Basin 63 Parts 1, 2 and 3

This map illustrates the Snake River watershed in Idaho, divided into three parts. The map features a grid of townships (01E to 05E, 01N to 05N) and ranges (03W to 05W). Numerous streams and creeks are labeled, including the Snake River, Boise River, and various forks of the river. Key features include the Lucky Peak Reservoir, Little Canyon Reservoir, and several smaller lakes. A legend in the bottom right corner identifies symbols for streams, lakes, cities, and townships. A north arrow is located in the bottom right corner.

RE: Water Rights in Reporting Area 13, Basin 63
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right claim(s) in Basin 63 for the Boise River drainage basin primarily in Ada County. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court. Irrigation and other rights above Lucky Peak dam were recommended to the Court in 2002 in another report with most of those decreed by the Court.

Note that you have until April 21, 2006, in which to review your water rights or those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Boise, Fairfield, Idaho City, and Mountain Home, and at all the Idaho Department of Water Resources offices (see addresses in enclosures).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed later next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

**NOTICE OF FILING OF DIRECTOR'S REPORT
FOR BASIN 63, PART II
FOR IRRIGATION AND OTHER WATER RIGHTS**

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court the Director's Report for irrigation and other water rights in Basin 63, Part II. A map of the area covered by this Director's Report is attached to this Notice. This Director's Report contains the Director's recommendation to the SRBA court as to how each of your claimed water rights should be decreed in the SRBA.

This Director's Report includes the Director's recommendation for your water rights claimed in the SRBA. IDWR is providing individual reports like this one to all claimants of irrigation and other water rights in your area. A complete copy of the Director's Report, listing all of these irrigation and other water rights claimed under state law and "dual based" claims by the federal government, is available at the SRBA courthouse in Twin Falls and the locations listed at the end of this Notice. Copies of the report can be made, but you may be charged for copying and mailing.

Also included in this Director's Report are some small domestic and stockwater uses. The Director's Report for most small domestic and stockwater rights for IDWR Basin 63 was sent to the SRBA Court and individual water users on November 5, 1998. Some small domestic and stockwater claims were withheld from the earlier report. If a claim for small domestic and stockwater was withheld from the 1998 report, it is reported in this Director's Report. Additionally, the Director's Report for Basin 63, Part I was sent to the SRBA Court and individual water users on September 30, 2002.

Finally, recommendations for the remaining portions of Basin 63 will be reported in the future. You may need to review the Director's Report for subsequent parts of Basin 63. Claims in which you have an interest may be reported in other parts of the Basin 63 Director's Reports. As the Director files Director's Reports for the remaining water rights in Basin 63, he may also recommend additional general provisions that could apply to your rights. However, you will not receive any Notice of those reports unless you have water right claims that are reported in the subsequent parts. Therefore, the Director advises all claimants with rights included in Basin 63, Part II Director's Report to review future Basin 63 Director's Reports as they are filed with the SRBA Court in order to review the general provisions and water right recommendations, and file objections if you disagree.

INSTRUCTIONS FOR REVIEWING YOUR OWN WATER RIGHT

The enclosed description of your right is only the Director's recommendation to the SRBA Court on your water right. The Court will decide how it will decree your water right. You can agree or disagree with the Director's recommendation. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THE WATER RIGHTS OF OTHERS

The complete Director's Report contains recommendations to the SRBA Court on your water right and all other irrigation and other rights in your area. The Court will decide how it will decree all water rights. The Director's recommendations in the full report are listed in two sections of the report:

- 1) **List of Recommended Water Rights** -- Water right recommendations are listed numerically by water right number.
- 2) **List of Claims Recommended to Be Disallowed** -- Water rights claims to be disallowed are listed numerically by water right number. A short statement of the reason for IDWR's recommendation for disallowance is provided.

Also included in the complete Director's Report are descriptions of the United States' claims under federal law that have also been claimed under a state law basis. These are called "dual based" claims. While the Director neither investigates nor recommends the federal portion of these claims, a recommendation has been made for the state based portion of the claim.

If you want to review someone else's water right you need to look at the complete Director's Report, which is available at the SRBA courthouse in Twin Falls and the locations listed in this Notice. Copies of the report can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR TAKING A WATER RIGHT CLAIM TO COURT

What do I do if I disagree with a recommendation?

If you disagree with any element of the recommendation for your water right or anyone else's water right and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form ("Standard Form 1") available from any IDWR office or from the SRBA Court. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us.

Your objection must be **received** by the SRBA Court on or before **April 21, 2006**.

What do I do if someone else objects to my water right recommendation?

If someone files an objection to your water right, or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form ("Standard Form 2") available from any IDWR office or from the SRBA Court. You may also download a copy of the response form from the SRBA Web Site at www.srba.state.id.us.

Your response must be **received** by the SRBA Court on or before **June 23, 2006**.

What do I do if I want to participate in the court case on someone else's water right?

If you want to be involved in the court case on any water right in the Director's Report, you must file either an objection or a response by the dates listed above.

What happens if there are no objections to a water right?

After the deadline for filing objections, IDWR will file a list of all water right recommendations with no objections. Upon receipt of that list, the Court will schedule a hearing on whether the water right recommendations should proceed to partial decree. The SRBA Court will hear the uncontested recommendations on or about **July 18, 2006**, at **1:30 P.M.** at the **SRBA Courthouse**. Partial decrees will be issued following this hearing.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations.

Additional information regarding water right claims can be found on the SRBA Web Site.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed as well as when Director's Reports are filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA.

The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

INSTRUCTIONS FOR REVIEWING THE REMAINING WATER RIGHTS IN BASIN 63

How will I know when the Director's Reports for the remaining Basin 63 rights are filed?

Claimants can keep track of when future Director's Reports are filed by regularly reviewing the court's docket sheet or periodically inquiring of the court or the Idaho Department of Water Resources as to when such reports are anticipated to be filed. At the present time the Director anticipates filing a Director's Report for Basin 63, Part III sometime during the winter of 2006. These dates may be subject to change.

CHANGES OF ADDRESS OR OWNERSHIP DURING THE SRBA COURT CASE

You must contact your regional IDWR office with your address change or if the ownership of your water right changes. You may download a copy of a change of ownership form from the IDWR Web Site at www.idwr.idaho.gov. Failure to notify IDWR may result in the loss of your water rights.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office and on the IDWR Web Site at www.idwr.idaho.gov. The IDWR webpage provides information regarding your claims, mapping and other valuable information on the SRBA and IDWR. Maps and aerial photography of this reporting area, as well as assistance in using the maps and the photography, are also available at the IDWR Western regional office in Boise. You are also welcome to call IDWR at any of its offices or the SRBA Court. Additional information regarding water right claims can be found on the SRBA Web Site at www.srba.state.id.us. Finally, you may also want to consider contacting an attorney to assist you.

DEFINITIONS OF THE ELEMENTS OF YOUR WATER RIGHT

RIGHT NUMBER: Your water right is identified by a number assigned by IDWR. The first two digits identify IDWR's administrative basin number; for example, 63.

NAME AND ADDRESS: Your name and address should appear here. IDWR will use the most recent name and address in their records for the water right.

SOURCE: The name and/or type of the source where you divert your water; for example: "groundwater," "unnamed spring," "Common Creek."

QUANTITY: The amount of water recommended in either cubic feet per second (cfs) and/or the volume of water in acre feet per year (AFY).

PRIORITY DATE: The date used to determine the priority of your right in relation to other rights using water from the same source.

POINT OF DIVERSION: The legal location where you divert water from its source; generally described as 1/4 1/4 sections down to a 40-acre tract, or smaller. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

PURPOSE OF USE: The general category of the type of use you can make of your water. Typical purposes of use include irrigation, domestic, and stock watering.

PERIOD OF USE: The period of time during the year when you can use the water for your right.

PLACE OF USE: The legal location where you use your water right; generally described as 1/4 1/4 sections down to a 40-acre tract. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

PLACE OF USE FOR IRRIGATION PROJECTS: Pursuant to Idaho Code Sections 42-219(2) and 42-1411(2)(h). IDWR has included GIS mapping for describing the place of use (digital boundary) for water rights meeting certain criteria (i.e. irrigation projects). The **PLACE OF USE** for irrigation projects is reported in digital format and uses GIS technology to particularly identify and display a geographic area encompassing the place of use with the aid of a computer. The GIS data is stored in digital format and contained on a CD-ROM and is properly marked for identification with the water right number. The CD-ROM will be retained by the SRBA Court. IDWR also retains a duplicate of the original CD-ROM. The electronic data contained on the CD-ROM is available for public use and is also accessible through the IDWR Web Site at www.idwr.idaho.gov. Upon request, IDWR will provide a copy of the CD-ROM with the electronic data to claimants.

BASIS OF CLAIM: The method that was used to establish your claim. Examples include prior decree, posted notice, beneficial use (historical) method, license, permit.

DUAL BASED CLAIMS: In some cases, the federal government has claimed one right under two theories: a state basis and a federal law basis. Both theories will be reported on one form for that single water right. In most cases, the priority dates are different and will be listed separately. The federal law basis is separately indicated by a remark under the priority date that reads:

*4/17/1926 CLAIMED UNDER FEDERAL RESERVED WATER RIGHT *
THIS WATER RIGHT IS ALSO CLAIMED BASED ON FEDERAL LAW WITH AN APRIL 17, 1926,
DATE OF PRIORITY PURSUANT TO AN EXECUTIVE ORDER SIGNED THE SAME DATE AND
KNOWN AS PUBLIC WATER RESERVE 107.

IDWR does not investigate or make recommendations regarding federal law based claims.

DEFINITIONS OF THE ELEMENTS OF YOUR WATER RIGHT

RIGHT NUMBER: Your water right is identified by a number assigned by IDWR. The first two digits identify IDWR's administrative basin number; for example, 63.

NAME AND ADDRESS: Your name and address should appear here. IDWR will use the most recent name and address in their records for the water right.

SOURCE: The name and/or type of the source where you divert your water; for example:
"groundwater," "unnamed spring," "Common Creek."

QUANTITY: The amount of water recommended in either cubic feet per second (cfs) and/or the volume of water in acre feet per year (AFY).

PRIORITY DATE: The date used to determine the priority of your water right in relation to other water rights using water from the same source.

POINT OF DIVERSION: The legal location where you divert water from its source; generally described as 1/4 1/4 sections down to a 40-acre tract, or smaller. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

PURPOSE OF USE: The general category of the type of use you can make of your water. Typical purposes of use include irrigation, domestic, and stock watering.

PERIOD OF USE: The period of time during the year when you can use the water for your water right.

PLACE OF USE: The legal location where you use your water right; generally described as 1/4 1/4 sections down to a 40-acre tract. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

PLACE OF USE FOR IRRIGATION PROJECTS: Pursuant to Idaho Code Sections 42-219(2) and 42-1411(2)(h), IDWR has included GIS mapping for describing the place of use (digital boundary) for water rights meeting certain criteria (i.e. irrigation projects). The **PLACE OF USE** for irrigation projects is reported in digital format and uses GIS technology to particularly identify and display a geographic area encompassing the place of use with the aid of a computer. The GIS data is stored in digital format and contained on a CD-ROM and is properly marked for identification with the water right number. The CD-ROM will be retained by the SRBA Court. IDWR also retains a duplicate of the original CD-ROM. The electronic data contained on the CD-ROM is available for public use and is also accessible through the IDWR internet website (www.idwr.idaho.gov). *Upon request, IDWR will provide a copy of the CD-ROM with the electronic data to claimants.*

BASIS OF CLAIM: The method that was used to establish your claim. Examples include prior decree, posted notice, beneficial use (historical) method, license, permit.

IDWR does not investigate or make recommendations regarding federal law based claims.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s).** Please enter the number(s) at **Item 1.** Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to *contact IDWR for assistance in identifying the water rights for the property in question.* If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3.**
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4.** Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at **Item 6**. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. If an "and" connector is used at Item 4, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:
