MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-3480, -7399, -7362, & -10899

October 27, 2005

My supervisor, Jan Shurte, looked at all of the Dry Creek Cemetery claims and asked me to go back and change my previously recommended quantity conditions for each. Mrs. Shurte said that the cemetery claimed 72 acres, but they only developed 19 acres in the SWSW. Therefore, they only developed a total of 29 acres of irrigation. Mrs. Shurte asked that I change my recommendations and limit these rights to 0.02 cfs per acre and the development of 29, not 37.2, acres of irrigable acres.

was issued for more than an inch to the acre. In #63-10899, Jim Johnson tried to take it away by reducing the cfs to 0.74 in the Condition and he should not have done that. Therefore, the system's capacity of 0.84 cfs is correct.

Season of use is 3/1 to 11/15.

Use is combined with water from Boise Valley Irr. Dist.

The total combined diversion rate under this right and rights 63-10899, 63-3460, 63-7399 shall not exceed 0.84 cfs, a combined volume of 167.4 afa, and 37.2 acres.

0.20 c.f.s. is greater than the 0.14 allowed, but
I am recommending this amount (0.20 c.f.s.) because it takes
the system to make the system function
