IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A63-07897
Date Received: 9/ 8/1989
Receipt No: W005781
Received By: DE AD

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: LLOYD D NOE 208-495-2885
Address: ROUTE 1 BOX 228
MELBA ID 83641

2. Date of Priority: NOV 13, 1973

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
01N	01W	19		SE	SE		ADA
		30		NE	NE		ADA

5. Description of diverting works:
WELLS, 200 HP PUMP & 25 HP PUMP, DITCHES AND MAINLINES.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	03/15	11/15	2.940		1360.00

7. Total Quantity Appropriated is:
2.940 C.F.S. (and/or) 1360.00 A.F.A.

8. Total consumptive use is 1058.0 Acre Feet Per Annum.

9. Non-irrigation uses:

10. Place of Use:

Township	Range	Section	1/4 of	1/4	Lot	Use	Acres
01N	01W	19	NE	SW		IRR	25.0
			NW	SW		IRR	4.0
			SW	SW		IRR	9.0
			SE	SW		IRR	39.0

10. Place of Use: Continued

Township	Range	Section	1/4 of	1/4	Lot	Use	Acres
01N	01W	19	NE	SE		IRR	39.0
			NW	SE		IRR	39.7
			SW	SE		IRR	39.0

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

MICROFILMED

APR 2 1988

6: Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 3/15 to 11/15 amount 2.94 or 1360

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 2.94 (cfs) and/or (b) 1360 (acre feet)

8. Total consumptive use claimed is 1058 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) None

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

MICROFILMED
Copies of this document are available

AUG 24 1992

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

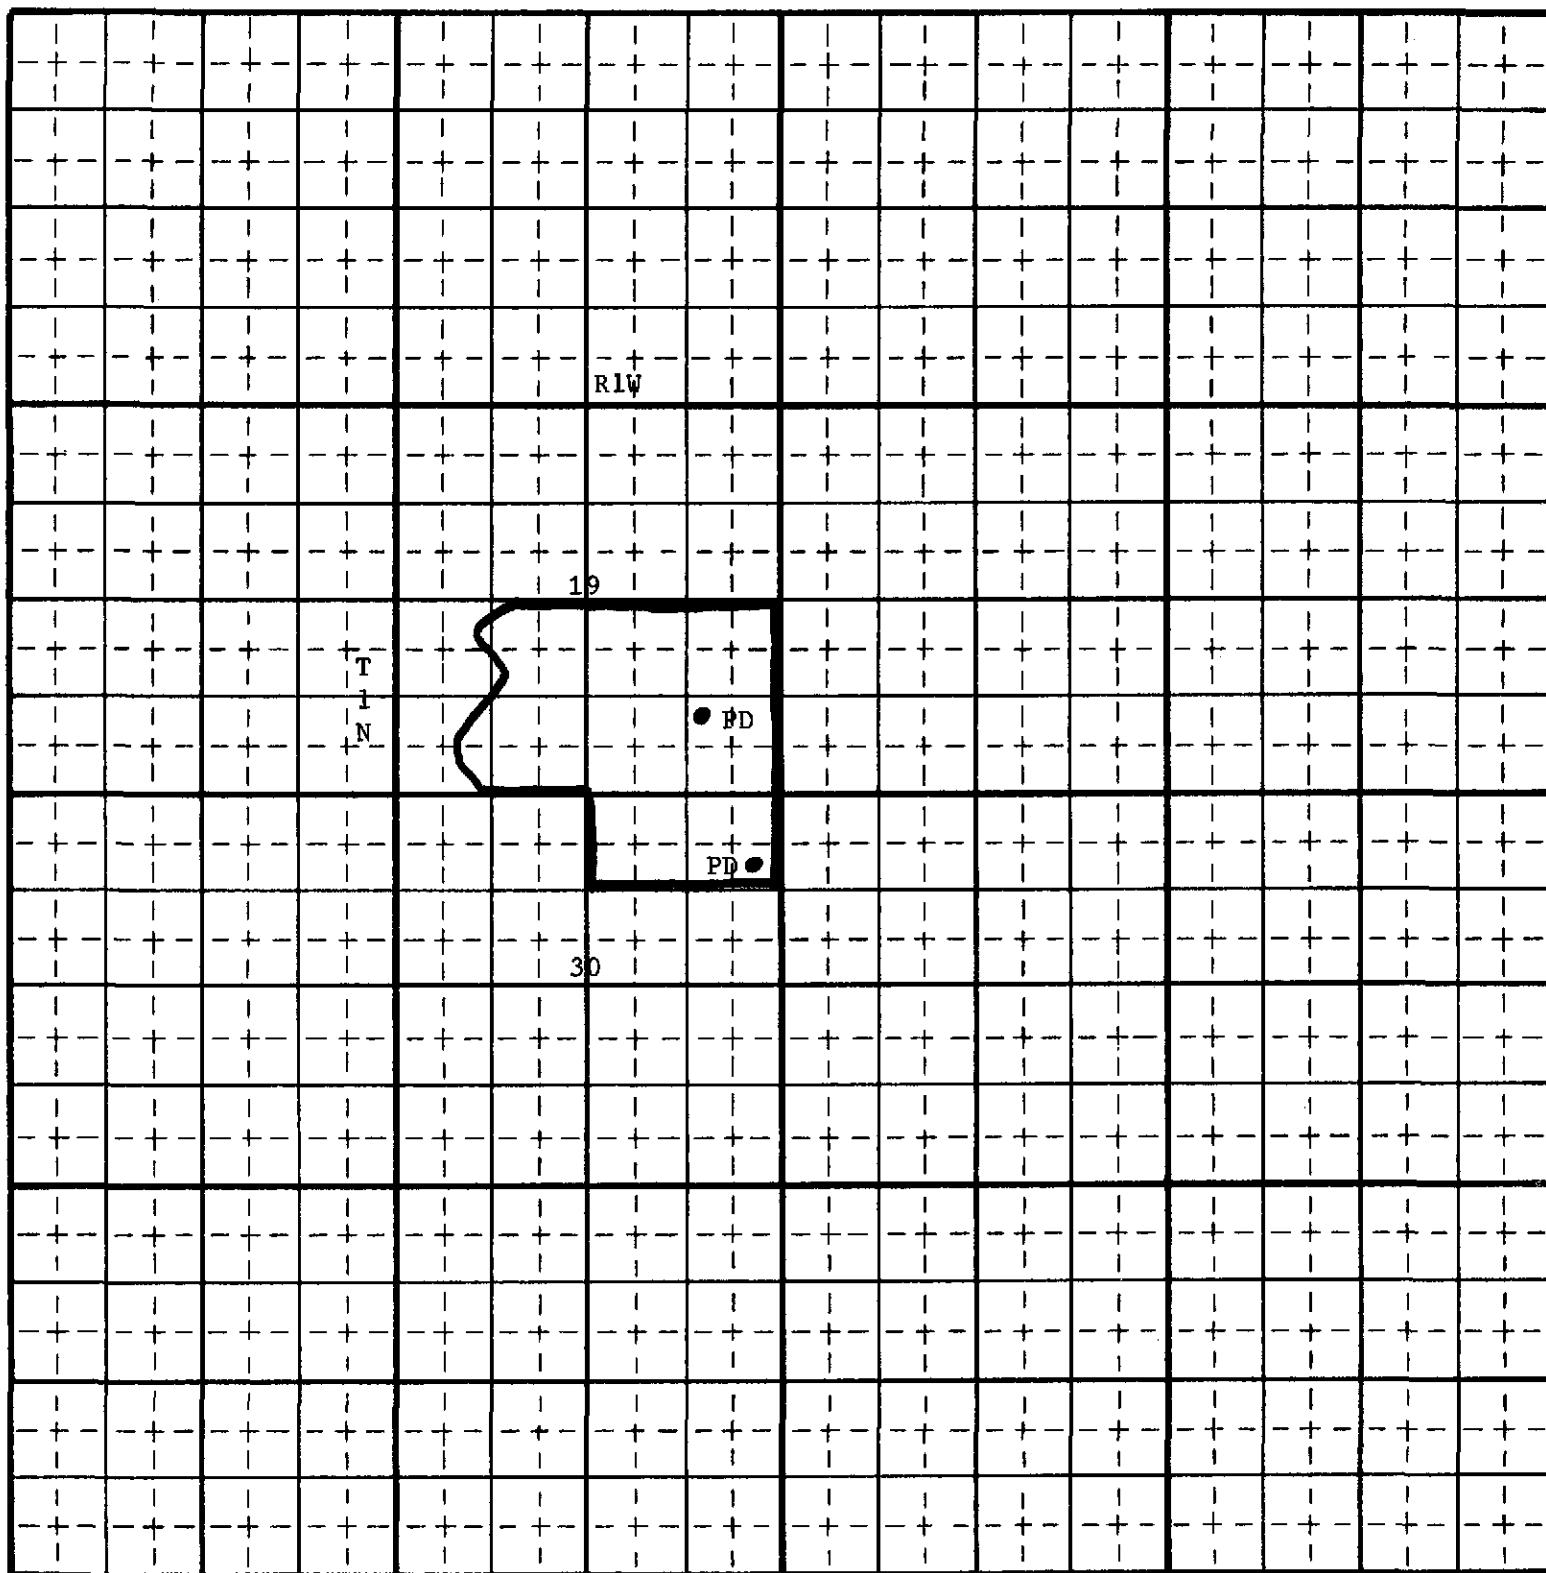

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

WATER RIGHT LICENSE

WATER RIGHT NO. 63-07897

Priority: November 13, 1973 Maximum Diversion Rate: 1.16 CFS
Maximum Diversion Volume:¹

This is to certify, that LLOYD D. NOE
JOAN NOE

RT. 1

MELBA, ID 83641

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 13, 1973; and has submitted Proof of Beneficial Use on November 9, 1979. An examination indicates that the works have a diversion capacity of 4.980 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	1.16 CFS	

LOCATION OF POINT(S) OF DIVERSION: NENE, Sec. 30, Township 01N, Range 01W
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

			SWSE 39	SESE 34.1		228.8
		30	NENE 34.4	NWNE 39		73.4

Total number of acres irrigated: 302.2

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with Right No. 63-3495 shall not irrigate more than 302.2 acres & shall not exceed 1359.9 af/yr. The rate of diversion & annual volume under this right shall be appurtenant to the place of use so that each

APPLICATION FOR EXTENSION OF TIME

State of Idaho)
County of Ada)

Permit No. 63-7897

Lloyd Noe of Route #1, Melba, Idaho 83641
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 63-7897.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before November 13, 1978.

That he has heretofore performed the following work described under said permit:
The acreage described under permit 63-7897 has essentially been developed.
Buried irrigation mainlines and lateral systems have been constructed to dis-
tribute the water and a single well equipped with a vertical turbine pump
provides the water supply.

Costing \$ 100,000

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: At the present time, the vertical turbine pump on the
well requires maintenance and several leaks have developed in the distribution
system which will require some maintenance before the system can be brought back
into condition suitable for examination. Because of the irrigation requirements
of the land involved, the applicant will be unable to complete this maintenance
prior to the end of the irrigation season. It is for this reason that the one year
extension of time is requested prior to examination for proof of beneficial use. It
is anticipated that the system will be ready for licensing at the beginning of the 79 irrig.
season. Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to November 2, 1979.

Lloyd Noe

post office address Route 1 Melba, Idaho
2. Source of water supply Underground (Well N-2) which is a tributary of _____
3. a. Location of point of diversion is N E $\frac{1}{4}$ of N E $\frac{1}{4}$ of Section 30 Township 1 N
Range 1 W B.M. Ada County; additional points of diversion if any: _____
(Well N-3) NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 19, TIN, RIW, and (Well N-1) SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 19
TIN, RIW
- b. If water is not consumed, it will be discharged into N/A at a point in _____ $\frac{1}{4}$
of _____ $\frac{1}{4}$ of Section _____ Township _____ Range _____ B.M. _____
4. Water will be used for the following purposes:
Amount 2.94 for Irrigation purpose from April 1 to October 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 2.94 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. One, Two, or Three deep wells
equipped with vertical turbine pumps and cement ditches and pipelines
to place of use.
- b. Height of storage dam N/A feet, active reservoir capacity _____ acre feet; total reservoir
capacity _____ acre feet, materials used in storage dam: _____
Period of year during which storage will occur _____ to _____ inclusive.
(Mo. Day) (Mo. Day)
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 5 years.
b. Estimated construction cost is \$ 35,000 not including sprinklers or pipelines.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: N/A $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M. _____
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____
(5) If water is to be used for other purposes describe: _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
1 N	1 W	19									35	10	15	40	40	40	40	40	260
1 N	1 W	30	38	40															78

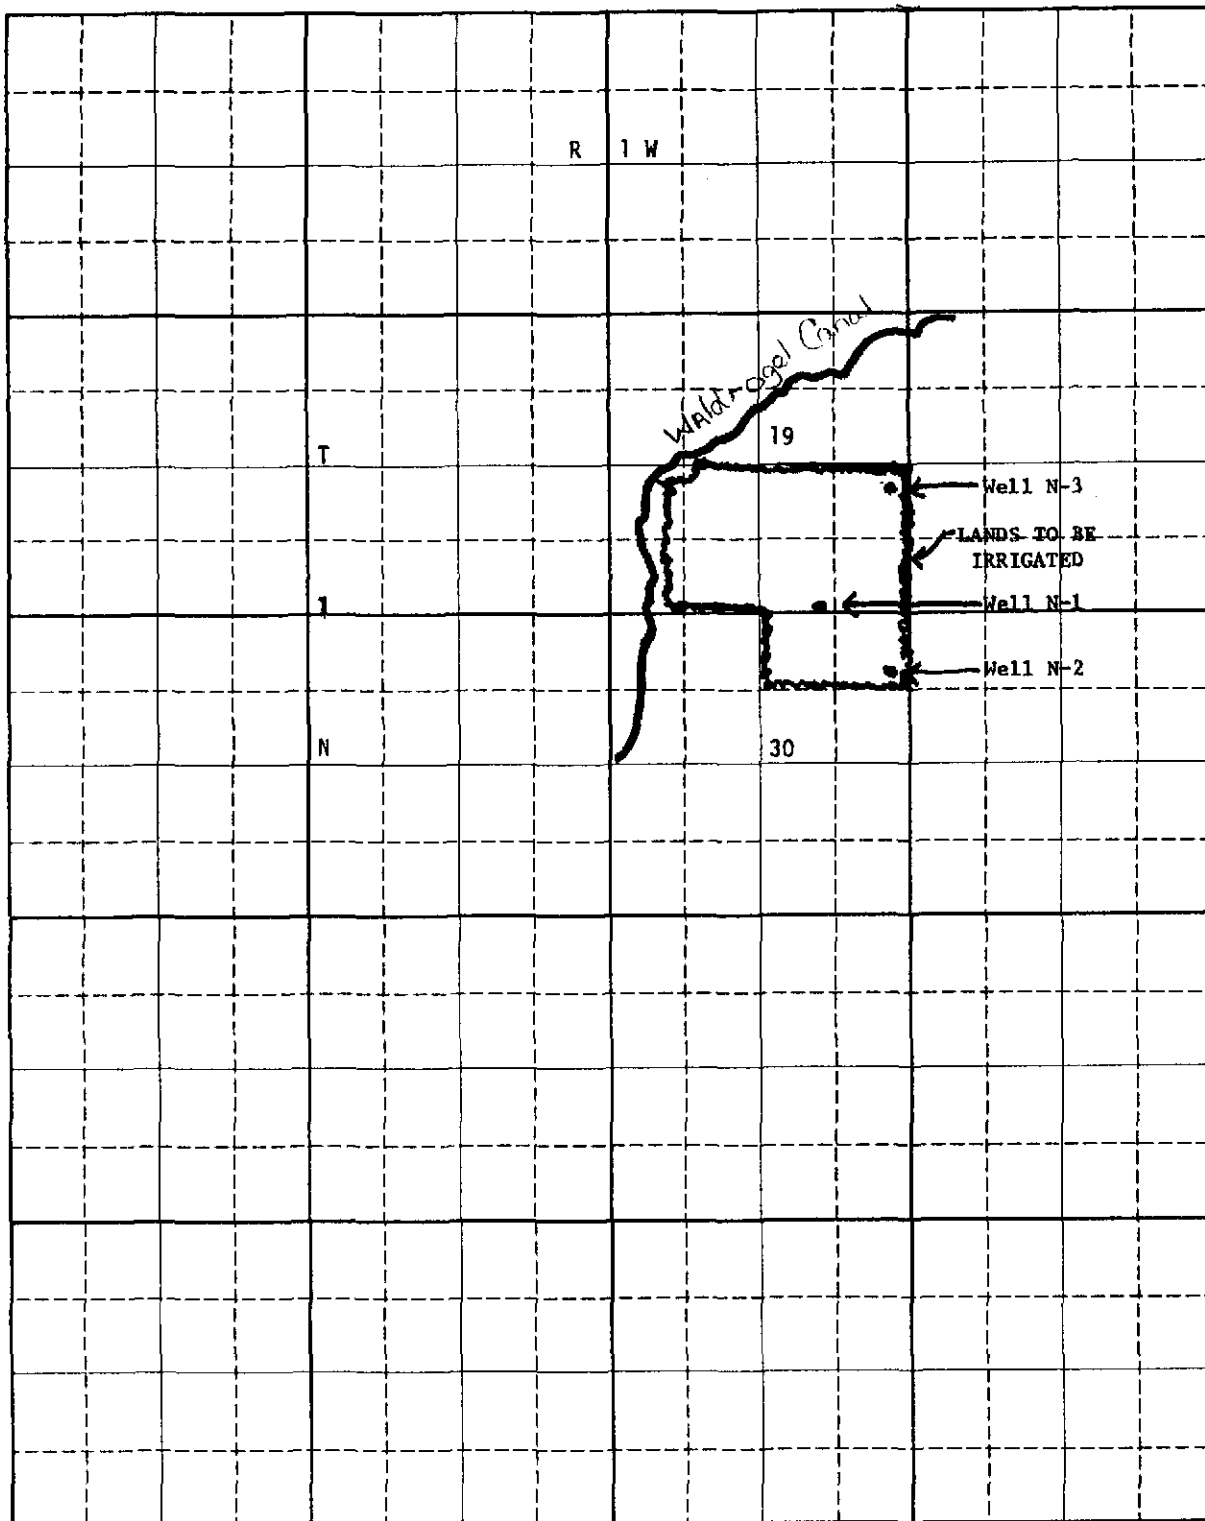

Total number of acres to be irrigated 338

c. Describe any other water rights used for the same purposes as described above. 63-3495 is to be licensed soon for 3.82 cfs and 280 of the 338 above listed acres.

9. a. Who owns the property at the point of diversion Applicant
 b. Who owns the land to be irrigated or place of use Applicant
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks There is now one well on the property (Well N-1). There has been problems with sand in the well and it does not produce all the water needs for the 280 acres it is to be licensed for. This application is to drill one or two new wells, slightly increase the acres irrigated, and establish a flow right up to one inch per acre.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER ADMINISTRATION

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-7897, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 78.

c. Other: A measuring device of a type approved by this department shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons: _____

Witness my hand this 13 day of December 19 73.

R. Kirk Higin
Director

POINT OF DIVERSION REVIEW

A63-03495 & A63-07897

There is some question as to whether or not the well in section 19 has been in continual use. The licensing field exam (06/21/1971) for 63-03495 found one well, located in s. 19, SWSE. On 12/13/1973 application 63-07897 was filed for additional water for the same acres as 63-03495 plus some additional acres. This application shows three points of diversion, including the well in s. 19. On 06/21/1976 the claimant filed Transfer No. 1986 on 63-03495 which moved the point of diversion from SWSE s. 19 to NENE s. 30. On 09/12/1986 the licensing exam for 63-07897 found two points of diversion (SESE s. 19 & NENE s. 30) but only the well in s. 30 was licensed.

The well in s. 19 is actually in SWSE, as originally licensed, but is very close to the line. If the field examiner assumed the N-S mainline was on the QQ line it would appear that the well is in the SESE. However, the mainline is west of the QQ line, and the well is actually in the SWSE, as licensed.

The field examiner for 63-07897 found the well in s. 19 with the motor intact and listed both wells as points of diversion, but measured only the well in s. 30 (the well in s. 19 had been previously measured for 63-03495). The exam description of the diversion system includes only the well in s. 30. The licensing analysis worked off the system capacity of this well (see IDWR memo of 03/05/1989). The owner did not object to the license at the time it was issued.

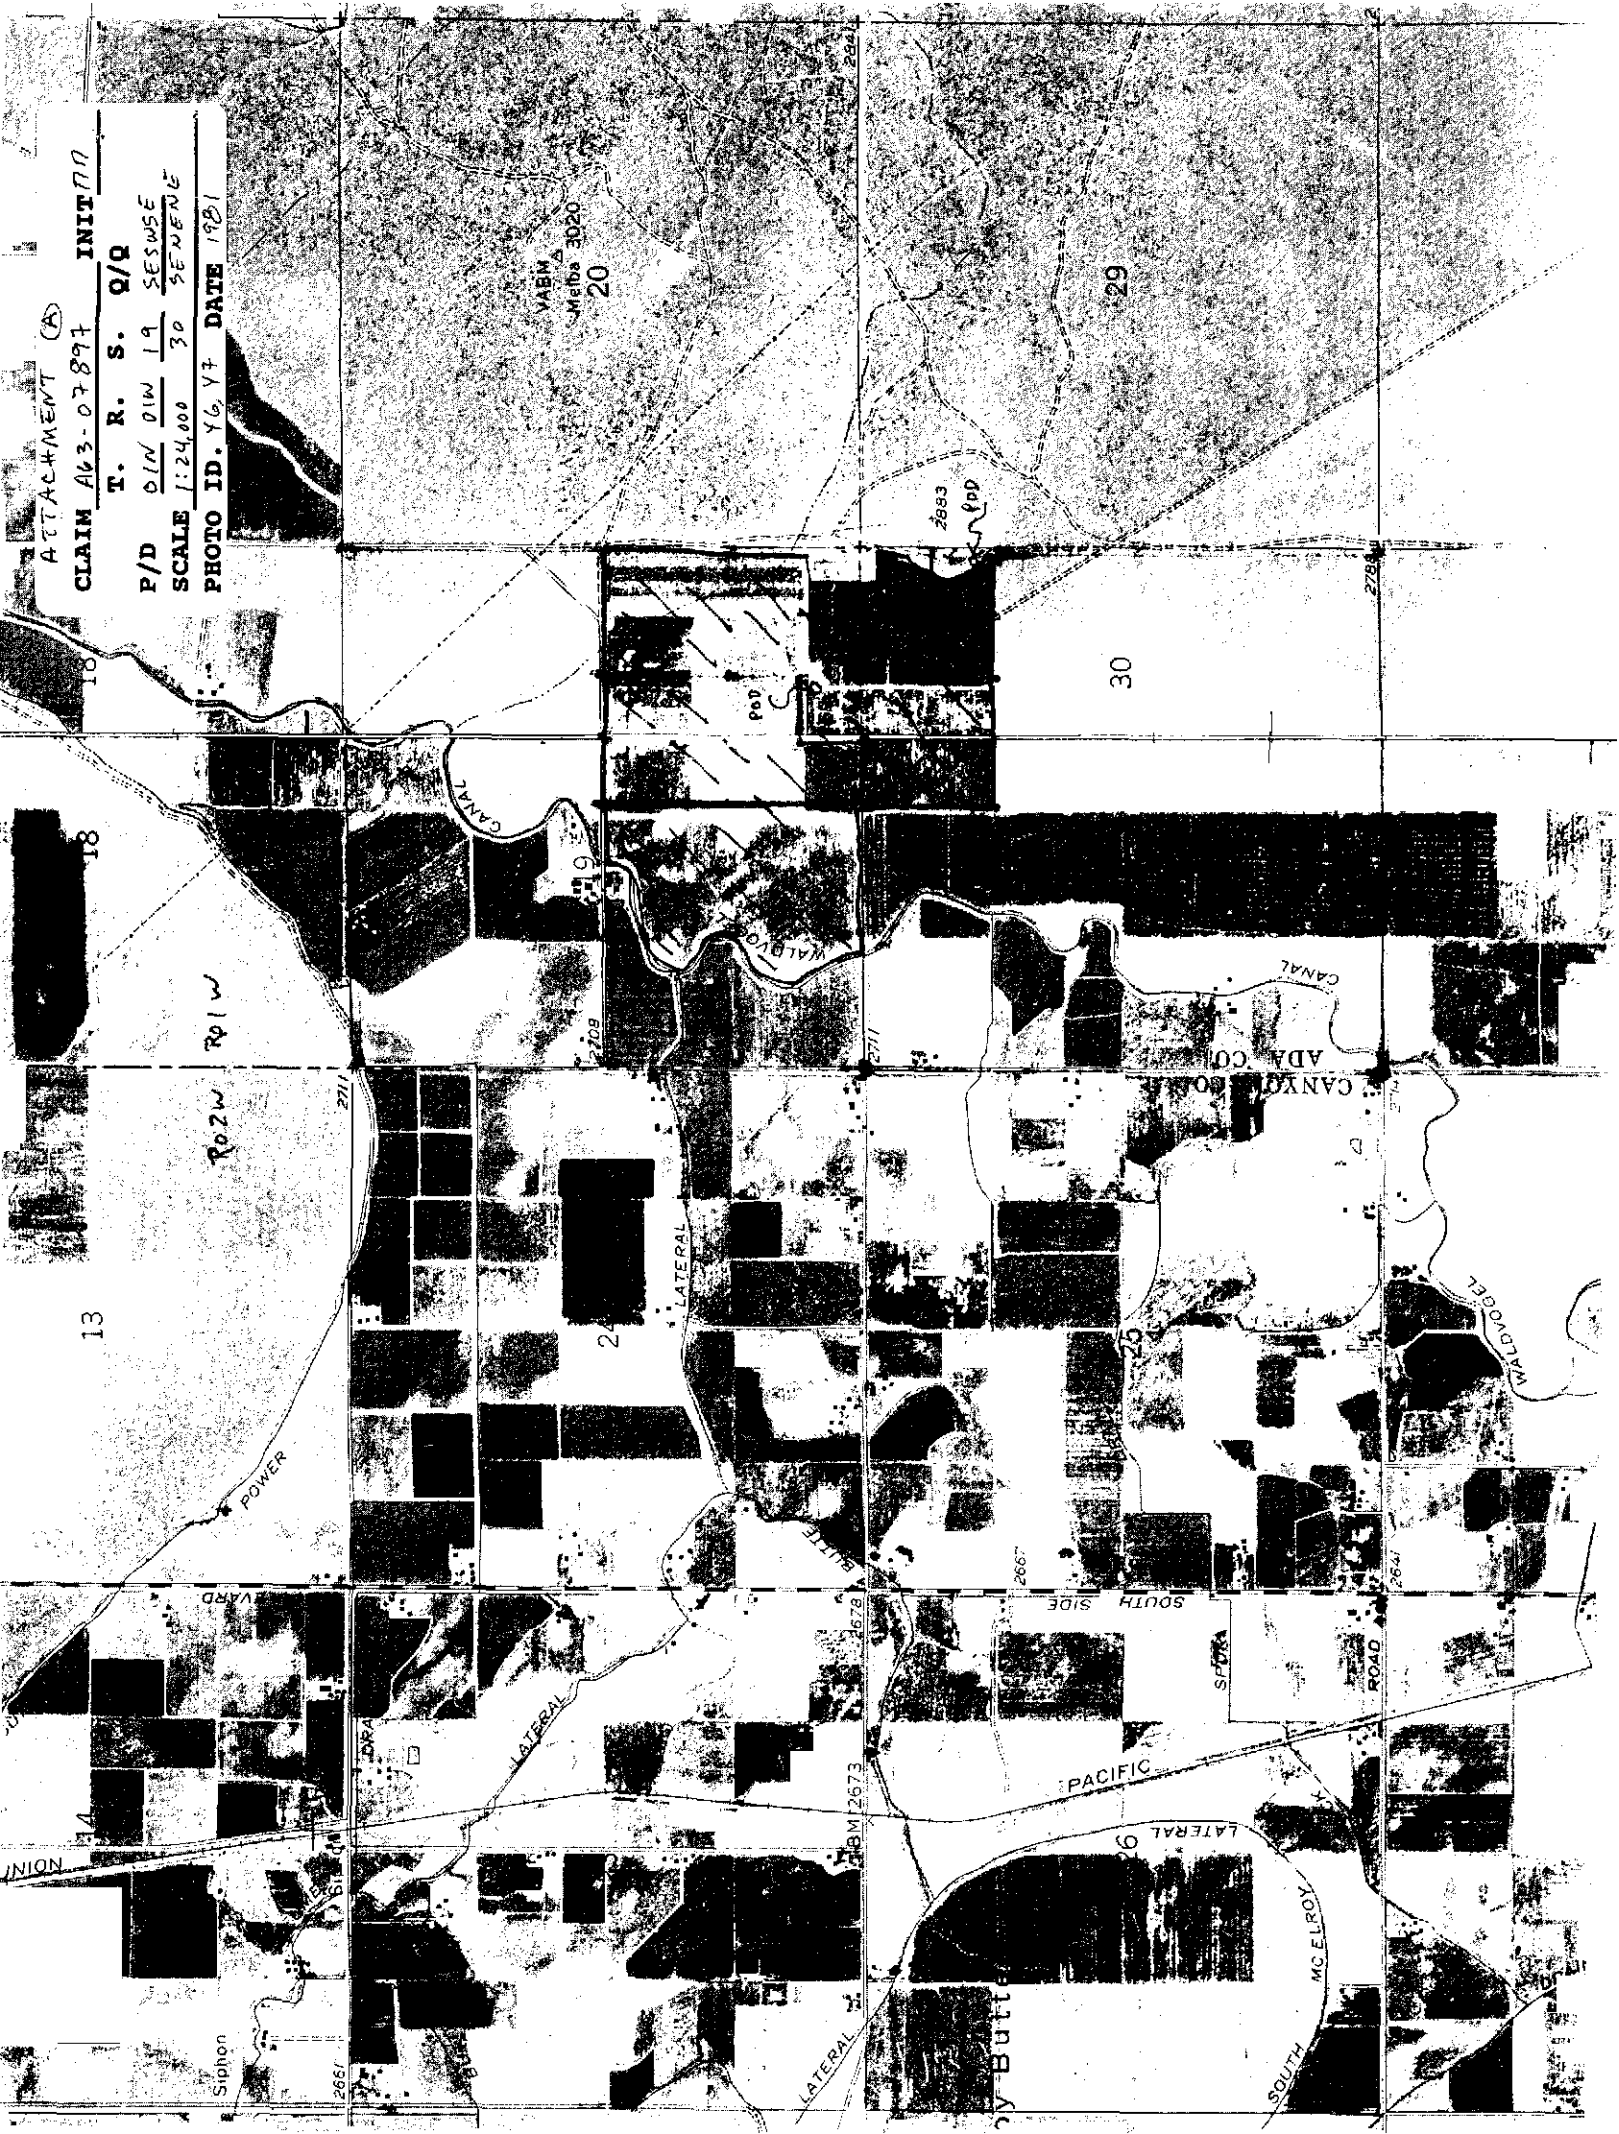

I discussed these issues with the claimant during my field exam. He indicated that he has consistently used both wells. It was his understanding that Transfer 1986 added a well to the system rather than replaced one with the other. He also indicated that the well in s. 19 has always had problems and has been down for repair.

According to IDWR records, the well in s. 19 is not a part of either water right. However, a field exam in 1986 found a motor in place on the well. The claimant indicates he has been using the well for both rights since 1979 (see Attachment F). It appears that the well was probably in use in 1986. The addition of the well in s. 19 to both of the water rights can be considered a transfer accomplished prior to commencement of the SRBA.

1b. CALCULATIONS

NOTES: 01/19/1996: See FURK memo dated 03/05/1989 for cfs / volume calculations & logic. The system capacity of the well in SWSE 5.19 was not considered because the previous license (63-03495) had been transferred to the well in NENE 5.30 (Trans. No. 1986, approved 06/12/1976). The well in 5.30 was listed as a point of diversion for 63-07897 but it was not included in the narrative of the system description. However the well in 5.19 was on the application (63-07897) and there was a notation the well when the cfs exam was conducted (09/12/1986). If one assumes that the presence of the motor indicates that the well was in fact in use, the cfs of this license ~~should~~ have been based on the ~~but~~ combined capacity of both wells. However only the well in 5.30 was considered and the water right owner did not object to the licensed cfs. See FURK corr. dated 09/08/1995 for add'l diversion issues. 727

WR RECORD CONDITIONS/REMARKS:

016 - See remarks for additional conditions of approval.
This right when combined with Right No. 63-3495 shall not irrigate more than 302.2 acres & shall not exceed 1359.9 af/yr.
The rate of diversion & annual volume under this right shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water when all rights appurtenant to the place of use from the same source are considered cumulatively.

MEMORANDUM

TO: FILE
FROM: JIM JOHNSON
RE: LICENSE OVERLAP REVIEW
DATE: 5-MAR-1989

IRRIGATION SYSTEM REVIEW

The well measured and in use at the time of the field exam is not the same well that was measured and in use when the examination was made for right 63-3495. Therefore the two measurements are not related.

Water from the well (N-2) measured under this permit is conveyed to the same sump box that was used under right 63-3495 but the well (N-1) under the right is no longer used.

A transfer application for right 63-3495 changed the point of diversion to well (N-2) currently in use.

Based upon statements made on the transfer application it can be assumed that all of the water diverted for irrigation of the lands identified under the two rights is being supplied by well N-2, even though the picture supplied with the field examination shows the original motor still in place at well N-1 site. For purposes of identifying system capacity the measurement (4.98cfs) made under this permit is the current capacity of the irrigation system.

PLACE OF USE OVERLAP REVIEW

Irrigation under this right is mostly the same acres irrigated under Rt. 63-3495. Only 34 acres presently irrigated are not covered by the existing right.

The diversion per acre is higher all the land shown under this permit because additional diversion capacity has been developed. Therefore all of the irrigated lands identified on the permit should be included on the license.

ATTACHMENT (C)

RATE AMOUNT ON LICENSE 63-7897

The amount of additional water appropriated is the amount diverted greater than the amount already licensed.

Right No. 63-3495 was issued for 3.82cfs.
Amount measured by examiner is 4.98cfs.
The amount of water appropriated is 4.98cfs - 3.82cfs = 1.16cfs

VOLUME AMOUNT ON LICENSE 63-7897

The volume needed for irrigation of 302.2 acres is 4.5 af/ac
X 302.2 acres = 1,359.9 acre feet/annum.

The existing license already has authorized the volume required for irrigation of 280 acres which is 1,260 acre feet/annum.

The field examiner reported that some 40 acre tracts were not irrigating the same number of acres that were licensed under Rt. 63-3495. The overlap review determined that 12.3 acres of the 280 acres licensed were not irrigated. At present, there is no provision for adjusting the existing license to show that only 22.2 acres irrigated is new.

There are two options to record the additional volume needed for the new acres.

1. Subtract the volume on Rt. 63-3495 from the total volume required for irrigation of 302.2 acres and record the amount on the license. i.e. 1,359.9 - 1260.0 = 99.9 acre feet

2. Use a condition on the license which, when the rights are combined, limits the volume diverted to a total of 1,359.9 acre feet/annum.

The disadvantage of using option 1. is that it uses the volume of the existing license which does not reflect presently irrigated acres.

Therefore, option 2. is recommended.

CONDITIONS OF LICENSE

In addition to the normal conditions of license the following should be included to reflect the relationship of the existing right.

This right when combined with Right 63-3495 shall not irrigate

more than 302.2 acres and shall not exceed 1359.9 acre feet per year.

<<R38>> The rate of diversion and annual volume under this right shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water when all rights appurtenant to the place of use from the same source are considered cumulatively.

		30	NENE 34.4	NWNE 39		73.4

Total number of acres irrigated: 302.2

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 47-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with Right No. 63-3495 shall not irrigate more than 302.2 acres & shall not exceed 1359.9 af/yr. The rate of diversion & annual volume under this right shall be appurtenant to the place of use so that each irrigated

RE: Notice of Claim to a Water Right No. A63-07897

Dear Mr. Noe:

A field exam conducted August 21, 1995, confirmed the use of the above-referenced water right claim. However, review of the claim shows that the rate of flow claimed is greater than the rate of flow which is licensed for that water right. Reports which summarize both the license (1.16 cfs) and the Snake River Basin Adjudication claim (2.94 cfs) are enclosed with this letter.

IDWR's recommendation to the court for this water right will be limited to the rate of flow as licensed. If you are diverting water in addition to the licensed rate of flow for either of your licenses, you must file an application for permit for the additional water. An application form and instructions are included with this letter.

If you do not file an application for permit, your rate of diversion will be limited to a total of 4.98 cfs, the combined amount of the two licenses. Any additional rate of flow will not have a valid water right.

If you are diverted additional water, please complete the enclosed application for permit and return it to this office with the appropriate fee. If you have any questions or need assistance, please do not hesitate to contact this office.

Sincerely,

Maria Minicucci

Sr. Water Agent, Adjudication Bureau

RESPONSE DATE: SEPT 5, 1995

RE: Notices of Claim to a Water Right Nos: A63-03495, A63-07897

Dear Mr. Noe:

Please read this letter carefully, as important information about your water rights is required by IDWR (Idaho Department of Water Resources).

IDWR's initial investigation of the Notices of Claims listed above indicates that there has been a change in the point of diversion as described below:

Previous point of diversion: Twp. 01N, Rge. 01W, s. 30 NE $\frac{1}{4}$ NE $\frac{1}{4}$
New points of diversion: Twp. 01N, Rge. 01W, s. 30 NE $\frac{1}{4}$ NE $\frac{1}{4}$ &
Twp. 01N, Rge. 01W, s. 19 SE $\frac{1}{4}$ SE $\frac{1}{4}$

According to IDWR records, water right no. 63-03495 was originally licensed with the point of diversion in Twp. 01N, Rge. 01W, s. 19 SW $\frac{1}{4}$ SE $\frac{1}{4}$. In June of 1976 Transfer No. 1986 was approved to move the point of diversion to s. 30 NE $\frac{1}{4}$ NE $\frac{1}{4}$. In June of 1986 the beneficial use exam for water right no. 63-07897 found the point of diversion for both water rights to be a well located in s. 30 NE $\frac{1}{4}$ NE $\frac{1}{4}$.

At this time IDWR has no record of an irrigation well located in Twp. 01N, Rge. 01W, s. 19 SE $\frac{1}{4}$ SE $\frac{1}{4}$.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA (Snake River Basin Adjudication) without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the change not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

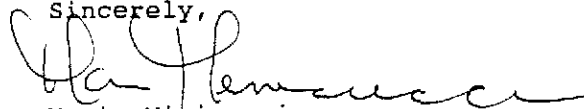

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. An information sheet is enclosed that describes the types of evidence that can be submitted for showing the date of the change.

Page 2.

Noe

Your response must be received by this office by the response date shown above. If no response is received, then your claim to water from the new point of diversion will not be recommended to be decreed.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Maria Minicucci', written in dark ink.
