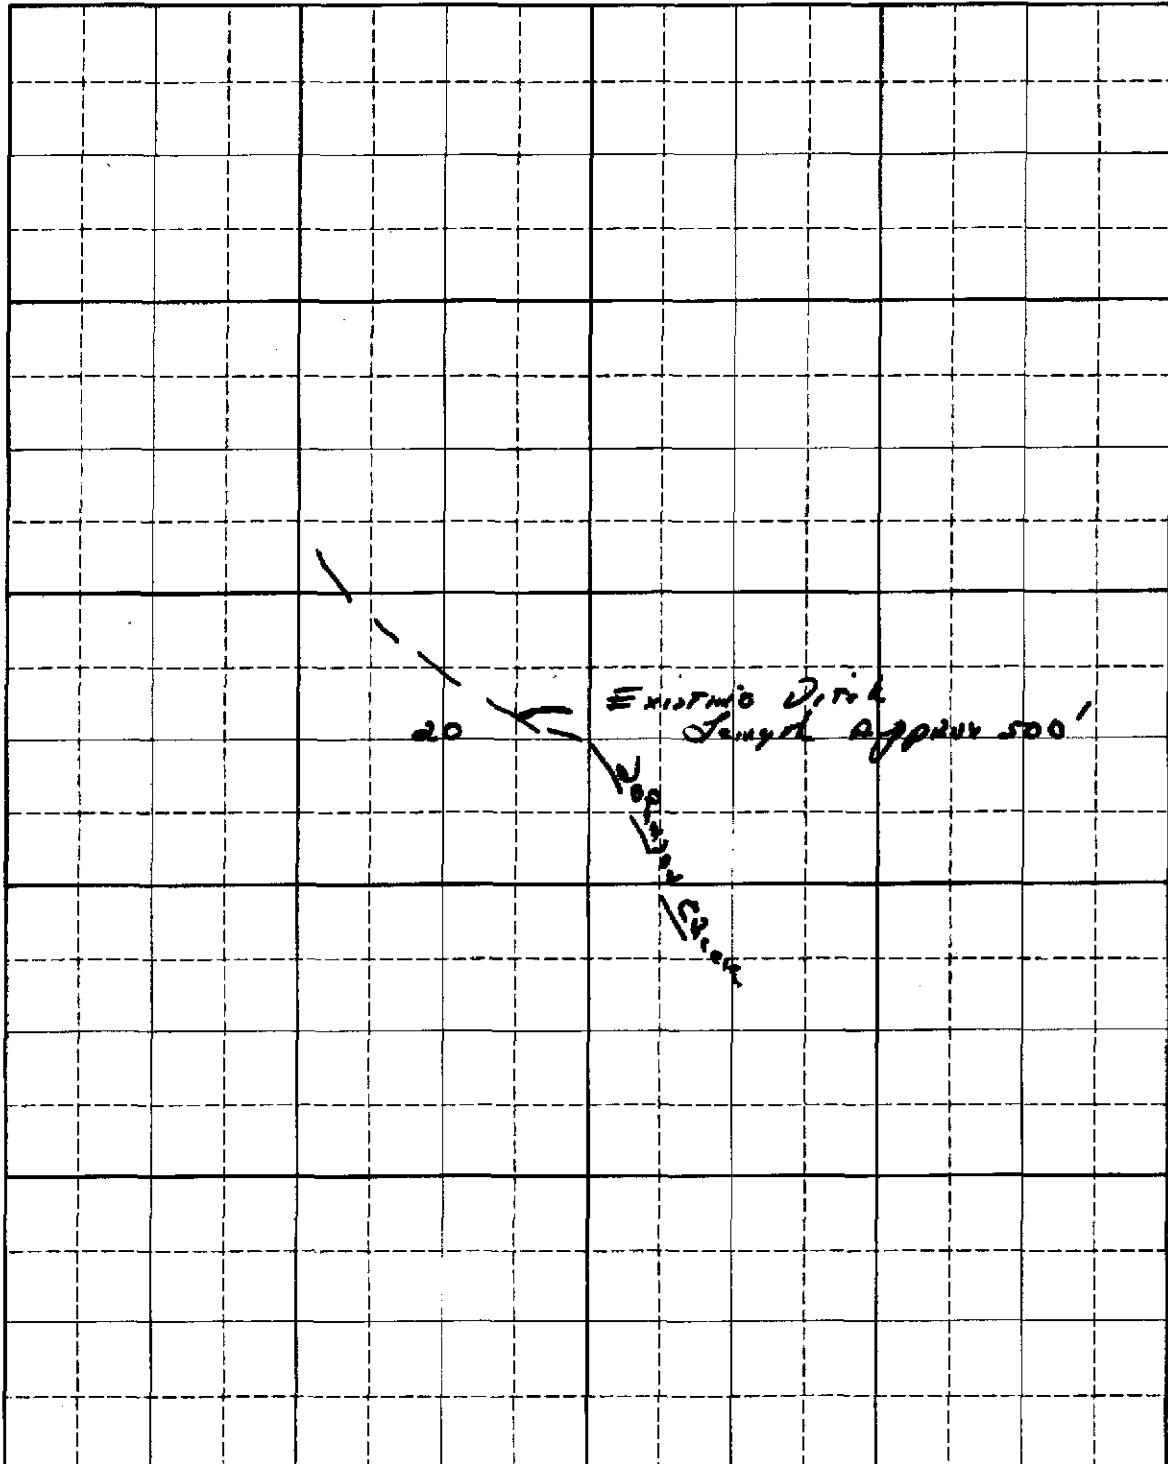

There are no photos available for this area however I would estimate that there is more than 10 Acres in this parcel of land. The amount of water going over this weir may change considerably depending on the level of flow in Johnson Creek

FIELD EXAMINER: Greg V. Egan

6-10-04: Appears Source is Clear Creek - Need to confirm

: Need POU + POD confirmation

: No Evidence of priority needed

: Basically this is an old license where we don't have a lot of information. Need to confirm its existence. Tried to call but # doesn't seem to work. I'll send letter and wait response

7-20-04: Call 703-7343

7-23-04: Met with Claimant in office. They requested a change of address.

: They bought property in 1998 and have used water since. It was used by previous owner as well. Claimant helped determine POU + POD while in office.

: Sounds valid - recommend.

RE: Snake River Basin Adjudication (SRBA) claim 63-07070

Dear Ms. Goggin,

The Idaho Department of Water Resources is currently in the process of reviewing SRBA claims in your area. You filed claim 63-07070 on 11/18/1998. Initial review has left IDWR with questions. I tried to contact you by phone but was un-successful as the phone number was not in service. In order for IDWR to make a favorable recommendation to the SRBA court, you need to contact us by July 21, 2004 so a contractor can come out and perform a field exam and verify water is being put to beneficial use.

Please feel free to call me with any questions at 334-2190.

Respectfully submitted,
