ADJUDICATION MEMORANDUM

CLAIM NO.: A63-08055

SUBJECT: IDWR CORR

EMPLOYEE: TI MINICUCCI

DATE: 08/01/1995

Mrs. Higgins called regarding IDWR letter of 07/18/1995.
~~the~~ The use has changed to a domestic home. TIs.
Higgins was unclear as to the reasons for our
interest in their water right. I explained the SB SR&A
& IDWR's requirement to verify the changes to her
license. We discussed documentation of the change, and
she said she would get copies of receipts from installing
the Manufactured home for her son. I also asked her
about claiming more water for ~~irrigation~~ domestic & less
water for irrigation. This will require an amended claim.
We agreed that I would drop off ~~an~~ ^{the} amended claim form
when I came by to take pictures of the second home.
Mrs. Higgins indicated that not ~~all~~ all of the acres
are currently irrigated and that they wanted to
drill another well to fill their water right. We
discussed ~~forfeiture~~ five years of non-use and the
forfeiture issue. I forgot to mention that a transfer
would be required to add a point of diversion, but I
will mention that when I drop off the amended claim.
It is unknown how long 5 of the 10 (or 9) acres
have gone without irrigation. O.K. to stop by any time.
Amended claim on Host Temp.

RE: Notice of Claim to a Water Right No. A63-08055

Dear Claimants:

IDWR's initial investigation of the Notice of Claim listed above indicates that there has been a change in the purpose of use for a portion of the claimed water right, as described below:

Previous purposes of use:	Irrigation, 10 acres, .10 cfs
	Domestic, one household, .04 cfs
New purposes of use	Irrigation, 9 acres, .10 cfs
	Domestic, two households, .04 cfs

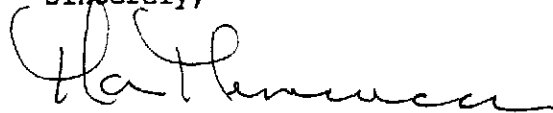

A water right holder who has made a change in use of a water right prior to commencement of the SRBA (Snake River Basin Adjudication) without obtaining IDWR approval may claim the change in the SRBA. IDWR may recommend the right as changed only if the change meets certain requirements. One of those requirements is that the change not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day, and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987. An information sheet is enclosed that describes the types of evidence that can be submitted for showing the date of change.

Your response must be received by this office by the response date shown above. If no response is received, then the new purposes of use listed above (and the amount of water for those purposes of use) will not be recommended to be decreed.

If you have any questions or need additional information, please contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read 'M. Minicucci', written in dark ink.

Comments:

1. csaxton 8/11/2004 Address

Comment: The recommended POU has been split into two parcels. The parcel owned by the claimant has the correct address, but the other parcel has a different one. A change in ownership should be filed which will change the address.

2. csaxton 8/11/2004 Purpose of Use

Comment: Licensed for one home but claimed two. Maria Minicucci requested evidence that the second home was built prior to 1987. No evidence was received. Recommend 1 home. Note that the domestic portion of this license was for 0.04 cfs which is enough water for two households considering it is used only for internal use as the irrigation portion of the license would cover the lawns. 1987 photography does not show signs of two homes.

3. csaxton 8/11/2004 POU

Comment: Claimant under-claimed license by one acre. Originally licensed for 10 acres but claimed only 9. However, actual POU is only 9 acres and the licensed diversion rate was for ½ inch per acre. By reducing the recommended acreage, the recommended diversion rate per acre is increased. No loss of diversion rate.

NARRATIVE/REMARKS/COMMENTS

Claimed for two homes but licensed for 1, Maria Minicci requested Evidence that second house was put in prior to 1987. No Evidence was received. Rec 1 home. 0.04 for dam is good for two homes anyway considering the portion of the license covers lawn irrigation and since the new home is just domestic from a well, no WR needed anyway. Two add a 2nd home a TR would need to be filed.

POU: Claimant underclaimed License, But actual POU is only 9 acres as claimed. Plus diversion Rate licensed at 1/2 ind per acre. So by rec 9 acres, diversion rate per acre is increased.
