TIM,

Attached are two word documents:

1. The affidavit form for date of priority for industrial cooling claim A63-25321.
2. The amended claim for LBJ from original license uses of domestic & cooling to irrigation of 1 acre. The amounts I have placed in the claim are appropriate for 1 acre of irrigation.

We need these forms returned with original signatures via mail or hand delivered to our office ASAP.

Any questions please call me or email?

Tim,

Thank you for the fast response.

LBJ well Claim: A63-7168

I believe at this point this information will suffice as evidence of date of change for the LBJ claim A63-7168. So I will prepare an amended claim to

show the use as irrigation of 1 acre instead of the prior uses of Domestic and Cooling. I will send this on a separate mail message as a word document attachment in which you can review, then sign and return with the original signatures to include the notary and their seal.

INDUSTRIAL well cooling Claim: A63-25321

I will still need evidence of priority for this claim the affidavit hard copy form I gave you should work, I will also send you this form as an attachment with your amended LBJ claim, if this all seems ok to you I will proceed, if not give me a call or e-mail me if you have questions. I will need this affidavit form returned with the original signatures not copies.

Thank you,

Ron - here's the story on the well at the LBJ as best I can gather.....well was part of original plan when it (LBJ) was built in 68-69 and was to provide backup water supply for Bureau of Disaster Services. It was used as irrigation supply almost right away to keep it in use and functioning. When our lead maintenance man (Glen -whom you met) came on in '75 that was the procedure. Sometime before BDS moved to Gowen (which was around the summer of '95), it became used solely for irrigation, which is its primary use now. When the level in the well drops too low, city water automatically kicks on until the level's high enough for the well to produce, then it kicks off. Tim

Tim,

I thought I'd give you some information we had on the Industrial Commission Cooling Claim so you could prepare some evidence for 63-25321 date of priority.

The claimed date of priority is 04/29/1957.

Information given on the claim says: "The state of Idaho acquired part of the property on April 29, 1957 and the remaining property was acquired

June
16, 1966 after filing condemnation proceedings. It is believed that in
1957
the first well was dug to a depth of 50 feet and placed into service.
This
initial well was inadequate and in 1967 a new well was dug to a depth
of 195
feet. This new well was placed into beneficial use and replaced the
initial
well."

You can mail in the proof to me as shown below:

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

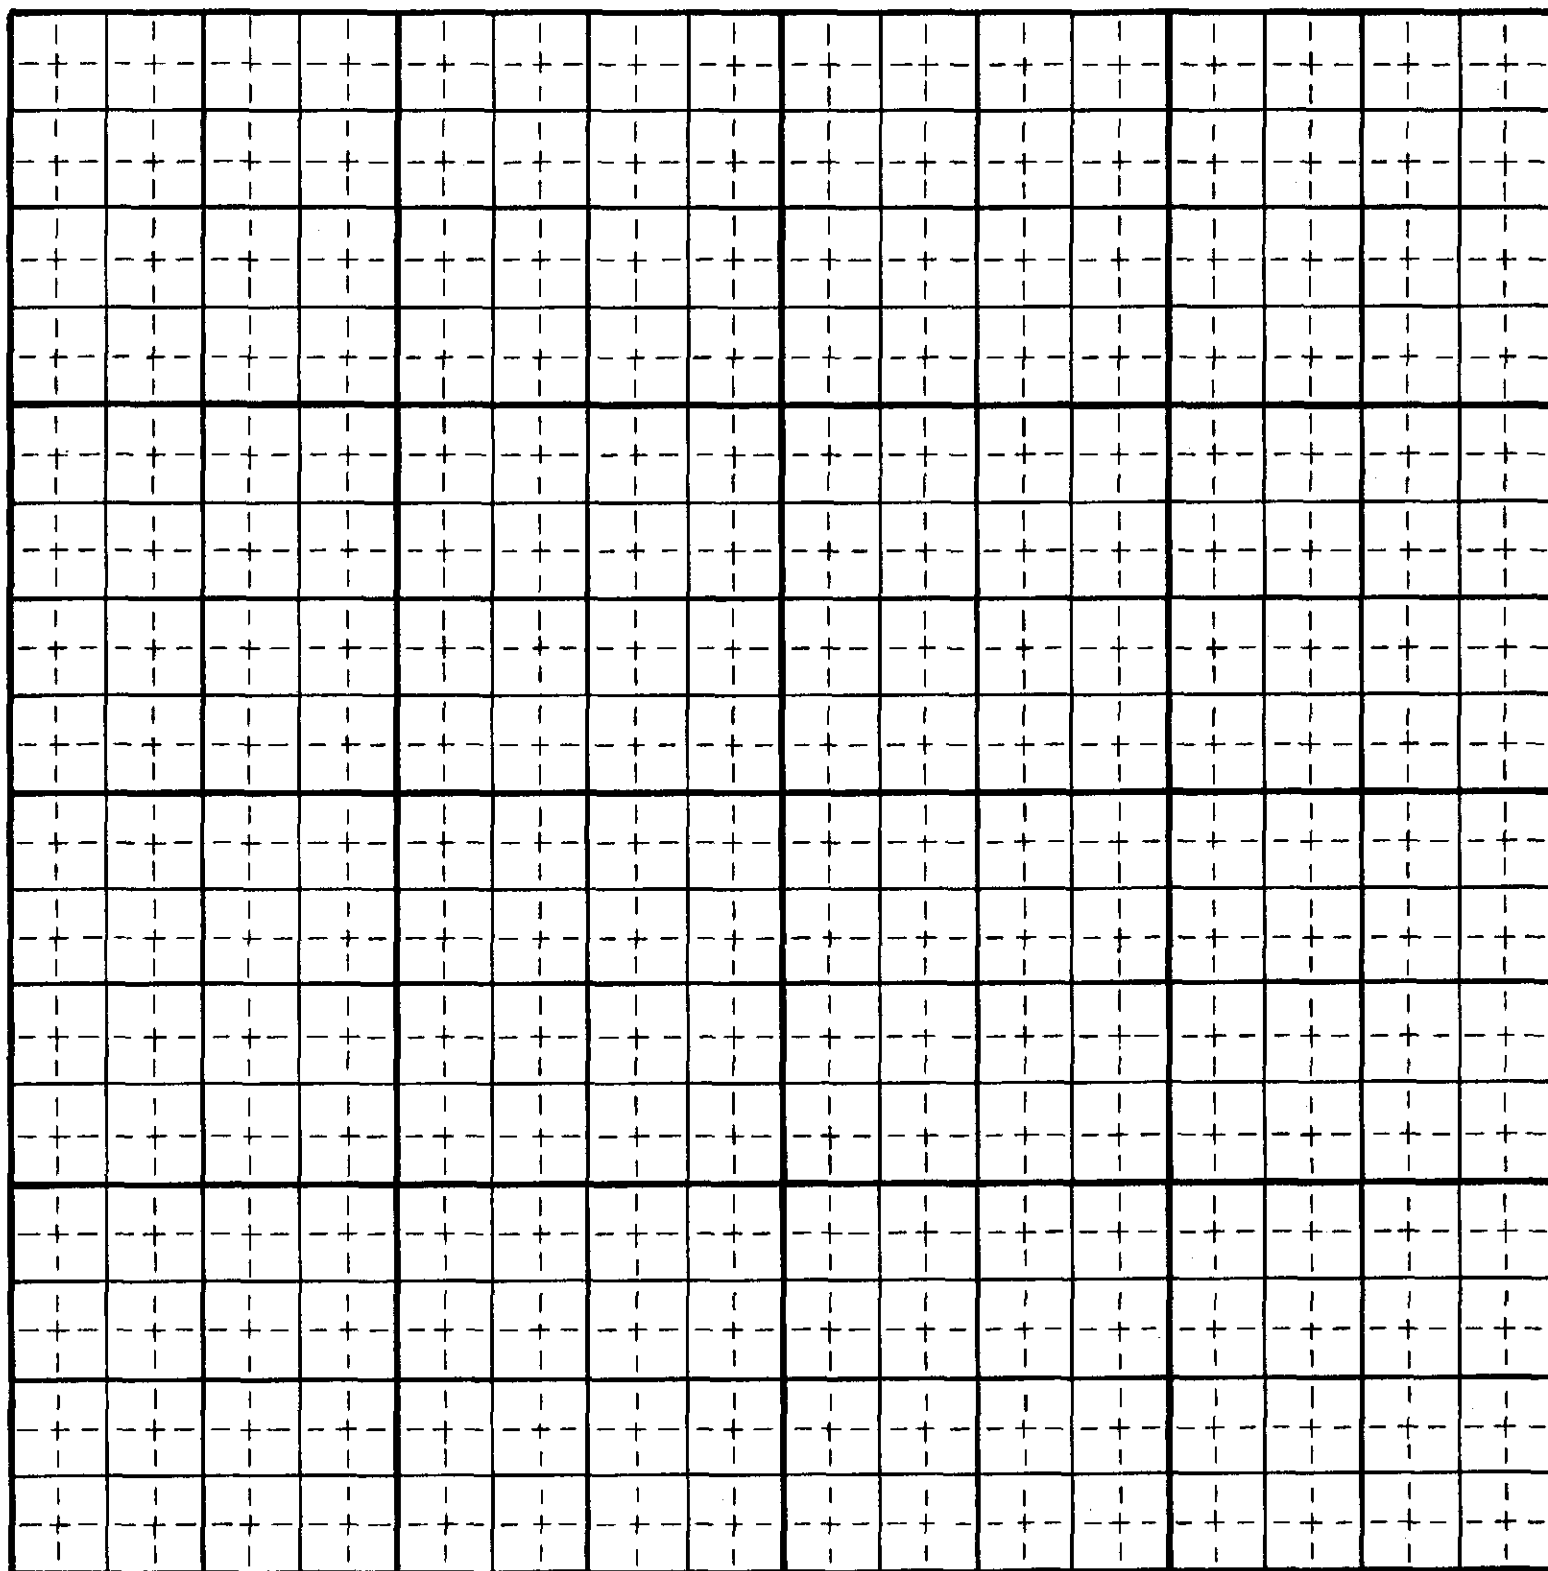

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Ron - here's the story on the well at the LBJ as best I can gather.....well was part of original plan when it (LBJ) was built in 68-69 and was to provide backup water supply for Bureau of Disaster Services. It was used as irrigation supply almost right away to keep it in use and functioning. When our lead maintenance man (Glen -whom you met) came on in '75 that was the procedure. Sometime before BDS moved to Gowen (which was around the summer of '95), it became used solely for irrigation, which is its primary use now. When the level in the well drops too low, city water automatically kicks on until the level's high enough for the well to produce, then it kicks off. Tim

Tim,

I thought I'd give you some information we had on the Industrial Commission Cooling Claim so you could prepare some evidence for 63-25321 date of priority.

The claimed date of priority is 04/29/1957.

Information given on the claim says: "The state of Idaho acquired part of the property on April 29, 1957 and the remaining property was acquired June 16, 1966 after filing condemnation proceedings. It is believed that in 1957 the first well was dug to a depth of 50 feet and placed into service. This initial well was inadequate and in 1967 a new well was dug to a depth of 195 feet. This new well was placed into beneficial use and replaced the initial well."

Building Services)

ORDER OF REINSTATEMENT

WHEREAS, on November 14, 1968, the Department of Public Works applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 0.5 cubic feet per second of water from a ground water source within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 10, Twp. 3 N, Rge. 2 E, B. M., Ada County, to be used for domestic and cooling purposes; and,

WHEREAS, on January 9, 1969, the Department approved said application and issued Permit No. 63-7168 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before February 1, 1972; and,

WHEREAS, on December 1, 1971, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on February 4, 1972, the Department notified the permit holder that Permit No. 63-7168 had lapsed for failure to submit the required proof of beneficial use; and,

WHEREAS, on March 9, 1972, the Department received the required proof of beneficial use and also an assignment whereby the Department of Public Works assigned all its right, title, and interest in and to Permit No. 63-7168 to the Department of Building Services; and,

WHEREAS, the Idaho Code, Section 42-218a, provides that a permit may be reinstated upon a showing of reasonable cause within sixty days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 63-7168 be REINSTATED and the priority advanced to December 21, 1968.

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 63-7168 and has found the following:

Quantity of water diverted: 0.22 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.22 cfs

The maximum quantity diverted shall not exceed 150 acre feet per year.

Beneficial use: Domestic & cooling purposes within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10, Twp. 3 N, Rge. 2 E, B. M.

Point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 10, Twp. 3 N, Rge. 2 E, B. M.

Priority date established: Dec. 21, 1968 (late proof)

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,
